Re: SIH Cancer Center, Project #13-005

Dear Ms. Avery,

I am taking this opportunity to voice my enthusiastic endorsement of southern Illinois Healthcare's effort to build a comprehensive, freestanding cancer center to serve patients throughout a seven county region of rural southern Illinois. Thousands of these patients live in the most impoverished counties of Illinois. Many of these counties have the additional misfortune of being among those with the highest cancer incidence rates in the state.

Instead of enduring long, tedious and expensive travel outside of Illinois, weary patients along with their family and friends will benefit from the streamlined, team-based care the SIH Cancer Center will now be able to provide under one roof. For the first time in our region, SIH would offer the full continuum of cancer care in a single locale. These vital services include radiation therapy, chemotherapy, a home for multidisciplinary teams for breast, lung, gastrointestinal, genitourinary, and head and neck cancers, clinical trials, support, survivorship and rehabilitation care. The SIH Cancer Center also enjoys an academic affiliation with the Simmons Cancer Institute at the Southern Illinois University School of Medicine in Springfield. The breadth of this partnership brings additional, much-needed resources to southern Illinois.

Furthermore, many of the patients who will ultimately receive care at the SIH Cancer Center are among our state's most vulnerable—elderly, low-income and uninsured. In fact, all seven of the counties in

SIH's service area are federally designated as "Health Professional Shortage Area(s) for Primary Medical Care."

I wholeheartedly support SIH's mission, values and commitment to bring this caliber of cancer care to southern Illinois. Thank you for your time and attention to this project.

Respectfully,

Donald W. Porter, MD

Re: SIH Cancer Center, Project #13-005

Dear Ms. Avery,

I'm writing this letter to express my support for the SIH Cancer Center building proposal in southern Illinois.

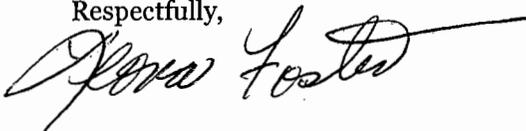

No matter where you live, the mention of the word "cancer" strikes fear. To begin with, a fear of the rigorous road someone is about to face. And for many, fear of the road itself.

If you are from southern Illinois, facing cancer has often meant frequent trips to a major metropolitan area, usually outside of our state's borders. Not only do these patients battle the disease itself, they also cope with the costs and struggles associated with simply getting the care, which can include high fuel rates, time away from work, hotel stays and meals. The love and support they so desperately need could be two hours away. For some, the means to get the care are too great.

Southern Illinois Healthcare has committed to lead the cancer fight for the people of this region. They've already shown their resolve by bringing more cancer specialists here and by building accredited programs, such as The Breast Center, where the goal is detection to diagnosis in 24 hours. Comprehensive medical treatment for cancer close to home makes huge differences in the lives of those suffering from this relentless disease.

Their American dream is living in southern Illinois. Your decision will allow this region's cancer patients to fight the disease where they find strength and hope—at home.

Respectfully,

A handwritten signature in black ink, appearing to read "Anna Foster". The signature is written in a cursive, flowing style with a long horizontal line extending to the right.
