RE: Project #08-086 - Springfield Nursing and Rehabilitation Center

Dear Mr. Gutnicki:

Abe this letter is a follow-up to our phone conversation. I had previously sent you an email containing much the same information and I want to make sure that we are on the same page.

We are requiring you to submit a new application for permit for this project because we believe you have invalidated the permit for #08-086. You stated you would like to be on the December agenda if the new CON application is filed in time. You said Foley will handle that.

I also want you to realize that you have violated our rules and your project (Project #08-086) will be forwarded to compliance for referral to our legal department for a possible fine. You will then be dealing with Alexis Kendrick and her staff and negotiation will commence. I also stated that we will allow you to complete the project but you will not be able to be licensed until the new application is approved and all matters are resolved with the board.

Please stay on top of this so not to have a delay in licensure or with the board. If this does not meet with your understanding please call me at 217-782-3516.

Thanks Abe. Be careful have a good weekend.

Sincerely,

Mike

Mike Constantino
