*Disclosure. According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1148. The time required to complete this information collection is estimated to average 40 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, write to: CMS, 7500 Security Blvd., Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.
REPORTING OF THE INITIAL CORE SET OF HEALTH CARE QUALITY MEASURES FOR MEDICAID-ELIGIBLE ADULTS (MEDICAID ADULT CORE SET)

BACKGROUND
The Affordable Care Act (Section 1139B) required the Secretary of the Department of Health and Human Services (HHS) to identify and publish an initial core set of health quality measures for adult Medicaid enrollees (Medicaid Adult Core Set). Additionally, the law required the development of a standardized reporting format for states that volunteer to report on the Medicaid Adult Core Set measures. This CAR TS template will be used for standardized reporting on these measures.

<table>
<thead>
<tr>
<th>Measure</th>
<th>Measure Steward</th>
<th>Measure Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Flu Shots for Adults Ages 50 to 64</td>
<td>NCQA/HEDIS</td>
<td>Rolling average represents the percentage of Medicaid enrollees ages 50 to 64 that received an influenza vaccination between September 1 of the measurement year and the date when the CAHPS 5.0H survey was completed</td>
</tr>
<tr>
<td>Adult Body Mass Index (BMI) Assessment</td>
<td>NCQA/HEDIS</td>
<td>Percentage of Medicaid enrollees ages 18 to 74 that had an outpatient visit and whose BMI was documented during the measurement year or the year prior to the measurement year</td>
</tr>
<tr>
<td>Breast Cancer Screening</td>
<td>NCQA/HEDIS</td>
<td>Percentage of Medicaid-enrolled women ages 42 to 69 that received a mammogram in the measurement year or the year prior to the measurement year</td>
</tr>
<tr>
<td>Cervical Cancer Screening</td>
<td>NCQA/HEDIS</td>
<td>Percentage of Medicaid-enrolled women ages 24 to 64 that received one or more PAP tests during the measurement year or the two years prior to the measurement year</td>
</tr>
<tr>
<td>Medical Assistance With Smoking and Tobacco Use Cessation</td>
<td>NCQA/HEDIS</td>
<td>Rolling average represents the percentage of Medicaid enrollees age 18 and older that were current smokers or tobacco users and who received advice to quit, discussed or were recommended cessation medications, and discussed or were provided cessation methods or strategies during the measurement year</td>
</tr>
<tr>
<td>Screening for Clinical Depression and Follow-Up Plan</td>
<td>CMS</td>
<td>Percentage of patients age 18 and older screened for clinical depression using a standardized tool and, if positive, a follow-up plan is documented on the date of the positive screen</td>
</tr>
<tr>
<td>Plan All-Cause Readmission Rate</td>
<td>NCQA/HEDIS</td>
<td>For Medicaid enrollees age 18 and older, the number of acute inpatient stays during the measurement year that were followed by an acute readmission for any diagnosis within 30 days and the predicted probability of an acute readmission</td>
</tr>
<tr>
<td>PQI 01: Diabetes Short-Term Complications Admission Rate</td>
<td>AHRQ</td>
<td>Number of discharges for diabetes short-term complications per 100,000 member months for Medicaid enrollees age 18 and older</td>
</tr>

<td>Care Transition – Transition Record Transmitted to Health Care Professional</td>
<td>American Medical Association/Physician Consortium for Performance Improvement (PCPI) (<a href="http://www.ama-assn.org">http://www.ama-assn.org</a>)</td>
<td>Percentage of Medicaid enrollees age 18 and older discharged from an inpatient facility to home or any other site of care for whom a transition record was transmitted to the facility or primary physician or other health care professional designated for follow-up care within 24 hours of discharge</td>
</tr>
<tr>
<td>Initiation and Engagement of Alcohol and Other Drug Dependence Treatment</td>
<td>NCQA/HEDIS (<a href="http://www.ncqa.org">http://www.ncqa.org</a>)</td>
<td>Percentage of Medicaid enrollees age 18 and older with a new episode of alcohol or other drug (AOD) dependence who: (a) Initiated treatment through an inpatient AOD admission, outpatient visit, intensive outpatient encounter, or partial hospitalization within 14 days of the diagnosis (b) Initiated treatment and had two or more additional services with a diagnosis of AOD within 30 days of the initiation visit</td>
</tr>
<tr>
<td>Postpartum Care Rate</td>
<td>NCQA/HEDIS (<a href="http://www.ncqa.org">http://www.ncqa.org</a>)</td>
<td>Percentage of deliveries of live births between November 6 of the year prior to the measurement year and November 5 of the measurement year that had a postpartum visit on or between 21 and 56 days after delivery</td>
</tr>
</tbody>
</table>

**GUIDANCE FOR REPORTING**

States should report performance measurement data for the current year (to the extent that data are available). Additional instructions for completing each section of the template are provided below. Data entry in all fields is required unless otherwise specified.

**Did you Report on this Measure?**

States should indicate whether or not they are reporting the measure by selecting either Yes or No.

**If Data Not Reported, Please Explain Why:**

If your state cannot report a specific measure, please check the box that applies to why data are not being reported for each measure. The user may select any applicable reason why data are not being reported, but must select at least one response as follows:

- **Service not covered**: Check this box if your program does not cover this service.
- **Population not covered**: Check this box if your program does not cover the population included in the measure. If this box is selected, users will also need to indicate whether the entire population or partial population was covered under its program. A detailed explanation is required if partial population is not covered.
- **Data not available**: Check this box if data are not available for this measure in your state. If this box is selected, users will also need to explain why data are not available for reporting. Reasons may include “Budget Constraints”, “Staff Constraints”, “Data Inconsistencies/Accuracy”, “Data Source Not Easily Accessible”, “Information Not Collected” and “Other”.
- **Small Sample Size (less than 30)**: Check this box if the denominator size for this measure is less than 30. If the denominator size is less than 30, your state is not required to report a rate on the
measure. However, the state will need to indicate the exact denominator size in the space provided.

• **Other**: Please specify if there is another reason why your state cannot report the measure.

