**CHICAGO** – September was the nineteenth month in a row that unemployment rates fell in every metro area while eight metro areas across the state saw job loss compared to a year ago, according to preliminary data released today by the Illinois Department of Employment Security (IDES) and the U.S. Bureau of Labor Statistics (BLS). Not seasonally adjusted data compares September 2015 with September 2014.

Illinois businesses lost jobs in eight metro areas including the Quad Cities (-2.3 percent, -4,200), Carbondale-Marion (-2.0 percent, -1,100), Peoria (-0.8 percent, -1,500), and Decatur (-0.8 percent, -400). Illinois businesses added jobs in six metros, in which the largest increases were seen in: Champaign-Urbana (+1.7 percent, +1,900), Danville (+1.4 percent, +400), Elgin (+1.2 percent, +3,000), and Chicago-Naperville-Arlington Heights Metro Division (+0.9 percent or +34,200). The industry sectors recording job growth in the majority of metros were: Transportation, Warehousing and Public Utilities (11 of 14), Retail Trade (eight of 14), and Leisure and Hospitality (eight of 14).

“Illinois unemployment data since January have shown very weak employment growth compared to many other states,” IDES Director Jeff Mays said. “Sub-state data paint an even bleaker picture for areas outside of the Chicago area that have lost a net 10,000 jobs over the past year. Additionally, our internal unemployment insurance claims data indicate the likelihood of labor market softening in the coming months.”

The not seasonally adjusted Illinois rate was 5.1 percent in September 2015 and stood at 12.2 percent at its peak in this economic cycle in January 2010. Rates fell in 100 of Illinois’ 102 counties. Nationally, the not seasonally adjusted unemployment rate was 4.9 percent in September and 10.6 percent in January 2010 at its peak. The unemployment rate identifies those who are out of work and looking for work, and is not tied to collecting unemployment insurance benefits.

**Pontiac Area:** The not seasonally adjusted unemployment rate declined to 4.8 percent in September 2015 from 5.4 percent in September 2014. The last time the September rate was equal to or lower was in 2007 when it was 4.3 percent. Over the year, nonfarm payroll employment was unchanged. Manufacturing (+150) increased while Trade, Transportation and Utilities (-50) and Leisure-Hospitality (-50) had declines.

**Note:**

Monthly 2014 unemployment rates and total non-farm jobs for Illinois metro areas were revised in February 2015, as required by the U.S. Dept. of Labor, Bureau of Labor Statistics (BLS). Comments and tables distributed for prior metro area news releases should be discarded as any records or historical analysis previously cited may no longer be valid.

### Help Wanted

Area employers advertised for 10,400 positions in September and approximately 85 percent sought full-time employment, according to Help Wanted OnLine data compiled by the Conference Board, which is a global, independent business membership and research association. Employers actually need more workers than the help wanted advertising indicates because some industries, such as Construction, typically do not post advertised job openings.

**Bloomington MSA:** The not seasonally adjusted unemployment rate declined to 4.3 percent in September 2015 from 5.0 percent in September 2014. There were an estimated 4,300 unemployed people in the labor force in September 2015. The last time the September rate was equal to or lower was in 2007 when it was 3.9 percent.

Over the year, nonfarm payroll employment increased by (+700). Job gains were reported in Retail Trade (+800), Professional and Business Services (+600), Leisure and Hospitality (+100), and Educational and Health Services (+100). Construction (-400), Government (-300) and Manufacturing (-200) reported declines. All other major industry sectors were relatively stable compared to a year ago.

**Peoria MSA:** The not seasonally adjusted unemployment rate declined to 5.7 percent in September 2015 from 6.2 percent in September 2014. There were an estimated 10,600 unemployed people in the labor force in September 2015. The last time the September rate was equal to or lower was in 2008 when it was 5.4 percent.

Nonfarm payroll employment declined by (-1,500) compared to September 2014. Job gains were reported in Leisure and Hospitality (+1,800), Educational and Health Services (+400), Wholesale Trade (+100), and Transportation and Warehousing (+100). Declines were led by Professional and Business Services (-1,500), Manufacturing (-1,100), Retail Trade (-700), Construction (-300), and Government (-200).

**Ottawa-Streator Area:** The not seasonally adjusted unemployment rate fell to 5.9 percent in September 2015 from 6.9 percent in September 2014. The last time the September rate was equal to or lower was in 2007 when it was 5.1 percent. Nonfarm payrolls increased (+50) from a year ago. The largest gains occurred in Financial Activities (+125) and Leisure-Hospitality (+75). The Construction (-100) and Manufacturing (-75) sectors had the largest declines.

**Galesburg Area:** The not seasonally adjusted unemployment rate declined to 5.3 percent in September 2015 from 6.2 percent in September 2014. Nonfarm payroll employment was (-100) lower than last year. Professional/Business Services (+50) and Manufacturing (+50) added jobs. Losses were reported in Other Services (-75), and -25 in each Finance, Information, Transportation-warehousing, and Construction.
