

Medicaid Redetermination Data

I. Case Level Maximus Related Redetermination Activity Summary (reflects month in which action was taken)

<i>State Decision</i>	May	June	July	3 Month Total	FY17	FY17 Percent
Continue	33,575	26,686	21,313	81,574	21,313	38%
Change	6,908	5,773	6,086	18,767	6,086	11%
Cancel	27,420	28,262	29,217	84,899	29,217	52%
Reason for Cancellation						
% Lack of Response	74%	77%	82%		82%	
% Other	26%	23%	18%		18%	
TOTAL	67,903	60,721	56,616	185,240	56,616	

II. Summary Case Level Activity for all Redeterminations

	May	June	July	3 Month Total	FY17
Total W/ Maximus Involvement	67,903	60,721	56,616	185,240	56,616
Continuation/Change	40,483	32,459	27,399	100,341	27,399
Initial Cancellations	27,420	28,262	29,217	84,899	29,217
Total W/o Maximus Involvement	93,666	98,392	77,712	269,770	77,712
Continuation/Change	78,695	78,983	61,044	218,722	61,044
Initial Cancellations	14,971	19,409	16,668	51,048	16,668

III. Individual Level Cancellation Data

	May	June	July	FY17
Total Initial Cancellations	65,477	73,627	71,832	71,832
Return from Cancellation	14,142	13,024	8,695	8,695
Net Cancellations	51,335	60,603	63,137	63,137
% persistent after 1 month	83%	89%	88%	
% persistent after 2 months	83%	82%	---	
% persistent after 3 months	78%	---	---	

NOTES:

Maximus system data based on August 1, 2016 data extract; EDW data based on August 5, 2016 extract. Data covers fiscal year 2017 of IMRP, which started in July, 2016. Attribution to a month reflects the month in which decision was made, not necessarily the month in which the decision was effective.

Notes on individual sections follow:

I. Case level data from Maximus system

a. There are small fluctuations in determinations completed for previous months due to determinations completed retroactively.

II. Case level data from both Maximus system for those cases in which Maximus was involved (primarily cases without benefits in addition to Medicaid) and from EDW for those in which Maximus was not involved (cases with other benefits in addition to Medicaid). Lower cancellation rate for clients who have additional benefits (primarily SNAP) reflects the fact these clients return information more promptly because the loss of food support is much more immediate. Medicaid tends to be regarded as a benefit accessed when needed. (For the same reason, the more a client uses Medicaid, the more likely information will be returned promptly.)

III. Data is at individual level from EDW. Table shows that a significant number of clients return to the rolls, some of them fairly immediately when they present required information.
