Illinois Department of Public Health  
525 West Jefferson Street, Second Floor  
Springfield, IL 62761

Dear Ms. Avery:

This letter is written in support of the application of Randy S. Morris, M.D., for a Certificate of Need to build an integrated surgery center and center for fertility treatment, jointly called the Naperville Fertility Center, Inc. Dr. Morris completed his subspecialty training at our institution and since that time has become a well-respected member of our profession.

As the field of Assisted Reproductive Technology (ART) has progressed, it has become clear that a dedicated surgery center is an essential component of a successful program. This is because the needs of assisted reproduction – not only sterility and quality control, but also lack of embryo-toxicity, and critical timing of procedures are not available in a standard surgery center. Many ART programs, including our own, have built and currently operate these self-contained surgery centers and dedicated fertility treatment centers which encompass the operating room, procedure rooms, several different laboratories, including the embryology laboratory and andrology laboratory and all other parts of the fertility treatment equation. Our program has been visited by several other practitioners, who intend to build centers similar to ours, and to the one that is being planned by Dr. Morris.

LAC+USC Medical Center

Tel: 323 226 3026  
Fax: 323 226 2850  
rpaulson@usc.edu

In summary, Dr. Morris is a well-respected member of our subspecialty and profession whose plan is to enhance the delivery of an important aspect of health care to the community. I support this project without reservations. If you require any additional information, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "R. J. Paulson MD". The signature is written in a cursive, somewhat stylized font.