Although the Medicaid Adult Core Set measures are voluntarily reported, if the state does not report data on a specific measure, it is important for CMS to understand why each state is not reporting on specific measures. Your selection of a reason for not reporting and/or provision of an “Other” reason for not reporting will assist CMS in that understanding.

**The Information for this Measure is Being Provided to Meet the Requirements for the Adult Medicaid Quality Measures Grant:**
States should indicate whether they are reporting a specific measure: to fulfill the requirements of the Adult Medicaid Quality Measures Grant Program (“Yes”), for voluntary reporting of the Medicaid Adult Core Set (“No”), or for purposes of both the Adult Medicaid Quality Measures Grant program and voluntary reporting of the Medicaid Adult Core Set (“Both”).

**Status of Data Reported:**
Please indicate the status of the data you are reporting, as follows:

• **Provisional**: Check this box if you are reporting data for a measure, but the data are currently being modified, verified, or may change in any other way before you finalize them for the current CARTS reporting period.

• **Final**: Check this box if the data you are reporting are considered final for the current CARTS reporting period.

**Measurement Specification:**
For each measure, the state should indicate whether a measure adheres to the technical specifications provided by the measure steward (e.g., NCQA, AHRQ) or “Other” measurement specifications. If NCQA is selected, the HEDIS® Version field must be completed (with the exception of the annual HIV/AIDS medical visits measure). If “Other” measurement specification is selected, an explanation must be provided.

CMS encourages states to use the technical specifications outlined in the [Technical Specifications and Resource Manual](#).

• **HEDIS® Version**: Please specify HEDIS® Version (example HEDIS 2011, HEDIS 2012). This field must be completed only when a user selects the NCQA measurement specification.

• **“Other” Measurement Specification Explanation**: The explanation field must be completed when “Other” measurement specification has been selected.

**Data Source:**
Data for the Medicaid Adult Core Set measures may come from several sources, including medical claims and medical records. For each measure, the state must indicate the source of data or methodology used to calculate the measure using the following options (some options are unavailable for some measures):

• **Administrative Data**: Medical claims and encounter data. If this box is selected, the user must then indicate whether the administrative data for a measure are coming from the Medicaid Management Information System (MMIS) or describe another administrative data source.

• **Hybrid**: A combination of administrative and medical records data. An explanation box is available for the state to provide more detailed information about how the two sources were used to create the rate.

• **Survey Data**: The state should specify the survey used.

• **Other**: An explanation box is available for the state to specify the other source of data.

**Date Range:**
Define the date range for the reporting period based on the “From” time period as the month and year that corresponds to the beginning period in which utilization took place and please report the “To” time period as the month and year that corresponds to the end period in which utilization took place. Do not report the
year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

**Definition of Population Included in the Measure:**

**Definition of the Denominator:**
Indicate the definition of the population included in the denominator for each measure by checking one box to indicate whether the data are for the Medicaid population only (Title XIX), the CHIP population only (e.g., pregnant women; Title XXI), the Medicare and Medicaid dually-eligible populations, or another population using the “Other” check box. If “Other” is selected, state must specify the population.

**Does this Denominator Represent your Total Eligible Population as Defined by the Technical Specification for this Measure?**
States should indicate whether the denominator selected in the preceding question represents your state’s total eligible population as defined by the Technical Specifications for the measure by selecting either Yes or No.

**Which Delivery Systems are Represented in the Denominator?**
For each measure, the state is asked to indicate which delivery systems are represented in the denominator, the percentage of the population is represented in the delivery system, and the number of health plans represented in the delivery system (where applicable) across the following options:

- Fee-for-Service
- Primary Care Case Management (PCCM)
- Managed Care Organization/Prepaid Inpatient Health Plan (MCO/PIHP)
- Integrated Care Models (ICM)
- Other

**Deviation from Measure Specifications:**

**Did your Calculation of this Measure Deviate from the Measure Specifications in any way?**
If the data provided for a measure deviate from the measure technical specifications, please select the type(s) of measure specification deviation. When one or more of the types of deviations are selected, states are required to provide an explanation.

The three types (and examples) of deviations are:

- Numerator (e.g., coding issues),
- Denominator (e.g., different age groups, definition of continuous enrollment),
- Other (please describe in detail).

**Performance Measure:**
Report the numerators and denominators, rates for each measure (or component) in this section. The template provides two sections for entering the data, depending on whether you are reporting using the technical specifications provided by the measure steward for each measure or another methodology. The form fields have been set up to facilitate entering numerators and denominators for each measure. If the form fields do not give you enough space to fully report on the measure, please use the “additional notes” section. “Additional Notes/Comments on Measure” may be entered but is not required.

The reporting unit for each measure is the state as a whole. If states calculate rates for multiple reporting units (e.g., individual health plans, different health care delivery systems), states must aggregate data from all these sources into one state-level rate before reporting the data to CMS. In the situation where a state combines data across multiple reporting units, all or some of which use the hybrid method to calculate the rates, the state should enter zeroes in the “Numerator” and “Denominator” fields. In these cases, it should report the state-level rate in the “Rate” field and, when possible, include individual reporting unit numerators, denominators, and rates in the field labeled “Additional Notes on Measure,” along with a description of the method used to derive the state-level rate. For additional guidance on developing a state-level rate, refer to the Technical Assistance Brief “Approaches to Developing State-Level Rates for Children’s Health Care Quality Measures Based on Data from Multiple Sources,” available at: [http://medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Quality-of-Care/Downloads/TA2-StateRates.pdf](http://medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Quality-of-Care/Downloads/TA2-StateRates.pdf).

**Other Performance Measure:**
If the state selected “Other” in the “Measure Specification” section of the template, and is thus reporting using another methodology, the user is required to provide a description of the measure, along with the numerator, denominator, and rate in the “Other Performance Measure” section. If reporting with another methodology, and the form fields do not give you enough space to fully report on the measure, please use please upload the information to the attachment facility, along with a brief description of the measure.
(e.g. “data reported for individuals in the 18-64 age range. “Additional Notes/Comments on Measure” may be entered but is not required.

