## **Meet Taylor**

This young man is sensitive, expressive and full of life! Although Taylor is non-verbal, he is still able to communicate by smiling and laughing. Taylor enjoys objects that light up and play music. He is also a huge fan of cartoons! Taylor is developmentally disabled, and requires the attention of trained medical professionals. He uses a wheel chair for mobility, and receives nutrition through a feeding tube.

## **What Others Say about Taylor**

Taylor's teachers say he is a very energetic and happy young man who smiles each morning when he arrives to school. He loves to be on the classroom iPad looking at the movement on the screen and manipulating the Apps. Taylor learns best through repetition, and in guided task.

## **What You Can Do for Taylor**

You can provide Taylor with lots of love and affection. You can encourage open communication by responding to his non-verbal cues and request. You can work closely with doctors, nurses and other professional to ensure Taylor receives the care and attention he needs.
