**Subject:** radiation treatment volumes from Cadence Health

Dear Mike,

Below is the information you requested. The table shows treatment volumes for two radiation therapy vaults at the Warrenville Cancer Center, one housing the Linac and the second housing Tomotherapy. Both of these modalities are forms of external beam radiation. They differ in their distribution of radiation, making one preferred over the other depending upon the type of tumor being treated.

	<b>Number of Radiation Therapy Treatments at the Cadence Health Warrenville Cancer Center</b>	
	CY2011	CY2012 (January through July)
Room #1 - Tomotherapy	2327	1826
Room #2 - Linac	3529	2558
<b>TOTAL</b>	<b>5856</b>	<b>4384</b>

If you have any questions, or need any additional information, please give me a call. I hope this is helpful.

Thanks,  
Gretchen

All we need is the treatments. And thanks again Gretchen...I really appreciate it.

Hi Mike – Absolutely we can help. We'll turn that around for you today. We can provide you with data based on calendar year (CY11 and CY12 YTD) if that is most helpful. Would you like any other statistics in addition to the number of treatments or procedures, such as "new treatment starts?"

Thanks,  
Gretchen

**Subject:** CON

Hi Gretchen:

My name is Mike Constantino with the Certificate of Need Board and I am writing a report on the establishment of a linear accelerator at a medical office building in Lisle by DuPage Medical Group. Our Board recently approved a linear accelerator for Cadence in Warrenville. I was wondering if you could give me the number of treatments that linear accelerator had in 2011 or 2012 to date.

Thanks.
