Mike,

With regard to the State Agency Report for this proposal, the report generally reflects the project's compliance with HFSRB review criteria. Given the basis for negative votes at the July 21, 2011 HFSRB meeting seemed to be related to the technical excess capacity within the planning area, we believe the report should include a statement that much of the excess capacity that exists is at 7 facilities that are between 40 to 75 minutes from the proposed Crest Hill facility site in the more rural areas of the 4 county planning area. We believe the number of excess stations in the planning area is better understood in that context.

Thank you for consideration of our response to the Crest Hill State Agency Report.

Anne
