Illinois Department of Veterans Affairs Responds to Passing of the Stop Gap Budget

(Springfield, IL)... With the passing of SB 2047, the Illinois Department of Veterans' Affairs has the ability to continue to serve Illinois veterans with the utmost care and fund operations at the four Veterans' Homes geographically spread across the state.

"We thank the General Assembly for working with the Governor to pass SB 2047. While this is not a permanent solution, it will allow us to serve our veterans – ensuring that they get the benefits and care they have earned," said IDVA Director Erica Jeffries.

Besides being able to fund the Veterans' Homes, which currently house just over 900 veterans statewide, this bill allows the IDVA to resume the construction of a new 200 bed Veterans' home facility in north Chicago. This project has been on hold for the past 12 months.

Many other services that are offered to our Illinois heroes will be restored through this year, including funds for cartage and erection of Veterans' headstones, the Troops to Teachers program and bonus payments to veterans and/or their families.

###

The Illinois Department of Veterans' Affairs, a state agency is dedicated to empowering veterans, as well as their dependents and survivors, to thrive. We do this by helping veterans navigate the complex veteran support system and assisting them in obtaining benefits; by providing long term health care for eligible veterans at our four Veterans' Homes; and by working with other government agencies and non-profits to help veterans address education, mental health, housing, employment, and other challenges.
