Illinois Department Of Veterans' Affairs

Who we are and what we can do for you

Mission

The mission of the Illinois Department of Veterans' Affairs (IDVA) is to empower veterans and their families to thrive. We do this by placing them and their families at the center of our efforts to connect them with their earned benefits through long-term health care, education, housing, employment, and other services across the state.

Vision

As the Nation's leader in veteran services, Illinois is the destination of choice for veterans and their families.

Guiding Principles

Courtesy, Accountability, Respect and Excellence

Introduction

As an Illinois veteran, you have earned benefits and services designed to support your education, career, and health care aspirations from the federal government and the state of Illinois. Each veteran has a unique background and situation qualifying him/her for a wide range of benefits.

The Illinois Department of Veterans' Affairs (IDVA) is your vehicle for uncovering and obtaining the benefits and services that apply to you. With Veterans Service Officers across the state, we work with each veteran to discuss his/her personal, family, and health circumstances and identify which services and benefits will work for you.

How is IDVA different from the United States Department of Veterans Affairs?

There is often confusion over the difference between the United States Department of Veterans Affairs (VA) and the Illinois Department of Veterans' Affairs (IDVA).

- The IDVA is here as your local advocate to ensure you obtain your earned benefits at the federal and state level.
- While we don't dispense federal benefits, we help you identify and apply for these benefits. We also locate the Illinois benefits you have earned.
- We help you navigate both systems, so the process is less cumbersome and that you don't miss out on opportunities that are available to you.
- The IDVA also offers five veterans' homes across the state for those seeking residential care. The VA Healthcare System is ran by the federal government, but our Veterans Service Officer have resources to help you find the right place for you.

For more information, we encourage you to visit our website at: <https://www2.illinois.gov/veterans> or call: **1-800-437-9824 to reach a Veterans Service Officer** to discuss your needs and uncover the possibilities that will open doors for you, your family, and your future.
