State of Illinois
Department of Public Health

General Information

AmeriCorps is a national service program that involves people in "getting things done" in communities. AmeriCorps Members develop an ethic of service while strengthening local communities. Illinois has 26 AmeriCorps*State programs in operation for the 2014-2015 program year and nearly 1700 Members committing to a year of service. These Members serve over 60 counties in close to 300 host sites. The charge of individual AmeriCorps programs are determined by the local needs of communities with many focusing on education, human service and support needs, environmental quality, public health, or public safety.

AmeriCorps*State programs are administered by the Serve Illinois Commission on Volunteerism and Community Service. The mission of Serve Illinois is to improve Illinois communities by supporting and enhancing volunteerism and community service. Serve Illinois strives to realize its mission through the engagement of communities, schools, businesses, governmental entities, and faith and community-based organizations in the implementation of volunteerism, national service, and community service goals. As a Governor-appointed commission of the State of Illinois housed within the Illinois Department of Public Health, the staff and commissioners of Serve Illinois seek to maintain a high level of statewide engagement, promotion, and successful completion of the volunteerism and community service priorities identified and approved annually by Serve Illinois.

AmeriCorps/East St. Louis Lessie Bates Davis Neighborhood House

Program Description:

AmeriCorps East St. Louis/Lessie Bates Davis Neighborhood House (the Neighborhood House) is designed to improve the academic skills of the students in District 189 by all means possible. AmeriCorps East St. Louis is designed to address a broad range of community needs by addressing the following: 1) Education: understanding that children must obtain a good education, graduate from high school, and pursue post-secondary education programs; 2) Fighting Hunger: In the St. Clair County alone, research demonstrates that food insecurity leads to poor academic performance; therefore we seek alternatives by means of providing food through our food pantry to those in need--which is approximately 15,800 persons who live in extreme poverty throughout the county and 3) Building Capacity: in this focus area we are working to build character among Corps Members and youth in our community and aligning them on a positive trajectory to becoming self-sufficient while grooming our future leaders. In addition, our Corps Members are actively engaged in District 189 students' academic assistance, also our Corps Members actively operate a food pantry in the community and complete a variety of other community service projects that will lead to positive and meaningful outcomes.
