Re: Letter of Support for Schaumburg Surgery Center CON (Project 16-007)

Dear Board Members:

We are currently serving as the athletic directors for the boys and girls sports at Buffalo Grove High School and oversee all the athletic activities for our students. Each year, young athletes at our school experience several sports-related injuries. Barrington Orthopedic Specialists' doctors work closely with our sports programs and are always present during football games, making sure that our young athletes are training properly, thus reducing the number of injuries, and helping with immediate treatment and developing a plan for recovery when an injury does occur. The doctors who volunteer their time make a big difference and we are truly grateful for the relationship we have with Barrington Orthopedic Specialists.

We are writing to express our support for the certificate of need (CON) permit application submitted by Schaumburg Surgery Center (SSC), which will be owned and operated by doctors from Barrington Orthopedic Specialists. We ask the members of the Illinois Health Facilities and Services Review Board to vote in favor of this project. Your affirmative vote will allow SSC to establish a multi-specialty ambulatory surgical treatment center (ASTC) that can treat our young, injured athletes in a convenient outpatient setting. If you approve this project, our injured athletes will be able to avoid surgical care at the hospital. Therefore, the proposed ASTC will enhance access to healthcare services for this particular group of young patients.

We kindly request your approve for this application. We believe the project is both necessary and in the best interest of our community. Thank you for your consideration.

Sincerely,

Kip North

Re: Letter of Support for Schaumburg Surgery Center CON (Project 16-007)

Dear Board Members:

I am currently serving as the assistant athletic trainer at Schaumburg High School. I provide preventative, immediate, follow up, and rehabilitative care for all of the student-athletes of the school. Our school currently enrolls around 2.385 students. Each year, young athletes at my school experience several sports-related injuries. Barrington Orthopedic Specialists' doctors work closely with our sports programs and are always present during football games, making sure that our young athletes are training properly, thus reducing the number of injuries, and helping with immediate treatment and developing a plan for recovery when an injury does occur. The doctors who volunteer their time make a big difference and we are truly grateful for the relationship we have with Barrington Orthopedic Specialists.

Re: Letter of Support for Schaumburg Surgery Center CON (Project 16-007)

Dear Board Members:

I am currently serving as the assistant athletic trainer at Hoffman Estates High School. I provide preventative, immediate, follow up, and rehabilitative care for all of the student-athletes of the school. Our school currently enrolls around 1,900 students. Each year, young athletes at my school experience several sports-related injuries. Barrington Orthopedic Specialists' doctors work closely with our sports programs and are always present during football games, making sure that our young athletes are training properly, thus reducing the number of injuries, and helping with immediate treatment and developing a plan for recovery when an injury does occur.
