## Unemployment Rates Increase in All Metro Areas

*First time in six years unemployment rate up in every county*

### Not Seasonally Adjusted Unemployment Rates

Metropolitan Area	April 2016	April 2015	Over-the-Year Change
Bloomington	5.4%	3.9%	1.5
Carbondale-Marion	6.3%	5.0%	1.3
Champaign-Urbana	5.3%	4.2%	1.1
Chicago-Naperville-Arlington Heights	6.3%	5.7%	0.6
Danville	7.5%	6.0%	1.5
Davenport-Moline-Rock Island, IA-IL	5.8%	5.0%	0.8
Decatur	7.1%	5.9%	1.2
Elgin	5.8%	4.9%	0.9
Kankakee	6.8%	5.9%	0.9
Lake-Kenosha, IL-WI	5.4%	4.7%	0.7
Peoria	6.9%	5.3%	1.6
Rockford	6.9%	6.0%	0.9
Springfield	5.1%	4.4%	0.7
St. Louis (IL-Section)	6.1%	5.1%	1.0
Illinois Statewide	6.2%	5.4%	0.8

*\* Data subject to revision.*

**CHICAGO**—All metropolitan areas in Illinois experienced over-the-year unemployment rate increases for the third consecutive month, according to preliminary data released today by the U.S. Bureau of Labor Statistics (BLS) and the Illinois Department of Employment Security (IDES).

“Illinois is tied for the highest unemployment rate in the nation, even though in prior months, some areas have experienced relatively low unemployment rates,” said IDES Director Jeff Mays. “This is the first time since January 2010 that every county has had over-the-year increases in their unemployment rate. This is significant in helping to determine true economic conditions across all regions of the state.”

Illinois businesses added jobs in eight metros, in which the largest increases were seen in: Lake-Kenosha (+3.1 percent, +12,200), Rockford (+2.2 percent, +3,300), and Springfield (+1.5, +1,700). Total nonfarm jobs in the Chicago-Naperville-Arlington Heights Metro Division increased (+1.5 percent or +55,000). Illinois businesses lost jobs in six metro areas including Bloomington (-2.7 percent, -2,600), Carbondale-Marion (-1.7

percent, -1,000), and the Quad Cities (-1.6 percent, -2,900). The industry sectors recording job growth in the majority of metros were: Education and Health Services (11 of 14), Retail Trade (10 of 14), Transportation, Warehousing, and Utilities (eight of 14), Leisure and Hospitality (eight of 14), Other Services (eight of 14), and Government (eight of 14).

Not seasonally adjusted data compares April 2016 with April 2015. The not seasonally adjusted Illinois rate was 6.2 percent in April 2016 and stood at 12.2 percent at its peak in this economic cycle in January 2010. Nationally, the not seasonally adjusted unemployment rate was 4.7 percent in April 2016 and 10.6 percent in January 2010 at its peak. The unemployment rate identifies those who are out of work and looking for work, and is not tied to collecting unemployment insurance benefits.

### Total Nonfarm Jobs (Not Seasonally Adjusted) – April 2016

Metropolitan Area	April 2016*	April 2015**	Over-the-Year Change
Bloomington MSA	94,300	96,900	-2,600
Carbondale-Marion MSA	58,000	59,000	-1,000
Champaign-Urbana MSA	111,700	110,800	900
Chicago-Naperville-Arlington Heights Metro Division	3,677,800	3,622,800	55,000
Danville MSA	29,600	29,400	200

Washington County	3.9%	3.4%	0.5
Wayne County	8.7%	6.7%	2.0

**South Central Illinois Highlights**

Unemployment increased throughout South Central Illinois when compared with one year ago. Stable labor market conditions prevailed in the first four months of 2016. The data is not seasonally adjusted.

Over the year, employment gains were reported in Retail Trade and Health Services in South Central Illinois. Employment in Transportation continued to increase. Payroll advances also occurred in Manufacturing and Professional and Business Services. Seasonal employment expansions occurred in Construction and Leisure-Hospitality. Mining, Information, and Government employment steadily declined during the past year.

Employment opportunities were advertised in Transportation, Health Care, and Sales in the spring of 2016. Job openings also were reported in Office and Administrative Support, Management, Food Preparation, and Production occupations. Workers were needed in Computer Services, Engineering, Finance, and Installation, Maintenance, and Repair. Ground Maintenance workers were also in demand.

The unemployment rate identifies those who are out of work and seeking employment. A person who exhausts benefits, or is ineligible, still will be reflected in the unemployment rate if they actively seek work.

**Note:**

- Monthly 2015 unemployment rates and total non-farm jobs for Illinois metro areas were revised in February and March 2016, as required by the U.S. Dept. of Labor, Bureau of Labor Statistics (BLS). Comments and tables distributed for prior metro area news releases should be discarded as any records or historical analysis previously cited may no longer be valid.
