RE: Condition and Stipulation
Health Facilities Planning Act
PERMIT: 12-013 – Swedish American Hospital
PERMIT HOLDERS: Swedish American Hospital

Dear Mr. Ephraim:

On April 17, 2012, the Illinois Health Facilities and Services Review Board (“State Board”) approved the application for permit for the referenced project based upon the project’s substantial conformance with the applicable standards and criteria of Part 1110 and 1120. As part of that approval the State Board required that the permit holder provide the affiliation agreement between Swedish American Hospital and the University of Wisconsin and appear before the State Board to report on the affiliation.

On May 14, 2013 you appeared before the State Board with an update of that affiliation. You have met the requirements of the **condition and stipulation** of Permit #12-013. Therefore no further action is required of the permit holder regarding the condition and stipulation of Permit #12-013.

The permit holder is reminded that this permit is valid only for the defined construction or modification, site, amount and the named in the permit holder and is not transferable or assignable. In accordance with the Planning Act, the permit is valid until such time as the project has been completed provided that all post permit requirements have been fulfilled, pursuant to the requirements of 77 Ill Adm. Code 1130. Failure to comply with the requirements may result in expiration of the permit or in State Board action to revoke the permit.

Should you have any questions regarding the permit requirements, please contact Mike Constantino or George Roate at 217-782-3516.

Sincerely,

Courtney R. Avery, Administrator
Illinois Health Facilities and Services Review Board
