Re: Relinquishment of Permit for Project # 11-055
Transitional Care Center of Naperville

Dear Mr. Constantino:

I am writing to request the relinquishment of permit for Project # 11-055 aka Transitional Care Center of Naperville.

Description of Project

The project consists of a 120 bed skilled nursing facility located at Diehl Road and Arbiter Court. The original permit amount was \$18,325,873.

Reason for Abandonment

The Applicant was approached by the Village of Naperville with a request to move Project #11-055 due to the Village's preference for a hotel at the site. The Applicant honored this request and after working extensively with the Village of Naperville, the replacement location (Mill Street at Commons Drive) has full support for zoning approval.

Need for Project will be Met

Project #11-055 met a need for transitional care in Naperville, specifically planning area 7-C, and accordingly was awarded a permit. This need will now be met by the proposed Project # 13-038. At the time of filing, the application for Project # 13-038 reflected the most current long-term care facility update for identifying bed need. This 6/27/13 update (Attachment 13, item 2 of the application) indicated a bed need of 841 for planning area 7-C. Subsequent to the submission of this application, the calculation for identifying bed need has been changed, reflecting a different need. We believe the original bed need remains.

Sincerely,

A handwritten signature in black ink, appearing to read "Brian Cloch", is written over a light blue horizontal line.

Brian Cloch, President/CEO
Transitional Care Management
