

Civil War **TECH** *Science Adventures in History*

10 a.m. - 11 a.m.
at the
**Abraham Lincoln
Presidential Library**

December 5 Railroads

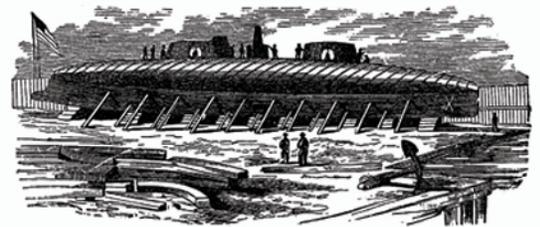

Instead of carrying supplies and ammunition, Civil War soldiers could ride the rails. After building cities, factories, and railroad lines, students will complete challenges to see whose railroad functions the best.

Ages 8-12. Reservations recommended - FREE!

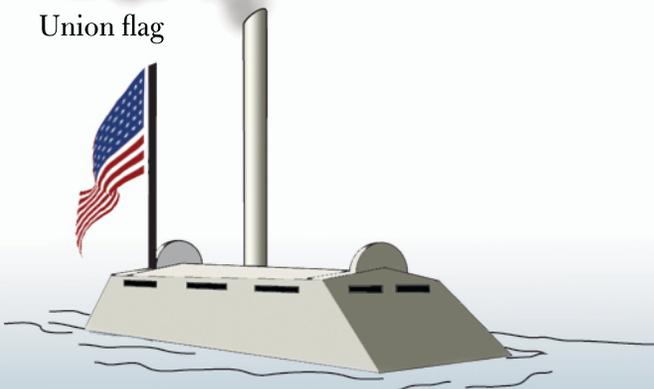

January 9 Submarines

Under the pressure of an indestructible blockade, the Confederacy turned to Captain Horace Hunley's hand-cranked submarine. Can you create a waterproof submersible?

Ages 8-12. Reservations recommended - FREE!

Union flag

Confederate ironclad

February 6 Ironclads

The Union and the Confederacy raced to build Ironclad ships with metal armor that offered better protection than wooden ships. Build your own “ships” and put them to the test!

Ages 8-12. Reservations recommended - FREE!

Civil War Tech is a monthly program series presented by the Abraham Lincoln Presidential Library and Museum thanks to generous support from AT&T.