**Optional Measure Stratification:**
If states are able to stratify data for a measure by race (non-Hispanic), ethnicity, sex, primary spoken language, disability status, or geography, states may provide these data in the “Optional Measure Stratification” section. While reporting in this section is not required (unless reporting to meet the requirements of the Adult Quality Grants), this information will help CMS track and monitor health and health care disparities both nationally and within states.

If there are other or additional racial, ethnic, sex, language, disability status, or geographic stratifications your state wants to report that are not specified in the form provided, please upload the numerator(s), denominator(s), and rate(s), along with a brief description of the stratification, to the attachment facility.

**Certification**
After a state has completed data entry, certify the data submission on the certification page. Once data are certified, no further data entry or editing is allowed unless a request is made to CMS to uncertify these data.

        - ☐ Requires data linkage which does not currently exist
        - ☐ Other:
    - ☐ Information not collected
      - Select all that apply:
        - ☐ Not identified as key priority area for this year
        - ☐ Not collected by provider (hospital/health plan)
        - ☐ Other:
    - ☐ Other:
- ☐ Small sample size (less than 30).
  - ☐ Enter specific sample size:
    - ☑ Other. Explain: For a number of years HFS has collected data that are used to program and report on a variety of measures. This effort was driven by HFS' interest in assessing the quality of care delivered to the populations we serve and for promoting continuous quality improvement in the healthcare delivery system. With the recent publication of the Adult Core Measures set in February 2013, HFS is reporting on only those measures that align between the core set and our currently available measures. Over the next year, HFS will investigate our capacity to program additional measures that may be submitted for FFY2014 reporting.

The information for this measure is being provided to meet the requirements for the Adult Medicaid Quality Measures Grant:
- ☑ Yes (to fulfill grant requirement)
- ☑ No (this information is for voluntary core set reporting)
- ☑ Both (grant requirement and voluntary core set reporting)

Status of Data Reported:
- ☑ Provisional
- ☑ Final

Measurement Specification:
- ☑ NCQA
  - Specify version of HEDIS used:
- ☑ Other. Explain:

Data Source:
- ☑ Administrative Data Only
From where is the Administrative Data coming?
*Must select one if Administrative Data is selected:*
- ☑ Medicaid Management Information System (MMIS)
- ☑ Other Specify:
- ☑ Medical Records Data
*Must select one if Medical Records Data is selected:*
- ☑ Electronic Health Record (EHR) Data
- ☑ Paper
- ☑ Both (EHR and paper)
- ☑ Hybrid (Administrative and Medical Records Data)
- ☑ Other: Specify:

Date Range:
- Start Date: (mm/yyyy)
- End Date: (mm/yyyy)

Definition of Population Included in the Measure:
**Definition of denominator:**

Select all that apply:

- Denominator includes Medicaid population
- Denominator includes CHIP population (e.g. pregnant women).
- Denominator includes Medicare and Medicaid Dually-Eligible population.
- Other. Specify:

Does this denominator represent your total eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

**Which delivery systems are represented in the denominator?**

Select all that apply (Must select at least one):

- Fee-for-Service
- Percentage of population represented:
- Primary Care Case Management (PCCM)
- Percentage of population represented:
- Managed Care Organization/Prepaid Inpatient Health Plan (MCO/PIHP)
  - Number of health plans:
  - Percentage of population represented:
- Integrated Care Models (ICM)

- Other. Explain:

Performance Measure

A rolling average represents the percentage of Medicaid enrollees age 18 and older who were current smokers or tobacco users and who received medical assistance during the measurement year. The following components of this measure assess different facets of providing medical assistance with smoking and tobacco use cessation and are reported as three separate rolling averages: Advising Smokers and Tobacco Users to Quit; Discussing Cessation Medications; and Discussing Cessation Strategies.

Advising smokers and tobacco users to quit
Age Range: 18-64
Numerator:
Denominator:
Rate:
Age Range: 65 and older
Numerator:

**Measure: Screening for Clinical Depression and Follow-Up Plan**

**Did you Report on this Measure?**
- [ ] Yes
- [X] No

**If Data Not Reported, Please Explain Why:**
*Select all that apply (Must select at least one):*
- Service not covered
- Population not covered
  - Entire population not covered
  - Partial population not covered
  - Explain the partial population not covered:
- Data not available
  - Explain why data not available
    - Budget constraints
    - Staff constraints
    - Data inconsistencies/accuracy
    - Please explain:
  - Data source not easily accessible
    - Select all that apply:
      - Requires medical record review
      - Requires data linkage which does not currently exist
      - Other:
  - Information not collected
    - Select all that apply:
      - Not identified as key priority area for this year
      - Not collected by provider (hospital/health plan)
      - Other:
  - Other:
- Small sample size (less than 30).
  - Enter specific sample size:
  - Other. Explain: For a number of years HFS has collected data that are used to program and report on a variety of measures. This effort was driven by HFS’ interest in assessing the quality of care delivered to the populations we serve and for promoting continuous quality improvement in the healthcare delivery system. With the recent publication of the Adult Core Measures set in February 2013, HFS is reporting on only those measures that align between the core set and our currently available measures. Over the next year, HFS will investigate our capacity to program additional measures that may be submitted for FFY2014 reporting. The specifications (February 2013) state that “This measure requires medical record review for the mandatory exclusions”. HFS must consider whether resources (e.g., financial, staff) exist to report measures that are based on medical record review.
  - The information for this measure is being provided to meet the requirements for the Adult Medicaid Quality Measures Grant:
    - [ ] Yes (to fulfill grant requirement)
    - [ ] No (this information is for voluntary core set reporting)
    - [ ] Both (grant requirement and voluntary core set reporting)

Measure: Plan All-Cause Readmission Rate

FFY 2013

Did you Report on this Measure?
☐ Yes
☒ No

If Data Not Reported, Please Explain Why:
Select all that apply (Must select at least one):
☐ Service not covered
☐ Population not covered
☐ Entire population not covered
☐ Partial population not covered

Explain the partial population not covered:
☐ Data not available
☐ Budget constraints
☐ Staff constraints
☐ Data inconsistencies/accuracy

Please explain:
☐ Data source not easily accessible
Select all that apply:
Requires medical record review
Requires data linkage which does not currently exist
Other:
☐ Information not collected
Select all that apply:
☐ Not identified as key priority area for this year
☐ Not collected by provider (hospital/health plan)
Other:
☐ Other:
☐ Small sample size (less than 30).
Enter specific sample size:
☒ Other. Explain: For a number of years HFS has collected data that are used to program and report on a variety of measures. This effort was driven by HFS' interest in assessing the quality of care delivered to the populations we serve and for promoting continuous quality improvement in the healthcare delivery system. With the recent publication of the Adult Core Measures set in February 2013, HFS is reporting on only those measures that align between the core set and our currently available measures. Over the next year, HFS will investigate our capacity to program additional measures that may be submitted for FFY2014 reporting.

