Illinois Department of Veterans Affairs Asks for Nominations of Veteran & Business of the Year

(Springfield, IL)...The Illinois Department of Veterans' Affairs is asking for nominations for the Illinois Veterans' Patriotic Volunteer and Appreciation Award and the Illinois Veterans' Business Appreciation Award.

"These awards highlight the wonderful work being done for our veterans," said IDVA Director Erica Jeffries. "The Veteran Patriotic award honors the work of an Illinois Veteran whose contributions in Service to the Veteran community and their local communities are truly above and beyond. The Illinois Veterans' Business Appreciation Award highlights and honors the work of any business, organization or a non-profit that has significantly helped veterans, and whose contributions to those who have served our country are documented and deserve to be recognized."

Award recipients are those whose efforts add to the powerful narrative that veterans are dedicated, life-long servants whose efforts benefit Illinois' veteran communities. The Business Appreciation award is designed to highlight and honor those businesses or organizations that go above and beyond the regular call of service to support our veterans.

The nomination deadline is July 29, 2016. For more information on both of these awards and a nomination form go to <http://go.usa.gov/chEmV>.

The Veteran Volunteer of the Year and the Illinois Business Appreciation Award will be announced and presented on Veterans Day at the Illinois State Fair, August 14, 2016.

###

The Illinois Department of Veterans' Affairs, a state agency is dedicated to empowering veterans, as well as their dependents and survivors, to thrive. We do this by helping veterans navigate the complex veteran support system and assisting them in obtaining benefits; by providing long term health care for eligible veterans at our four Veterans' Homes; and by working with other government agencies and non-profits to help veterans address education, mental health, housing, employment, and other challenges.
