**ILLINOIS HEALTH FACILITIES AND SERVICES REVIEW BOARD
APPLICATION FOR PERMIT**

RECEIVED

FEB 21 2013

HEALTH FACILITIES &
SERVICES REVIEW BOARD**SECTION I. IDENTIFICATION, GENERAL INFORMATION, AND CERTIFICATION****This Section must be completed for all projects.****Facility/Project Identification**

Facility Name:	Garfield Park Hospital		
Street Address:	520 N. Ridgeway Ave.		
City and Zip Code:	Chicago, 60624		
County:	Cook	Health Service Area	A-02 Health Planning Area: A-02

Applicant /Co-Applicant Identification**[Provide for each co-applicant [refer to Part 1130.220].**

Exact Legal Name:	Garfield Park Hospital, LLC
Address:	520 N. Ridgeway Ave, Chicago, IL 60624
Name of Registered Agent:	CT Corporation System
Name of Chief Executive Officer:	Keith Kuhn
CEO Address:	520 N. Ridgeway Ave, Chicago, IL 60624
Telephone Number:	(773) 265-4300

Type of Ownership of Applicant/Co-Applicant

<input type="checkbox"/> Non-profit Corporation	<input type="checkbox"/> Partnership
<input checked="" type="checkbox"/> For-profit Corporation	<input type="checkbox"/> Governmental
<input type="checkbox"/> Limited Liability Company	<input type="checkbox"/> Sole Proprietorship <input type="checkbox"/> Other

- o Corporations and limited liability companies must provide an **Illinois certificate of good standing**.
- o Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner.

APPEND DOCUMENTATION AS ATTACHMENT-1 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Applicant /Co-Applicant Identification

Exact Legal Name:	UHS of Hargrove, Inc.
Address:	5730 West Roosevelt Road, Chicago, IL 60644
Name of Registered Agent:	CT Corporation System
Name of Chief Executive Officer:	Steven Airhart
CEO Address:	5730 West Roosevelt Road, Chicago, IL 60644
Telephone Number:	(773) 413-1700

Type of Ownership of Applicant/Co-Applicant

<input type="checkbox"/> Non-profit Corporation	<input type="checkbox"/> Partnership
<input checked="" type="checkbox"/> For-profit Corporation	<input type="checkbox"/> Governmental
<input type="checkbox"/> Limited Liability Company	<input type="checkbox"/> Sole Proprietorship <input type="checkbox"/> Other

- o Corporations and limited liability companies must provide an **Illinois certificate of good standing**.
- o Partnerships must provide the name of the state in which organized and the name and address of

each partner specifying whether each is a general or limited partner.

APPEND DOCUMENTATION AS ATTACHMENT-1 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Applicant /Co-Applicant Identification

[Provide for each co-applicant [refer to Part 1130.220].

Exact Legal Name:	UHS of Delaware, Inc.
Address:	367 South Gulph Road, King of Prussia, PA 19406
Name of Registered Agent:	CT Corporation System
Name of Chief Executive Officer	Marvin Pember, President
CEO Address:	367 South Gulph Road, King of Prussia, PA 19406
Telephone Number:	(610) 768-3300

Type of Ownership of Applicant/Co-Applicant

<input type="checkbox"/>	Non-profit Corporation	<input type="checkbox"/>	Partnership	
<input checked="" type="checkbox"/>	For-profit Corporation	<input type="checkbox"/>	Governmental	
<input type="checkbox"/>	Limited Liability Company	<input type="checkbox"/>	Sole Proprietorship	<input type="checkbox"/> Other

- Corporations and limited liability companies must provide an **Illinois certificate of good standing**.
- Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner.

APPEND DOCUMENTATION AS ATTACHMENT-1 IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Applicant /Co-Applicant Identification

[Provide for each co-applicant [refer to Part 1130.220].

Exact Legal Name:	Universal Health Services, Inc.
Address:	367 South Gulph Road, King of Prussia, PA 19406
Name of Registered Agent:	CT Corporation System
Name of Chief Executive Officer:	Alan B. Miller, CEO
CEO Address:	367 South Gulph Road, King of Prussia, PA 19406
Telephone Number:	(610) 768.3300

Type of Ownership of Applicant/Co-Applicant

<input type="checkbox"/>	Non-profit Corporation	<input type="checkbox"/>	Partnership

E-mail Address:	srbo.nikolic@uhsinc.com
Fax Number:	(773) 413-1805

Site Ownership

[Provide this information for each applicable site]

Exact Legal Name of Site Owner:	UHS of Hartgrove, Inc.
Address of Site Owner:	5730 West Roosevelt Road, Chicago, IL 60644
Street Address or Legal Description of Site:	520 N. Ridgeway Ave., Chicago IL 60624
Proof of ownership or control of the site is to be provided as Attachment 2. Examples of proof of ownership are property tax statement, tax assessor's documentation, deed, notarized statement of the corporation attesting to ownership, an option to lease, a letter of intent to lease or a lease.	
APPEND DOCUMENTATION AS ATTACHMENT-2, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.	

Operating Identity/Licensee

[Provide this information for each applicable facility, and insert after this page.]

Exact Legal Name:	UHS of Hartgrove, Inc. dba Garfield Park Hospital		
Address:	5730 West Roosevelt Road, Chicago, IL 60644		
<input type="checkbox"/>	Non-profit Corporation	<input type="checkbox"/>	Partnership
<input checked="" type="checkbox"/>	For-profit Corporation	<input type="checkbox"/>	Governmental
<input type="checkbox"/>	Limited Liability Company	<input type="checkbox"/>	Sole Proprietorship
		<input type="checkbox"/>	Other
<ul style="list-style-type: none"> o Corporations and limited liability companies must provide an Illinois Certificate of Good Standing. o Partnerships must provide the name of the state in which organized and the name and address of each partner specifying whether each is a general or limited partner. o Persons with 5 percent or greater interest in the licensee must be identified with the % of 			

ownership.
 APPEND DOCUMENTATION AS ATTACHMENT-3, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Organizational Relationships

Provide (for each co-applicant) an organizational chart containing the name and relationship of any person or entity who is related (as defined in Part 1130.140). If the related person or entity is participating in the development or funding of the project, describe the interest and the amount and type of any financial contribution.

APPEND DOCUMENTATION AS ATTACHMENT-4, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Flood Plain Requirements

[Refer to application instructions.] **NOT APPLICABLE: TRANSACTION DOES NOT INVOLVE CONSTRUCTION**

Provide documentation that the project complies with the requirements of Illinois Executive Order #2005-5 pertaining to construction activities in special flood hazard areas. As part of the flood plain requirements please provide a map of the proposed project location showing any identified floodplain areas. Floodplain maps can be printed at www.FEMA.gov or www.illinoisfloodmaps.org. This map must be in a readable format. In addition please provide a statement attesting that the project complies with the requirements of Illinois Executive Order #2005-5 (<http://www.hfsrb.illinois.gov>).

APPEND DOCUMENTATION AS ATTACHMENT-5, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Historic Resources Preservation Act Requirements

[Refer to application instructions.] **NOT APPLICABLE: TRANSACTION DOES NOT INVOLVE CONSTRUCTION**

Provide documentation regarding compliance with the requirements of the Historic Resources Preservation Act.

APPEND DOCUMENTATION AS ATTACHMENT-6, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

DESCRIPTION OF PROJECT

1. Project Classification

[Check those applicable - refer to Part 1110.40 and Part 1120.20(b)]

<p>Part 1110 Classification:</p> <p><input type="checkbox"/> Substantive</p> <p><input checked="" type="checkbox"/> Non-substantive</p>	<p>Part 1120 Applicability or Classification: [Check one only.]</p> <p><input checked="" type="checkbox"/> Part 1120 Not Applicable</p> <p><input type="checkbox"/> Category A Project</p> <p><input type="checkbox"/> Category B Project</p> <p><input type="checkbox"/> DHS or DVA Project</p>
---	---

2. Narrative Description

Provide in the space below, a brief narrative description of the project. Explain **WHAT** is to be done in **State Board defined terms**, **NOT WHY** it is being done. If the project site does **NOT** have a street address, include a legal description of the site. Include the rationale regarding the project's classification as substantive or non-substantive.

In 2009 the Board approved the establishment of Garfield Park Hospital under CON permit number 09-015. The hospital is a dedicated psychiatric facility of 88 acute mental health beds. It serves adolescent and pediatrics patients and is located in the Garfield Park community on Chicago's west side. This project was completed on December 19, 2012.

This application is for an internal corporate reorganization that will change the legal status of Garfield Park Hospital to a Limited Liability Company. Per the Board's rules this constitutes a Change of Ownership.

Upon approval of this reorganization by the Board, the assets of Garfield Park Hospital will be transferred to Garfield Park Hospital LLC from UHS of Hartgrove, Inc. Both entities are to remain wholly owned subsidiaries of UHS of Delaware, Inc.

ATTACHMENT 4 shows the current and proposed corporate structures.

Project Costs and Sources of Funds

Complete the following table listing all costs (refer to Part 1120.110) associated with the project. When a project or any component of a project is to be accomplished by lease, donation, gift, or other means, the fair market or dollar value (refer to Part 1130.140) of the component must be included in the estimated project cost. If the project contains non-reviewable components that are not related to the provision of health care, complete the second column of the table below. Note, the use and sources of funds must equal.

THERE ARE NO COSTS ASSOCIATED WITH THIS TRANSACTION.

Project Costs and Sources of Funds			
USE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Preplanning Costs			
Site Survey and Soil Investigation			
Site Preparation			
Off Site Work			
New Construction Contracts			
Modernization Contracts			
Contingencies			
Architectural/Engineering Fees			
Consulting and Other Fees			
Movable or Other Equipment (not in construction contracts)			
Bond Issuance Expense (project related)			
Net Interest Expense During Construction (project related)			
Fair Market Value of Leased Space or Equipment			
Other Costs To Be Capitalized			
Acquisition of Building or Other Property (excluding land)			
TOTAL USES OF FUNDS			0
SOURCE OF FUNDS	CLINICAL	NONCLINICAL	TOTAL
Cash and Securities			
Pledges			
Gifts and Bequests			
Bond Issues (project related)			
Mortgages			
Leases (fair market value)			
Governmental Appropriations			
Grants			
Other Funds and Sources			
TOTAL SOURCES OF FUNDS			0
NOTE: ITEMIZATION OF EACH LINE ITEM MUST BE PROVIDED AT ATTACHMENT-7, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.			

Related Project Costs

Provide the following information, as applicable, with respect to any land related to the project that will be or has been acquired during the last two calendar years:

Land acquisition is related to project	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
Purchase Price: \$	_____	
Fair Market Value: \$	_____	
The project involves the establishment of a new facility or a new category of service		
	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
If yes, provide the dollar amount of all non-capitalized operating start-up costs (including operating deficits) through the first full fiscal year when the project achieves or exceeds the target utilization specified in Part 1100.		
Estimated start-up costs and operating deficit cost is \$ _____.		

Project Status and Completion Schedules

Indicate the stage of the project's architectural drawings:	
<input checked="" type="checkbox"/> None or not applicable	<input type="checkbox"/> Preliminary
<input type="checkbox"/> Schematics	<input type="checkbox"/> Final Working
Anticipated project completion date (refer to Part 1130.140): <u>July 1., 2013</u>	
Indicate the following with respect to project expenditures or to obligation (refer to Part 1130.140):	
<input type="checkbox"/> Purchase orders, leases or contracts pertaining to the project have been executed.	
<input type="checkbox"/> Project obligation is contingent upon permit issuance. Provide a copy of the contingent "certification of obligation" document, highlighting any language related to CON Contingencies	
<input checked="" type="checkbox"/> Project obligation will occur after permit issuance.	
APPEND DOCUMENTATION AS <u>ATTACHMENT-8</u> , IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.	

State Agency Submittals

Are the following submittals up to date as applicable:
<input type="checkbox"/> Cancer Registry NOT APPLICABLE
<input type="checkbox"/> APORS NOT APPLICABLE
<input checked="" type="checkbox"/> All formal document requests such as IDPH Questionnaires and Annual Bed Reports been submitted
<input checked="" type="checkbox"/> All reports regarding outstanding permits
Failure to be up to date with these requirements will result in the application for permit being deemed incomplete.

Cost Space Requirements

Provide in the following format, the department/area DGSF or the building/area BGSF and cost. The type of gross square footage either DGSF or BGSF must be identified. The sum of the department costs **MUST** equal the total estimated project costs. Indicate if any space is being reallocated for a different purpose. Include outside wall measurements plus the department's or area's portion of the surrounding circulation space. **Explain the use of any vacated space.**

NOT APPLICABLE. THIS TRANSACTION DOES NOT INCLUDE ANY CONSTRUCTION.

Dept. / Area	Cost	Gross Square Feet		Amount of Proposed Total Gross Square Feet That Is:			
		Existing	Proposed	New Const.	Modernized	As Is	Vacated Space
REVIEWABLE							
Medical Surgical							
Intensive Care							
Diagnostic Radiology							
MRI							
Total Clinical							
NON REVIEWABLE							
Administrative							
Parking							
Gift Shop							
Total Non-clinical							
TOTAL							

APPEND DOCUMENTATION AS ATTACHMENT-9, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Facility Bed Capacity and Utilization

Complete the following chart, as applicable. Complete a separate chart for each facility that is a part of the project and insert following this page. Provide the existing bed capacity and utilization data for the latest Calendar Year for which the data are available. Include observation days in the patient day totals for each bed service. Any bed capacity discrepancy from the Inventory will result in the application being deemed incomplete.

GARFIELD PARK HOSPITAL WAS ESTABLISHED AS AN 88 BED ACUTE MENTAL HEALTH FACILITY UNDER CON PERMIT NUMBER 09-015. THIS PROJECT WAS DEEMED COMPLETE ON DECEMBER 19, 2013. AS A NEW FACILITY, NO ANNUAL REPORTS HAVE YET BEEN FILED.

FACILITY NAME: Garfield Park Hospital		CITY: Chicago

SECTION III – BACKGROUND, PURPOSE OF THE PROJECT, AND ALTERNATIVES - INFORMATION REQUIREMENTS

This Section is applicable to all projects except those that are solely for discontinuation with no project costs.

Criterion 1110.230 – Background, Purpose of the Project, and Alternatives

READ THE REVIEW CRITERION and provide the following required information:

BACKGROUND OF APPLICANT

1. A listing of all health care facilities owned or operated by the applicant, including licensing, and certification if applicable.
2. A certified listing of any adverse action taken against any facility owned and/or operated by the applicant during the three years prior to the filing of the application.
3. Authorization permitting HFSRB and DPH access to any documents necessary to verify the information submitted, including, but not limited to: official records of DPH or other State agencies; the licensing or certification records of other states, when applicable; and the records of nationally recognized accreditation organizations. **Failure to provide such authorization shall constitute an abandonment or withdrawal of the application without any further action by HFSRB.**
4. If, during a given calendar year, an applicant submits more than one application for permit, the documentation provided with the prior applications may be utilized to fulfill the information requirements of this criterion. In such instances, the applicant shall attest the information has been previously provided, cite the project number of the prior application, and certify that no changes have occurred regarding the information that has been previously provided. The applicant is able to submit amendments to previously submitted information, as needed, to update and/or clarify data.

APPEND DOCUMENTATION AS ATTACHMENT-11, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-4) MUST BE IDENTIFIED IN ATTACHMENT 11.

PURPOSE OF PROJECT

1. Document that the project will provide health services that improve the health care or well-being of the market area population to be served.
2. Define the planning area or market area, or other, per the applicant's definition.
3. Identify the existing problems or issues that need to be addressed, as applicable and appropriate for the project. [See 1110.230(b) for examples of documentation.]
4. Cite the sources of the information provided as documentation.
5. Detail how the project will address or improve the previously referenced issues, as well as the population's health status and well-being.
6. Provide goals with quantified and measurable objectives, with specific timeframes that relate to achieving the stated goals as appropriate.

For projects involving modernization, describe the conditions being upgraded if any. For facility projects, include statements of age and condition and regulatory citations if any. For equipment being replaced, include repair and maintenance records.

NOTE: Information regarding the "Purpose of the Project" will be included in the State Board Report.

APPEND DOCUMENTATION AS ATTACHMENT-12, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM. EACH ITEM (1-6) MUST BE IDENTIFIED IN ATTACHMENT 12.

ALTERNATIVES

- 1) Identify **ALL** of the alternatives to the proposed project:

Alternative options **must** include:

- A) Proposing a project of greater or lesser scope and cost;
 - B) Pursuing a joint venture or similar arrangement with one or more providers or entities to meet all or a portion of the project's intended purposes; developing alternative settings to meet all or a portion of the project's intended purposes;
 - C) Utilizing other health care resources that are available to serve all or a portion of the population proposed to be served by the project; and
 - D) Provide the reasons why the chosen alternative was selected.
- 2) Documentation shall consist of a comparison of the project to alternative options. The comparison shall address issues of total costs, patient access, quality and financial benefits in both the short term (within one to three years after project completion) and long term. This may vary by project or situation. **FOR EVERY ALTERNATIVE IDENTIFIED THE TOTAL PROJECT COST AND THE REASONS WHY THE ALTERNATIVE WAS REJECTED MUST BE PROVIDED.**
- 3) The applicant shall provide empirical evidence, including quantified outcome data that verifies improved quality of care, as available.

APPEND DOCUMENTATION AS ATTACHMENT-13, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION IV - PROJECT SCOPE, UTILIZATION, AND UNFINISHED/SHELL SPACE
Criterion 1110.234 - Project Scope, Utilization, and Unfinished/Shell Space

NOT APPLICABLE

READ THE REVIEW CRITERION and provide the following information:

SIZE OF PROJECT:

1. Document that the amount of physical space proposed for the proposed project is necessary and not excessive. This must be a narrative.
2. If the gross square footage exceeds the BGSF/DGSF standards in Appendix B, justify the discrepancy by documenting one of the following::
 - a. Additional space is needed due to the scope of services provided, justified by clinical or operational needs, as supported by published data or studies;
 - b. The existing facility's physical configuration has constraints or impediments and requires an architectural design that results in a size exceeding the standards of Appendix B;
 - c. The project involves the conversion of existing space that results in excess square footage.

Provide a narrative for any discrepancies from the State Standard. A table must be provided in the following format with Attachment 14.

SIZE OF PROJECT				
DEPARTMENT/SERVICE	PROPOSED BGSF/DGSF	STATE STANDARD	DIFFERENCE	MET STANDARD?

APPEND DOCUMENTATION AS ATTACHMENT-14, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

PROJECT SERVICES UTILIZATION:

This criterion is applicable only to projects or portions of projects that involve services, functions or equipment for which HFSRB has established utilization standards or occupancy targets in 77 Ill. Adm. Code 1100.

Document that in the second year of operation, the annual utilization of the service or equipment shall meet or exceed the utilization standards specified in 1110.Appendix B. A narrative of the rationale that supports the projections must be provided.

A table must be provided in the following format with Attachment 15.

