Re: 12-011

Dear Mike:

As you know, I represent Rush University Medical Center ("Rush"). We would like to take this opportunity to inform you of a change with respect to the above referenced project. In the certificate of need application, Rush proposed that the Atrium building modernization would accommodate 34 obstetric beds, all with rooming in capability, resulting in a seven bassinet nursery unit. However, of the 34 beds only 23 will have rooming in capability due to IDPH mandated room size requirements, resulting in a five bassinet nursery. This change has been reviewed and approved by IDPH design standards. However, we wanted to inform the Illinois Health Facilities & Review Board of it as well. Please for free to contact us with any questions or concerns.

Thank you.

Sincerely,

Clare Connor Ranalli
