

Science Lab Building Southern Illinois University – Edwardsville

CDB Project No. 825-030-067

CDB Project Manager: Terry Phelan

It is a \$81.8 million project to be built on the SIU-E campus. This is a new building that will be connected to the existing Science Building by a covered walkway. Also included in this work is the renovation of the existing Science Building.

The Science Lab Building will house laboratories and offices of several university departments.

The facility is expected to be certified as LEED Silver and will include:

Bike Storage & Changing Rooms

Water Efficient Landscaping (no irrigation)

Divert 75% of Construction Waste from Landfills

10% of Materials Purchased will be Local/Regional Materials

Low VOC in Paint, Carpet, Adhesives & Sealants

Cool Roof