UTILIZATION					
	DEPT./ SERVICE	HISTORICAL UTILIZATION (PATIENT DAYS) (TREATMENTS) ETC.	PROJECTED UTILIZATION	STATE STANDARD	MET STANDARD?
YEAR 1					
YEAR 2					

APPEND DOCUMENTATION AS ATTACHMENT-15, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

UNFINISHED OR SHELL SPACE:

Provide the following information:

1. Total gross square footage of the proposed shell space;
2. The anticipated use of the shell space, specifying the proposed GSF to be allocated to each department, area or function;
3. Evidence that the shell space is being constructed due to
 - a. Requirements of governmental or certification agencies; or
 - b. Experienced increases in the historical occupancy or utilization of those areas proposed to occupy the shell space.
4. Provide:
 - a. Historical utilization for the area for the latest five-year period for which data are available; and
 - b. Based upon the average annual percentage increase for that period, projections of future utilization of the area through the anticipated date when the shell space will be placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-16, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

ASSURANCES:

Submit the following:

1. Verification that the applicant will submit to HFSRB a CON application to develop and utilize the shell space, regardless of the capital thresholds in effect at the time or the categories of service involved.
2. The estimated date by which the subsequent CON application (to develop and utilize the subject shell space) will be submitted; and
3. The anticipated date when the shell space will be completed and placed into operation.

APPEND DOCUMENTATION AS ATTACHMENT-17, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION V. - MASTER DESIGN AND RELATED PROJECTS**NOT APPLICABLE**

This Section is applicable only to proposed master design and related projects.

Criterion 1110.235(a) - System Impact of Master Design

Read the criterion and provide documentation that addresses the following:

1. The availability of alternative health care facilities within the planning area and the impact that the proposed project and subsequent related projects will have on the utilization of such facilities;
2. How the services proposed in future projects will improve access to planning area residents;
3. What the potential impact upon planning area residents would be if the proposed services were not replaced or developed; and
4. The anticipated role of the facility in the delivery system including anticipated patterns of patient referral, any contractual or referral agreements between the applicant and other providers that will result in the transfer of patients to the applicant's facility.

Criterion 1110.235(b) - Master Plan or Related Future Projects

Read the criterion and provide documentation regarding the need for all beds and services to be developed, and also, document the improvement in access for each service proposed. Provide the following:

1. The anticipated completion date(s) for the future construction or modernization projects; and
2. Evidence that the proposed number of beds and services is consistent with the need assessment provisions of Part 1100; or documentation that the need for the proposed number of beds and services is justified due to such factors, but not limited to:
 - a. limitation on government funded or charity patients that are expected to continue;
 - b. restrictive admission policies of existing planning area health care facilities that are expected to continue;
 - c. the planning area population is projected to exhibit indicators of medical care problems such as average family income below poverty levels or projected high infant mortality.
3. Evidence that the proposed beds and services will meet or exceed the utilization targets established in Part 1100 within two years after completion of the future construction of modernization project(s), based upon:
 - a. historical service/beds utilization levels;
 - b. projected trends in utilization (include the rationale and projection assumptions used in such
 - c. projections);
 - d. anticipated market factors such as referral patterns or changes in population characteristics (age, density, wellness) that would support utilization projections; and anticipated changes in delivery of the service due to changes in technology, care delivery techniques or physician availability that would support the projected utilization levels.

Criterion 1110.235(c) - Relationship to Previously Approved Master Design Projects

READ THE CRITERION which requires that projects submitted pursuant to a master design permit are consistent with the approved master design project. Provide the following documentation:

1. Schematic architectural plans for all construction or modification approved in the master design permit;
2. The estimated project cost for the proposed projects and also for the total construction/modification projects approved in the master design permit;
3. An item by item comparison of the construction elements (i.e. site, number of buildings, number of floors, etc.) in the proposed project to the approved master design project; and
4. A comparison of proposed beds and services to those approved under the master design permit.

APPEND DOCUMENTATION AS ATTACHMENT-18, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

SECTION VI - MERGERS, CONSOLIDATIONS AND ACQUISITIONS/CHANGES OF OWNERSHIP

This Section is applicable to projects involving merger, consolidation or acquisition/change of ownership.

NOTE: For all projects involving a change of ownership THE TRANSACTION DOCUMENT must be submitted with the application for permit. The transaction document must be signed dated and contain the appropriate contingency language.

A. Criterion 1110.240(b), Impact Statement

Read the criterion and provide an impact statement that contains the following information:

1. Any change in the number of beds or services currently offered.
2. Who the operating entity will be.
3. The reason for the transaction.
4. Any anticipated additions or reductions in employees now and for the two years following completion of the transaction.
5. A cost-benefit analysis for the proposed transaction.

B. Criterion 1110.240(c), Access

Read the criterion and provide the following:

1. The current admission policies for the facilities involved in the proposed transaction.
2. The proposed admission policies for the facilities.
3. A letter from the CEO certifying that the admission policies of the facilities involved will not become more restrictive.

C. Criterion 1110.240(d), Health Care System

Read the criterion and address the following:

1. Explain what the impact of the proposed transaction will be on the other area providers.
2. List all of the facilities within the applicant's health care system and provide the following for each facility.
 - a. the location (town and street address);
 - b. the number of beds;
 - c. a list of services; and
 - d. the utilization figures for each of those services for the last 12 month period.
3. Provide copies of all present and proposed referral agreements for the facilities involved in this transaction.
4. Provide time and distance information for the proposed referrals within the system.
5. Explain the organization policy regarding the use of the care system providers over area providers.
6. Explain how duplication of services within the care system will be resolved.
7. Indicate what services the proposed project will make available to the community that are not now available.

APPEND DOCUMENTATION AS ATTACHMENT-19, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

The following Sections **DO NOT** need to be addressed by the applicants or co-applicants responsible for funding or guaranteeing the funding of the project if the applicant has a bond rating of A- or better from Fitch's or Standard and Poor's rating agencies, or A3 or better from Moody's (the rating shall be affirmed within the latest 18 month period prior to the submittal of the application):

- Section 1120.120 Availability of Funds – Review Criteria
- Section 1120.130 Financial Viability – Review Criteria
- Section 1120.140 Economic Feasibility – Review Criteria, subsection (a)

VIII. - 1120.120 - Availability of Funds

The applicant shall document that financial resources shall be available and be equal to or exceed the estimated total project cost plus any related project costs by providing evidence of sufficient financial resources from the following sources, as applicable: Indicate the dollar amount to be provided from the following sources:

THERE ARE NO COSTS ASSOCIATED WITH THIS TRANSACTION.

0	<p>a) Cash and Securities – statements (e.g., audited financial statements, letters from financial institutions, board resolutions) as to:</p> <ol style="list-style-type: none"> 1) the amount of cash and securities available for the project, including the identification of any security, its value and availability of such funds; and 2) interest to be earned on depreciation account funds or to be earned on any asset from the date of applicant's submission through project completion; <p>b) Pledges – for anticipated pledges, a summary of the anticipated pledges showing anticipated receipts and discounted value, estimated time table of gross receipts and related fundraising expenses, and a discussion of past fundraising experience.</p> <p>c) Gifts and Bequests – verification of the dollar amount, identification of any conditions of use, and the estimated time table of receipts;</p> <p>d) Debt – a statement of the estimated terms and conditions (including the debt time period, variable or permanent interest rates over the debt time period, and the anticipated repayment schedule) for any interim and for the permanent financing proposed to fund the project, including:</p> <ol style="list-style-type: none"> 1) For general obligation bonds, proof of passage of the required referendum or evidence that the governmental unit has the authority to issue the bonds and evidence of the dollar amount of the issue, including any discounting anticipated; 2) For revenue bonds, proof of the feasibility of securing the specified amount and interest rate; 3) For mortgages, a letter from the prospective lender attesting to the expectation of making the loan in the amount and time indicated, including the anticipated interest rate and any conditions associated with the mortgage, such as, but not limited to, adjustable interest rates, balloon payments, etc.; 4) For any lease, a copy of the lease, including all the terms and conditions, including any purchase options, any capital improvements to the property and provision of capital equipment; 5) For any option to lease, a copy of the option, including all terms and conditions. <p>e) Governmental Appropriations – a copy of the appropriation Act or ordinance accompanied by a statement of funding availability from an official of the governmental unit. If funds are to be made available from subsequent fiscal years, a copy of a resolution or other action of the governmental unit attesting to this intent;</p> <p>f) Grants – a letter from the granting agency as to the availability of funds in terms of the amount and time of receipt;</p> <p>g) All Other Funds and Sources – verification of the amount and type of any other funds that will be used for the project.</p>
	TOTAL FUNDS AVAILABLE

APPEND DOCUMENTATION AS ATTACHMENT 39, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

IX. 1120.130 - Financial Viability

All the applicants and co-applicants shall be identified, specifying their roles in the project funding or guaranteeing the funding (sole responsibility or shared) and percentage of participation in that funding.

Financial Viability Waiver

The applicant is not required to submit financial viability ratios if:

1. "A" Bond rating or better
2. All of the projects capital expenditures are completely funded through internal sources
3. The applicant's current debt financing or projected debt financing is insured or anticipated to be insured by MBIA (Municipal Bond Insurance Association Inc.) or equivalent
4. The applicant provides a third party surety bond or performance bond letter of credit from an A rated guarantor.

See Section 1120.130 Financial Waiver for information to be provided
APPEND DOCUMENTATION AS ATTACHMENT 40, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

The applicant or co-applicant that is responsible for funding or guaranteeing funding of the project shall provide viability ratios for the latest three years for which audited financial statements are available and for the first full fiscal year at target utilization, but no more than two years following project completion. When the applicant's facility does not have facility specific financial statements and the facility is a member of a health care system that has combined or consolidated financial statements, the system's viability ratios shall be provided. If the health care system includes one or more hospitals, the system's viability ratios shall be evaluated for conformance with the applicable hospital standards.

Provide Data for Projects Classified as:	Category A or Category B (last three years)			Category B (Projected)
Enter Historical and/or Projected Years:				
Current Ratio				
Net Margin Percentage				
Percent Debt to Total Capitalization				
Projected Debt Service Coverage				
Days Cash on Hand				
Cushion Ratio				

Provide the methodology and worksheets utilized in determining the ratios detailing the calculation and applicable line item amounts from the financial statements. Complete a separate table for each co-applicant and provide worksheets for each.

2. Variance

Applicants not in compliance with any of the viability ratios shall document that another organization, public or private, shall assume the legal responsibility to meet the debt obligations should the applicant default.

APPEND DOCUMENTATION AS ATTACHMENT 41, IN NUMERICAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

X. 1120.140 - Economic Feasibility

This section is applicable to all projects subject to Part 1120.

A. Reasonableness of Financing Arrangements

The applicant shall document the reasonableness of financing arrangements by submitting a notarized statement signed by an authorized representative that attests to one of the following:

- 1) That the total estimated project costs and related costs will be funded in total with cash and equivalents, including investment securities, unrestricted funds, received pledge receipts and funded depreciation; or
- 2) That the total estimated project costs and related costs will be funded in total or in part by borrowing because:
 - A) A portion or all of the cash and equivalents must be retained in the balance sheet asset accounts in order to maintain a current ratio of at least 2.0 times for hospitals and 1.5 times for all other facilities; or
 - B) Borrowing is less costly than the liquidation of existing investments, and the existing investments being retained may be converted to cash or used to retire debt within a 60-day period.

B. Conditions of Debt Financing

This criterion is applicable only to projects that involve debt financing. The applicant shall document that the conditions of debt financing are reasonable by submitting a notarized statement signed by an authorized representative that attests to the following, as applicable:

- 1) That the selected form of debt financing for the project will be at the lowest net cost available;
- 2) That the selected form of debt financing will not be at the lowest net cost available, but is more advantageous due to such terms as prepayment privileges, no required mortgage, access to additional indebtedness, term (years), financing costs and other factors;
- 3) That the project involves (in total or in part) the leasing of equipment or facilities and that the expenses incurred with leasing a facility or equipment are less costly than constructing a new facility or purchasing new equipment.

C. Reasonableness of Project and Related Costs

Read the criterion and provide the following:

1. Identify each department or area impacted by the proposed project and provide a cost and square footage allocation for new construction and/or modernization using the following format (insert after this page).

COST AND GROSS SQUARE FEET BY DEPARTMENT OR SERVICE									
Department (list below)	A	B	C	D	E	F	G	H	Total Cost (G + H)
	Cost/Square Foot New	Mod.	Gross Sq. Ft. New	Circ.*	Gross Sq. Ft. Mod.	Circ.*	Const. \$ (A x C)	Mod. \$ (B x E)	
Contingency									
TOTALS									

* Include the percentage (%) of space for circulation

D. Projected Operating Costs

The applicant shall provide the projected direct annual operating costs (in current dollars per equivalent patient day or unit of service) for the first full fiscal year at target utilization but no more than two years following project completion. Direct cost means the fully allocated costs of salaries, benefits and supplies for the service.

E. Total Effect of the Project on Capital Costs

The applicant shall provide the total projected annual capital costs (in current dollars per equivalent patient day) for the first full fiscal year at target utilization but no more than two years following project completion.

APPEND DOCUMENTATION AS ATTACHMENT 42, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XI. Safety Net Impact Statement NOT APPLICABLE

SAFETY NET IMPACT STATEMENT that describes all of the following must be submitted for ALL SUBSTANTIVE AND DISCONTINUATION PROJECTS:

1. The project's material impact, if any, on essential safety net services in the community, to the extent that it is feasible for an applicant to have such knowledge.
2. The project's impact on the ability of another provider or health care system to cross-subsidize safety net services, if reasonably known to the applicant.
3. How the discontinuation of a facility or service might impact the remaining safety net providers in a given community, if reasonably known by the applicant.

Safety Net Impact Statements shall also include all of the following:

1. For the 3 fiscal years prior to the application, a certification describing the amount of charity care provided by the applicant. The amount calculated by hospital applicants shall be in accordance with the reporting requirements for charity care reporting in the Illinois Community Benefits Act. Non-hospital applicants shall report charity care, at cost, in accordance with an appropriate methodology specified by the Board.
2. For the 3 fiscal years prior to the application, a certification of the amount of care provided to Medicaid patients. Hospital and non-hospital applicants shall provide Medicaid information in a manner consistent with the information reported each year to the Illinois Department of Public Health regarding "Inpatients and Outpatients Served by Payor Source" and "Inpatient and Outpatient Net Revenue by Payor Source" as required by the Board under Section 13 of this Act and published in the Annual Hospital Profile.
3. Any information the applicant believes is directly relevant to safety net services, including information regarding teaching, research, and any other service.

A table in the following format must be provided as part of Attachment 43.

Safety Net Information per PA 96-0031			
CHARITY CARE			
Charity (# of patients)	2009	2010	2011
Inpatient			
Outpatient			
Total			
Charity (cost in dollars)			
Inpatient			
Outpatient			
Total			
MEDICAID			
Medicaid (# of patients)	Year	Year	Year
Inpatient			
Outpatient			
Total			

	Medicaid (revenue)			
	Inpatient			
	Outpatient			
	Total			

APPEND DOCUMENTATION AS ATTACHMENT-43, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

XII. Charity Care Information

Charity Care information **MUST** be furnished for **ALL** projects.

1. All applicants and co-applicants shall indicate the amount of charity care for the latest three **audited** fiscal years, the cost of charity care and the ratio of that charity care cost to net patient revenue.
2. If the applicant owns or operates one or more facilities, the reporting shall be for each individual facility located in Illinois. If charity care costs are reported on a consolidated basis, the applicant shall provide documentation as to the cost of charity care; the ratio of that charity care to the net patient revenue for the consolidated financial statement; the allocation of charity care costs; and the ratio of charity care cost to net patient revenue for the facility under review.
3. If the applicant is not an existing facility, it shall submit the facility's projected patient mix by payer source, anticipated charity care expense and projected ratio of charity care to net patient revenue by the end of its second year of operation.

Charity care" means care provided by a health care facility for which the provider does not expect to receive payment from the patient or a third-party payer. (20 ILCS 3960/3) Charity Care **must** be provided at cost.

A table in the following format must be provided for all facilities as part of Attachment 44.

CHARITY CARE			
	Year	Year	Year
Net Patient Revenue			
Amount of Charity Care (charges)			
Cost of Charity Care			

APPEND DOCUMENTATION AS ATTACHMENT-44, IN NUMERIC SEQUENTIAL ORDER AFTER THE LAST PAGE OF THE APPLICATION FORM.

Steven Airhart, Administrator
UHS of Hartgrove, Inc.
d/b/a Garfield Park Hospital
520 N. Ridgeway Avenue
Chicago, IL 60624

Dear Administrator Airhart,

Enclosed is your Illinois Full Psychiatric Hospital License ID No. 0005876. This license is effective 02/11/13 through 02/10/14. You will receive a renewal license prior to expiration of the current license. This license has been issued based on the information submitted.

If the staff of the Division of Health Care Facilities and Programs can be of any assistance to you in the operation of your Hospital, please address your concerns to the Central Office Operations Section, 525 West Jefferson Street, 4th Floor, Springfield, Illinois 62761-0001, or feel free to call us at (217) 782-7412. The Departments TTY number is 800/547-0466, for use by the hearing impaired.

Sincerely,

Karen Senger RN

Office of the General Counsel

Ms. Courtney Avery
Administrator
Illinois Health Facilities and Services Review Board
525 West Jefferson Street, 2nd Floor
Springfield, Illinois 62761

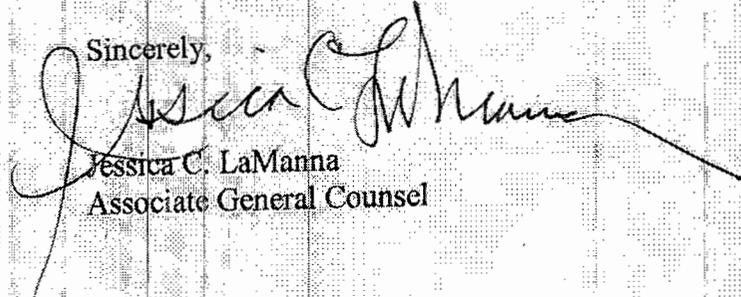

RE: GARFIELD PARK HOSPITAL
CHANGE OF OWNERSHIP

Dear Ms. Avery:

This letter is to certify that no adverse action has been taken against any facility owned and/or operated by the applicant during the three years.

In addition, the Health Facilities and Services Review Board and the Department of Public Health (DPH) are authorized access to any documents necessary to verify the information submitted, including, but not limited to: official records of DPH or other State agencies; the licensing or certification records of other states, when applicable; and the records of nationally recognized accreditation organizations.

Sincerely,

Jessica C. LaManna
Associate General Counsel

PURPOSE OF PROJECT

The purpose of this project is to effect an organizational reorganization of Garfield Park Hospital into a single member LLC. As a single member LLC, we will have the benefit of two separate legal entities with only one tax filing under UHS of Hartgrove, Inc. This is the preferred structure of the parent organization.

Garfield Park Hospital completed its construction during the month of December in Chicago's Garfield Park neighborhood, a highly underserved community for mental health services. It will serve the community primarily through referrals by the Chicago Police Department, Chicago Public Schools, ER's, SASS/Community Mental Health Centers, etc. There are many times when patients needing emergent psychiatric treatment are faced with limited resources and having to be detained often times in unsecured and sometimes unsafe settings, due to limited availability and/or access to acute mental health resources. Garfield Park Hospital will serve this community once again as a provider of acute mental health services, responding to the critical community need for additional child and adolescent inpatient psychiatric services.

This transaction will have no anticipated impact on area health services or market area served.

