Dear,

Illinois Health facilities and Services review Board, I'am writing this letter to see ir we can help the decision to build a Dialysis Clinic much closer to home. which can help many of us who live in the east Side of Aurora get their faster. NOt only can we get their faster we wont have to struggle to find a rice to and from the Clinic. It can help save us money by walking or even taking the bus to the clinic. which is more efficent than paying a rice 3 times a week. It will also help us get our treatment faster more efficent and cleaner so the staff wont be in such a rush trying to keep up with schual which can provide us with a cleaner and safer enviroment. It will also help the city by creating more jobs and open the enviroment to other facilites to come and join us And make Aurora good again.

I, Ramon Ruiz, am writing this letter to show my support for the new clinic being purchased. I would love having this clinic closer to home because it would help me transportation wise in not having to drive as far from home as I would normally drive in all weather conditions

This letter is to inform that I will like to be transfer as a patient to the new facility of Fresenius.

This new facility will be at Farnsworth Ave in Aurora, Ill. It will be very close to me, traveling time. As long as I remain with my super Dr. Dondia, it will be ok.

Hoping that the services will be as good or better than the one I am receiving now.

Thank you very much.

Sincerely,
Carmen M. Arroyo
