

**ILLINOIS DEPARTMENT OF PUBLIC HEALTH
2006 LONG-TERM CARE FACILITY PROFILES
PREFACE**

All long term care facilities in Illinois are required to complete the annual Long-Term Care Facility Questionnaire in accordance with the Illinois Health Facilities Planning Act (20 ILCS 3960/). The questionnaire was sent by e-mail or regular mail to all long term care facilities in the Illinois Health Facilities Inventory by February 23, 2007 with a return date of April 12, 2007. Facilities that did not return their questionnaires by April 12, 2007 received a certified letter informing them that they had been put on our non-compliance list and that referrals would be made to the Health Facilities Planning Board for the issuance of fine, for those facilities who did not submit their complete questionnaires by April 30, 2007.

Differences from Previous LTC Questionnaires

Part II of the questionnaire is different from past years, in asking for the most recent fiscal year information rather than calendar year data. In addition, financial questions have been standardized between the ASTC, Long Term Care and Hospital questionnaires.

Validation and Compilation of Data

Once submitted, the questionnaires are checked for data irregularities in regards to low occupancy rates, room rates, staffing and matching of patients on the last day of the year. Facilities with irregularity in room rates, staffing and matching numbers for patients automatically received calls from staff. Low occupancy rates (anything less than 65 percent) are checked against the previous year profile to see if it is a trend. If not, the facility is then called by staff to verify the total patient days for the calendar year.

Summary reports are run to make sure data matches in the appropriate places and averages for any data are in acceptable ranges. If not, suspect data is identified and either verified or corrected by the appropriate facility.

Data for patient days is for the entire calendar year. Staffing numbers are for all full time equivalent employee positions for the first pay period of December. All patient demographic information is for residents in the facility on December 31, 2007.

At the time of this posting, the financial data collection and data validation is not complete. Results of the Part-II will be posted at the later time.