PURPOSE OF PROJECT ATTACHMENT 12

A12 1 of 1

ALTERNATIVES TO THE PROJECT

The only alternative to effecting this reorganization is to "do nothing." This alternative has been determined to be detrimental to the Hospital.

UNANIMOUS WRITTEN CONSENT
OF
THE BOARD OF DIRECTORS
OF
UHS OF HARTGROVE, INC.

FEBRUARY 15, 2013

The undersigned, being all of the Directors of UHS of Hartgrove, Inc., an Illinois corporation (the "Corporation"), d/b/a Hartgrove Hospital do hereby unanimously consent in writing to the action taken in the following resolution in lieu of a meeting:

WHEREAS, the management of the Corporation deems it in the best interest of the Corporation to transfer the ownership of assets located at 520 N. Ridgeway Avenue, Chicago, Illinois from the Corporation to Garfield Park Hospital, LLC ("Garfield"), and

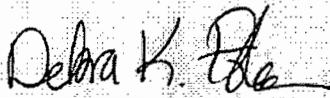

WHEREAS, that the management of the Corporation has reviewed and approved the Garfield CON Application; and

RESOLVED, that the management of the Corporation hereby approves the transfer of ownership of assets which is subject to approval of the Illinois Health Facilities and Services Review Board.

WITNESS, the signatures of the undersigned as evidence of their consent in writing to the action taken in the foregoing resolution.

LAURENCE HARROD

DEBRA K. OSTEEEN

STEVE FILTON

A. Criterion 1110.240(b), Impact Statement

This transaction is for an organizational reorganization the will establish Garfield Park Hospital as a limited liability company, i.e., Garfield Park Hospital LLC. Garfield Park Hospital LLC will be the operating entity and license holder.

- There will be no change of beds or services.
- There will be no reductions or increases in employees as a result of this transaction. Employment is expected to increase over the next two years as the newly opened facility reaches its full utilization

The reorganization has been authorized by the Board of Directors of the current ownership.

B. Criterion 1110.240(c), Access

The current admission policies will remain unchanged.

The following pages include

- Certification that admission policies will not become less restrictive; and
- The Hospital's admissions policies.

GARFIELD PARK HOSPITAL

Dear Ms. Avery:

This is to certify that the admission policies of Garfield Park Hospital will not become more restrictive under the proposed ownership.

Sincerely,

Keith Kuhn
CEO
Garfield Park Hospital

CC: Jeffrey Mark, Consultant

GARFIELD PARK HOSPITAL

SERVICE ADMISSION / DISCHARGE CRITERIA

I. Admission Criteria

A. Inpatient Program Admission Criteria

To be eligible for admission to an inpatient program of Garfield Park Hospital, patients must meet criteria of both age and medical necessity.

Age Groups by Program:	Pediatrics:	3 – 12
	Adolescent:	13- 17

r:

Exceptions to the age limitations must be cleared by the appropriate Unit or CNO. Medical necessity for admission into the Hospital is present when either of the following criteria is met:

1. The patient is dangerous to himself/herself or others because of a psychiatric disorder. This group includes those patients who are actively suicidal, self-injurious, homicidal, or combative with behaviors likely to endanger others. The patient is unable to provide for his or her basic physical needs. A person with mental illness who, because of the nature of his or her illness, is unable to understand his or her need for treatment.
2. The patient demonstrates two or more of the following:
 - a) Sufficient severity of psychiatric symptoms, whether behavioral or affectual in nature, to require 24-hour per day supervision in an inpatient setting.
 - b) A regression in level of functioning induced by psychiatric factors, to the point such that the patient is unable to care for his/her physical needs or to protect himself/herself because of a psychiatric disorder.
 - c) A regression of family, social, or occupational capacities, induced by psychiatric factors, causing a breakdown in the patient's ability to function in any of these spheres in a fashion which meets minimal standards or values established by the patient's environment.
 - d) Psychopathology of a degree such that 24-hour per day continuous, skilled psychiatric observation is necessary.
 - e) Psychopathology which requires treatment which can only be rendered in a 24-hour per day, hospital-based psychotherapeutic program.
 - f) Psychopathology which requires psychoactive medications which must be administered and managed within a 24-hour per day, hospital-based program.
 - g) Psychopathology which has not been sufficiently ameliorated by an appropriate trial of outpatient treatment or other treatment less restrictive than that of a hospital; OR psychopathology of a degree such that treatment is necessary and the patient has consistently refused outpatient treatment.

B. *Partial Hospitalization Program Admission Criteria*

1. Patients who have failed at traditional outpatient services.
2. Patients in acute crisis, with a goal of preventing inpatient hospitalization.
3. Patients in need of a more extended intensive care, who can use the Partial Hospitalization Program as an alternative to continued or recidivist hospitalizations.
4. Patients accepted for admission to the Partial Hospitalization Program must meet all of the following criteria:
 - a) Patient is age appropriate to service description (children 6-10, pre-adolescents 11-13, adolescents 14-17).
 - b) Patient has an acute onset of significant emotional or mental problems which requires intensive treatment, which does not require the 24-hour per day level of care provided in an inpatient setting.
 - c) Severe impairment in social, vocational, or educational functioning can be documented.
 - d) Patient is free from any significant medical problems which could prevent active treatment.
 - e) Patient has the capacity to actively engage in treatment.

II. Ineligibility

A. *Inpatient Ineligibility Criteria*

Patients who are described in any of these classifications, regardless of whether they meet the above listed Admission Criteria, cannot be admitted to any of the services.

1. Exceptions to the admission of a patient with an IQ under 70 must be cleared by the appropriate Unit Clinical Director and the RN Manager
2. Exceptions to the admission of a patient with OBS and concomitant psychiatric problems must be cleared by the appropriate Clinical Director.
3. Patients who are not ambulatory. (As in bedridden, rather than those who are able to ambulate with the assistance of walking devices such as canes, crutches, walkers, and wheelchairs do not fall into this classification.)
4. Patients with acute medical problems, requiring interventions that would themselves require admission to a medical-surgical facility (e.g., continuous intravenous administration of drugs or fluids, cardiac monitoring, or care of patients who have ingested overdose and have not been declared medically stable by a physician), or that cannot be provided in this facility without impairing psychiatric care for the service-unit as a whole (e.g., patients without bowel or bladder control necessitate the use of staff time to such an extent that other staff time with other patients is unacceptably limited.)
5. Detoxification: See Ineligibility and Medical Condition Criteria.
6. Patients who present extremely violent behavior (at time of proposed admission or by history) which poses a danger to others and which cannot be controlled or contained in this setting. These are situations in which the treatment methods and controls normally available in this Hospital are judged ineffective in preventing this behavior by the attending psychiatrist or the Medical Director, thereby necessitating a more extensively structured and secured treatment setting.

B. *Partial Hospital Program Ineligibility Criteria*

1. The patient is in need of detoxification services.
2. The patient is in imminent danger of suicidal or homicidal behavior.
3. The patient is assaultive, requiring 24-hour supervision.

4. The patient exhibits poor impulse control, manifested by self-mutilating or destructive behavior, requiring 24-hour supervision.
5. The patient exhibits extreme confusion which renders him/her dangerous to self or others, requiring 24-hour supervision.
6. The patient exhibits severe agitated, manic, or psychotic symptoms, requiring 24-hour supervision.
7. Patient with an IQ under 70 must be cleared by Program Coordinator and Clinical Director.
8. After initial inclusion in the day program service, the patient's appropriateness for ongoing participation should be reassessed if:
 - a) The patient is unable to establish a minimal working alliance with the staff.
 - b) The patient appears incapable of benefiting from the program (i.e., medical complications, etc.).
 - c) The patient's treatment needs cannot be met within the program.
 - d) The patient's behavior is destructive to the maintenance of an emotionally safe milieu.
 - e) The patient's behavior interferes with the treatment of others.
 - f) The patient cannot or refuses to participate in active treatment.
 - g) The patient is persistently noncompliant or has multiple unexcused absences.

III. Exclusion Criteria

A. *Inpatient Services*

An individual being considered for admission to Garfield Park Hospital will be assessed for the need for admission and the capacity to benefit from the Hospital's programs by either the attending psychiatrist, or, if the patient has no psychiatrist on Staff, the facility designated clinical evaluator on duty at the time the patient is admitted. In all cases, assistance is available from the Medical Director and Clinical Directors. If a patient is deemed ineligible by service criteria, yet demonstrates a need for resources other than those Garfield Park Hospital can provide, the Admissions Coordinator, with the assistance of System-employed psychologists and social workers, will work to refer those persons to agencies better able to meet their needs.

IV. Discharge Criteria

A. *Inpatient Service*

An inpatient is discharged under any of the following conditions:

1. Treatment goals are met. Discharge criteria are determined during the initial phase of hospitalization, using each patient as his or her own standard with goals established based on the specific conditions precipitating the hospitalization. Based upon these presenting problems, an individual treatment plan with discharge goals is established. Upon achievement of these goals and the patient's concomitant improvement in functioning to the point that he or she can live independently or with non-hospital (i.e., non-patient) supportive services, the patient is considered appropriate for discharge. This determination is made by the attending psychiatrist with input from the treatment team. The Utilization Review system serves as a check to this process.
2. The patient is unable to benefit from the Hospital's programming or is unable to establish a therapeutic alliance; or there is, for some other reason, no reasonable expectation of a positive response to treatment. This determination may be

reached by the attending psychiatrist, the Utilization Review Committee, or the Medical Director.

3. Physiological problems warrant transfer to a medical-surgical facility. This determination is made by the attending psychiatrist or the Medical Director with input from the Clinical Directors, House Physician, and Nursing Staff.
4. There is inappropriate utilization of services as judged by the Utilization Review process.
5. Patients who are discovered after admission to meet any of the criteria for Ineligibility listed above (e.g., patients who, after admission, present extremely violent behavior that poses an extreme danger to self or others and who cannot be controlled or contained by treatment methods and procedures normally available at this Hospital). This determination is made by the attending psychiatrist or the Medical Director with input from the Clinical Director, and Unit Program Management.

B. *Partial Hospitalization Program Service*

1. Relief of symptoms and behavior problems so that there is no longer significant interference with independent living.
2. Observation and protection are no longer required, such that the patient is reliable to care for him/herself outside of the Partial Hospitalization Program structure.
3. Appropriate support and resources continue to be available in the community to adequately support the patient.
4. Goals of treatment have been substantially met.
5. Patient is unwilling or unable to participate in program.

Medical Condition Criteria for Admission Into and Discharge Out Of Service

A. *Medical Screening Process*

1. All patients being transferred from a medical facility or extended care facility (Nursing Home, Emergency Room, Hospital), must be accompanied by a written and signed transfer form by a Medical Physician or R.N. stating that the patient to be admitted is *Medically Stable* and fulfills the Hospital's criteria for admission. Physical exam and lab result copies are appreciated.
2. Patients who are admitted from home, doctor's office, or places other than medical and extended care facilities are the responsibility of the attending psychiatrist to provisionally clear the patient medically and comply with the admission criteria set by Garfield Park Hospital.
3. All patients will be screened on admission and will be accepted only if they meet the admission criteria. If the Hospital screen proves noncompliance with the admission criteria, the patient will be returned to the facility of origin or transferred to a medical facility immediately.
4. Hospital screening process includes assessment by nursing supervisor or House physician at time of admission and up to 24 hours when History and Physical will be completed.

B. *Eligible Admission Criteria*

Garfield Park Hospital will only accept patients who prove medically stable.

1. Medical problems must be under control and patient must be on maintenance therapy.
2. Are able to ambulate without assistance (see Ineligibility Criteria).

3. Patients who are pregnant:
Uncomplicated pregnancy: Women who are less than 18 weeks pregnant and who meet the Hospital's admission criteria as assessed by RN. Medical Staff Consultant to follow pregnant patient protocol.
4. Infections such as H1N1, MDRO etc require medical clearance.

C. *Ineligible Admission Criteria*

1. Uncontrolled/ Unstable Hypertension; Diabetes
2. Conditions requiring intravenous medications, nutrition, or oxygen
3. Renal Dialysis Impending DTs in patients in withdrawal with histories of DTs or seizures.
4. Patients with cancer in current, procedurally complicated treatment
5. Active and contagious Tuberculosis
6. Acutely symptomatic or complicated AIDS
7. Overdose within the last 48-hours with drug levels in toxic range or rising levels
8. Acute and extensive second or third degree burns
9. Acute chemical injury
10. Persistent diarrhea or vomiting or uncontrolled incontinence
11. Contagious/ Communicable Disease as spelled out in the Infection Control Manual
12. Manual
13. Advanced or complicated pregnancies or high risk (see above)
14. Other: as determined by the Director of Inpatient Services

Date Effective: January 2013

C. Criterion 1110.240(d), Health Care System

As this transaction does not change beds, services or anticipated patient volume, the transaction will have no effect on other area providers.

Garfield Park Hospital has no referral agreements among its system's facilities. The Hospital does maintain referral agreements with local area acute care providers for patients needing medical/surgical and comprehensive emergency room services.

The following are the Health System's facilities:

Facility	Beds	Services	Location	12 mo. Utilization ¹
Garfield Park Hospital	88	AMI	520 N. Ridgeway Ave. , Chicago	Newly opened
Hartgrove Hospital	133	AMI	5730 W. Roosevelt Rd, Chicago	81%
Streamwood Behavioral Health Systems	162	AMI	1400 E. Irving Park Rd., Streamwood	73%
Riveredge Hospital	210	AMI	8311 W. Roosevelt Rd., Forest Park	54%
The Pavilion Foundation ²	69	AMI	809 W. Church St, Champaign	88%
Lincoln Prairie Behavioral Health	88	AMI	5230 S. Sixth St., Springfield	60%

¹ Data source 2011 Annual Hospital Profiles, IDPH

²The Pavilion was approved to increase to 69 beds in 2012. Utilization is based upon its 2011 annual report indicating

Subject property: Garfield Park Hospital
 520 N. Ridgeway Avenue
 Chicago, Illinois
 PINs: 16-11-122-015 through -022; 16-11-122-033, -034, -048, -049

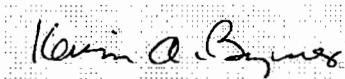

Dear Mr. Grossman:

At your request, I have prepared the accompanying complete appraisal of the above-referenced property. The report accompanying this letter is an estimate of the prospective market value of the subject property in fee simple estate as of January 1, 2013. The subject property is a psychiatric hospital located on a 68,930 square foot site. It is licensed for 88 beds, with a projected increase to 97. The property has not yet opened for operation.

We have analyzed the subject property using the cost approach, sales comparison approach, and the income capitalization approach to value. The following report, which summarizes our analysis and conclusions, complies with the Uniform Standards of Professional Appraisal Practice.

Respectfully submitted,

BYRNES, HOULIHAN AND WALSH, LLC

Kevin A. Byrnes, MAI
Certified General Real Estate Appraiser

APPRAISAL REPORT EXHIBIT 1
E1 2 of 4

SUMMARY OF KEY FACTS AND CONCLUSIONS

Property Address: 520 N. Ridgeway Avenue
Chicago, Illinois

Building Size: Approximately 53,446 square feet of gross above-grade building area, containing 88 patient beds in 2013, increasing to 97 beds by 2015.

Site Area: 68,930 square feet

Zoning: RT-4, Residential Two-Flat, Townhouse and Multi-Unit District

Highest and Best Use: Proposed psychiatric hospital use

PINs: 16-11-122-015 through -022; 16-11-122-033, -034, -048, -049

Purpose of Appraisal: To estimate the market value of the fee simple interest in the subject real estate only, **excluding the value of tangible and intangible personal property**, subject to the contingent and limiting conditions contained herein, as of January 1, 2013.

Valuation Date: January 1, 2013

Value Conclusions (Real Estate Only):

<i>Approach to value</i>	<i>As-is value</i>	<i>As-stabilized value</i>
Cost approach	\$7,120,000	\$12,770,000
Sales comparison approach	\$6,830,000	\$12,480,000
Income capitalization approach	\$6,640,000	\$12,290,000
Market value conclusion	\$6,900,000	\$12,500,000

CERTIFICATE

The undersigned, representing BYRNES, HOULIHAN & WALSH LLC, do hereby certify that to the best of our knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions and conclusions in this report are limited only by the assumptions and limiting conditions, stated in this report and represent the personal, impartial and unbiased professional analyses, opinions, and conclusions of the undersigned.
- We have no present or prospective interest in the property that is the subject of this report, and no personal interest with respect to any of the parties involved. We have provided no real estate services, including appraisal, with respect to the subject in the past three years.
- We have no bias with respect to the property that is the subject of this report, or to the parties involved with this assignment.
- Our engagement in this assignment was not contingent upon developing or reporting predetermined results.
- Our compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- Our reported analysis, opinions, and conclusions were developed, and this report has been prepared, in conformity with the requirements of the Code of Professional Ethics & Standards of Professional Appraisal Practice of the Appraisal Institute which include the Uniform Standards of Professional Appraisal Practice. The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized agents.
- The following persons from among the undersigned have made a personal interior and exterior inspection of the property that is the subject of this report on the date(s) indicated:

Kevin A. Byrnes on September 5, 2012 (interior and exterior)

- No one other than the undersigned provided significant professional assistance in the preparation of this appraisal report.
- As of the date of this report, Kevin A. Byrnes has completed the continuing education program of the Appraisal Institute.
- The undersigned has caused these statements to be signed and attested to on September 20, 2012.

Class B Common Stock, \$.01 par value	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act:

Class D Common Stock, \$.01 par value
(Title of each Class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Exchange Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act (check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of voting stock held by non-affiliates at June 30, 2011 was \$4.61 billion. (For the purpose of this calculation, it was assumed that Class A, Class C, and Class D Common Stock, which are not traded but are convertible share-for-share into Class B Common Stock, have the same market value as Class B Common Stock. Also, for purposes of this calculation only, all directors, officers subject to Section 16(b) of the Securities Exchange Act of 1934, and 10% stockholders are deemed to be affiliates.)

The number of shares of the registrant's Class A Common Stock, \$.01 par value, Class B Common Stock, \$.01 par value, Class C Common Stock, \$.01 par value, and Class D Common Stock, \$.01 par value, outstanding as of January 31, 2012, were 6,625,708, 89,408,941, 664,000 and 33,084, respectively.

DOCUMENTS INCORPORATED BY REFERENCE:

Portions of the registrant's definitive proxy statement for our 2012 Annual Meeting of Stockholders, which will be filed with the Securities and Exchange Commission within 120 days after December 31, 2011 (incorporated by reference under Part III).

Exhibit Index

This Annual Report on Form 10-K is for the year ended December 31, 2011. This Annual Report modifies and supersedes documents filed prior to this Annual Report. Information that we file with the Securities and Exchange Commission (the "SEC") in the future will automatically update and supersede information contained in this Annual Report.

In this Annual Report, "we," "us," "our" and the "Company" refer to Universal Health Services, Inc. and its subsidiaries. UHS is a registered trademark of UHS of Delaware, Inc., the management company for, and a wholly-owned subsidiary of Universal Health Services, Inc. Universal Health Services, Inc. is a holding company and operates through its subsidiaries including its management company, UHS of Delaware, Inc. All healthcare and management operations are conducted by subsidiaries of Universal Health Services, Inc. To the extent any reference to "UHS" or "UHS facilities" in this report including letters, narratives or other forms contained herein relates to our healthcare or management operations it is referring to Universal Health Services, Inc.'s subsidiaries including UHS of Delaware, Inc. Further, the terms "we," "us," "our" or the "Company" in such context similarly refer to the operations of Universal Health Services Inc.'s subsidiaries including UHS of Delaware, Inc. Any reference to employees or employment contained herein refers to employment with or employees of the subsidiaries of Universal Health Services, Inc. including UHS of Delaware, Inc.

