

NOTICE OF PUBLIC HEARING

The State of Illinois Department of Central Management Services (CMS) is conducting an Information Technology (IT) Public Hearing. The purpose of the hearing is to evaluate how the State's current procurement policies promote equal opportunity in the award of State IT contracts for minority-owned, woman-owned, and persons with disabilities-owned business enterprises.

In order to inform the business community of the hearings and obtain information which may facilitate a thorough and accurate analysis, CMS is hosting three IT Public Hearings. You are cordially invited and encouraged to attend any one of the Public Hearings.

Please inform and invite the members of your organization to the hearings.