The information for this measure is being provided to meet the requirements for the Adult Medicaid Quality Measures Grant:
☐ Yes (to fulfill grant requirement)
☐ No (this information is for voluntary core set reporting)
☐ Both (grant requirement and voluntary core set reporting)

Status of Data Reported:
☐ Provisional
☐ Final

Measurement Specification:
☐ NCQA
☐ Specify version of HEDIS used:
☐ Other. Explain:

Data Source:
☐ Administrative Data Only
From where is the Administrative Data coming?
Must select one if Administrative Data is selected:
☐ Medicaid Management Information Systems (MMIS)
☐ Other. Specify:
☐ Medical Records Data
Must select one if Medical Records Data is selected:
☐ Electronic Health Record (EHR) Data
☐ Paper
☐ Both (EHR and Paper)
☐ Other: Specify:

Date Range:
Start Date: (mm/yyyy)
**End Date: (mm/yyyy)**

**Definition of Population Included in the Measure:**

**Definition of denominator:**

*Select all that apply:*
- Denominator includes Medicaid population
- Denominator includes CHIP population (e.g., pregnant women).
- Denominator includes Medicare and Medicaid Dually-Eligible population.
- Other. Specify:

Does this denominator represent your total eligible population as defined by the Technical Specifications for this measure?  
- Yes
- No

**Which delivery systems are represented in the denominator?**

*Select all that apply (Must select at least one):*
- Fee-for-Service
  - Percentage of population represented:
- Primary Care Case Management (PCCM)
  - Percentage of population represented:
- Managed Care Organization/Prepaid Inpatient Health Plan (MCO/PIHP)
  - Number of health plans:
  - Percentage of population represented:
- Integrated Care Models (ICM)
  - Percentage of population represented:
- Other
  - Describe:
  - Percentage of population represented:
  - If applicable, number of health plans represented:

**Deviations from Measure Specifications:**

Did your calculation of this measure deviate from the measure specifications in any way?  
- Yes
- No

If yes, select all that apply:  
- Numerator. Explain:
- Denominator. Explain:
- Other. Explain:

**Performance Measure**

For Medicaid enrollees 18 years and older, the number of acute inpatient stays during the measurement year that were followed by an acute readmission for any diagnosis within 30 days and the predicted probability of an acute readmission. Data are reported in the following categories:

- Count of Index Hospital Stays (IHS) (denominator)
- Count of 30-Day Readmissions (numerator)
- Average Adjusted Probability of Readmission

Please see Table 1. & and Table 2 Below

**Additional notes/comments on measure. If using a risk-adjustment methodology, describe:**

**Other Performance Measure:**

If reporting with another methodology, please describe:

Numerator:
Denominator:
Rate:

If reporting with another methodology, and there are additional numerators, denominators and rates you want to report, please upload the information to the attachment facility, along with a brief description of the measure (e.g., “data reported for individuals in the 18-64 age range”).

**Optional Measure Stratification**

If there are other or additional racial, ethnic, sex, language, disability status, or geographic stratifications you want to report, please upload the numerator(s), denominator(s), and rate(s), along with a brief description of the stratification, to the attachment facility.

          - ☐ Requires data linkage which does not currently exist
          - ☐ Other:
        - ☐ Information not collected
          - Select all that apply:
            - ☐ Not identified as key priority area for this year
            - ☐ Not collected by provider (hospital/health plan)
            - ☐ Other:
        - ☐ Other:
        - ☐ Small sample size (less than 30)
        - Enter specific sample size:
        - ☐ Other. Explain:

**The information for this measure is being provided to meet the requirements for the Adult Medicaid Quality Measures Grant:**
- ☑ Yes (to fulfill grant requirement)
- ☐ No (this information is for voluntary core set reporting)
- ☐ Both (grant requirement and voluntary core set reporting)

**Status of Data Reported:**
- ☐ Provisional
- ☑ Final

**Measurement Specification:**
- ☑ NCQA
- Specify version of HEDIS used: 2013
- ☐ Other. Explain:

**Data Source:**
- ☑ Administrative Data Only
- From where is the Administrative Data coming?
  - ☑ Medicaid Management Information Systems (MMIS)
  - ☐ Other. Specify:
- ☐ Medical Records Data
- Must select one if Medical Records Data is selected:
  - ☐ Electronic Health Record (EHR) Data
  - ☐ Paper
  - ☐ Both (EHR and Paper)
  - ☐ Other: Specify:

**Date Range:**
- Start Date: (mm/yyyy) 01/2012
- End Date: (mm/yyyy) 12/2012

**Definition of Population Included in the Measure:**

**Definition of denominator:**
- Select all that apply:
  - ☑ Denominator includes Medicaid population
  - ☑ Denominator includes CHIP population (e.g. pregnant women).
  - ☑ Denominator includes Medicare and Medicaid Dually Eligible population.
### Performance Measure

The percentage of discharges for Medicaid enrollees age 21 years and older who were hospitalized for treatment of selected mental health disorders and who had an outpatient visit, an intensive outpatient encounter or partial hospitalization with a mental health practitioner. Two rates are reported:

- Percentage of discharges for which the patient received follow-up within 30 days of discharge.
- Percentage of discharges for which the patient received follow-up within seven days of discharge.

