To Whom It May Concern:

I am writing you regarding the Vista Medical Center Lindenhurst Proposal. I am very much in favor of this facility as it will save many lives. I have read concerns from Advocate Condell, McHenry and Midwestern. Well let me tell you.....Advocate Condell it takes me over 55 minutes (on a good day to get to). The care at that hospital has gown downhill and I would not send my worst enemy there. Not to mention they owe a lot of money to a lot of people. They need to pay their bills and from a grade of 1-10 (10 being the highest) I would give them a 0. McHenry...give me a break. NIMC is the worst hospital in care. I have dealt with them...another 0. (takes over 1 hour to get there)

Midwestern is a cancer hospital....so I don't understand why they would complain anyway.

Northwestern Lake Forest has also gone to the pits and it would take me over an hour to get there(not to mention their back door underhanded way of business). Barrington...well when was the last time you drove that route....again a 0 and it takes over 1 hour. Vista Waukegan takes 55 minutes and I give them a grade of 9. I think if the Board does not ok Vista's plans for a hospital in Western Lake County, they have been paid off. I will also hold the Board legally responsible for any loss of life or care that I or my family may incur in the future.

All these compaints from different hospitals just tells me that they are desperate for services that they can not handle.

Please pass this on to the Review Board for Vista.

We need a hospital out west and if not, people will continue to go to Wisconsin to St. Catherine's or Aurora. Do we want our money going to Wisconsin or Illinois?

I would like an answer back from one of the Board Members.

Sincerely,  
Dolores Eberle  
Lake Villa, IL.
