## Presentations

### **Presentation 1: Unveiling the 2011 GGCC Annual Report**

Eric Heineman (Governor’s Office) will present the 2011 GGCC Annual Sustainability Report. This report aggregates information collected by GGCC Liaisons in agencies and public institutions across the state.

This year we collected a record number of reports that provides the GGCC with a rich volume of sustainability information going forward. Thanks to the tireless work of Dr. Christine Skolnik, DePaul University, we are thrilled to present a comprehensive report that synthesizes green initiatives from across State government

Eric Heineman will briefly summarize substantive and aesthetic highlights in this year’s report and will disseminate physical copies to Green Governments Awards attendees.

### **Presentation 2: CMS Green Initiatives**

Will Walker (CMS-Fleet), Mike Cavanaugh (CMS-I-Cycle), and Billy Earl (CMS-Director’s Office) will present on green initiatives currently active across the various sectors of Central Management Services.

Specifically, Will Walker with CMS Fleet will discuss current advances in car sharing, Electric Vehicle procurement, and hybrid use.

Mike Cavanaugh will give a progress update on the I-Cycle program and will present on the Electronic Recycling Program.

Billy Earl will then conclude the presentation with a presentation on the successful Printer Reduction Program.