<table>
<thead>
<tr>
<th>Age Range</th>
<th>Follow-up within 30 days of discharge</th>
<th>Follow-up within 7 days of discharge</th>
</tr>
</thead>
<tbody>
<tr>
<td>Age Range: 21-64</td>
<td>Numerator: 418</td>
<td>Rate: 19.01</td>
</tr>
<tr>
<td>Age Range: 65 and older</td>
<td>Numerator: 749</td>
<td>Rate: 34.06</td>
</tr>
</tbody>
</table>

**Additional notes/comments on measure:** Rejected claims are included. Pending claims are excluded because they are adjudicated in sufficient time to not impact measurement. In compliance with the statement in the "Instructions" section of this report regarding small sample size in the denominator, since the denominator for those age 65 and older is less than 30 the data are not reported here.

**Other Performance Measure:**

If reporting with another methodology, please describe:

</table>

If Data Not Reported, Please Explain Why:

- Select all that apply (Must select at least one):
  - Service not covered
  - Population not covered
    - Entire population not covered
    - Partial population not covered
      Explain the partial population not covered:
  - Data not available
    Explain why data not available
  - Budget constraints
  - Staff constraints
  - Data inconsistencies/accuracy
    Please explain:
  - Data source not easily accessible
    Select all that apply:
    - Requires medical record review
    - Requires data linkage which does not currently exist
    - Other:
  - Information not collected
    Select all that apply:
    - Not identified as key priority area for this year
    - Not collected by provider (hospital/health plan)
    - Other:
  - Other:

- Small sample size (less than 30)
  Enter specific sample size:
  ☒ Other. Explain: For a number of years HFS has collected data that are used to program and report on a variety of measures. This effort was driven by HFS' interest in assessing the quality of care delivered to the populations we serve and for promoting continuous quality improvement in the healthcare delivery system. With the recent publication of the Adult Core Measures set in February 2013, HFS is reporting on only those measures that align between the core set and our currently available measures. Over the next year, HFS will investigate our capacity to program additional measures that may be submitted for FFY2014 reporting. The updated specifications (November 2013) state that "For FFY2014 reporting, this measure will require administrative data and medical record review". HFS must consider whether resources (e.g., financial, staff) exist to report measures that are based on medical record review.

The information for this measure is being provided to meet the requirements for the Adult Medicaid Quality Measures Grant:

- ☐ Yes (to fulfill grant requirement)
- ☐ No (this information is for voluntary core set reporting)
- ☒ Both (grant requirement and voluntary core set reporting)

Status of Data Reported:

- ☐ Provisional
- ☒ Final

Measurement Specification:

- ☐ The Joint Commission
- ☒ Other. Explain:

Data Source:

- ☐ Administrative Data Only
- From where is the Administrative Data coming?
  Must select one if Administrative Data is selected:
  - ☐ Medicaid Management Information Systems (MMIS)
  - ☒ Other. Specify:
- ☒ Medical Records Data
  Must select one if Medical Records Data is selected:
  - ☐ Electronic Health Record (EHR) Data
  - ☒ Paper
  - ☒ Both (EHR and Paper)
  - ☒ Hybrid (Administrative and Medical Records Data)
  - ☒ Other. Specify:

Date Range:
- Start Date: (mm/yyyy)
**End Date:** (mm/yyyy)

**Definition of Population Included in the Measure:**

**Definition of denominator:**

Select all that apply:
- Denominator includes Medicaid population
- Denominator includes CHIP population (e.g. pregnant women).
- Denominator includes Medicare and Medicaid Dually-Eligible population.
- Other. Specify:

Does this denominator represent your total eligible population as defined by the Technical Specifications for this measure?
- Yes
- No

**Which delivery systems are represented in the denominator?**

Select all that apply (Must select at least one):
- Fee-for-Service
- Primary Care Case Management (PCCM)
- Managed Care Organization/Prepaid Inpatient Health Plan (MCO/PIHP)
- Integrated Care Models (ICM)
- Other
  Describe:
  Percentage of population represented:
  If applicable, number of health plans represented:

**Deviations from Measure Specifications:**

Did your calculation of this measure deviate from the measure specifications in any way?
- Yes
- No

If yes, select all that apply:
- Numerator. Explain:
- Denominator. Explain:
- Other. Explain:

**Performance Measure**

The percentage of Medicaid and CHIP enrolled females at risk of preterm delivery at ≥24 and <32 weeks gestation that received antenatal steroids prior to delivering preterm newborns.

Numerator:
Denominator:
Rate:

**Additional notes/comments on measure:**

**Other Performance Measure:***

If reporting with another methodology, please describe:

Numerator:
Denominator:
Rate:

If reporting with another methodology, and there are additional numerators, denominators and rates you want to report, please upload the information to the attachment facility, along with a brief description of the measure (e.g. “data reported for individuals in the 18-64 age range”).

**Optional Measure Stratification**

If there are other or additional racial, ethnic, sex, language, disability status, or geographic stratifications you want to report, please upload the numerator(s), denominator(s), and rate(s), along with a brief description of the stratification, to the attachment facility.

**Race (non-Hispanic):**

## FFY 2013

### Definition of denominator:

Select all that apply:
- Denominator includes Medicaid population
- Denominator includes CHIP population (e.g. pregnant women).
- Denominator includes Medicare and Medicaid Dually-Eligible population.
- Other. Specify:

Does this denominator represent your total eligible population as defined by the Technical Specifications for this measure?
- Yes
- No

### Which delivery systems are represented in the denominator?

Select all that apply (Must select at least one):
- Fee-for-Service
- Primary Care Case Management (PCCM)
- Managed Care Organization/Prepaid Inpatient Health Plan (MCO/PIHP)
- Integrated Care Models (ICM)
- Other
  Describe:
  Percentage of population represented:

If applicable, number of health plans represented:

### Deviations from Measure Specifications:

Did your calculation of this measure deviate from the measure specifications in any way?
- Yes
- No

If yes, select all that apply:
- Numerator. Explain:
- Denominator. Explain:
- Other. Explain:

### Performance Measure

The percentage of Medicaid enrollees age 18 and older with a diagnosis of HIV/AIDS and with at least two medical visits during the measurement year, with a minimum of 90 and 180 days between each visit.

