HEALTH FACILITIES &  
SERVICES REVIEW BOARD

Re: IHFPB Project # 12-019  
Elmhurst Memorial Hospital  
Cancer Center Project

Dear Ms. Avery:

On June 5, 2012 the Illinois Health Facilities and Services Review Board ("State Board") approved the application for permit #12-019 for Elmhurst Memorial Hospital to construct a new cancer center adjacent to and connected to the Hospital at 155 East Brush Hill Road in Elmhurst, IL. The permit letter we received dated June 16, 2012 stated that obligation is to be reported as part of the first annual progress report. We will be sending the first annual progress report around June 5, 2013. Nonetheless, I am sending this obligation letter now because we want the State Board to be aware that the project has been obligated.

A construction contract totaling \$10,550,942 was executed between Elmhurst Memorial Healthcare and Turner Construction Company on October 23, 2012. This contract represents a financial commitment of approximately 54% of the total project costs referenced in the application for permit and satisfies the obligation requirement per Section 1130.720. Funds for the project are available, and the project's scope, design, square footage and other aspects are in compliance with what the State Board approved.

Should you have any questions or require any further information, please feel free to contact Gail Warner, Vice President Strategic Planning, at 331.221.0270, or at e-mail address [gwarner@emhc.org](mailto:gwarner@emhc.org).

Sincerely,

W. Peter Daniels, FACHE  
President & CEO
