To the attention of the State Hospital regulatory board chairman....

My wife and I are 68 years old. We moved from West Chicago from a home which was in the shadow of Central DuPage center.

When we bought our home in unincorporated Huntley, we weren't aware that the Centegra facility on Haligus road was not a full service facility. We were thrilled to find that a plan to build a "real" hospital was in the works. We have been let down by the board in denying the construction of the new facility. The distance to Sherman Hospital is way to far for us. Many of our neighbors are retired and in need of a facility nearby. The folks in Del Webb's Sun City are also being short-changed. I urge you to reconsider the 8-1 decision and allow construction of the new Centegra hospital.

Thank You...Gail & Jerry Miers/ Huntley, Illinois