PART I

ITEM 1. *Business*

Our principal business is owning and operating, through our subsidiaries, acute care hospitals, behavioral health centers, surgical hospitals, ambulatory surgery centers and radiation oncology centers. As of February 24, 2012, we owned and/or operated 25 acute care hospitals and 198 behavioral health centers located in 36 states, Washington, D.C., Puerto Rico and the U.S. Virgin Islands. As part of our ambulatory treatment centers division, we manage and/or own outright or in partnerships with physicians, 6 surgical hospitals and surgery and radiation oncology centers located in 4 states and Puerto Rico.

In November, 2010, we acquired Psychiatric Solutions, Inc. ("PSI"). PSI was formerly the largest operator of freestanding inpatient behavioral health care facilities operating a total of 105 inpatient and outpatient facilities in 32 states, Puerto Rico, and the U.S. Virgin Islands.

Net revenues from our acute care hospitals, surgical hospitals, surgery centers and radiation oncology centers accounted for 55% of our consolidated net revenues in 2011, 70% in 2010 and 74% in 2009. Net revenues from our behavioral health care facilities accounted for 45% of our consolidated net revenues during 2011, 30% during 2010 and 25% during 2009. Approximately 1% of our consolidated net revenues in 2009 were recorded in connection with two construction management contracts pursuant to the terms of which we built newly constructed acute care hospitals for an unrelated third party.

Services provided by our hospitals include general and specialty surgery, internal medicine, obstetrics, emergency room care, radiology, oncology, diagnostic care, coronary care, pediatric services, pharmacy services and/or behavioral health services. We provide capital resources as well as a variety of management services to our facilities, including central purchasing, information services, finance and control systems, facilities planning, physician recruitment services, administrative personnel management, marketing and public relations.

We are a Delaware corporation that was organized in 1979. Our principal executive offices are located at Universal Corporate Center, 367 South Gulph Road, P.O. Box 61558, King of Prussia, PA 19406. Our telephone number is (610) 768-3300.

Available Information

Our website is located at <http://www.uhsinc.com>. Copies of our annual, quarterly and current reports that we file with the SEC, and any amendments to those reports, are available free of charge on our website. The information posted on our website is not incorporated into this Annual Report. Our Board of Directors' committee charters (Audit Committee, Compensation Committee and Nominating & Governance Committee), Code of Business Conduct and Corporate Standards applicable to all employees, Code of Ethics for Senior Financial Officers, Corporate Governance Guidelines and our Healthcare Code of Conduct, Corporate Compliance Manual and Compliance Policies and Procedures are available free of charge on our website. Copies of such reports and charters are available in print to any stockholder who makes a request. Such requests should be made to our Secretary at our King of Prussia, PA corporate headquarters. We intend to satisfy the disclosure requirement under Item 5.05 of Form 8-K relating to amendments to or waivers of any provision of our Code of Ethics for Senior Financial Officers by promptly posting this information on our website.

In accordance with Section 303A.12(a) of the New York Stock Exchange Listed Company Manual, we submitted our CEO's certification to the New York Stock Exchange in 2011. Additionally, contained in Exhibits 31.1 and 31.2 of this Annual Report on Form 10-K, are our CEO's and CFO's certifications regarding the quality of our public disclosures under Section 302 of the Sarbanes-Oxley Act of 2002.

Our Mission

Our mission and objective is to provide superior healthcare services that patients recommend to families and friends, physicians prefer for their patients, purchasers select for their clients, employees are proud of, and investors seek for long-term results. To achieve this, we have a commitment to:

- service excellence
- continuous improvement in measurable ways
- employee development
- ethical and fair treatment
- teamwork
- compassion
- innovation in service delivery

Business Strategy

We believe community-based hospitals will remain the focal point of the healthcare delivery network and we are committed to a philosophy of self-determination for both the company and our hospitals.

Acquisition of Additional Hospitals. We selectively seek opportunities to expand our base of operations by acquiring, constructing or leasing additional hospital facilities. We are committed to a program of rational growth around our core businesses, while retaining the missions of the hospitals we manage and the communities we serve. Such expansion may provide us with access to new markets and new healthcare delivery capabilities. We also continue to examine our facilities and consider divestiture of those facilities that we believe do not have the potential to contribute to our growth or operating strategy.

Improvement of Operations of Existing Hospitals and Services. We also seek to increase the operating revenues and profitability of owned hospitals by the introduction of new services, improvement of existing services, physician recruitment and the application of financial and operational controls.

We are involved in continual development activities for the benefit of our existing facilities. Applications to state health planning agencies to add new services in existing hospitals are currently on file in states which require certificates of need, or CONs. Although we expect that some of these applications will result in the addition of new facilities or services to our operations, no assurances can be made for ultimate success by us in these efforts.

Quality and Efficiency of Services. Pressures to contain healthcare costs and technological developments allowing more procedures to be performed on an outpatient basis have led payors to demand a shift to ambulatory or outpatient care wherever possible. We are responding to this trend by emphasizing the expansion of outpatient services. In addition, in response to cost containment pressures, we continue to implement programs at our facilities designed to improve financial performance and efficiency while continuing to provide quality care, including more efficient use of professional and paraprofessional staff, monitoring and adjusting staffing levels and equipment usage, improving patient management and reporting procedures and implementing more efficient billing and collection procedures. In addition, we will continue to emphasize innovation in our response to the rapid changes in regulatory trends and market conditions while fulfilling our commitment to patients, physicians, employees, communities and our stockholders.

In addition, our aggressive recruiting of highly qualified physicians and developing provider networks help to establish our facilities as an important source of quality healthcare in their respective communities.

Acquisition and Divestiture Activity:

Acquisitions:

During 2011, we paid approximately \$29 million, excluding the assumption of \$17 million of third-party debt, to: (i) acquire the real property of administrative/office buildings located in Pennsylvania, Tennessee and Washington, D.C.; (ii) fund a deposit in connection with execution of a definitive agreement, which is subject to regulatory approvals and closing conditions, to acquire the Knapp Medical Center, including a 226-bed acute care hospital, a surgery center, physician practices and other related assets located in Weslaco, Texas, and; (iii) purchase a cardiology practice in Texas.

Divestitures:

During 2011 and January of 2012, we received aggregate net cash proceeds of approximately \$118 million for the sale of:

- Hospital San Juan Capestrano, a 108-bed behavioral health facility located in Puerto Rico. The sale of this facility, which was completed in January, 2012, was made pursuant to our agreement with the Federal Trade Commission ("FTC") in connection with our acquisition of PSI;
- Montevista Hospital (101-bed) and Red Rock Hospital (21-bed) located in Las Vegas, Nevada. The sales of these behavioral health facilities, which were completed during the fourth quarter of 2011, were made pursuant to our agreement with the FTC in connection with our acquisition of PSI;
- Meadowood Behavioral Health System, a 58-bed behavioral health facility located in New Castle, Delaware. The sale of this facility, which was completed during the third quarter of 2011, was made pursuant to our agreement with the FTC in connection with our acquisition of PSI, and;
- other dispositions during 2011 including the real property of a closed acute care hospital and the sale of our majority ownership interest in a radiation oncology center located in Nevada.

The aggregate net pre-tax gain on the above-mentioned divestitures (excluding the Hospital San Juan Capestrano which was divested in January, 2012) did not have a material impact on our 2011 consolidated results of operations. The pre-tax gain on the divestiture of the Hospital San Juan Capestrano, which will not have a material impact on our 2012 consolidated results of operations, will be reflected in our consolidated results of operations during the first quarter of 2012. The assets and liabilities for the Hospital San Juan Capestrano are reflected as "held for sale" on our Consolidated Balance Sheet as of December 31, 2011.

The PSI Acquisition

In November, 2010, we acquired Psychiatric Solutions, Inc. for a total purchase price of \$3.04 billion consisting of \$1.96 billion in cash plus the assumption of approximately \$1.08 billion of PSI's debt, the majority of which has since been refinanced. PSI was formerly the largest operator of freestanding inpatient behavioral health care facilities operating a total of 105 inpatient and outpatient facilities in 32 states, Puerto Rico, and the U.S. Virgin Islands.

The facilities acquired by us, with an aggregate of approximately 11,500 licensed beds at the time of acquisition, offer an extensive continuum of behavioral health programs to critically ill children, adolescents and adults. We also acquired management contracts to manage freestanding behavioral health care inpatient facilities for government agencies and behavioral health units within certain medical/surgical hospitals owned by third-parties.

Combined with our previously existing behavioral health care operations located throughout the U.S., we believe this acquisition makes us the largest facility-based provider in the behavioral health care sector. Our increased operating scale may allow us to operate more efficiently and enhance our presence within certain

markets. We also achieved planned operating expense reductions during 2011 primarily through the elimination of PSI-related corporate overhead. This acquisition also helps diminish our geographic concentration in certain markets thereby diversifying our overall portfolio and reducing our reliance on one hospital or a cluster of hospitals in a certain market.

Hospital Utilization

We believe that the most important factors relating to the overall utilization of a hospital include the quality and market position of the hospital and the number, quality and specialties of physicians providing patient care within the facility. Generally, we believe that the ability of a hospital to meet the health care needs of its community is determined by its breadth of services, level of technology, emphasis on quality of care and convenience for patients and physicians. Other factors that affect utilization include general and local economic conditions, market penetration of managed care programs, the degree of outpatient use, the availability of reimbursement programs such as Medicare and Medicaid, and demographic changes such as the growth in local populations. Utilization across the industry also is being affected by improvements in clinical practice, medical technology and pharmacology. Current industry trends in utilization and occupancy have been significantly affected by changes in reimbursement policies of third party payors. We are also unable to predict the extent to which these industry trends will continue or accelerate. In addition, hospital operations are subject to certain seasonal fluctuations, such as higher patient volumes and net patient service revenues in the first and fourth quarters of the year.

The following table sets forth certain operating statistics for hospitals operated by us for the years indicated. Accordingly, information related to hospitals acquired during the five-year period has been included from the respective dates of acquisition, and information related to hospitals divested during the five year period has been included up to the respective dates of divestiture. Information related to the behavioral health care facilities acquired by us in connection with our acquisition of PSI is included for the period of November 16, 2010 through December 31, 2011, excluding the 3 former PSI facilities that are reflected as discontinued operations, as discussed herein. The licensed and available beds for those facilities are included in 2010 on a weighted average basis for the period owned.

	2011	2010	2009	2008	2007
Average Licensed Beds:					
Acute Care Hospitals (1)	5,726	5,689	5,484	6,101	5,962
Behavioral Health Centers	19,280	9,427	7,921	7,658	7,348
Average Available Beds (2):					
Acute Care Hospitals (1)	5,424	5,383	5,128	5,249	5,110
Behavioral Health Centers	19,262	9,409	7,901	7,629	7,315
Admissions:					
Acute Care Hospitals (1)	258,754	264,470	265,244	268,207	262,147
Behavioral Health Centers	352,208	166,434	136,639	129,553	119,730
Average Length of Stay (Days):					
Acute Care Hospitals (1)	4.4	4.4	4.4	4.5	4.5
Behavioral Health Centers	14.6	15.1	15.4	16.1	16.8
Patient Days (3):					
Acute Care Hospitals (1)	1,151,183	1,155,984	1,166,704	1,200,672	1,172,130
Behavioral Health Centers	5,157,454	2,507,046	2,105,625	2,085,114	2,007,119
Occupancy Rate-Licensed Beds (4):					
Acute Care Hospitals (1)	55%	56%	58%	54%	54%
Behavioral Health Centers	73%	73%	73%	74%	75%
Occupancy Rate-Available Beds (4):					
Acute Care Hospitals (1)	58%	59%	62%	62%	63%
Behavioral Health Centers	73%	73%	73%	75%	75%

(1) Central Montgomery Medical Center located in Pennsylvania was divested during the fourth quarter of 2008. The statistical information for this facility is included in the above information through the divestiture date.

- (2) "Average Available Beds" is the number of beds which are actually in service at any given time for immediate patient use with the necessary equipment and staff available for patient care. A hospital may have appropriate licenses for more beds than are in service for a number of reasons, including lack of demand, incomplete construction, and anticipation of future needs
- (3) "Patient Days" is the sum of all patients for the number of days that hospital care is provided to each patient.
- (4) "Occupancy Rate" is calculated by dividing average patient days (total patient days divided by the total number of days in the period) by the number of average beds, either available or licensed.

Sources of Revenue

We receive payments for services rendered from private insurers, including managed care plans, the federal government under the Medicare program, state governments under their respective Medicaid programs and directly from patients. See *Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations—Sources of Revenue* for additional disclosure. Other information related to our revenues, income and other operating information for each reporting segment of our business is provided in Note 11 to our Consolidated Financial Statements, *Segment Reporting*.

Regulation and Other Factors

Overview: The healthcare industry is subject to numerous laws, regulations and rules including, among others, those related to government healthcare participation requirements, various licensure and accreditations, reimbursement for patient services, health information privacy and security rules, and Medicare and Medicaid fraud and abuse provisions (including, but not limited to, federal statutes and regulations prohibiting kickbacks and other illegal inducements to potential referral sources, false claims submitted to federal health care programs and self-referrals by physicians). Providers that are found to have violated any of these laws and regulations may be excluded from participating in government healthcare programs, subjected to significant fines or penalties and/or required to repay amounts received from the government for previously billed patient services. Although we believe our policies, procedures and practices comply with governmental regulations, no assurance can be given that we will not be subjected to additional governmental inquiries or actions, or that we would not be faced with sanctions, fines or penalties if so subjected. Even if we were to ultimately prevail, a significant governmental inquiry or action under one of the above laws, regulations or rules could have a material adverse impact on us.

Licensing, Certification and Accreditation: All of our hospitals are subject to compliance with various federal, state and local statutes and regulations and receive periodic inspection by state licensing agencies to review standards of medical care, equipment and cleanliness. Our hospitals must also comply with the conditions of participation and licensing requirements of federal, state and local health agencies, as well as the requirements of municipal building codes, health codes and local fire departments. Various other licenses and permits are also required in order to dispense narcotics, operate pharmacies, handle radioactive materials and operate certain equipment.

All of our eligible hospitals have been accredited by the Joint Commission. All of our acute care hospitals and most of our behavioral health centers are certified as providers of Medicare and Medicaid services by the appropriate governmental authorities.

If any of our facilities were to lose its Joint Commission accreditation or otherwise lose its certification under the Medicare and Medicaid programs, the facility may be unable to receive reimbursement from the Medicare and Medicaid programs and other payors. We believe our facilities are in substantial compliance with current applicable federal, state, local and independent review body regulations and standards. The requirements for licensure, certification and accreditation are subject to change and, in order to remain qualified, it may become necessary for us to make changes in our facilities, equipment, personnel and services in the future, which could have a material adverse impact on operations.

Certificates of Need: Many of the states in which we operate hospitals have enacted certificates of need ("CON") laws as a condition prior to hospital capital expenditures, construction, expansion, modernization or initiation of major new services. Failure to obtain necessary state approval can result in our inability to complete an acquisition, expansion or replacement, the imposition of civil or, in some cases, criminal sanctions, the inability to receive Medicare or Medicaid reimbursement or the revocation of a facility's license, which could harm our business. In addition, significant CON reforms have been proposed in a number of states that would increase the capital spending thresholds and provide exemptions of various services from review requirements. In the past, we have not experienced any material adverse effects from those requirements, but we cannot predict the impact of these changes upon our operations.

Conversion Legislation: Many states have enacted or are considering enacting laws affecting the conversion or sale of not-for-profit hospitals to for-profit entities. These laws generally require prior approval from the attorney general, advance notification and community involvement. In addition, attorneys general in states without specific conversion legislation may exercise discretionary authority over these transactions. Although the level of government involvement varies from state to state, the trend is to provide for increased governmental review and, in some cases, approval of a transaction in which a not-for-profit entity sells a health care facility to a for-profit entity. The adoption of new or expanded conversion legislation and the increased review of not-for-profit hospital conversions may limit our ability to grow through acquisitions of not-for-profit hospitals.

Utilization Review: Federal regulations require that admissions and utilization of facilities by Medicare and Medicaid patients must be reviewed in order to ensure efficient utilization of facilities and services. The law and regulations require Peer Review Organizations ("PROs") to review the appropriateness of Medicare and Medicaid patient admissions and discharges, the quality of care provided, the validity of diagnosis related group ("DRG") classifications and the appropriateness of cases of extraordinary length of stay. PROs may deny payment for services provided, assess fines and also have the authority to recommend to the Department of Health and Human Services ("HHS") that a provider that is in substantial non-compliance with the standards of the PRO be excluded from participating in the Medicare program. We have contracted with PROs in each state where we do business to perform the required reviews.

Audits: Most hospitals are subject to federal audits to validate the accuracy of Medicare and Medicaid program submitted claims. If these audits identify overpayments, we could be required to pay a substantial rebate of prior years' payments subject to various administrative appeal rights. The federal government contracts with third-party "recovery audit contractors" ("RACs") and "Medicaid integrity contractors" ("MICs"), on a contingent fee basis, to audit the propriety of payments to Medicare and Medicaid providers. Permanent RAC audits were created by Section 302 of the Tax Relief and Health Care Act of 2006 and required the secretary to expand the program to all 50 states by no later than 2010. Similarly, Medicare zone program integrity contractors ("ZPICs") target claims for potential fraud and abuse. Additionally, Medicare administrative contractors ("MACs") must ensure they pay the right amount for covered and correctly coded services rendered to eligible beneficiaries by legitimate providers. We have undergone claims audits related to our receipt of federal healthcare payments during the last three years, the results of which have not required material adjustments to our consolidated results of operations. However, potential liability from future federal or state audits could ultimately exceed established reserves, and any excess could potentially be substantial. Further, Medicare and Medicaid regulations also provide for withholding Medicare and Medicaid overpayments in certain circumstances, which could adversely affect our cash flow.

Self-Referral and Anti-Kickback Legislation

The Stark Law: The Social Security Act includes a provision commonly known as the "Stark Law." This law prohibits physicians from referring Medicare and Medicaid patients to entities with which they or any of their immediate family members have a financial relationship, unless an exception is met. These types of referrals are known as "self-referrals." Sanctions for violating the Stark Law include civil penalties up to \$15,000

for each violation, up to \$100,000 for sham arrangements, up to \$10,000 for each day an entity fails to report required information and exclusion from the federal health care programs. There are a number of exceptions to the self-referral prohibition, including an exception for a physician's ownership interest in an entire hospital as opposed to an ownership interest in a hospital department unit, service or subpart. However, federal laws and regulations now limit the ability of hospitals relying on this exception to expand aggregate physician ownership interest or to expand certain hospital facilities. There are also exceptions for many of the customary financial arrangements between physicians and providers, including employment contracts, leases and recruitment agreements that adhere to certain enumerated requirements.