**FFY 2013**

Select all that apply:
- Denominator includes Medicaid population
- Denominator includes CHIP population (e.g. pregnant women).
- Denominator includes Medicare and Medicaid Dually-Eligible population.
- Other. Specify:

**Does this denominator represent your total eligible population as defined by the Technical Specifications for this measure?**
- Yes
- No

Which delivery systems are represented in the denominator?
*Select all that apply (Must select at least one):*
- Fee-for-Service
  - Percentage of population represented: 0
- Primary Care Case Management (PCCM)
  - Percentage of population represented: 0
- Managed Care Organization/Prepaid Inpatient Health Plan (MCO/PIHP)
  - Number of health plans: 0
  - Percentage of population represented: 0
- Integrated Care Models (ICM)
  - Percentage of population represented: 0
- Other
  - Describe:
  - Percentage of population represented:
If applicable, number of health plans represented:

**Deviations from Measure Specifications:**

Did your calculation of this measure deviate from the measure specifications in any way?
- Yes
- No

If yes, select all that apply:
- Numerator. Explain: HFS does not use LOINC.
- Denominator. Explain:
- Other. Explain:

**Performance Measure**
The percentage of Medicaid enrollees 18-75 years of age with diabetes (type 1 and type 2) who had a LDL-C screening test.

<table>
<thead>
<tr>
<th>Age Range</th>
<th>Numerator</th>
<th>Denominator</th>
<th>Rate</th>
</tr>

<td>3581</td>
<td>70.65</td>
</tr>
</tbody>
</table>

**Additional notes/comments on measure:** This measure is provisional since it is newly reprogrammed to conform to HEDIS® 2013 specifications and quality testing conducted by the Department is not fully complete. Any subsequent changes to the measure that result from quality testing will be included in FFY2014 reporting. Rejected claims are included. Pending claims are excluded because they are adjudicated in sufficient time to not impact measurement. The age range 65-75 includes only Medicaid and no CHIP-eligible recipients.

**Other Performance Measure:**
If reporting with another methodology, please describe:
- Numerator:
- Denominator:
- Rate:

If reporting with another methodology, and there are additional numerators, denominators and rates you want to report, please upload the information to the attachment facility, along with a brief description of the measure (e.g. “data reported for individuals in the 18-64 age range”).

**Optional Measure Stratification**
If there are other or additional racial, ethnic, sex, language, disability status, or geographic stratifications you want to report, please upload the numerator(s), denominator(s), and rate(s), along with a brief description of the stratification, to the attachment facility.

**Did you Report on this Measure?**
- ☑ Yes
- □ No

**If Data Not Reported, Please Explain Why:**
*Select all that apply (Must select at least one):*
- ☐ Service not covered
- ☐ Population not covered
  - ☐ Entire population not covered
  - ☐ Partial population not covered
  - Explain the partial population not covered:
- □ Data not available
  - Explain why data not available
- ☐ Budget constraints
- ☐ Staff constraints
- ☐ Data inconsistencies/accuracy
  - Please explain:
  - ☐ Data source not easily accessible
    - Select all that apply:
      - ☐ Requires medical record review
      - ☐ Requires data linkage which does not currently exist
      - ☐ Other:
    - ☐ Information not collected
      - Select all that apply:
        - ☐ Not identified as key priority area for this year
        - ☐ Not collected by provider (hospital/health plan)
        - ☐ Other:
  - ☐ Other:
- ☐ Small sample size (less than 30)
  - Enter specific sample size:
  - □ Other. Explain:

---

The information for this measure is being provided to meet the requirements for the Adult Medicaid Quality Measures Grant:
- ☑ Yes (to fulfill grant requirement)
- ☐ No (this information is for voluntary core set reporting)
- ☐ Both (grant requirement and voluntary core set reporting)

**Status of Data Reported:**
- ☑ Provisional
- □ Final

**Measurement Specification:**
- ☑ NCQA
  - Specify version of HEDIS used: 2013
- □ Other. Explain:

**Data Source:**
- ☑ Administrative Data Only
  - From where is the Administrative Data coming?
  - *Must select one or more if Administrative Data is selected:*
    - ☑ Medicaid Management Information Systems (MMIS)
    - □ Other. Specify:
  - ☐ Medical Records Data
    - *Must select one if Medical Records Data is selected:*
      - ☑ Electronic Health Record (EHR) Data
      - ☐ Paper
      - ☐ Both (EHR and Paper)
      - □ Hybrid (Administrative and Medical Records Data)
      - □ Other: Specify:
  - □ Other:

**Additional notes/comments on measure:**

**Other Performance Measure:**
If reporting with another methodology, please describe:

Numerator:  
Denominator:  
Rate:  

If reporting with another methodology, and there are additional numerators, denominators and rates you want to report, please upload the information to the attachment facility, along with a brief description of the measure (e.g. “data reported for individuals in the 18-64 age range”).

**Optional Measure Stratification**
If there are other or additional racial, ethnic, sex, language, disability status, or geographic stratifications you want to report, please upload the numerator(s), denominator(s), and rate(s), along with a brief description of the stratification, to the attachment facility.

**Measure: CAHPS Health Plan Survey 5.0H – Adult Questionnaire**

**FFY 2013**

<table>
<thead>
<tr>
<th>Did you Report on this Measure?</th>
</tr>
</thead>
<tbody>
<tr>
<td>☒ Yes</td>
</tr>
<tr>
<td>☐ No</td>
</tr>
</tbody>
</table>

**If Data Not Reported, Please Explain Why:**

*Select all that apply (Must select at least one):*

- ☐ Service not covered  
- ☐ Population not covered  
  - ☐ Entire population not covered  
  - ☐ Partial population not covered  
  
  **Explain the partial population not covered:**

- ☐ Data not available  
  
  **Explain why data not available:**

  - ☐ Budget constraints  
  - ☐ Staff constraints  
  - ☐ Data inconsistencies/accuracy  

  **Please explain:**

  - ☐ Data source not easily accessible  
    
    **Select all that apply:**

    - ☐ Requires medical record review  
    - ☐ Requires data linkage which does not currently exist  
    - ☐ Other:  

  - ☐ Information not collected  
    
    **Select all that apply:**

    - ☐ Not identified as key priority area for this year  
    - ☐ Not collected by provider (hospital/health plan)  
    - ☐ Other:  

  - ☐ Other:  

  - ☐ Small sample size (less than 30)  
  
  **Enter specific sample size:**

  - ☒ Other. Explain: While CAHPS is conducted within plans serving the adult population, the aggregate data are not available to report at this time. Over the next year, HFS will investigate our capacity to report summary rates in FFY2014 as specified in the Adult Core Measures.

