Veterans Care <http://www.illinoisveteranscare.com/income.html>

*Illinois has three Medicare Savings Programs for qualified beneficiaries:

- 1) Qualified Medicare Beneficiary (QMB) with eligibility levels shown above;
- 2) Specified Low-Income Medicare Beneficiary (SLIB/SLMB) who are eligible if income is less than 120% FPL (\$982- \$1,176 for household of 1, add \$416 for each additional person), and
- 3) Qualified Individuals (QI-1) who are eligible if income is less than 135% FPL (\$1,177 - \$1,323 for household of 1, add \$468 for each additional person). QI1 individuals who meet spenddown to qualify for Medicaid are not eligible for QI1 in any month in which they are Medicaid eligible. If someone is eligible for any of these programs, Illinois Medicaid may pay some or all of the eligible individual's Medicare cost-sharing expenses including premiums, deductibles and coinsurance.