We monitor all aspects of our business and have developed a comprehensive ethics and compliance program that is designed to meet or exceed applicable federal guidelines and industry standards. Nonetheless, because the law in this area is complex and constantly evolving, there can be no assurance that federal regulatory authorities will not determine that any of our arrangements with physicians violate the Stark Law.

Anti-kickback Statute: A provision of the Social Security Act known as the "anti-kickback statute" prohibits healthcare providers and others from directly or indirectly soliciting, receiving, offering or paying money or other remuneration to other individuals and entities in return for using, referring, ordering, recommending or arranging for such referrals or orders of services or other items covered by a federal or state health care program. However, recent changes to the anti-kickback statute have reduced the intent required for violation; one is no longer required to "have actual knowledge or specific intent to commit a violation of" the anti-kickback statute in order to be found guilty of violating such law.

The anti-kickback statute contains certain exceptions, and the Office of the Inspector General of the Department of Health and Human Services ("OIG") has issued regulations that provide for "safe harbors," from the federal anti-kickback statute for various activities. These activities, which must meet certain requirements, include (but are not limited to) the following: investment interests, space rental, equipment rental, practitioner recruitment, personnel services and management contracts, sale of practice, referral services, warranties, discounts, employees, group purchasing organizations, waiver of beneficiary coinsurance and deductible amounts, managed care arrangements, obstetrical malpractice insurance subsidies, investments in group practices, freestanding surgery centers, donation of technology for electronic health records and referral agreements for specialty services. The fact that conduct or a business arrangement does not fall within a safe harbor or exception does not automatically render the conduct or business arrangement illegal under the anti-kickback statute. However, such conduct and business arrangements may lead to increased scrutiny by government enforcement authorities.

Although we believe that our arrangements with physicians and other referral sources have been structured to comply with current law and available interpretations, there can be no assurance that all arrangements comply with an available safe harbor or that regulatory authorities enforcing these laws will determine these financial arrangements do not violate the anti-kickback statute or other applicable laws. Violations of the anti-kickback statute may be punished by a criminal fine of up to \$25,000 for each violation or imprisonment, however, under 18 U.S.C. Section 3571, this fine may be increased to \$250,000 for individuals and \$500,000 for organizations. Civil money penalties may include fines of up to \$50,000 per violation and damages of up to three times the total amount of the remuneration and/or exclusion from participation in Medicare and Medicaid.

Similar State Laws: Many of the states in which we operate have adopted laws that prohibit payments to physicians in exchange for referrals similar to the anti-kickback statute and the Stark Law, some of which apply regardless of the source of payment for care. These statutes typically provide criminal and civil penalties as well as loss of licensure. In many instances, the state statutes provide that any arrangement falling in a federal safe harbor will be immune from scrutiny under the state statutes. However, in most cases, little precedent exists for the interpretation or enforcement of these state laws.

These laws and regulations are extremely complex and, in many cases, we don't have the benefit of regulatory or judicial interpretation. It is possible that different interpretations or enforcement of these laws and regulations could subject our current or past practices to allegations of impropriety or illegality or could require

us to make changes in our facilities, equipment, personnel, services, capital expenditure programs and operating expenses. A determination that we have violated one or more of these laws, or the public announcement that we are being investigated for possible violations of one or more of these laws (see "Legal Proceedings"), could have a material adverse effect on our business, financial condition or results of operations and our business reputation could suffer significantly. In addition, we cannot predict whether other legislation or regulations at the federal or state level will be adopted, what form such legislation or regulations may take or what their impact on us may be.

If we are deemed to have failed to comply with the anti-kickback statute, the Stark Law or other applicable laws and regulations, we could be subjected to liabilities, including criminal penalties, civil penalties (including the loss of our licenses to operate one or more facilities), and exclusion of one or more facilities from participation in the Medicare, Medicaid and other federal and state health care programs. The imposition of such penalties could have a material adverse effect on our business, financial condition or results of operations.

Federal False Claims Act and Similar State Regulations: A current trend affecting the health care industry is the increased use of the federal False Claims Act, and, in particular, actions being brought by individuals on the government's behalf under the False Claims Act's qui tam, or whistleblower, provisions. Whistleblower provisions allow private individuals to bring actions on behalf of the government by alleging that the defendant has defrauded the Federal government.

When a defendant is determined by a court of law to have violated the False Claims Act, the defendant may be liable for up to three times the actual damages sustained by the government, plus mandatory civil penalties of between \$5,500 to \$11,000 for each separate false claim. There are many potential bases for liability under the False Claims Act. Liability often arises when an entity knowingly submits a false claim for reimbursement to the federal government. The Fraud Enforcement and Recovery Act of 2009 ("FERA") has expanded the number of actions for which liability may attach under the False Claims Act, eliminating requirements that false claims be presented to federal officials or directly involve federal funds. FERA also clarifies that a false claim violation occurs upon the knowing retention, as well as the receipt, of overpayments. In addition, recent changes to the anti-kickback statute have made violations of that law punishable under the civil False Claims Act. Further, a number of states have adopted their own false claims provisions as well as their own whistleblower provisions whereby a private party may file a civil lawsuit on behalf of the state in state court.

Other Fraud and Abuse Provisions: The Social Security Act also imposes criminal and civil penalties for submitting false claims to Medicare and Medicaid. False claims include, but are not limited to, billing for services not rendered, billing for services without prescribed documentation, misrepresenting actual services rendered in order to obtain higher reimbursement and cost report fraud. Like the anti-kickback statute, these provisions are very broad.

Further, the Health Insurance Portability and Accountability Act of 1996 ("HIPAA") broadened the scope of the fraud and abuse laws by adding several criminal provisions for health care fraud offenses that apply to all health benefit programs, whether or not payments under such programs are paid pursuant to federal programs. HIPAA also introduced enforcement mechanisms to prevent fraud and abuse in Medicare. There are civil penalties for prohibited conduct, including, but not limited to billing for medically unnecessary products or services.

HIPAA Administrative Simplification and Privacy Requirements: The administrative simplification provisions of HIPAA, as amended by the Health Information Technology for Economic and Clinical Health Act ("HITECH"), require the use of uniform electronic data transmission standards for health care claims and payment transactions submitted or received electronically. These provisions are intended to encourage electronic commerce in the health care industry. HIPAA also established federal rules protecting the privacy and security of personal health information. The privacy and security regulations address the use and disclosure of individual health care information and the rights of patients to understand and control how such information is used and disclosed. Violations of HIPAA can result in both criminal and civil fines and penalties.

Compliance with the electronic data transmission standards became mandatory in October 2003. However, during the following year, HHS agreed to allow providers and other electronic billers to continue to submit pre-HIPAA format electronic claims for periods after October 16, 2003, provided they can show good faith efforts to become HIPAA compliant. Since this exception expired, we believe that we have been in compliance with the electronic data transmission standards.

We were required to comply with the privacy requirements of HIPAA by April 14, 2003. We believe that we were in material compliance with the privacy regulations by that date and remain so, as we continue to develop training and revise procedures to address ongoing compliance. The HIPAA security regulations require health care providers to implement administrative, physical and technical safeguards to protect the confidentiality, integrity and availability of patient information. HITECH has since strengthened certain HIPAA rules regarding the use and disclosure of protected health information, extended certain HIPAA provisions to business associates, and created new security breach notification requirements. HITECH has also extended the ability to impose civil money penalties on providers not knowing that a HIPAA violation has occurred. We were required to comply with the security regulations by April 20, 2005 and believe that we have been in substantial compliance with HIPAA and HITECH requirements to date.

Red Flags Rule: In addition, the Federal Trade Commission ("FTC") Red Flags Rule requires financial institutions and businesses maintaining accounts to address the risk of identity theft. The Red Flag Program Clarification Act of 2010, signed on December 18, 2010, appears to exclude certain healthcare providers from the Red Flags Rule, but permits the FTC or relevant agencies to designate additional creditors subject to the Red Flags Rule through future rulemaking if the agencies determine that the person in question maintains accounts subject to foreseeable risk of identity theft. Compliance with any such future rulemaking may require additional expenditures in the future.

Patient Safety and Quality Improvement Act of 2005: On July 29, 2005, the Patient Safety and Quality Improvement Act of 2005 was enacted, which has the goal of reducing medical errors and increasing patient safety. This legislation establishes a confidential reporting structure in which providers can voluntarily report "Patient Safety Work Product" ("PSWP") to "Patient Safety Organizations" ("PSOs"). Under the system, PSWP is made privileged, confidential and legally protected from disclosure. PSWP does not include medical, discharge or billing records or any other original patient or provider records but does include information gathered specifically in connection with the reporting of medical errors and improving patient safety. This legislation does not preempt state or federal mandatory disclosure laws concerning information that does not constitute PSWP. PSOs are certified by the Secretary of the HHS for three-year periods and analyze PSWP, provide feedback to providers and may report non-identifiable PSWP to a database. In addition, PSOs are expected to generate patient safety improvement strategies.

Environmental Regulations: Our healthcare operations generate medical waste that must be disposed of in compliance with federal, state and local environmental laws, rules and regulations. Infectious waste generators, including hospitals, face substantial penalties for improper disposal of medical waste, including civil penalties of up to \$25,000 per day of noncompliance, criminal penalties of up to \$50,000 per day, imprisonment, and remedial costs. In addition, our operations, as well as our purchases and sales of facilities are subject to various other environmental laws, rules and regulations. We believe that our disposal of such wastes is in material compliance with all state and federal laws.

Corporate Practice of Medicine: Several states, including Florida, Nevada, California and Texas, have laws and/or regulations that prohibit corporations and other entities from employing physicians and practicing medicine for a profit or that prohibit certain direct and indirect payments or fee-splitting arrangements between health care providers that are designed to induce or encourage the referral of patients to, or the recommendation of, particular providers for medical products and services. Possible sanctions for violation of these restrictions include loss of license and civil and criminal penalties. In addition, agreements between the corporation and the physician may be considered void and unenforceable. These statutes and/or regulations vary from state to state,

are often vague and have seldom been interpreted by the courts or regulatory agencies. We do not expect these state corporate practice of medicine proscriptions to significantly affect our operations. Many states have laws and regulations which prohibit payments for referral of patients and fee-splitting with physicians. We do not make any such payments or have any such arrangements.

EMTALA: All of our hospitals are subject to the Emergency Medical Treatment and Active Labor Act ("EMTALA"). This federal law generally requires hospitals that are certified providers under Medicare to conduct a medical screening examination of every person who visits the hospital's emergency room for treatment and, if the patient is suffering from a medical emergency, to either stabilize the patient's condition or transfer the patient to a facility that can better handle the condition. Our obligation to screen and stabilize emergency medical conditions exists regardless of a patient's ability to pay for treatment. There are severe penalties under EMTALA if a hospital fails to screen or appropriately stabilize or transfer a patient or if the hospital delays appropriate treatment in order to first inquire about the patient's ability to pay. Penalties for violations of EMTALA include civil monetary penalties and exclusion from participation in the Medicare program. In addition to any liabilities that a hospital may incur under EMTALA, an injured patient, the patient's family or a medical facility that suffers a financial loss as a direct result of another hospital's violation of the law can bring a civil suit against the hospital unrelated to the rights granted under that statute.

The federal government broadly interprets EMTALA to cover situations in which patients do not actually present to a hospital's emergency room, but present for emergency examination or treatment to the hospital's campus, generally, or to a hospital-based clinic that treats emergency medical conditions or are transported in a hospital-owned ambulance, subject to certain exceptions. EMTALA does not generally apply to patients admitted for inpatient services; however, CMS has recently sought industry comments on the potential applicability of EMTALA to hospital inpatients and the responsibilities of hospitals with specialized capabilities, respectively. The government also has expressed its intent to investigate and enforce EMTALA violations actively in the future. We believe that we operate in substantial compliance with EMTALA.

Health Care Industry Investigations: We are subject to claims and suits in the ordinary course of business, including those arising from care and treatment afforded by our hospitals and are party to various government investigations and litigation. Please see *Item 3. Legal Proceedings* included herein for additional disclosure. In addition, currently, and from time to time, some of our facilities are subjected to inquiries and/or actions and receive notices of potential non-compliance of laws and regulations from various federal and state agencies. Providers that are found to have violated these laws and regulations may be excluded from participating in government healthcare programs, subjected to potential licensure, certification, and/or accreditation revocation, subjected to fines or penalties or required to repay amounts received from the government for previously billed patient services.

We monitor all aspects of our business and have developed a comprehensive ethics and compliance program that is designed to meet or exceed applicable federal guidelines and industry standards. Because the law in this area is complex and constantly evolving, governmental investigation or litigation may result in interpretations that are inconsistent with industry practices, including ours. Although we believe our policies, procedures and practices comply with governmental regulations, no assurance can be given that we will not be subjected to inquiries or actions, or that we will not be faced with sanctions, fines or penalties in connection with the investigations. Even if we were to ultimately prevail, the government's inquiry and/or action in connection with these matters could have a material adverse effect on our future operating results.

Our substantial Medicare, Medicaid and other governmental billings may result in heightened scrutiny of our operations. It is possible that governmental entities could initiate additional investigations or litigation in the future and that such matters could result in significant penalties as well as adverse publicity. It is also possible that our executives and/or managers could be included as targets or witnesses in governmental investigations or litigation and/or named as defendants in private litigation.

Revenue Rulings 98-15 and 2004-51: In March 1998 and May 2004, the IRS issued guidance regarding the tax consequences of joint ventures between for-profit and not-for-profit hospitals. As a result of the tax rulings, the IRS has proposed, and may in the future propose, to revoke the tax-exempt or public charity status of certain not-for-profit entities which participate in such joint ventures or to treat joint venture income as unrelated business taxable income to them. The tax rulings have limited development of joint ventures and any adverse determination by the IRS or the courts regarding the tax-exempt or public charity status of a not-for-profit partner or the characterization of joint venture income as unrelated business taxable income could further limit joint venture development with not-for-profit hospitals, and/or require the restructuring of certain existing joint ventures with not-for-profits.

State Rate Review: Some states where we operate hospitals have adopted legislation mandating rate or budget review for hospitals or have adopted taxes on hospital revenues, assessments or licensure fees to fund indigent health care within the state. In the aggregate, state rate reviews and indigent tax provisions have not materially, adversely affected our results of operations.

Medical Malpractice Tort Law Reform: Medical malpractice tort law has historically been maintained at the state level. All states have laws governing medical liability lawsuits. Over half of the states have limits on damages awards. Almost all states have eliminated joint and several liability in malpractice lawsuits, and many states have established limits on attorney fees. Recently, many states had bills introduced in their legislative sessions to address medical malpractice tort reform. Proposed solutions include enacting limits on non-economic damages, malpractice insurance reform, and gathering lawsuit claims data from malpractice insurance companies and the courts for the purpose of assessing the connection between malpractice settlements and premium rates. Reform legislation has also been proposed, but not adopted, at the federal level that could preempt additional state legislation in this area.

Compliance Program: Our company-wide compliance program has been in place since 1998. Currently, the program's elements include a Code of Conduct, risk area specific policies and procedures, employee education and training, an internal system for reporting concerns, auditing and monitoring programs, and a means for enforcing the program's policies.

Since its initial adoption, the compliance program continues to be expanded and developed to meet the industry's expectations and our needs. Specific written policies, procedures, training and educational materials and programs, as well as auditing and monitoring activities have been prepared and implemented to address the functional and operational aspects of our business. Specific areas identified through regulatory interpretation and enforcement activities have also been addressed in our program. Claims preparation and submission, including coding, billing, and cost reports, comprise the bulk of these areas. Financial arrangements with physicians and other referral sources, including compliance with anti-kickback and Stark laws and emergency department treatment and transfer requirements are also the focus of policy and training, standardized documentation requirements, and review and audit.

Medical Staff and Employees

Our facilities had approximately 65,400 employees on December 31, 2011, of whom approximately 46,500 were employed full-time. Our hospitals are staffed by licensed physicians who have been admitted to the medical staff of individual hospitals. Typically, physicians are not employees of our hospitals and in a number of our markets may have admitting privileges at other hospitals in addition to ours. Within our acute care division, approximately 100 physicians are employed either directly by certain of our facilities or affiliated by group practices structured as 501A corporations. Members of the medical staffs of our hospitals also serve on the medical staffs of hospitals not owned by us and may terminate their affiliation with our hospitals at any time. In addition, we employ approximately 350 psychiatrists within our behavioral health division. Each of our hospitals are managed on a day-to-day basis by a managing director employed by us. In addition, a Board of Governors, including members of the hospital's medical staff, governs the medical, professional and ethical practices at each hospital.

Approximately 2,100 of our employees at seven of our hospitals are unionized. At Valley Hospital Medical Center, unionized employees belong to the Culinary Workers and Bartenders Union, the International Union of Operating Engineers and the Service Employees International Union ("SEIU"). Nurses and technicians at Desert Springs Hospital are represented by the SEIU. Registered nurses at Auburn Regional Medical Center located in Washington are represented by the United Staff Nurses Union, the technical employees are represented by the United Food and Commercial Workers, and the service employees are represented by the SEIU. At The George Washington University Hospital, unionized employees are represented by the SEIU or the Hospital Police Association. Registered Nurses, Licensed Practical Nurses, certain technicians and therapists, pharmacy assistants, and some clerical employees at HRI Hospital in Boston are represented by the SEIU. At Brooke Glen Behavioral Hospital, unionized employees are represented by the Teamsters and the Northwestern Nurses Association/Pennsylvania Association of Staff Nurses and Allied Professionals. We believe that our relations with our employees are satisfactory.

Competition

The health care industry is highly competitive. In recent years, competition among healthcare providers for patients has intensified in the United States due to, among other things, regulatory and technological changes, increasing use of managed care payment systems, cost containment pressures and a shift toward outpatient treatment. In all of the geographical areas in which we operate, there are other hospitals that provide services comparable to those offered by our hospitals. In addition, some of our competitors include hospitals that are owned by tax-supported governmental agencies or by nonprofit corporations and may be supported by endowments and charitable contributions and exempt from property, sale and income taxes. Such exemptions and support are not available to us.

In some markets, certain of our competitors may have greater financial resources, be better equipped and offer a broader range of services than us. Certain hospitals that are located in the areas served by our facilities are specialty or large hospitals that provide medical, surgical and behavioral health services, facilities and equipment that are not available at our hospitals. The increase in outpatient treatment and diagnostic facilities, outpatient surgical centers and freestanding ambulatory surgical also increases competition for us.

The number and quality of the physicians on a hospital's staff are important factors in determining a hospital's success and competitive advantage. Typically, physicians are responsible for making hospital admissions decisions and for directing the course of patient treatment. We believe that physicians refer patients to a hospital primarily on the basis of the patient's needs, the quality of other physicians on the medical staff, the location of the hospital and the breadth and scope of services offered at the hospital's facilities. We strive to retain and attract qualified doctors by maintaining high ethical and professional standards and providing adequate support personnel, technologically advanced equipment and facilities that meet the needs of those physicians.

In addition, we depend on the efforts, abilities, and experience of our medical support personnel, including our nurses, pharmacists and lab technicians and other health care professionals. We compete with other health care providers in recruiting and retaining qualified hospital management, nurses and other medical personnel. Our acute care and behavioral health care facilities are experiencing the effects of a shortage of skilled nursing staff nationwide, which has caused and may continue to cause an increase in salaries, wages and benefits expense in excess of the inflation rate. In addition, in some markets like California, there are requirements to maintain specified nurse-staffing levels. To the extent we cannot meet those levels, we may be required to limit the healthcare services provided in these markets which would have a corresponding adverse effect on our net operating revenues.

