Date First Offered: 11/20/2015
 Status: Published

Overview

Description and Specifications:

The Office of the Chief Procurement Officer for the Capital Development Board will hold a public hearing to hear testimony and receive comments on the proposed extension of the emergency procurement for construction-related professional services from Hurst-Rosche, Inc. to replace the steel structures supporting the railing system of the coal bunker at the Murray Development Center in Centralia, IL. The Capital Development Board seeks to extend the contracts through May 29, 2016.

This hearing will be held at 11:00 a.m.(CST) on Tuesday, February 2, 2016, at the following location:

Room 349C Stratton Building
 401 S. Spring St.
 Springfield, IL 62706

Please note that audio-conferencing will be made available for this hearing; details are below.

Call-in Number: (888) 494-4032
 Access Code: 1079279306

For additional discussion of this proposed extension, please see the attachment provided by CDB.

Key Information

Notice Type: Emergency Procurement
 Notice Stage: Notice of Hearing
 Does this addendum add/or change vendor(s) information? (i.e. vendor name/address, contact information, and/or award amount, etc.)? No
 Published: 01/07/2016

Notice Expiration Date: 01/24/2016

Emergency Justification: The steel structures supporting the railing system in three bays of the coal bunker located at the Murray Developmental Center in Centralia, IL., have deteriorated beyond repair. The support structure consists of 20 flange beams and 2 main girders. To safeguard State property and protect the lives of its residents and employees, these structural beams should be replaced immediately. An Emergency Procurement for Structural Engineering Design Services is necessary to expedite the repairs of the coal bunker structure.

Accordance with Admin Rule: Danger to public health/safety, Minimize serious disruption to critical state services that affect health, safety, or collection of substantial state revenues, Protect against further damage to state property

Professional & Artistic: No

Small Business Set-Aside: No

Does this solicitation contain a BEP or DBE requirement?: No

Does this solicitation contain a Veteran requirement? No

Emergency Extension Justification

Project Number: 321-135-075

Project Description/Location: Emergency Coal Bunker Repairs/Murray Developmental Center.

Project Manager: Bob Bauer

Vendor(s): Hurst-Rosche, Inc.

Authorization to Proceed: 11/25/2015

Brief Description: The Murray Developmental Center in Centralia Illinois uses a conveyor system to provide coal to the boilers. The supporting structure for the conveyor system has deteriorated and is in danger of failing. The boilers provide steam for the generation of heat, hot water, and air conditioning to the Center. Failure of the conveyor system to provide coal to the boilers will result in steam loss for its residents. Repairs to the coal conveyor system need to begin immediately in order to preserve public health and safety and to minimize serious disruption in critical State services.

Current Status: Hurst Roche has completed the design phase. A pre-bid meeting is to be conducted on January 14, 2016 to be followed by a bid opening on January 21, 2016 among selected contractors.

Justification for Need of Extension: While the project is progressing, the nature of the emergency and construction time required to remediate the conveyor system requires additional time beyond the 90 day duration. Hurst Rosche's emergency purchase will expire on February 21, 2016. A preliminary schedule suggests at least 4 weeks of construction and 4 weeks of steel fabrication are required. CDB proposes a Substantial Completion date of April 29, 2016 and a final acceptance date of May 29, 2016. The above requested milestones are subject to change, depending upon lead times for material. Once a contractor is engaged, and before the hearing is to take place, CDB may ask for additional time if required by the contractor and agreed to by CDB in consultation with the Chief Procurement Office.
