

May 10, 2017: Technical Clarification #1

The Department has issued the following technical clarifications regarding the submission guidelines for Proposals in response to the State of Illinois Medicaid Managed Care Organization Request for Proposals:

1. Offerors may elect to submit the Provider Network summary listing described in RFP Section 4.2.6 in electronic form only. If electing to do so, the Provider Network summary listing should be included and clearly labeled on USB A described in Section 3.3.8. It may be excluded from the printed, signed original and copies of the Proposal contained in Container A described in Section 3.3.5 and the Redacted Proposal described in Section 3.3.7.
2. Since RFP Form for Submission VI (Financial Proposal Template) does not have a signature block, Offerors may sign the printed, signed original version of the form in the blank space anywhere below the information contained in the form. As indicated in RFP Section 6.4.3, documentation must still be attached to evidence the signing individual's authority to legally bind the Offeror.