Many states in which we operate hospitals have CON laws. The application process for approval of additional covered services, new facilities, changes in operations and capital expenditures is, therefore, highly competitive in these states. In those states that do not have CON laws or which set relatively high levels of expenditures before they become reviewable by state authorities, competition in the form of new services, facilities and capital spending is more prevalent. See "Regulation and Other Factors."

Our ability to negotiate favorable service contracts with purchasers of group health care services also affects our competitive position and significantly affects the revenues and operating results of our hospitals. Managed care plans attempt to direct and control the use of hospital services and to demand that we accept lower rates of payment. In addition, employers and traditional health insurers are increasingly interested in containing costs through negotiations with hospitals for managed care programs and discounts from established charges. In return, hospitals secure commitments for a larger number of potential patients. Generally, hospitals compete for service contracts with group health care service purchasers on the basis of price, market reputation, geographic location, quality and range of services, quality of the medical staff and convenience. The importance of obtaining contracts with managed care organizations varies from market to market depending on the market strength of such organizations.

A key element of our growth strategy is expansion through the acquisition of additional hospitals in select markets. The competition to acquire hospitals is significant. We face competition for acquisition candidates primarily from other for-profit health care companies, as well as from not-for-profit entities. Some of our competitors have greater resources than we do. We intend to selectively seek opportunities to expand our base of operations by adhering to our disciplined program of rational growth, but may not be successful in accomplishing acquisitions on favorable terms.

Relationship with Universal Health Realty Income Trust

At December 31, 2011, we held approximately 6.2% of the outstanding shares of Universal Health Realty Income Trust (the "Trust"). We serve as Advisor to the Trust under an annually renewable advisory agreement pursuant to the terms of which we conduct the Trust's day-to-day affairs, provide administrative services and present investment opportunities. In addition, certain of our officers and directors are also officers and/or directors of the Trust. Management believes that it has the ability to exercise significant influence over the Trust, therefore we account for our investment in the Trust using the equity method of accounting. We earned an advisory fee from the Trust, which is included in net revenues in the accompanying consolidated statements of income, of approximately \$2.0 million during 2011, \$1.8 million during 2010 and \$1.6 million during 2009.

Our pre-tax share of income from the Trust was \$4.6 million during 2011, \$1.0 million during 2010 and \$1.1 million during 2009, and is included in net revenues in the accompanying consolidated statements of income for each year. Included in our share of the Trust's income for 2011 was approximately \$3.7 million related to our share of the following: (i) an aggregate gain realized by the Trust during 2011 in connection with the sale of medical office buildings by various limited liability companies ("LLCs") in which the Trust formerly held noncontrolling, majority ownership interests; (ii) an aggregate gain recorded by the Trust during 2011 in connection with its purchases of third-party minority ownership interests in various LLCs in which the Trust formerly held noncontrolling majority ownership interests (the Trust now owns 100% of each of these entities), partially offset by; (iii) a provision for asset impairment recorded by the Trust during 2011 in connection with a medical office building located in Atlanta, Georgia.

The carrying value of our investment in the Trust was \$9.9 million and \$7.3 million at December 31, 2011 and 2010, respectively, and is included in other assets in the accompanying consolidated balance sheets. The market value of our investment in the Trust was \$30.7 million at December 31, 2011 and \$28.8 million at December 31, 2010, based on the closing price of the Trust's stock on the respective dates.

Total rent expense under the operating leases on the four hospital facilities with the Trust (as discussed below) was \$16.3 million during 2011, \$16.2 million during 2010 and \$16.3 million during 2009. In addition, certain of our subsidiaries are tenants in several medical office buildings owned by limited liability companies in which the Trust holds either 100% of the ownership interest or various noncontrolling, majority ownership interests.

The Trust commenced operations in 1986 by purchasing certain properties from us and immediately leasing the properties back to our respective subsidiaries. Most of the leases were entered into at the time the Trust commenced operations and provided for initial terms of 13 to 15 years with up to six additional 5-year renewal

terms. Each lease also provided for additional or bonus rental, as discussed below. The base rents are paid monthly and the bonus rents are computed and paid on a quarterly basis, based upon a computation that compares current quarter revenue to a corresponding quarter in the base year. The leases with our subsidiaries are unconditionally guaranteed by us and are cross-defaulted with one another.

Pursuant to the terms of the leases with the Trust, we have the option to renew the leases at the lease terms described above by providing notice to the Trust at least 90 days prior to the termination of the then current term. In addition, we have rights of first refusal to: (i) purchase the respective leased facilities during and for 180 days after the lease terms at the same price, terms and conditions of any third-party offer, or; (ii) renew the lease on the respective leased facility at the end of, and for 180 days after, the lease term at the same terms and conditions pursuant to any third-party offer. We also have the right to purchase the respective leased facilities at the end of the lease terms or any renewal terms at their appraised fair market value as well as purchase any or all of the four leased hospital properties at their appraised fair market value upon one month's notice should a change of control of the Trust occur.

On May 19, 2011, certain of our subsidiaries provided the required notice to the Trust exercising the 5-year renewal options on McAllen Medical Center, Wellington Regional Medical Center and Southwest Healthcare System, Inland Valley Campus which extended the lease terms to December, 2016.

The table below details the renewal options and terms for each of our four hospital facilities leased from the Trust, giving effect to the above-mentioned renewals:

<u>Hospital Name</u>	<u>Type of Facility</u>	<u>Annual Minimum Rent</u>	<u>End of Lease Term</u>	<u>Renewal Term (years)</u>
McAllen Medical Center	Acute Care	\$5,485,000	December, 2016	15(a)
Wellington Regional Medical Center	Acute Care	\$3,030,000	December, 2016	15(b)
Southwest Healthcare System, Inland Valley Campus	Acute Care	\$2,648,000	December, 2016	15(b)
The Bridgeway	Behavioral Health	\$ 930,000	December, 2014	10(c)

- (a) We have three 5-year renewal options at existing lease rates (through 2031).
- (b) We have one 5-year renewal options at existing lease rates (through 2021) and two 5-year renewal options at fair market value lease rates (2022 through 2031).
- (c) We have two 5-year renewal options at fair market value lease rates (2015 through 2024).

Executive Officers of the Registrant

The executive officers, whose terms will expire at such time as their successors are elected, are as follows:

<u>Name and Age</u>	<u>Present Position with the Company</u>
Alan B. Miller (74)	Chairman of the Board and Chief Executive Officer
Marc D. Miller (41)	President and Director
Steve G. Filton (54)	Senior Vice President, Chief Financial Officer and Secretary
Debra K. Osteen (56)	Senior Vice President, President of Behavioral Health Care Division
Marvin G. Pember (58)	Senior Vice President, President of Acute Care Division

Mr. Alan B. Miller has been Chairman of the Board and Chief Executive Officer since inception and also served as President from inception until May, 2009. Prior thereto, he was President, Chairman of the Board and Chief Executive Officer of American Medicorp, Inc. He currently serves as Chairman of the Board, Chief Executive Officer and President of Universal Health Realty Income Trust. Mr. Miller also serves as a Director of Penn Mutual Life Insurance Company. He is the father of Marc D. Miller, President and Director.

Mr. Marc D. Miller was elected President in May, 2009 and prior thereto served as Senior Vice President and co-head of our Acute Care Hospitals since 2007. He was elected a Director in May, 2006 and Vice President in 2005. He has served in various capacities related to our acute care division since 2000. He was elected to the Board of Trustees of Universal Health Realty Income Trust in December, 2008. He is the son of Alan B. Miller, our Chairman of the Board and Chief Executive Officer.

Mr. Filton was elected Senior Vice President and Chief Financial Officer in 2003 and he was elected Secretary in 1999. He had served as Vice President and Controller since 1991 and Director of Corporate Accounting since 1985.

Ms. Osteen was elected Senior Vice President in 2005 and serves as President of our Behavioral Health Care Division. She was elected Vice President in 2000 and has served in various capacities related to our Behavioral Health Care facilities since 1984.

Mr. Pember commenced employment with us in August, 2011 and serves as President of our Acute Care Division. He was formerly employed for 12 years at Indiana University Health, Inc. (formerly known as Clarian Health Partners, Inc.), a nonprofit hospital system that operates 16 facilities in Indiana, where he served as Executive Vice President and Chief Financial Officer.

ITEM 1A. Risk Factors

We are subject to numerous known and unknown risks, many of which are described below and elsewhere in this Annual Report. Any of the events described below could have a material adverse effect on our business, financial condition and results of operations. Additional risks and uncertainties that we are not aware of, or that we currently deem to be immaterial, could also impact our business and results of operations.

A significant portion of our revenue is produced by facilities located in Nevada, Texas and California.

Nevada: We own 6 acute care hospitals and 4 behavioral healthcare facilities as listed in *Item 2. Properties* (we owned two additional behavioral health facilities which were acquired by us from PSI in November, 2010 before the facilities were divested during the third and fourth quarters of 2011 pursuant to our agreement with the Federal Trade Commission, as discussed herein). On a combined basis, these facilities contributed 18% in 2011, 23% in 2010 and 24% in 2009 of our consolidated net revenues. On a combined basis, after deducting an allocation for corporate overhead expense, these facilities generated 11% in 2011, 15% in 2010 and 14% in 2009 of our income from operations after net income attributable to noncontrolling interest.

Texas: We own 8 acute care hospitals and 14 behavioral healthcare facilities as listed in *Item 2. Properties*. On a combined basis, these facilities contributed 18% in 2011, 19% in 2010 and 20% in 2009 of our consolidated net revenues. On a combined basis, after deducting an allocation for corporate overhead expense, these facilities generated 14% in 2011, 15% in 2010 and 16% in 2009 of our income from operations after net income attributable to noncontrolling interest.

California: We own 4 acute care hospitals and 15 behavioral healthcare facilities as listed in *Item 2. Properties*. On a combined basis, these facilities contributed 10% of our consolidated net revenues during each of 2011, 2010 and 2009. On a combined basis, after deducting an allocation for corporate overhead expense, these facilities generated 5% in 2011, 4% in 2010 and 5% in 2009 of our income from operations after net income attributable to noncontrolling interest.

The significant portion of our revenues and earnings derived from these facilities makes us particularly sensitive to legislative, regulatory, economic, environmental and competition changes in Nevada, Texas and California. Any material change in the current payment programs or regulatory, economic, environmental or competitive conditions in these states could have a disproportionate effect on our overall business results.

Our revenues and results of operations are significantly affected by payments received from the government and other third party payors.

We derive a significant portion of our revenue from third-party payors, including the Medicare and Medicaid programs. Changes in these government programs in recent years have resulted in limitations on reimbursement and, in some cases, reduced levels of reimbursement for healthcare services. Payments from federal and state government programs are subject to statutory and regulatory changes, administrative rulings, interpretations and determinations, requirements for utilization review, and federal and state funding restrictions, all of which could materially increase or decrease program payments, as well as affect the cost of providing service to patients and the timing of payments to facilities. We are unable to predict the effect of recent and future policy changes on our operations. In addition, the uncertainty and fiscal pressures placed upon federal and state governments as a result of, among other things, the substantial deterioration in general economic conditions and the funding requirements from the federal healthcare reform legislation, may affect the availability of taxpayer funds for Medicare and Medicaid programs. If the rates paid or the scope of services covered by government payors are reduced, there could be a material adverse effect on our business, financial position and results of operations.

We receive Medicaid revenues in excess of \$100 million annually from each of Texas, Pennsylvania, Virginia, Illinois and Washington, D.C., making us particularly sensitive to reductions in Medicaid and other state based revenue programs (which have been implemented in various forms with respect to our areas of operation in the respective 2012 state fiscal years) as well as regulatory, economic, environmental and competitive changes in those states. In the states in which we operate, based upon the state budgets for the 2012 fiscal year (which generally began at various times during the second half of 2011), we estimate that, on a blended basis, our aggregate Medicaid rates have been reduced by approximately 3% to 4% (or approximately \$45 million to \$55 million annually) from the average rates in effect during the states' 2011 fiscal years (which generally ended during the third quarter of 2011). Our consolidated results of operations for the year ended December 31, 2011 include the pro rata portion of these Medicaid rate reductions. We can provide no assurance that further reductions to Medicaid revenues (which have been proposed in certain states for fiscal year 2013), particularly in the above-mentioned states, will not have a material adverse effect on our future results of operations.

In addition to changes in government reimbursement programs, our ability to negotiate favorable contracts with private payors, including managed care providers, significantly affects the revenues and operating results of our hospitals. Private payors, including managed care providers, increasingly are demanding that we accept lower rates of payment.

We expect continued third-party efforts to aggressively manage reimbursement levels and cost controls. Reductions in reimbursement amounts received from third-party payors could have a material adverse effect on our financial position and our results of operations.

A worsening of the economic and employment conditions in the United States could materially affect our business and future results of operations.

Our patient volumes, revenues and financial results depend significantly on the universe of patients with health insurance, which to a large extent is dependent on the employment status of individuals in our markets. A continuation or worsening of economic conditions may result in a continued increase in the unemployment rate which will likely increase the number of individuals without health insurance. As a result, our facilities may experience a decrease in patient volumes, particularly in less intense, more elective service lines, or a significant increase in services provided to uninsured patients. These factors could have a material unfavorable impact on our future patient volumes, revenues and operating results.

Our patient revenues and payor mix during the last few years were adversely affected by economic conditions, particularly in certain markets, such as Nevada, Texas and California, where a significant portion of our revenues are concentrated and unemployment rates remain high. In our acute care business, we experienced net revenue pressures caused primarily by declining commercial payor utilization and an increase in the number

of uninsured and underinsured patients treated at our facilities. We can provide no assurance that these trends will not continue. During 2011, our revenues and payor mix within our acute care operations have been volatile making it difficult to predict the results for 2012 or thereafter.

In addition, we recorded approximately \$1.92 billion of goodwill as a result of our acquisition of PSI in November, 2010, and, as of December 31, 2011, we had approximately \$2.63 billion of goodwill recorded on our consolidated balance sheet. Should the revenues and financial results of our acute care and/or behavioral health care facilities be materially, unfavorably impacted due to, among other things, a worsening of the economic and employment conditions in the United States that could negatively impact our patient volumes and reimbursement rates, a continued rise in the unemployment rate and continued increases in the number of uninsured patients treated at our facilities, we may incur future charges to recognize impairment in the carrying value of our goodwill and other intangible assets, which could have a material adverse effect on our financial results.

Reductions or changes in Medicare funding could have a material adverse effect on our future results of operations.

On August 2, 2011, the Budget Control Act of 2011 (the "2011 Act") was enacted into law. The 2011 Act imposed annual spending limits for most federal agencies and programs aimed at reducing budget deficits by \$917 billion between 2012 and 2021, according to a report released by the Congressional Budget Office. The 2011 Act provides for new spending on program integrity initiatives intended to reduce fraud and abuse under the Medicare program. Among its other provisions, the law established a bipartisan Congressional committee, known as the Joint Select Committee on Deficit Reduction (the "Joint Committee"), which was tasked with making recommendations aimed at reducing future federal budget deficits by an additional \$1.5 trillion over 10 years. The Joint Committee was unable to reach an agreement by the November 23, 2011 deadline and, as a result, across-the-board cuts to discretionary, national defense and Medicare spending were implemented which, if triggered, would result in Medicare payment reductions of up to 2% per fiscal year with a uniform percentage reduction across all Medicare programs starting in 2013. We cannot predict whether Congress will attempt to suspend or restructure the automatic budget cuts or what other deficit reduction initiatives may be proposed by Congress.

We are subject to uncertainties regarding health care reform.

On March 23, 2010, President Obama signed into law the Patient Protection and Affordable Care Act (the "PPACA"). The Healthcare and Education Reconciliation Act of 2010 (the "Reconciliation Act"), which contains a number of amendments to the PPACA, was signed into law on March 30, 2010. Two primary goals of the PPACA, combined with the Reconciliation Act (collectively referred to as the "Legislation"), are to provide for increased access to coverage for healthcare and to reduce healthcare-related expenses.

Although it is expected that as a result of the Legislation there may be a reduction in uninsured patients, which should reduce our expense from uncollectible accounts receivable, the Legislation makes a number of other changes to Medicare and Medicaid which we believe may have an adverse impact on us. The Legislation revises reimbursement under the Medicare and Medicaid programs to emphasize the efficient delivery of high quality care and contains a number of incentives and penalties under these programs to achieve these goals. The Legislation provides for decreases in the annual market basket update for federal fiscal years 2010 through 2019, a productivity offset to the market basket update beginning October 1, 2011 for Medicare Part B reimbursable items and services and beginning October 1, 2012 for Medicare inpatient hospital services. The Legislation will reduce Medicare and Medicaid disproportionate share payments beginning in 2014, which would adversely impact the reimbursement we receive under these programs. The Legislation implements a value-based purchasing program, which will reward the delivery of efficient care. Conversely, certain facilities will receive reduced reimbursement for failing to meet quality parameters; such hospitals may include those with excessive readmission or hospital-acquired condition rates.

The various provisions in the Legislation that directly or indirectly affect reimbursement are scheduled to take effect over a number of years. Legislation provisions are likely to be affected by the incomplete nature of implementing regulations or expected forthcoming interpretive guidance, gradual implementation, future legislation, and possible judicial nullification of all or certain provisions of the Legislation. Further Legislation provisions, such as those creating the Medicare Shared Savings Program and the Independent Payment Advisory Board, create certain flexibilities in how healthcare may be reimbursed by federal programs in the future. Thus, we cannot predict the impact of the Legislation on our future reimbursement at this time.

The Legislation also contains provisions aimed at reducing fraud and abuse in healthcare. The Legislation amends several existing laws, including the federal Anti-Kickback Statute and the False Claims Act, making it easier for government agencies and private plaintiffs to prevail in lawsuits brought against healthcare providers. While Congress had previously revised the intent requirement of the Anti-Kickback Statute to provide that a person is not required to "have actual knowledge or specific intent to commit a violation of" the Anti-Kickback Statute in order to be found guilty of violating such law, the Legislation also provides that any claims for items or services that violate the Anti-Kickback Statute are also considered false claims for purposes of the federal civil False Claims Act. The Legislation provides that a healthcare provider that retains an overpayment in excess of 60 days is subject to the federal civil False Claims Act. The Legislation also expands the Recovery Audit Contractor program to Medicaid. These amendments also make it easier for severe fines and penalties to be imposed on healthcare providers that violate applicable laws and regulations.

We have partnered with local physicians in the ownership of certain of our facilities. These investments have been permitted under an exception to the physician self-referral law. The Legislation permits existing physician investments in a hospital to continue under a "grandfather" clause if the arrangement satisfies certain requirements and restrictions, but physicians are prohibited, effective immediately, from increasing the aggregate percentage of their ownership in the hospital. The Legislation also imposes certain compliance and disclosure requirements upon existing physician-owned hospitals and restricts the ability of physician-owned hospitals to expand the capacity of their facilities.

