Re: U.S. Renal Care Plainfield Dialysis
Project No. 12-059

Dear Chairman Galassie,

The Illinois Health Facilities and Services Review Board ("Board") has published a Notice for Opportunity for Public Hearing relating to the certificate of need permit application for the U.S. Renal Care Plainfield Dialysis facility (the "Application").

I am writing in support of the U.S. Renal Care Application to establish a 13 station dialysis facility in Plainfield, Illinois. U.S. Renal Care is known for providing high quality of care for patients with chronic and acute renal disease. U.S. Renal Care also provides patients with a choice of a full range of quality care, including in-center or at-home hemodialysis and peritoneal dialysis services.

It is anticipated that the volume of patients requiring dialysis services will continue to increase and I would like to ensure that the citizens have of Plainfield have adequate resources available to meet their dialysis needs but to also to offer them choices in seeking dialysis treatment. -

As such, I strongly support this project and ask the Board approve this Application.

Respectfully,

Michael P. Collins
