RE: Transitional Care Center of Arlington Heights - Application for Certificate of Need

Dear Review Board Members:

I am opposed to the granting of a certificate of need to Transitional Care Center of Arlington Heights. Transitional Care Center has requested a certificate of need to build a long term care facility located at 1200 N. Arlington Heights Road, Arlington Heights, IL.

I believe Arlington Heights lacks any demand for a long term care facility. Arlington Heights and communities surrounding already meet the current demands for these type of facilities. The granting of a certificate of need should only be granted if an applicant can justify that this type of facility is financially and economically feasible. I do not believe the Transitional Care Center meets these justifications. As it simply exasperates the existing market.

Numerous companies located in Arlington Heights already own and run more than 500 beds in the area. Too many facilities like this can be harmful to a community. Who is to say that if Transitional Care Center is allowed to build that they would not hurt the surrounding centers offering the same care; centers that have a long history in Arlington Heights. To my knowledge the citizens of Arlington Heights have no complaints about the current long care centers services or availability.

Thank you for the opportunity to share my opinion. Please take my concerns seriously and do not grant Transitional Care Center of Arlington Heights a certificate of need.

Sincerely,

K. Smetana

Arlington Heights Petition in Opposition of Transitional Care Management's Certificate of Need for a Long Term Care Facility

We the undersigned residents of Arlington Heights urge the Illinois Health Facilities and Service Review Board to reject Transitional Care Management's request for a Certificate of Need (CON). If granted a CON, Transitional Care Management will be allowed to move forward their proposal to build a new 120-bed general long term care facility.

Mr. Mike Constantino
Supervisor, Project Review Section
Illinois Health Facilities and Services Review Board
525 W. Jefferson St., 2nd Floor
Springfield, IL 62761

Dear Mr. Constantino and Review Board Members:

I'm writing today to express my opposition to the granting of any Certificate of Need to the Transitional Care Center of Arlington Heights. It was recently shown that the area is already operating below capacity, in fact, 25% below capacity. In order to accommodate such a new facility the 'need' would have to jump up more than 25% and that seems extremely unrealistic.

Although I generally support competition, it seems like your board was created to address problems just like this one. In the health industry, if there's not a need, there shouldn't be a facility. I trust you will come to these same conclusions through thorough research and analysis.

I appreciate your time and consideration.

Sincerely,

D. CARY

713 N. PATTON

April 22, 2011

To The Illinois Health Facilities & Services Review Board,

The 70,000 square foot transitional care center proposed for the AT&T building seems to provide a very niche service in an area that is already providing such a service. While I understand the need for such a facility, I do not understand the need for an *abundance* of such structures. Moreover, it seems to me that building such a large building in that area that service only a select few is in appropriate.

Research indicates that there is no need for such a facility and I am writing to request that you do not grant a certificate of need to the development team of Mr. Cloch and Mr. Schreiber.

Thank you.

Sincerely,

Ann Christensen 725 M Patton AH

Illinois Health Facilities & Services Review Board
525 W. Jefferson St., 2 Floor
Springfield, IL 62761

Dear Review Board Members:

We owe it to existing and proven businesses in our community to oppose any such new Transitional Care Center in Arlington Heights. As a resident of Arlington Heights and a supporter of local businesses, I do not think it makes sense to bring in unneeded new business that will likely harm those care facilities already in town.

I am writing to ask that you deny a certificate of need approval for the proposed transitional care center proposed for the AT&T site.

Respectfully,

Mikca Nikolice

Re: Certificate of Need

I am a resident of Arlington Heights, IL and recently discovered that there is a request to build another health care facility that deals with patients who need longer term care outside of a hospital. At its face it seems like a solid concept but in reality such a development would represent an unnecessary service.

In this area it is quite clear that we already have AMPLE care centers like the one proposed. As a community we could use this land for other purposes where a need exists. I encourage you to deny any request for a 'certificate of need' for the proposed development at the old AT&T site on 1200 N Arlington Heights Road.

Thank you.
