### Public Notice – Integrated Assessment and Treatment Planning

On August 1, 2018, the Department of Healthcare and Family Services (HFS) introduced the service of Integrated Assessment and Treatment Planning (IATP) into the community behavioral health service array. IATP is an integrated service that ensures an individual's assessment of needs and strengths are clearly documented and lead to specific treatment recommendations.

**More information on IATP can be found online at the HFS website: [HFS IATP Link](#)**

HFS will be presenting informational webinars to outline the service requirements, including the training and implementation process associated with the rollout of this new service. Members of the public who are interested in further understanding this service and the implementation process are invited to participate.

A server issue resulted in one of the previously offered Webinars being canceled. HFS is offering an additional date and time in response. The content for each webinar session will be **identical** and questions will be accepted with answers posted to the HFS website in the form of a Frequently Asked Questions (FAQ) document.

Individuals interested in attending an Integrated Assessment and Treatment Planning (IATP) webinar must **pre-register by following the link below** to the webinar they plan to attend. Following registration, instructions on accessing the webinar will be emailed to participants.

#### **Webinar Schedule:**

Monday, August 13, 2018

1:00 pm - 2:00 pm
