Re: Dialysis Project 10-066

Dear respected Mr. Dale Galassie and Illinois Health Facilities Board Members

My name is Ms. Clementine Brown I am receiving dialysis at Plainfield dialysis. I live at 22 E Clinton St Apt 307501, Joliet, IL, 60432. I am two minutes away from where the proposed new location will be at. some times it could take me more than one hour to go to plainfield dialysis there is so much traffic and construction and snow it makes it difficult for me. I would be thank full to god if this new dialysis center opens, god bless you.

Clementine Brown

Re: CON Project 10-066

Dear Mr. Dale Galassie

I am a dialysis Patient and I am 77 years old, currently receiving treatment at Fresenius Medical Care Plainfield. I reside at Lockport and am having to travel to Plainfield 3 times a week, which is very hard for me to do especially in the winter. I tried to go to Silver Cross Dialysis in the east side of Joliet and they mentioned to me there is a waiting list and I would have to wait. I feel this clinic is greatly needed for the dialysis patients who live in this area. I was not able to get a schedule at any other dialysis clinic in Joliet and it is hard on me to travel to Plainfield for dialysis three times each week.

If you would approve this project I would be greatly indebted to you. If you would like to talk to me in regards to this my phone number is (815) 838-2728

Sincerely,

James Raue
Dialysis patient at Plainfield FMC

Re: Project# 10-066

Dear Mr. Galassie & Members of the Illinois Health Facilities & Services Review Board:

I am a dialysis patient currently receiving treatment at Fresenius Medical Care Plainfield. I live in Lockport in the community where Fresenius Medical Care is attempting to build a new dialysis clinic. I feel this clinic is greatly needed for the dialysis patients who live in this area. I was not able to get a schedule at any other dialysis clinic in Joliet and it is hard on me to travel to Plainfield for dialysis three times each week.

If I could be treated closer to where I live, being on dialysis would be much easier for me. I would not spend so much time traveling each week, especially when I do not feel well after treatment. It would be much easier for me to get rides also.

Sincerely,

Chad Aggen

RE: Project #10-066

Dear Mr. Galassie & Members of the Illinois Health Facilities & Services Review Board:

I am the City Councilwomen for District 4 and a Chairperson with the Joliet Housing Authority

It has been brought to my attention that Fresenius Medical Care has applied to open a dialysis facility on the east side of Joliet. When I first heard the news I was very strongly supportive of the project.

A dialysis facility on the eastside will be a great benefit to the people whom live in the area that doesn't have to travel a long distant to get there treatment. They would save time and money each week traveling to there destination. We have so many people that is on dialysis that the facilities are getting over crowded and some patients are getting routed to another location which is to far to travel.

Having this establishment would be a great place for our community. It would also benefit the residents and bring jobs to the area. Rebuilding the community would be a plus.

Sincerely,

Susie Barber
