

Dream Drywall – Illinois SBDC at Bethel New Life

Angel Gomez has been working in the drywall industry for a number of years and he came to our SBDC to explore an idea for starting a new company named Dream Drywall to incorporate technology where customers could get online bids for drywall projects. He graduated from our Entrepreneurship Training Program in June 2015 and his research has shown that no other companies in the Chicago area do online estimates. Mr. Gomez was our first student to receive a \$10k loan from the Private Bank prior to his official graduation date. He is married and a father of four all under the age of six with English as a second language. Since using this technology, he has increased his revenue by more than 20% and is consistently working to improve his website to make it more user friendly for customers to utilize this niche he has developed in the market. www.Dreamdrywall.com
