Re: SIH Cancer Center, Project #13-005

Dear Ms. Avery,

I am taking this opportunity to voice my enthusiastic endorsement of Southern Illinois Healthcare's effort to build a comprehensive, freestanding cancer center to serve patients throughout a seven county region of rural southern Illinois. Thousands of these patients live in the most impoverished counties of Illinois. Many of these counties have the additional misfortune of being among those with the highest cancer incidence rates in the state.

Instead of enduring long, tedious and expensive travel outside of Illinois, weary patients along with their family and friends will benefit from the streamlined, team-based care the SIH Cancer Center will now be able to provide under one roof. For the first time in our region, SIH would offer the full continuum of cancer care in a single locale. These vital services include radiation therapy, chemotherapy, a home for multidisciplinary teams for breast, lung, gastrointestinal, genitourinary and head and neck cancers, clinical trials, support, survivorship and rehabilitation care. The SIH Cancer Center also enjoys an academic affiliation with the Simmons Cancer Institute at the Southern Illinois University School of Medicine in Springfield. The breadth of this partnership brings additional, much-needed resources to southern Illinois.

Furthermore, many of the patients who will ultimately receive care at the SIH Cancer Center are among our state's most vulnerable--elderly, low-income and uninsured. In fact, all seven of the counties in SIH's service area are federally designated as "Health Professional Shortage Area(s) for Primary Medical Care."

I wholeheartedly support SIH's mission, values and commitment to bring this caliber of cancer care to southern Illinois. Thank you for your time and attention to this project.

Respectfully,

Teri McSherry, RDH, MS
