St. Anthony Hospital
Attn: Chief Financial Officer
2875 W. 19th Street
Chicago, IL 60623

Dear Chief Executive Officer:

This letter is in response to the October 24, 2016 appeal of the 2017 disproportionate share hospital (DSH) adjustment determination, which was submitted by Mike Caddick on behalf of St. Anthony Hospital. The appeal states that the number of HMO days used in the rate year 2017 DSH calculation was understated by 1,403 eligible days.

After a review of the data submitted, it has been determined by the Department that the 1,403 requested days are eligible for inclusion in a recalculation of your hospital's Medicaid inpatient utilization rate (MIUR) and associated DSH rates.

Included with this letter are updated attachments detailing your facility's recalculated Medicaid percentage adjustment (MPA) and Medicaid high volume adjustment (MHVA) rates, which will be retroactive to all inpatient days from October 1, 2016 and will continue through September 30, 2017.

While your facility qualifies as a disproportionate share hospital, due to projected payments from the department, it appears that the payments will exceed your cost of services for those receiving medical assistance or having no health insurance. As a result, your disproportionate share funds will be reduced pursuant to section 1923(g) of the Social Security Act, to be in compliance with sections 1923(c) of that Act. Therefore, your disproportionate share rate will be reduced to \$0.00.

This is the final decision by the Department regarding this matter.

Please contact Kristy Sommer at 217/785-0710 if you have questions.

Sincerely,

Dan Jenkins, Chief
Bureau of Rate Development and Analysis