The impact of the Legislation on each of our hospitals may vary. Because Legislation provisions are effective at various times over the next several years, we anticipate that many of the provisions in the Legislation may be subject to further revision or judicial nullification. Moreover, a number of state attorneys general are challenging the legality of certain aspects of the Legislation. Currently, rulings in separate Federal District Courts regarding the constitutionality of the Legislation have been split. These decisions are in the process of being appealed to the United States Supreme Court. We cannot predict the impact the Legislation may have on our business, results of operations, cash flow, capital resources and liquidity, the ultimate outcome of the judicial rulings or whether we will be able to successfully adapt to the changes required by the Legislation.

We are required to treat patients with emergency medical conditions regardless of ability to pay.

In accordance with our internal policies and procedures, as well as the Emergency Medical Treatment and Active Labor Act, or EMTALA, we provide a medical screening examination to any individual who comes to one of our hospitals while in active labor and/or seeking medical treatment (whether or not such individual is eligible for insurance benefits and regardless of ability to pay) to determine if such individual has an emergency medical condition. If it is determined that such person has an emergency medical condition, we provide such further medical examination and treatment as is required to stabilize the patient's medical condition, within the facility's capability, or arrange for transfer of such individual to another medical facility in accordance with applicable law and the treating hospital's written procedures. Our obligations under EMTALA may increase substantially going forward; CMS has recently sought stakeholder comments concerning the potential applicability of EMTALA to hospital inpatients and the responsibilities of hospitals with specialized capabilities, respectively. If the number of indigent and charity care patients with emergency medical conditions we treat increases significantly, or if regulations expanding our obligations to inpatients under EMTALA is proposed and adopted, our results of operations will be harmed.

If we are not able to provide high quality medical care at a reasonable price, patients may choose to receive their health care from our competitors.

In recent years, the number of quality measures that hospitals are required to report publicly has increased. CMS publishes performance data related to quality measures and data on patient satisfaction surveys that hospitals submit in connection with the Medicare program. Federal law provides for the future expansion of the number of quality measures that must be reported. Additionally, the Legislation requires all hospitals to annually establish, update and make public a list of their standard charges for products and services. If any of our hospitals achieve poor results on the quality measures or patient satisfaction surveys (or results that are lower than our competitors) or if our standard charges are higher than our competitors, our patient volume could decline because patients may elect to use competing hospitals or other health care providers that have better metrics and pricing. This circumstance could harm our business and results of operations.

An increase in uninsured and underinsured patients in our acute care facilities or the deterioration in the collectability of the accounts of such patients could harm our results of operations.

Collection of receivables from third-party payors and patients is our primary source of cash and is critical to our operating performance. Our primary collection risks relate to uninsured patients and the portion of the bill that is the patient's responsibility, which primarily includes co-payments and deductibles. However, we also have substantial receivables due to us as of December 31, 2011 (a significant portion of which is past due) from certain state-based funding programs, most particularly Illinois. We estimate our provisions for doubtful accounts based on general factors such as payor mix, the agings of the receivables, historical collection experience and assessment of probability of future collections. We routinely review accounts receivable balances in conjunction with these factors and other economic conditions that might ultimately affect the collectability of the patient accounts and make adjustments to our allowances as warranted. Significant changes in business office operations, payor mix, economic conditions or trends in federal and state governmental health coverage could affect our collection of accounts receivable, cash flow and results of operations. If we experience unexpected increases in the growth of uninsured and underinsured patients or in bad debt expenses, our results of operations will be harmed.

Our hospitals face competition for patients from other hospitals and health care providers.

The healthcare industry is highly competitive, and competition among hospitals, and other healthcare providers for patients and physicians has intensified in recent years. In all of the geographical areas in which we operate, there are other hospitals that provide services comparable to those offered by our hospitals. Some of our competitors include hospitals that are owned by tax-supported governmental agencies or by nonprofit corporations and may be supported by endowments and charitable contributions and exempt from property, sales and income taxes. Such exemptions and support are not available to us.

In some markets, certain of our competitors may have greater financial resources, be better equipped and offer a broader range of services than we. The number of inpatient facilities, as well as outpatient surgical and diagnostic centers, many of which are fully or partially owned by physicians, in the geographic areas in which we operate has increased significantly. As a result, most of our hospitals operate in an increasingly competitive environment.

If our competitors are better able to attract patients, recruit physicians and other healthcare professionals, expand services or obtain favorable managed care contracts at their facilities, we may experience a decline in patient volume and our business may be harmed.

Our performance depends on our ability to recruit and retain quality physicians.

Typically, physicians are responsible for making hospital admissions decisions and for directing the course of patient treatment. As a result, the success and competitive advantage of our hospitals depends, in part, on the number and quality of the physicians on the medical staffs of our hospitals, the admitting practices of those physicians and our maintenance of good relations with those physicians. Physicians generally are not employees

of our hospitals, and, in a number of our markets, physicians have admitting privileges at other hospitals in addition to our hospitals. They may terminate their affiliation with us at any time. If we are unable to provide high ethical and professional standards, adequate support personnel and technologically advanced equipment and facilities that meet the needs of those physicians, they may be discouraged from referring patients to our facilities and our results of operations may decline.

It may become difficult for us to attract and retain an adequate number of physicians to practice in certain of the non-urban communities in which our hospitals are located. Our failure to recruit physicians to these communities or the loss of physicians in these communities could make it more difficult to attract patients to our hospitals and thereby may have a material adverse effect on our business, financial condition and results of operations.

Generally, the top ten attending physicians within each of our facilities represent a large share of our inpatient revenues and admissions. The loss of one or more of these physicians, even if temporary, could cause a material reduction in our revenues, which could take significant time to replace given the difficulty and cost associated with recruiting and retaining physicians.

If we do not continually enhance our hospitals with the most recent technological advances in diagnostic and surgical equipment, our ability to maintain and expand our markets will be adversely affected.

The technology used in medical equipment and related devices is constantly evolving and, as a result, manufacturers and distributors continue to offer new and upgraded products to health care providers. To compete effectively, we must continually assess our equipment needs and upgrade when significant technological advances occur. If our facilities do not stay current with technological advances in the health care industry, patients may seek treatment from other providers and/or physicians may refer their patients to alternate sources, which could adversely affect our results of operations and harm our business.

If we fail to effectively and timely implement electronic health record systems, our operations could be harmed.

As required by HITECH, we are in the process of developing and implementing an incentive payment program for eligible hospitals and health care professionals that adopt and meaningfully use certified electronic health record technology. If our facilities or physicians are unable to meet the requirements for participation in the incentive payment program, we will not be eligible to receive incentive payments that could offset some of the costs of implementing an electronic health record system. Further, beginning in federal fiscal year 2015, eligible hospitals and professionals that fail to demonstrate meaningful use of certified electronic health record technology will be subject to reduced payments from Medicare. Any failure by us to effectively implement an electronic health record system in a timely manner could have an adverse effect on our results of operations.

Our performance depends on our ability to attract and retain qualified nurses and medical support staff and we face competition for staffing that may increase our labor costs and harm our results of operations.

We depend on the efforts, abilities, and experience of our medical support personnel, including our nurses, pharmacists and lab technicians and other healthcare professionals. We compete with other healthcare providers in recruiting and retaining qualified hospital management, nurses and other medical personnel.

The nationwide shortage of nurses and other medical support personnel has been a significant operating issue facing us and other healthcare providers. This shortage may require us to enhance wages and benefits to recruit and retain nurses and other medical support personnel or require us to hire expensive temporary personnel. In addition, in some markets like California, there are requirements to maintain specified nurse-staffing levels. To the extent we cannot meet those levels, we may be required to limit the healthcare services provided in these markets, which would have a corresponding adverse effect on our net operating revenues.

We cannot predict the degree to which we will be affected by the future availability or cost of attracting and retaining talented medical support staff. If our general labor and related expenses increase, we may not be able to

raise our rates correspondingly. Our failure to either recruit and retain qualified hospital management, nurses and other medical support personnel or control our labor costs could harm our results of operations.

If we fail to comply with extensive laws and government regulations, we could suffer civil or criminal penalties or be required to make significant changes to our operations that could reduce our revenue and profitability.

The healthcare industry is required to comply with extensive and complex laws and regulations at the federal, state and local government levels relating to, among other things: hospital billing practices and prices for services; relationships with physicians and other referral sources; adequacy of medical care and quality of medical equipment and services; ownership of facilities; qualifications of medical and support personnel; confidentiality, maintenance, privacy and security issues associated with health-related information and patient medical records; the screening, stabilization and transfer of patients who have emergency medical conditions; certification, licensure and accreditation of our facilities; operating policies and procedures, and; construction or expansion of facilities and services.

Among these laws are the federal False Claims Act, the Health Insurance Portability and Accountability Act of 1996, or HIPAA, the federal anti-kickback statute and the provision of the Social Security Act commonly known as the "Stark Law." These laws, and particularly the anti-kickback statute and the Stark Law, impact the relationships that we may have with physicians and other referral sources. We have a variety of financial relationships with physicians who refer patients to our facilities, including employment contracts, leases and professional service agreements. We also provide financial incentives, including minimum revenue guarantees, to recruit physicians into communities served by our hospitals. The Office of the Inspector General of the Department of Health and Human Services, or OIG, has enacted safe harbor regulations that outline practices that are deemed protected from prosecution under the anti-kickback statute. A number of our current arrangements, including financial relationships with physicians and other referral sources, may not qualify for safe harbor protection under the anti-kickback statute. Failure to meet a safe harbor does not mean that the arrangement necessarily violates the anti-kickback statute, but may subject the arrangement to greater scrutiny. We cannot assure that practices that are outside of a safe harbor will not be found to violate the anti-kickback statute. CMS recently published a Medicare self-referral disclosure protocol, which is intended to allow providers to self-disclose actual or potential violations of the Stark law. Because there are only a few judicial decisions interpreting the Stark law, there can be no assurance that our hospitals will not be found in violation of the Stark law or that self-disclosure of a potential violation would result in reduced penalties.

Federal regulations issued under HIPAA contain provisions that require us to implement and, in the future, may require us to implement additional costly electronic media security systems and to adopt new business practices designed to protect the privacy and security of each of our patient's health and related financial information. Such privacy and security regulations impose extensive administrative, physical and technical requirements on us, restrict our use and disclosure of certain patient health and financial information, provide patients with rights with respect to their health information and require us to enter into contracts extending many of the privacy and security regulatory requirements to third parties that perform duties on our behalf.

These laws and regulations are extremely complex, and, in many cases, we do not have the benefit of regulatory or judicial interpretation. In the future, it is possible that different interpretations or enforcement of these laws and regulations could subject our current or past practices to allegations of impropriety or illegality or could require us to make changes in our facilities, equipment, personnel, services, capital expenditure programs and operating expenses. A determination that we have violated one or more of these laws (see *Item 3-Legal Proceedings*), or the public announcement that we are being investigated for possible violations of one or more of these laws, could have a material adverse effect on our business, financial condition or results of operations and our business reputation could suffer significantly. In addition, we cannot predict whether other legislation or regulations at the federal or state level will be adopted, what form such legislation or regulations may take or what their impact on us may be. See *Item 1 Business—Self-Referral and Anti-Kickback Legislation*.

If we are deemed to have failed to comply with the anti-kickback statute, the Stark Law or other applicable laws and regulations, we could be subjected to liabilities, including criminal penalties, civil penalties (including the loss of our licenses to operate one or more facilities), and exclusion of one or more facilities from

participation in the Medicare, Medicaid and other federal and state healthcare programs. The imposition of such penalties could have a material adverse effect on our business, financial condition or results of operations.

We may be subject to liabilities from claims brought against our facilities.

We are subject to medical malpractice lawsuits, product liability lawsuits, class action lawsuits and other legal actions in the ordinary course of business. Some of these actions may involve large claims, as well as significant defense costs. We cannot predict the outcome of these lawsuits or the effect that findings in such lawsuits may have on us. All professional and general liability insurance we purchase is subject to policy limitations. We believe that, based on our past experience and actuarial estimates, our insurance coverage is adequate considering the claims arising from the operations of our hospitals. While we continuously monitor our coverage, our ultimate liability for professional and general liability claims could change materially from our current estimates. If such policy limitations should be partially or fully exhausted in the future, or payments of claims exceed our estimates or are not covered by our insurance, it could have a material adverse effect on our operations.

We may be subject to governmental investigations, regulatory actions and whistleblower lawsuits

The federal False Claims Act permits private parties to bring qui tam, or whistleblower, lawsuits against companies. Whistleblower provisions allow private individuals to bring actions on behalf of the government alleging that the defendant has defrauded the federal government. Because qui tam lawsuits are filed under seal, we could be named in one or more such lawsuits of which we are not aware.

If any of our existing health care facilities lose their accreditation or any of our new facilities fail to receive accreditation, such facilities could become ineligible to receive reimbursement under Medicare or Medicaid.

The construction and operation of healthcare facilities are subject to extensive federal, state and local regulation relating to, among other things, the adequacy of medical care, equipment, personnel, operating policies and procedures, fire prevention, rate-setting and compliance with building codes and environmental protection. Additionally, such facilities are subject to periodic inspection by government authorities to assure their continued compliance with these various standards.

All of our hospitals are deemed certified, meaning that they are accredited, properly licensed under the relevant state laws and regulations and certified under the Medicare program. The effect of maintaining certified facilities is to allow such facilities to participate in the Medicare and Medicaid programs. We believe that all of our healthcare facilities are in material compliance with applicable federal, state, local and other relevant regulations and standards. However, should any of our healthcare facilities lose their deemed certified status and thereby lose certification under the Medicare or Medicaid programs, such facilities would be unable to receive reimbursement from either of those programs and our business could be materially adversely effected.

Our level of indebtedness that we incurred in connection with the acquisition of PSI could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry and prevent us from meeting our obligations under the agreements relating to our indebtedness.

Our level of indebtedness that we incurred in connection with the acquisition of PSI could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry and could potentially prevent us from meeting our obligations under the agreements relating to our indebtedness.

In connection with the consummation of our acquisition of PSI, in addition to previously existing outstanding debt commitments and undertaking a \$250 million offering of notes in September, 2010, we obtained a debt financing commitment of \$3.45 billion under a senior credit facility consisting of an \$800 million revolving credit facility, a \$1.05 billion term loan A facility and a \$1.6 billion term loan B facility. The senior credit facility became effective upon closing of the acquisition of PSI, which occurred in November, 2010. We also obtained an amended \$240 million accounts receivable securitization facility during 2010 (increased from \$200 million).

As of December 31, 2011, after giving effect to the use of proceeds from the various debt financing sources mentioned above, and after giving effect to our 2011 consolidated results of operations and cash flows, our total

debt was \$3.65 billion and we had \$482 million of unused borrowing capacity under our senior credit and accounts receivable securitization facilities, after taking into account \$69 million of outstanding letters of credit and \$9 million of outstanding borrowings pursuant to our short-term, on-demand note.

Subject to the limits contained in the credit agreement governing our senior credit facility, the indenture that governs the notes and our other debt instruments, we may be able to incur substantial additional debt from time to time to finance working capital, capital expenditures, investments or acquisitions, or for other purposes. If we do so, the risks related to our high level of debt could intensify. Our leverage could result in unfavorable impact on us, including the following:

- it may limit our ability to obtain additional debt or equity financing for working capital, capital expenditures, debt service requirements, acquisitions and general corporate or other purposes;
- a substantial portion of our cash flows from operations will be dedicated to the payment of principal and interest on our indebtedness and will not be available for other purposes, including our operations, capital expenditures and future business opportunities;
- some of our borrowings, including borrowings under the credit facilities, are at variable rates of interest, exposing us to the risk of increased interest rates;
- it may limit our ability to adjust to changing market conditions and place us at a competitive disadvantage compared to our competitors that have less debt, and;
- we may be vulnerable in a downturn in general economic conditions or in our business, or we may be unable to carry out capital spending that is important to our operations.

Our growth strategy depends, in part, on acquisitions, and we may not be able to continue to acquire hospitals that meet our target criteria. We may also have difficulties acquiring hospitals from not-for-profit entities due to regulatory scrutiny.

Acquisitions of hospitals in select markets are a key element of our growth strategy. We face competition for acquisition candidates primarily from other for-profit healthcare companies, as well as from not-for-profit entities. Some of our competitors have greater resources than we do. Also, suitable acquisitions may not be accomplished due to unfavorable terms.

In addition, many states have enacted, or are considering enacting, laws that affect the conversion or sale of not-for-profit hospitals to for-profit entities. These laws generally require prior approval from the state attorney general, advance notification and community involvement. In addition, attorneys general in states without specific conversion legislation may exercise discretionary authority over such transactions. Although the level of government involvement varies from state to state, the trend is to provide for increased governmental review and, in some cases, approval of a transaction in which a not-for-profit entity sells a healthcare facility to a for-profit entity. The adoption of new or expanded conversion legislation, increased review of not-for-profit hospital conversions or our inability to effectively compete against other potential purchasers could make it more difficult for us to acquire additional hospitals, increase our acquisition costs or make it difficult for us to acquire hospitals that meet our target acquisition criteria, any of which could adversely affect our growth strategy and results of operations.

Further, the cost of an acquisition could result in a dilutive effect on our results of operations, depending on various factors, including the amount paid for the acquisition, the acquired hospital's results of operations, allocation of the purchase price, effects of subsequent legislation and limits on rate increases.

We may fail to improve or integrate the operations of the hospitals we acquire, which could harm our results of operations and adversely affect our growth strategy.

We may be unable to timely and effectively integrate the hospitals that we acquire with our ongoing operations. We may experience delays in implementing operating procedures and systems in newly acquired

hospitals. Integrating a new hospital could be expensive and time consuming and could disrupt our ongoing business, negatively affect cash flow and distract management and other key personnel. In addition, acquisition activity requires transitions from, and the integration of, operations and, usually, information systems that are used by acquired hospitals. In addition, some of the hospitals we acquire had significantly lower operating margins than the hospitals we operate prior to the time of our acquisition. If we fail to improve the operating margins of the hospitals we acquire, operate such hospitals profitably or effectively integrate the operations of acquired hospitals, our results of operations could be harmed.

If we acquire hospitals with unknown or contingent liabilities, we could become liable for material obligations.

Hospitals that we acquire may have unknown or contingent liabilities, including, but not limited to, liabilities for failure to comply with applicable laws and regulations. Although we typically attempt to exclude significant liabilities from our acquisition transactions and seek indemnification from the sellers of such hospitals for these matters, we could experience difficulty enforcing those obligations or we could incur material liabilities for the past activities of hospitals we acquire. Such liabilities and related legal or other costs and/or resulting damage to a facility's reputation could harm our business.

Our subsidiary, PSI, and its subsidiaries, are subject to pending legal actions, governmental investigations and regulatory actions.

Our subsidiary, PSI, and its subsidiaries, are subject to pending legal actions, governmental investigations and regulatory actions (see *Item 3-Legal Proceedings*).

State efforts to regulate the construction or expansion of health care facilities could impair our ability to expand.

Many of the states in which we operate hospitals have enacted Certificates of Need, or CON, laws as a condition prior to hospital capital expenditures, construction, expansion, modernization or initiation of major new services. Our failure to obtain necessary state approval could result in our inability to complete a particular hospital acquisition, expansion or replacement, make a facility ineligible to receive reimbursement under the Medicare or Medicaid programs, result in the revocation of a facility's license or impose civil or criminal penalties on us, any of which could harm our business.

