Agenda

- A. Review of Short, Medium and Long Range Goals from the Education Committee: Our committee will establish a game plan that will be actionable, with a time line and to have an impact on Illinois' economic recovery. They will be categorized as immediate, mid-term and long-range goals. These long-range recommendations may include factors that address much longer term work force development (well beyond the time frame of this Commission).
- B. Our committee's recommendations will reasonably lead to job growth with substantive data to show the connection between recommendations and expected outcomes. Creation of high value jobs is the goal...not just placing people in existing jobs.
