Re: Project #12-004, Fresenius Medical Care North Pekin

Dear Mr. Galassie:

My name is Thomas Vonachen and I am a dialysis patient in Pekin. I am writing this letter to convey my support for the proposed Fresenius Medical Care North Pekin dialysis clinic. This facility would greatly benefit our community not only by providing excellent quality of care for our dialysis recipients, but also will create employment opportunities for the area residents.

Fresenius Medical Care has been treating patients in the Peoria/Pekin area for many years. In their ongoing commitment to serve all patient populations in our community from the rural areas to downtown Peoria, we agree that additional services are needed in North Pekin. A large percentage of this patient population is elderly and providing easily accessible dialysis care only solidifies the positive working relationship the community already has with Fresenius. We look forward to this ongoing association.

In summary, I believe the Fresenius North Pekin facility would be extremely beneficial to serve our residents who require dialysis treatment. I strongly advocate on behalf of the residents I serve for the approval of this clinic. I respectfully ask the Board to vote favorably for this much needed facility.

Sincerely,

A handwritten signature in black ink, appearing to read "Thomas Vonachen". The signature is written in a cursive style and is positioned to the right of the word "Sincerely,".
