St. Louis (IL Section)	4.2%	5.0%	-0.8
Illinois Statewide	4.8%	5.7%	-0.9
* Preliminary ** Revised			

SPRINGFIELD – For the second month in-a-row, the unemployment rate decreased in all twelve metro areas for the year ending July 2025, according to data released today by the U.S. Bureau of Labor Statistics (BLS) and the Illinois Department of Employment Security (DES). Over-the-year, total nonfarm jobs increased in five metropolitan areas, leading to consecutive months with year-over-year growth: Champaign (6 consecutive months); Chicago (13 consecutive months); Springfield (21 consecutive months).

“Illinois continues to showcase the resiliency of our economy, with unemployment declining across all twelve metro areas for the second month in a row and consecutive months of job gains in Champaign, Chicago, and Springfield,” said **Deputy Governor Andy Manar**. “The state remains committed to workforce development programs and resources that ensure communities across Illinois can fully benefit from them.”

The metro areas which had the largest over-the-year percentage increases in total nonfarm jobs were the Springfield MSA (+1.7%, +1,900), and a tie between the Champaign-Urbana MSA (+1.1%, +1,300) and the

Rockford MSA (+1.1%, +1,600). The Chicago-Metro Division also increased (+0.7%, +26,300). The metro areas which posted the largest over-the-year percentage decreases in total nonfarm jobs were the Peoria MSA (-1.7%, -2,900), the Davenport-Moline-Rock Island MSA, IL Section (-1.5%, -1,300), and the Bloomington MSA (-1.3%, -1,200). Industries that saw job growth in the majority of the twelve metro areas included: Private Education and Health Services (twelve areas); Government (nine areas), and Mining and Construction (seven areas).

The metro areas with the largest unemployment rate increases were the Chicago-Metropolitan Division (-0.9 point to 5.1%) and a tie between the Kankakee MSA (-0.8 point to 5.1%), the Rockford MSA (-0.8 point to 5.1%), and the St. Louis MSA, IL Section (-0.8 point to 4.2%).

Total Nonfarm Jobs (Not Seasonally Adjusted) – July 2025

Metropolitan Area	July 2025*	July 2024**	Over-the-Year Change
Bloomington	91,700	92,900	-1,200
Champaign-Urbana	116,100	114,800	1,300
Chicago-Naperville-Schaumburg	3,855,600	3,829,300	26,300
Davenport-Moline-Rock Island (IL Section)	85,600	86,900	-1,300
Decatur	47,200	47,400	-200

Whiteside County	4.6 %	5.1 %	-0.5

**Illinois Section of Davenport-Moline-Rock
Island, IA-IL MSA**

The not seasonally adjusted unemployment rate decreased to 5.0 percent in July 2025 from 5.3 percent in July 2024.

Total nonfarm employment decreased -1,300 compared to July 2024.

The Other Services (+300), Government (+300) and Private Education-Health Services (+100) sectors had payroll gains over-the-year. The Professional-Business Services (-900), Wholesale Trade (-300), Transportation-Warehousing-Utilities (-200), Financial Activities (-200), Manufacturing (-100), Retail Trade (-100), Information (-100) and Leisure-Hospitality (-100) sectors recorded employment declines over-the-year.

The unemployment rate identifies those who are out of work and seeking employment. A person who exhausts benefits, or is ineligible, still will be reflected in the unemployment rate if they actively seek work.

Note: Monthly 2024 unemployment rates and total nonfarm jobs for Illinois metro areas were revised in February and March 2025, as required by the U.S. BLS. Comments and tables distributed for prior metro area news releases should be discarded as any records or historical analysis previously cited may no longer be valid.

Disclaimer: The data contained in the metro area employment numbers press releases are not seasonally adjusted, and therefore are subject to seasonal fluctuations due to factors such as changes in weather, harvests, major holidays and school schedules. Current monthly metro data should be compared to the same month from prior years (January 2025 data compared to January 2024 data) as data for these months have similar seasonal patterns. Comparisons should not be made to data for the immediate previous month or other previous non-matching months, as any changes in the data within these time periods may be the result of seasonal fluctuations and not economic factors.