**The information for this measure is being provided to meet the requirements for the Adult Medicaid Quality Measures Grant:**

- ☒ Yes (to fulfill grant requirement)  
- ☐ No (this information is for voluntary core set reporting)  
- ☒ Both (grant requirement and voluntary core set reporting)  

**Measurement Specification:**

- ☒ AHRQ & NCQA  
- ☐ Other. Explain:  

**Data Source:**

- ☒ CAHPS 5.0H  
- ☐ Other  

**Which Supplemental Item Sets were Included in the Survey?**

- ☐ No supplemental item sets were included  
- ☒ Supplemental items for Adult Survey 5.0H  
- ☐ Other CAHPS item set  

**Which Administrative Protocol was Used to Administer the Survey?**

- ☒ NCOA HEDIS CAHPS 5.0H administrative protocol  
- ☒ AHRQ CAHPS administrative protocol  
- ☐ Other administrative protocol  

**Definition of Population Included in the Measure:**

**Definition of denominator:**

*Select all that apply:*  

- ☒ Denominator includes Medicaid population  
- ☒ Denominator includes CHIP population (e.g. pregnant women).  
- ☒ Denominator includes Medicare and Medicaid Dually-Eligible population.  
- ☐ Other. Specify:  

Please submit a CAHPS summary report to CMS using the CARTS attachment facility (Note: do NOT submit raw CAHPS data to CMS). States should calculate survey results for two age groups (as applicable): ages 18 to 64 and ages 65 and older.
Measure: Care Transition – Transition Record Transmitted to Health Care Professional

**FFY 2013**

<table>
<thead>
<tr>

If Data Not Reported, Please Explain Why:
Select all that apply (Must select at least one):

- ☑ Service not covered
- ☑ Population not covered
  - ☑ Entire population not covered
  - ☑ Partial population not covered
  - Explain the partial population not covered:

- ☑ Data not available
  - Explain why data not available
  - ☑ Budget constraints
  - ☑ Staff constraints
  - ☑ Data inconsistencies/accuracy
  - Please explain:
  - ☑ Data source not easily accessible
    - Select all that apply:
      - ☑ Requires medical record review
      - ☑ Requires data linkage which does not currently exist
      - ☑ Other: The numerator definition for this measure is "Patients for whom a transition record was transmitted to the facility or primary physician or other health care professional designated for follow-up care within 24 hours of discharge." Currently, HFS does not gather the necessary data to identify the numerator population.
    - ☑ Information not collected
      - Select all that apply:
        - ☑ Not identified as key priority area for this year
        - ☑ Not collected by provider (hospital/health plan)
        - ☑ Other:
          - ☑ Other:
          - ☑ Small sample size (less than 30)
          - Enter specific sample size:
          - ☑ Other. Explain:

The information for this measure is being provided to meet the requirements for the Adult Medicaid Quality Measures Grant:
☐ Yes (to fulfill grant requirement)
☐ No (this information is for voluntary core set reporting)
☐ Both (grant requirement and voluntary core set reporting)

Status of Data Reported:
☐ Provisional
☐ Final

Measurement Specification:
☐ AMA/PCPI
☐ Other. Explain:

Data Source:
☐ Administrative Data Only
From where is the Administrative Data coming?
Must select one or more if Administrative Data is selected:
  - ☑ Medicaid Management Information Systems (MMIS)
  - ☑ Other. Specify:
☐ Medical Records Data
Must select one if Medical Records Data is selected:
  - ☑ Electronic Health Record (EHR) Data
  - ☑ Paper
  - ☑ Both (EHR and Paper)
  - ☑ Other. Specify:

Date Range:
Start Date: (mm/yyyy)
End Date: (mm/yyyy)

Definition of Population Included in the Measure:

Definition of denominator:
Select all that apply:
  - ☑ Denominator includes Medicaid population
  - ☑ Denominator includes CHIP population (e.g. pregnant women).
### FFY 2013

- Denominator includes Medicare and Medicaid Dually-Eligible population.
- Other. Specify:

Does this denominator represent your total eligible population as defined by the Technical Specifications for this measure?
- Yes
- No

Which delivery systems are represented in the denominator?
*Select all that apply (Must select at least one):*
- Fee-for-Service
  - Percentage of population represented:
- Primary Care Case Management (PCCM)
  - Percentage of population represented:
- Managed Care Organization/Prepaid Inpatient Health Plan (MCO/PIHP)
  - Number of health plans:
    - Percentage of population represented:
- Integrated Care Models (ICM)
  - Percentage of population represented:
- Other
  - Describe:
    - Percentage of population represented:
  - If applicable, number of health plans represented:

### Deviations from Measure Specifications:

Did your calculation of this measure deviate from the measure specifications in any way?
- Yes
- No

If yes, select all that apply:
- Numerator. Explain:
- Denominator. Explain:
- Other. Explain:

### Performance Measure

Percentage of Medicaid enrollees age 18 years and older discharged from an inpatient facility to home or any other site of care for whom a transition record was transmitted to the facility or primary physician or other health care professional designated for follow-up care within 24 hours of discharge.

   Select all that apply:
   ☐ Not identified as key priority area for this year
   ☐ Not collected by provider (hospital/health plan)
   ☐ Other:
☐ Other:
☐ Small sample size (less than 30)
   Enter specific sample size:
☒ Other. Explain: For a number of years HFS has collected data that are used to program and report on a variety of measures. This effort was driven by HFS’ interest in assessing the quality of care delivered to the populations we serve and for promoting continuous quality improvement in the healthcare delivery system. With the recent publication of the Adult Core Measures set in February 2013, HFS is reporting on only those measures that align between the core set and our currently available measures. Over the next year, HFS will investigate our capacity to program additional measures that may be submitted for FFY2014 reporting.

