Re: Projected Utilization Assurance

Dear Chair Olson:

In determining the space required for general x-ray procedures, Carle assessed its historical utilization for the last three years and expects at least 14,074 x-ray procedures in the second full fiscal year of operation. Carle Foundation Hospital attests that these estimates were made in reliance on current trends in utilization for the services currently provided by Carle and they are made in good faith as we believe these trends will continue.

Sincerely,

Stephanie Beever
The Carle Foundation
