TO THE GOVERNOR AND MEMBERS OF THE GENERAL ASSEMBLY:

In accordance with the provisions of the Public Act 88-0404, the Business Assistance and Regulatory Reform Act (Act), the Illinois Department of Commerce and Economic Opportunity (DCEO) respectfully submits this calendar year 2013 annual report on its Business Information Center (Center). As directed by the Act, DCEO through its Entrepreneurship, Innovation, and Technology office oversees the Center, a statewide resource for new and existing business owners. The goal is to enhance the state's business climate by making it easier for entities to comply with government requirements and gain access to information they need to be competitive.

This annual report reflects the 2013 achievements of the Center, a resource for improving the small business climate by effectively and successfully working with entrepreneurs, small businesses and prospective business owners. With a staff dedicated to providing comprehensive information on topics ranging from business start-up, financing, legislative and regulatory mandates to local demographics, marketing and international trade, this year builds on a rich history of success.

The Center is an essential part of DCEO's Entrepreneurship, Innovation, and Technology office and is the point-of-contact for entrepreneurs and small business owners interested in the services provided by the Illinois Small Business Development Centers (SBDCs), Illinois Procurement Technical Assistance Centers (PTACs), the SBDC International Trade Centers (ITC), the Small Business Environmental Assistance Program (SBEAP), and the Illinois Manufacturing Excellence Center (IMEC).

Herein is the 2013 report. Please contact my office if you have any questions.

Sincerely,

Adam Pollet

BUSINESS INFORMATION CENTER SERVICES

The cornerstone to the success of the Business Information Center is its personnel and their commitment to providing professional, comprehensive customer service. Listed below are the Center's primary services.

- **Business Specialists:** The core of the Center's services is the professionals that handle the thousands of inquiries that come in via the toll-free business help line, e-mail, standard mail and walk-ins. When a business encounters difficulty with the state regulatory process, the Business Specialists serve as advocates for small businesses, working to find a solution that both the business and state agency find mutually acceptable. The Center staff provides expert guidance in linking pre-business ventures and existing business owners to federal, state and local government resources. The Specialists help dispel the common perception that government is inaccessible to small businesses.
- **Toll-Free Call Center:** Calls into the Center via the toll-free number are handled by highly trained business representatives. The call center receives a high percentage of requests for basic information as well as mail fulfillment regarding the business startup kits. A large number of these calls are referred to the Illinois Small Business Development Center Network where clients can arrange an appointment to meet for professional one-on-one business counseling, assistance in developing business plans, exporting assistance and government contracting opportunities. Requests for in-depth assistance, advocacy and research are seamlessly forwarded to the Business Specialists who have the expertise to thoroughly assist the client.
- **Hispanic Outreach:** As an outreach effort to educate prospective entrepreneurs in Illinois' growing Hispanic population, the Center has converted its most popular publications, such as the Starting Your Business in Illinois handbook to Spanish. Since 2000 the Center has had a bilingual business representative to serve its Spanish-speaking clients.
- **Knowledgebase Technology:** The BIC KnowledgeBase System (KBS) is a comprehensive database of more than 500 business related questions and answers. This system allows entrepreneurs and small business owners to access the same business permit, license, certification and assistance program information as our Call Center but on a self-serve basis and in real-time via www.ienconnect.com. This multi-functional system replaced three archaic databases and provides the Center with greater capability in assisting clients.
- **BIC Partner Locator:** The KBS provides this function which will connect inquirers who enter an address, city/town/village, and/or zip code to their nearest network member. This network is comprised of the Illinois Small Business Development Centers (SBDCs), Procurement Technical Assistance Centers (PTACs) and the Illinois SBDC International

BUSINESS INFORMATION CENTER REGULATORY RELIEF AND BUSINESS RESOURCES ACTIVITIES

In addition to clients assisted with various regulatory assistance requests, the BIC also pro-actively reached out to small businesses through the Regulatory Flexibility Program. Better known as Reg Flex, this program calls for DCEO to serve as a regulatory watchdog for small businesses. Its web address is: www.ienconnect.com/regflex.

Helping Illinois' small businesses bring their concerns to the rulemaking process and requiring agencies to consider the prospective impact of proposed regulation on small entities is the role of the Office of Regulatory Flexibility (Reg Flex). Reg Flex continues to advocate against the disproportionate burden of regulations on small businesses.

In 2013, the Office reviewed proposed rulemakings and submitted comments to the Joint Committee on Administrative Rules in an effort to reduce the financial burden and compliance requirements on small business. Through these efforts, as well as implementing a new online form to register regulatory complaints, the Office works to save small businesses money in regulatory and compliance costs.

Additionally, the Office publishes a monthly newsletter. This newsletter contains the latest on state and federal regulations; news from the resource partners that make up the network, as well as the Small Business Administration and the Internal Revenue Service; information on upcoming conferences, seminars or training; and other news and changes to help Illinois' small businesses compete. Utilizing Constant Contact, the newsletter is sent to over 2,000 businesses, chambers of commerce, trade groups and associations. In November 2013, the Office of Regulatory Flexibility celebrated the fifth anniversary of its monthly "Connection" newsletter.

In 2013, the Office of Regulatory Flexibility accomplished the following:

- **375 Proposed State Regulations** were reviewed.
- **100 Small Business Impact Analyses** for consideration by JCAR were conducted.

Through Reg Flex, businesses have a venue to file a formal complaint regarding an onerous rule or regulation. Businesses can question whether there is a need for the rule, the complexity of the rule, the extent to which the rule duplicates or conflicts with federal regulations. Businesses are able to file the complaint online, and the Regulatory Flexibility staff will determine what can be done to offer relief to the businesses with regard to the regulation. A copy of this online complaint form can be found at: www.ienconnect.com/regflex.

STRATEGIC FUTURE

The Business Information Center remains steadfast in its commitment to being the foremost resource for information, compliance assistance and advocacy for businesses dealing with government red tape and bureaucracy.

The mission of the Business Information Center is to focus on the removal of impediments to business growth by making the government regulatory process less burdensome and easier to navigate. The Center continues to develop stronger advocacy ties to the State's regulating agencies in order to develop a comprehensive approach to decreasing negative enforcement action while increasing regulatory compliance.

In addition, the Office of Regulatory Flexibility will continue its "pro-active" approach to the rulemaking process, by contacting agencies during the earliest stages of the rulemaking process and allowing for more industry input.

Over the last few years our clients experienced a dramatic upgrade in their ability to access regulatory and business assistance information via our KBS. In 2014 access to the Center's knowledgebase will be available on the DCEO homepage. Our staff will continue its work on extensively building up and enhancing its knowledgebase content to include more federal and local regulatory information.

Marketing will intensify, by reaching out to regulatory agencies and partnering with them to visibly display the Center's contact information on their websites. In doing so, the Center will reach a broader audience and ensure that more small business owners become aware and take advantage of the services not only offered by our network partners but by the entire State of Illinois.