The information for this measure is being provided to meet the requirements for the Adult Medicaid Quality Measures Grant:
☐ Yes (to fulfill grant requirement)
☐ No (this information is for voluntary core set reporting)
☐ Both (grant requirement and voluntary core set reporting)

- Denominator. Explain:
- Other. Explain:

### Performance Measure

Percentage of Medicaid enrollees age 18 and older with a new episode of alcohol or other drug (AOD) dependence who received the following. Two rates are reported:

- Initiation of AOD Treatment: The percentage of Medicaid enrollees who initiated treatment through an inpatient AOD admission, outpatient visit, intensive outpatient encounter or partial hospitalization within 14 days of the diagnosis.
- Engagement of AOD Treatment: The percentage of Medicaid enrollees who initiated treatment and who had two or more additional services with a diagnosis of AOD within 30 days of the initiation visit.

**Initiation of AOD Treatment (ages 18-64)**

- Numerator:
- Denominator:

**Measure: Postpartum Care Rate**

**FFY 2013**

**Did you Report on this Measure?**
- Yes
- No

**If Data Not Reported, Please Explain Why:**
*Select all that apply (Must select at least one):*
- Service not covered
- Population not covered
  - Entire population not covered
  - Partial population not covered
  - Explain the partial population not covered:

**Additional Reasons:**
- Data not available
- Explain why data not available
- Budget constraints
- Staff constraints
- Data inconsistencies/accuracy
  - Please explain:
    - Data source not easily accessible
      - *Select all that apply:*
        - Requires medical record review
        - Requires data linkage which does not currently exist
        - Other:
      - Information not collected
        - *Select all that apply:*
          - Not identified as key priority area for this year
          - Not collected by provider (hospital/health plan)
          - Other:
        - Other:
- Small sample size (less than 30)
  - Enter specific sample size:
  - Other. Explain:

**The information for this measure is being provided to meet the requirements for the Adult Medicaid Quality Measures Grant:**
- Yes (to fulfill grant requirement)
- No (this information is for voluntary core set reporting)
- Both (grant requirement and voluntary core set reporting)

**Status of Data Reported:**
- Provisional
- Final

**Measurement Specification:**
- NCQA
  - Specify version of HEDIS used: 2013
  - Other. Explain:

**Data Source:**
- Administrative Data Only
  - From where is the Administrative Data coming?
  - *Must select one or more if Administrative Data is selected:*
    - Medicaid Management Information Systems (MMIS)
    - Hybrid (Administrative and Medical Record Data)
    - Other. Specify:

**Date Range:**
- Start Date: (mm/yyyy) 11/2011
- End Date: (mm/yyyy) 11/2012

**Definition of Population Included in the Measure:**

**Definition of denominator:**
*Select all that apply:*
- Denominator includes Medicaid population
- Denominator includes CHIP population (e.g. pregnant women).
- Denominator includes Medicare and Medicaid Dually-Eligible population.
- Other. Specify:

**Does this denominator represent your total eligible population as defined by the Technical Specifications for this measure?**
- Yes
- No

**Which delivery systems are represented in the denominator?**
*Select all that apply (Must select at least one):*
### FFY 2013

- **Fee-for-Service**
  - Percentage of population represented: 0
- **Primary Care Case Management (PCCM)**
  - Percentage of population represented: 0
- **Managed Care Organization/Prepaid Inpatient Health Plan (MCO/PIHP)**
  - Number of health plans: 0
  - Percentage of population represented: 0
- **Integrated Care Models (ICM)**
  - Percentage of population represented: 0
- **Other**
  - Describe:
    - Percentage of population represented:

### Deviations from Measure Specifications:

Did your calculation of this measure deviate from the measure specifications in any way?
- **Yes**
- **No**

If yes, select all that apply:
- **Numerator. Explain:** HFS does not use LOINC.
- **Denominator. Explain:**
- **Other. Explain:**

### Performance Measure

The percentage of deliveries of live births between November 6 of the year prior to the measurement year and November 5 of the measurement year who had a postpartum visit on or between 21 and 56 days after delivery.

| Numerator | 43684 |
| Denominator | 78719 |
| Rate | 55.49 |

### Additional notes/comments on measure

This measure is provisional since it is newly reprogrammed to conform to HEDIS® 2013 specifications and quality testing conducted by the Department is not fully complete. Any subsequent changes to the measure that result from quality testing will be included in FFY2014 reporting. Rejected claims are included. Pending claims are excluded because they are adjudicated in sufficient time to not impact measurement.

### Other Performance Measure:

If reporting with another methodology, please describe:

- **Numerator:**
- **Denominator:**
- **Rate:**

If reporting with another methodology, and there are additional numerators, denominators and rates you want to report, please upload the information to the attachment facility, along with a brief description of the measure (e.g. “data reported for individuals in the 18-64 age range”).

### Optional Measure Stratification

If there are other or additional racial, ethnic, sex, language, disability status, or geographic stratifications you want to report, please upload the numerator(s), denominator(s), and rate(s), along with a brief description of the stratification, to the attachment facility.

- **Race (non-Hispanic)**
  - **White**
    - Numerator:
    - Denominator:
    - Rate:
  - **Black or African American**
    - Numerator:
    - Denominator:
    - Rate:
  - **American Indian or Alaska Native**
    - Numerator:
    - Denominator:
    - Rate:
  - **Asian**
    - Numerator:
    - Denominator:
    - Rate:
  - **Native Hawaiian or Other Pacific Islander**
    - Numerator:
    - Denominator:
    - Rate:

- **Ethnicity**
  - **Hispanic or Latino**
    - Numerator:
    - Denominator:
    - Rate:
  - **Not Hispanic or Latino**
    - Numerator:
    - Denominator:
    - Rate:

- **Primary Spoken Language**
  - **English**
    - Numerator:
    - Denominator:
  - **Spanish**
    - Numerator:
    - Denominator:
