This population forecast reflects the Department's efforts to improve the method for projecting prison population utilizing a simulation tool that includes past experience and policy changes. Conceptually, the model is designed around the movement of individuals through the prison system. The data reflect Fiscal Year 2014 experience. The underlying assumptions are:

1. New felony admissions, based on average growth rates by class of crime and gender were decreased by -4.7% (-5.1% for males and -1.6% for females).
2. Defaulter admissions (technical violations and new offense violations) were based on the probability (violation rate) that 31.4% of all inmates on supervision will violate supervision and be returned to prison. The violation rate is computed by adding the percent of new offense violators (6.8%) with the percent of technical violators (24.6%).
3. Admissions were seasonally adjusted based on the past ten years' average percentage distribution by month.
4. Offense class distributions were based on actual distributions of admissions by class of crime for Fiscal Year 2014 as reported in the Offender Tracking System (OTS).
5. Sentence estimates for new admissions were based on the Fiscal Year 2014 actual distribution of sentence lengths by offense class. These data were obtained from OTS.
6. All eligible inmates will receive their day-for-day good time, reduced by the average net revoked/restored days for each offense class.
7. Jail credits and probation credits were based on actual admission distribution of Fiscal Year 2014 OTS data by offense class.
8. An average of 36 days good conduct credit for behavioral adjustment and program services participation of SSC/ED/ET/GED (good conduct credit types) per inmate will be awarded.
9. Projected exits for inmates in the current population as of June 30, 2014 were based on the sentence calculation module of OTS. For those with indeterminate sentences, it was assumed that those inmates who have yet to see the Prisoner Review Board on the minimum sentence will exit on their projected maximum release date.
10. As a result of Public Act 90-593, certain offenders will serve a greater proportion of their sentence if their crime was committed after the effective date of June 19, 1998, and their offense is provided under the Rules and Regulations for Early Release (730 ILCS 5/3-6-3). These Truth-in-Sentencing admissions are gradually phased in over the duration of the projections.
