Subject: Response to Riverside's Submitted Petition

Riverside recently also submitted a petition of it's "supporters." I would like to point out the following:

- The vast majority of the signers do not even reside in the service area. In fact, nearly all live in or around the immediate Kankakee area making it blatantly obvious that Riverside can only get its employees to sign their support for this facility, not actual local residents that have a real interest and desire to see a FEC in their proposed location. This is further evidenced by the fact that their petition was even submitted and created by Riverside's own Director of Marketing/PR, not local, unbiased area supporters.
