Dear Mr. Galassie:

I write this letter to support the University of Illinois Medical Center at Chicago (UIMCC) in its Certificate of Need (CON) application to modernize its facility.

As the leader of a neighboring healthcare organization, I am familiar with the need to provide high quality patient care, education, and research to those in our community. Additionally, I am also aware of the unique challenges associated with meeting those important missions in an aging facility. The University of Illinois Medical Center at Chicago has created a plan to modernize its facilities which we not only support but know is critical to allowing UIMCC to continue to fulfill the role it plays in the Illinois Medical District.

Sincerely,

Larry J. Goodman, MD

Dear Mr. Galassie:

The University of Illinois Medical Center at Chicago (UIMCC) is a valuable partner in helping our organization provide high quality health care to the men and women who served our country.

UIMCC provides faculty members in a variety of areas to help us care for our patients. In addition to offering valuable assistance through their Cardiac Catheterization and Electrophysiology Lab services, UIMCC supplies the mammography and radiation therapy services our patients need as well.

As UIMCC looks to modernize its facility, we highly support their application for a Certificate of Need.

Sincerely,

HEALTH FACILITIES &
SERVICES REVIEW BOARD

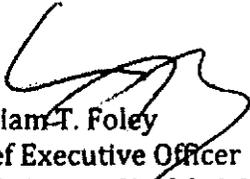

Dear Mr. Galassie:

As a fellow member of the Illinois Medical District, the University of Illinois Medical Center at Chicago (UIMCC) plays a key role in providing care to those living in the near west and south side Chicago communities. In addition, UIMCC engages in significant training of medical professionals and houses valuable research of wide value to the community.

The physical infrastructure improvement plans of UIMCC appear to provide a cost-effective and sensible solution for overcoming its longstanding facility-related challenges.

Cook County Health and Hospitals System supports the University of Illinois Medical Center at Chicago in its application for a Certificate of Need.

Sincerely,

William T. Foley
