

**A. Description**

This is a legislatively mandated (PA098-0690, Sec. 6.3) provider-level report of blood lead screenings and results for children who received EPSDT/Well Child screenings within a given measurement (calendar) year. Providers are identified in the report using their NPI. Providers having more than one NPI are identified using the minimum NPI number assigned to them.

Provides two percentages:

- **Blood Lead Screening Percentage:** The number of children given an EPSDT/Well Child visit by a provider (denominator) who were also given a blood lead screen (numerator), regardless of the provider who conducted the lead screen.
- **Elevated Blood Lead Level Percentage:** The number of children given a blood lead screen and who have a blood lead level result available using DPH data (denominator) having an elevated blood lead level (EBLL) (numerator).

**B. Eligible Population**

Enrollment	Medical/Full Benefit enrollment on the anchor date
Age	≤ 6 years of age on the anchor date
Anchor Date	Dec 31
Event Diagnosis	EPSDT screening (Table LDP-A) in the measurement year
Provider Of Record	The provider of the EPSDT screening. A recipient receiving EPSDT screenings from multiple providers will be included in the data for more than one provider.

**C. Blood Lead Screenings**

Denominator	The Eligible Population
Numerator	The number with a blood lead screen in the measurement year (Table LDP-B). Lead screens are attributed to any provider of an EPSDT visit for the child regardless of the provider who performed the lead screen.

**D. Blood Lead Results**

Denominator	The Eligible Population given a blood lead screen and having an identified result in DPH blood lead data (these are the only ones for which results can be identified)
Numerator	The number with a confirmed EBLL (Table LDP-C). (DPH lead table, Confirm Flag = C or F; collected date = confirm date).

Claims: Include rejected claims; exclude voided claims.

**Table LDP-C DPH Confirm Type**

IDPH Confirm Flag Type	Counts as EBLL?
C - Confirmed EBL	Yes
F - Follow-up /Dup Record *	Yes
0 - Confirm not needed	No
1 - 1st request	No
2 - 2nd request	No
3 - 3rd request	No
4 - 4th request	No
5 - 5th request	No
E - Confirm pending error	No
P - Confirm pending	No
N - Confirmed non-EBL	No
R - Case follow-up <15	No
S - Case follow-up >14	No

Data from IDPH laboratory – “Y” indicates the IDPH confirmation types that indicate an elevated blood lead level.
