

To: Medical Radiation Technologists

From: Paul H. Brown, Supervisor
Technologist Accreditation Program

Subject: Informational Notice: Electronic Renewal Notification for Medical
Radiation Technologists

Date: December 1, 2009

Beginning in January 2010 (for February renewals), the Agency will implement a new electronic notification system for renewal of technologist accreditations. In an effort to reduce our environmental impact as well as costs, we will only send a paper renewal form to technologists that do not have an email address on file with the Agency. If an electronic renewal notice is received, technologists will have the option of printing out the renewal form to mail with a check, or being directed to the Agency's on-line renewal system (which requires a valid checking account).

Technologists wishing to examine their current email address, or add/change/delete an email address, may do so by accessing the Medical Radiation Technologist Services log-in screen at iema.illinois.gov/radiation/accredit.asp or by contacting the Agency's technologist accreditation section at 217-785-9913.

Thank you for your cooperation in this matter. As always, if you have any additional questions or concerns please feel free to contact me at 217-785-9978 or at paul.h.brown@illinois.gov.
