

**Illinois Enterprise Zone Program
Application for New Designation
Application Information and Instructions**

INTRODUCTION

The Illinois Enterprise Zone Act, 20 ILCS 655/1, *et seq.* (the “Act”), took effect December 7, 1982, and was amended effective in 2012 and 2013. The purpose of the Act is to stimulate business, industrial growth, neighborhood revitalization, and retention in depressed areas by means of relaxed government controls and tax incentives. As amended, the Act requires applicants to satisfy various criteria set forth in Section 4 of the Act. The Department of Commerce and Economic Opportunity (the “Department”) reviews these applications based on the scoring system set forth in the Act, and then submits its recommendations to the Enterprise Zone Board for review and either approval or denial of such applications. (Applicants should thoroughly review the various appendices included with this application, as well as the Act and administrative rules applicable to Enterprise Zones when completing this application.)

On-line applications are due to the Department by midnight on December 31, 2016. Manual submission of applications must be postmarked by December 31, 2016. **Any electronic application submitted after midnight on December 31, 2016 or hardcopy not postmarked by December 31, 2016, will not receive consideration.** Paper documents accompanying any on-line submission must also be postmarked by December 31, 2016. **Any paper documents relating to the application that are not postmarked by December 31, 2016 will not be considered.**

For Enterprise Zones that are scheduled to expire on or after January 1, 2017, an application process shall begin no sooner than two (2) years prior to the year in which the zone expires, i.e., the application should be submitted by December 31, 2016 in order to potentially avoid any interruption in an Enterprise Zone designation. If you have a current Enterprise Zone that expires after December 31, 2018, and you submit an application this year, your application will not be accepted for consideration. Existing Enterprise Zones should apply no earlier than the second calendar year prior to the year of expiration.

<p>For example: ABC County Enterprise Zone expires on July 1, 2019. ABC County reapplies for a new designation by December 31, 2016, for consideration and approval effective January 1, 2018. The Department may set aside such application because the application was submitted more than two (2) years prior to the year of expiration.</p>

No preference for designation as an Enterprise Zone will be given to the previously designated zone. (20 ILCS 655/4(1).)

Under the Act, the total possible term for an Enterprise Zone is 25 years. The initial designation shall be for fifteen (15) years; however, an Enterprise Zone shall be subject to review by the Enterprise Zone Board after thirteen (13) years for a potential additional 10-year term. During the review process, the Board shall consider the costs incurred by the State and units of local government as a result of tax benefits received by the enterprise zone. (20 ILCS 655/5.3(c).)

ELIGIBILITY REQUIREMENTS

A proposed enterprise zone must qualify in accordance with Sections 4 and 5 of the Act. The application must demonstrate and the designating ordinance must find that the proposed zone area:

2. comprises a **minimum of one-half square mile and not more than twelve (12) square miles, or fifteen (15) square miles** if the zone is located within the jurisdiction of four (4) or more counties or municipalities, in total area, exclusive of lakes and waterways; however, in such cases where the enterprise zone is a joint effort of three (3) or more units of government, or two (2) or more units of government if situated in a township which is divided by a municipality of 1,000,000 or more inhabitants, and where the certification has been in effect at least one (1) year, the total area will comprise a minimum of one-half square mile and not more than thirteen (13) square miles in total area exclusive of lakes and waterways, 20 ILCS 655/4(1)(b); and
3. meets at least **three (3)** of the qualifying criteria outlined in the Qualifying Criteria set forth in Section 4(1)(f) of the Act and Appendix A to this application.

NOTE: Applications are evaluated on a competitive basis against other applicants based upon all ten (10) qualifying criteria. Criterion 10 – Equalized Assessed Valuation (“EA V”)

The change in EAV of industrial or commercial properties in the five (5) years prior to the date of application is equal to or less than 50% of the State average change in EAV for industrial or commercial properties, as applicable, for the same period of time.

NOTE: Please use the following table to enter your EAV LLMA totals per year for each category and calculate the yearly change. The Statewide totals represent total Statewide EAV for that particular category. With this information we will calculate the totals to determine qualification and scoring. In our calculations, we take the yearly LLMA change, then average the four (4) years, to determine if it is greater than or equal to four (4) year State average. This is done per category.

If you are uncertain as to your qualification, to maximize the opportunity to gain as many points as possible, you should complete the table below. The Department will calculate your averages to determine qualification and ranking.

You MUST enter the total for your LLMA for each entry below

Year	Type	Statewide Total	LLMA Total
2010	Commercial	\$85,754,226,000	
2010	Industrial	\$31,143,883,000
