

# Illinois Department of **DCFS** Children & Family Services

Acting Director: BJ Walker

## TELL US WHAT YOU THINK

*Moving in the Right Direction*

***We'd LOVE to get your feedback***

In 2016, the Illinois Department of Children and Family Services developed a five year plan aimed at improving care to children, youth and families in Illinois. Now we need your input in the progress made in reaching the goals outlined in the Illinois Child Welfare Transformation 2016-2021 Strategic Plan. We would love your honest opinion on what you know about the strategic plan, how effective DCFS has been in meeting its strategic goals, and what change if any to consider moving forward. In addition, DCFS is seeking your input on how best to communicate to you.

*Make your voice heard today by completing the following surveys here:*

**SURVEY**

Illinois Child Welfare Strategic Plan Survey

Illinois Child Welfare Communication Plan Survey

The surveys are important - They let DCFS know what is working (or not working) and helps to determine where best to allocate time, energy, resources and funding to better serve youth in care, strengthen families and transform lives.