In addition, significant CON reforms have been proposed in a number of states that would increase the capital spending thresholds and provide exemptions of various services from review requirements. In the past, we have not experienced any material adverse effects from those requirements, but we cannot predict the impact of these changes upon our operations.

Controls designed to reduce inpatient services may reduce our revenues.

Controls imposed by third-party payors designed to reduce admissions and lengths of stay, commonly referred to as "utilization review," have affected and are expected to continue to affect our facilities. Utilization review entails the review of the admission and course of treatment of a patient by managed care plans. Inpatient utilization, average lengths of stay and occupancy rates continue to be negatively affected by payor-required preadmission authorization and utilization review and by payor pressure to maximize outpatient and alternative healthcare delivery services for less acutely ill patients. Efforts to impose more stringent cost controls are expected to continue. Although we cannot predict the effect these changes will have on our operations, significant limits on the scope of services reimbursed and on reimbursement rates and fees could have a material adverse effect on our business, financial position and results of operations.

Fluctuations in our operating results, quarter to quarter earnings and other factors may result in decreases in the price of our common stock.

The stock markets have experienced volatility that has often been unrelated to operating performance. These broad market fluctuations may adversely affect the trading price of our common stock and, as a result, there may be significant volatility in the market price of our common stock. If we are unable to operate our hospitals as profitably as we have in the past or as our stockholders expect us to in the future, the market price of our common stock will likely decline as stockholders could sell shares of our common stock when it becomes apparent that the market expectations may not be realized.

In addition to our operating results, many economic and seasonal factors outside of our control could have an adverse effect on the price of our common stock and increase fluctuations in our quarterly earnings. These factors include certain of the risks discussed herein, demographic changes, operating results of other hospital companies, changes in our financial estimates or recommendations of securities analysts, speculation in the press or investment community, the possible effects of war, terrorist and other hostilities, adverse weather conditions, the level of seasonal illnesses, managed care contract negotiations and terminations, changes in general conditions in the economy or the financial markets, or other developments affecting the health care industry.

We are subject to significant corporate regulation as a public company and failure to comply with all applicable regulations could subject us to liability or negatively affect our stock price.

As a publicly traded company, we are subject to a significant body of regulation, including the Sarbanes-Oxley Act of 2002. While we have developed and instituted a corporate compliance program based on what we believe are the current best practices in corporate governance and continue to update this program in response to newly implemented or changing regulatory requirements, we cannot provide assurance that we are or will be in compliance with all potentially applicable corporate regulations. For example, we cannot provide assurance that, in the future, our management will not find a material weakness in connection with its annual review of our internal control over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act. We also cannot provide assurance that we could correct any such weakness to allow our management to assess the effectiveness of our internal control over financial reporting as of the end of our fiscal year in time to enable our independent registered public accounting firm to state that such assessment will have been fairly stated in our Annual Report on Form 10-K or state that we have maintained effective internal control over financial reporting as of the end of our fiscal year. If we fail to comply with any of these regulations, we could be subject to a range of regulatory actions, fines or other sanctions or litigation. If we must disclose any material weakness in our internal control over financial reporting, our stock price could decline.

A cyber security incident could cause a violation of HIPAA, breach of member privacy, or other negative impacts.

A cyber-attack that bypasses our information technology ("IT") security systems causing an IT security breach, loss of protected health information or other data subject to privacy laws, loss of proprietary business information, or a material disruption of our IT business systems, could have a material adverse impact on our business and result of operations. In addition, our future results of operations, as well as our reputation, could be adversely impacted by theft, destruction, loss, or misappropriation of public health information, other confidential data or proprietary business information.

Different interpretations of accounting principles could have a material adverse effect on our results of operations or financial condition.

Generally accepted accounting principles are complex, continually evolving and may be subject to varied interpretation by us, our independent registered public accounting firm and the SEC. Such varied interpretations could result from differing views related to specific facts and circumstances. Differences in interpretation of generally accepted accounting principles could have a material adverse effect on our financial position or results of operations.

We continue to see rising costs in construction materials and labor. Such increased costs could have an adverse effect on the cash flow return on investment relating to our capital projects.

The cost of construction materials and labor has significantly increased. As we continue to invest in modern technologies, emergency rooms and operating room expansions, the construction of medical office buildings for physician expansion and reconfiguring the flow of patient care, we spend large amounts of money generated from our operating cash flow or borrowed funds. In addition, we have a commitment with an unrelated third party to build a newly constructed facility with a specified minimum number of beds and services. Although we evaluate the financial feasibility of such projects by determining whether the projected cash flow return on investment exceeds our cost of capital, such returns may not be achieved if the cost of construction continues to rise significantly or the expected patient volumes are not attained.

The deterioration of credit and capital markets may adversely affect our access to sources of funding and we cannot be certain of the availability and terms of capital to fund the growth of our business when needed.

We require substantial capital resources to fund our acquisition growth strategy and our ongoing capital expenditure programs for renovation, expansion, construction and addition of medical equipment and technology. We believe that our capital expenditure program is adequate to expand, improve and equip our existing hospitals. We cannot predict, however, whether financing for our growth plans and capital expenditure programs will be available to us on satisfactory terms when needed, which could harm our business.

To fund all or a portion of our future financing needs, we rely on borrowings from various sources including fixed rate, long-term debt as well as borrowings pursuant to our revolving credit facility and accounts receivable securitization program. If any of the lenders were unable to fulfill their future commitments, our liquidity could be impacted, which could have a material unfavorable impact on our results of operations and financial condition.

In addition, global capital markets have experienced volatility that has tightened access to capital markets and other sources of funding. In the event we need to access the capital markets or other sources of financing, there can be no assurance that we will be able to obtain financing on acceptable terms or within an acceptable time. Our inability to obtain financing on terms acceptable to us could have a material unfavorable impact on our results of operations, financial condition and liquidity.

We depend heavily on key management personnel and the departure of one or more of our key executives or a significant portion of our local hospital management personnel could harm our business.

The expertise and efforts of our senior executives and key members of our local hospital management personnel are critical to the success of our business. The loss of the services of one or more of our senior executives or of a significant portion of our local hospital management personnel could significantly undermine our management expertise and our ability to provide efficient, quality healthcare services at our facilities, which could harm our business.

The number of outstanding shares of our Class B Common Stock is subject to potential increases or decreases.

At December 31, 2011, 31.2 million shares of Class B Common Stock were reserved for issuance upon conversion of shares of Class A, C and D Common Stock outstanding, for issuance upon exercise of options to purchase Class B Common Stock and for issuance of stock under other incentive plans. Class A, C and D Common Stock are convertible on a share for share basis into Class B Common Stock. To the extent that these shares were converted into or exercised for shares of Class B Common Stock, the number of shares of Class B Common Stock available for trading in the public market place would increase substantially and the holders of Class B Common Stock would own a smaller percentage of that class.

In addition, from time-to-time our Board of Directors approve stock repurchase programs authorizing us to purchase shares of our Class B Common Stock on the open market at prevailing market prices or in negotiated transactions off the market. Such repurchases decrease the number of outstanding shares of our Class B Common Stock. Conversely, as a potential means of generating additional funds to operate and expand our business, we may from time-to-time issue equity through the sale of stock which would increase the number of outstanding shares of our Class B Common Stock. Based upon factors such as, but not limited to, the market price of our stock, interest rate on borrowings and uses or potential uses for cash, repurchase or issuance of our stock could have a dilutive effect on our future basic and diluted earnings per share.

The right to elect the majority of our Board of Directors and the majority of the general shareholder voting power resides with the holders of Class A and C Common Stock, the majority of which is owned by Alan B. Miller, our Chief Executive Officer and Chairman of our Board of Directors.

Our Restated Certificate of Incorporation provides that, with respect to the election of directors, holders of Class A Common Stock vote as a class with the holders of Class C Common Stock, and holders of Class B Common Stock vote as a class with holders of Class D Common Stock, with holders of all classes of our Common Stock entitled to one vote per share.

As of March 31, 2011, the shares of Class A and Class C Common Stock constituted 7.5% of the aggregate outstanding shares of our Common Stock, had the right to elect six members of the Board of Directors and constituted 87.2% of our general voting power. As of March 31, 2011, the shares of Class B and Class D Common Stock (excluding shares issuable upon exercise of options) constituted 92.5% of the outstanding shares of our Common Stock, had the right to elect two members of the Board of Directors and constituted 12.8% of our general voting power.

As to matters other than the election of directors, our Restated Certificate of Incorporation provides that holders of Class A, Class B, Class C and Class D Common Stock all vote together as a single class, except as otherwise provided by law.

Each share of Class A Common Stock entitles the holder thereof to one vote; each share of Class B Common Stock entitles the holder thereof to one-tenth of a vote; each share of Class C Common Stock entitles the holder thereof to 100 votes (provided the holder of Class C Common Stock holds a number of shares of Class A Common Stock equal to ten times the number of shares of Class C Common Stock that holder holds); and each share of Class D Common Stock entitles the holder thereof to ten votes (provided the holder of Class D Common Stock holds a number of shares of Class B Common Stock equal to ten times the number of shares of Class D Common Stock that holder holds).

In the event a holder of Class C or Class D Common Stock holds a number of shares of Class A or Class B Common Stock, respectively, less than ten times the number of shares of Class C or Class D Common Stock that holder holds, then that holder will be entitled to only one vote for every share of Class C Common Stock, or one-tenth of a vote for every share of Class D Common Stock, which that holder holds in excess of one-tenth the number of shares of Class A or Class B Common Stock, respectively, held by that holder. The Board of Directors, in its discretion, may require beneficial owners to provide satisfactory evidence that such owner holds ten times as many shares of Class A or Class B Common Stock as Class C or Class D Common Stock, respectively, if such facts are not apparent from our stock records.

Since a substantial majority of the Class A shares and Class C shares are controlled by Mr. Alan B. Miller and members of his family who are also directors and officers of our company, and they can elect a majority of our company's directors and effect or reject most actions requiring approval by stockholders without the vote of any other stockholders, there are potential conflicts of interest in overseeing the management of our company.

In addition, because this concentrated control could discourage others from initiating any potential merger, takeover or other change of control transaction that may otherwise be beneficial to our businesses, our business and prospects and the trading price of our securities could be adversely affected.

ITEM 1B. Unresolved Staff Comments

None.

ITEM 2. Properties**Executive and Administrative Offices**

We own office buildings in King of Prussia and Wayne, Pennsylvania and Brentwood, Tennessee.

Facilities

The following tables set forth the name, location, type of facility and, for acute care hospitals and behavioral health care facilities, the number of licensed beds:

Acute Care Hospitals

<u>Name of Facility</u>	<u>Location</u>	<u>Number of Beds</u>	<u>Real Property Ownership Interest</u>
Aiken Regional Medical Centers	Aiken, South Carolina	183	Owned
Aurora Pavilion	Aiken, South Carolina	59	Owned
Auburn Regional Medical Center	Auburn, Washington	159	Owned
Centennial Hills Hospital Medical Center (1)	Las Vegas, Nevada	171	Owned
Corona Regional Medical Center	Corona, California	240	Owned
Desert Springs Hospital (1)	Las Vegas, Nevada	293	Owned
Doctors' Hospital of Laredo (9)	Laredo, Texas	180	Owned
Fort Duncan Regional Medical Center	Eagle Pass, Texas	101	Owned
The George Washington University Hospital (2)	Washington, D.C.	371	Owned
Lakewood Ranch Medical Center	Bradenton, Florida	120	Owned
Manatee Memorial Hospital	Bradenton, Florida	319	Owned

- (1) Desert Springs Hospital, Summerlin Hospital Medical Center, Valley Hospital Medical Center, Spring Valley Hospital Medical Center and Centennial Hills Hospital Medical Center are owned by limited liability companies (“LLCs”) in which we hold controlling, majority ownership interests of approximately 72%. The remaining minority ownership interests in these facilities are held by unaffiliated third-parties. All hospitals are managed by us.
- (2) We hold an 80% ownership interest in this facility through a general partnership interest in a limited partnership. The remaining 20% ownership interest is held by an unaffiliated third-party.
- (3) Real property leased from Universal Health Realty Income Trust.
- (4) In October, 2007, the licenses for Edinburg Regional Medical Center, Edinburg Children’s Hospital, McAllen Medical Center, McAllen Heart Hospital and South Texas Behavioral Health Center were consolidated under one license operating as the South Texas Health System.
- (5) We manage and own a noncontrolling interest of approximately 50% in the entity that operates this facility.
- (6) We own a majority interest in an LLC that owns and operates this center.
- (7) We own minority interests in an LLC that owns and operates this center which is managed by a third-party.
- (8) We own a noncontrolling ownership interest of approximately 50% in the entity that operates this facility that is managed by a third-party.
- (9) We hold an 89% ownership interest in this facility through both general and limited partnership interests. The remaining 11% ownership interest is held by unaffiliated third parties.
- (10) These facilities were acquired by us in November, 2010 in connection with our acquisition of PSI.

We own or lease medical office buildings adjoining some of our hospitals. We believe that the leases on the facilities, medical office buildings and other real estate leased or owned by us do not impose any material limitation on our operations. The aggregate lease payments on facilities leased by us were \$55 million in 2011, \$45 million in 2010 and \$41 million in 2009.

ITEM 3. Legal Proceedings

U.S. v. Marion and UHS:

In November, 2009, the United States Department of Justice ("DOJ") and the Virginia Attorney General intervened in a qui tam case that had been filed by former employees of Marion Youth Center under seal in 2007 against Universal Health Services, Inc. ("UHS"), and Keystone Marion, LLC ("Marion") and Keystone Education and Youth Services, LLC ("Keystone"). The intervention by the DOJ followed the issuance of a series of subpoenas from the Office of the Inspector General for the Department of Health and Human Services seeking documents related to the treatment of Medicaid beneficiaries at Marion. The amended complaint filed by the DOJ and Virginia Attorney General alleged causes of action pursuant to the federal and state false claims acts and the Virginia fraud statute. The former employees filed a separate amended complaint alleging employment and retaliation claims as well as false claim act violations. During the third quarter of 2011, we reached an agreement in principle to settle all of the claims. We have established a reserve in connection with this matter which did not have a material impact on our results of operations for any of the periods presented herein. Should we be unable to finalize a definitive settlement agreement in this matter, we will continue to defend ourselves vigorously against the government's and the former employees' allegations. There can be no assurance that we will prevail should this matter be litigated.

Martin v. UHS of Delaware:

UHS of Delaware, Inc., a wholly-owned subsidiary of ours, has been named as defendants in a state False Claim Act case in Sacramento County Superior Court. Plaintiffs are a former student and employees of the Elmira School who claim that the UHS schools in California unlawfully retained public education funding from the state of California for the operation of these schools but failed to meet state requirements pertaining to the operation of non-public schools. We deny liability and intend to defend this case vigorously. We have established a reserve in connection with this matter which did not have a material impact on our consolidated financial statements.

Department of Justice ICD Investigation:

In September, 2010, we, along with many other companies in the healthcare industry, received a letter from the United States Department of Justice ("DOJ") advising of a False Claim Act investigation being conducted in connection with the implantation of implantable cardioverter defibrillators ("ICDs") from 2003 to the present at several of our acute care facilities. The DOJ alleges that ICDs were implanted and billed by our facilities in contravention of a National Claims Determination regarding these devices. We have established a reserve in connection with this matter which did not have a material impact on our consolidated financial statements.

Two Rivers Psychiatric Hospital:

On April 11, 2011, the Centers for Medicare and Medicaid Services ("CMS") issued notice of its decision terminating Two Rivers Psychiatric Hospital ("Two Rivers") in Kansas City, Missouri from participation in the Medicare and Medicaid program. The termination notice was issued as a result of surveys conducted which allegedly found Two Rivers to be out of compliance with the conditions of participation required for participation in the Medicare program and for Two Rivers' alleged failure to alleviate an "immediate jeopardy" situation. Two Rivers filed an administrative appeal with the U.S. Department of Health and Human Services, Departmental Appeal Board, Civil Remedies Division, seeking review and reversal of that decision. In addition, Two Rivers filed a complaint in the U.S. District Court for the Western District of Missouri seeking a temporary restraining order and preliminary injunction against CMS rescinding the termination action. On April 22, 2011, the District Court issued a temporary restraining order abating the termination action pending a preliminary injunction hearing or an agreement with CMS. On May 17, 2011, Two Rivers and CMS entered into a settlement agreement which resulted in the rescission of the termination notice and actions by CMS. Pursuant to the terms of the agreement, Two Rivers was required to submit an acceptable plan of correction relative to the immediate jeopardy citation and engage independent experts in various disciplines to analyze and develop implementation plans for Two Rivers to meet the applicable Medicare conditions of participation. Both of these actions have

occurred. CMS will conduct an initial survey of Two Rivers, expected to occur in early 2012, to determine if the Medicare conditions of participation have been met. During the term of this agreement, Two Rivers remains eligible to receive reimbursements for services rendered to Medicare and Medicaid beneficiaries. Two Rivers remains fully committed to providing high-quality healthcare to their patients and the community it serves. We therefore intend to work expeditiously and collaboratively with CMS in an effort to resolve these matters. We can provide no assurance that Two Rivers will not ultimately lose its Medicare certification. The operating results of Two Rivers did not have a material impact on our consolidated results of operations or financial condition for the years ended December 31, 2011 or 2010.

Matters Relating to PSI:

The following matters pertain to PSI or former PSI facilities (owned by subsidiaries of Psychiatric Solutions, Inc.) for which we have assumed the defense as a result of our acquisition of PSI which was completed in November, 2010:

Garden City Employees' Retirement System v. PSI:

This is a purported shareholder class action lawsuit filed in the United States District Court for the Middle District of Tennessee against PSI and the former directors in 2009 alleging violations of federal securities laws. We intend to defend the case vigorously. Should we be deemed liable in this matter, we believe we would be entitled to commercial insurance recoveries for amounts paid by us, subject to certain limitations and deductibles. Included in our consolidated balance sheet as of December 31, 2011, is an estimated reserve (current liability) and corresponding commercial insurance recovery (current asset) which did not have a material impact on our financial statements. Although we believe the commercial insurance recoveries are adequate to satisfy potential liability in this matter, we can provide no assurance that the ultimate liability will not exceed the commercial insurance recoveries which would make us liable for the excess.

Department of Justice Investigation of Sierra Vista:

In 2009, Sierra Vista Hospital in Sacramento, California learned of an investigation by the U.S. Department of Justice ("DOJ") relating to Medicare services provided by the facility. The DOJ ultimately notified the facility that with respect to partial hospitalization and outpatient services, the DOJ believed that the medical record documentation did not adequately support the claims submitted for reimbursement by Medicare. We reached a tentative financial settlement with the DOJ which is subject to the negotiation of a definitive settlement agreement. As part of that agreement, the facility will be subject to a corporate integrity agreement. The reserve established in connection with this matter did not have a material impact on our consolidated financial statements.

Department of Justice Investigation of Friends Hospital:

In October, 2010, Friends Hospital in Philadelphia, Pennsylvania, received a subpoena from the DOJ requesting certain documents from the facility. The requested documents have been collected and provided to the DOJ for review and examination. Another subpoena was issued to the facility in July 2011 requesting additional documents. Those documents are being collected and will be provided to the DOJ. At present, we are uncertain as to the focus, scope or extent of the investigation, liability of the facility and/or potential financial exposure, if any, in connection with this matter.

Department of Justice Investigation of Riveredge Hospital:

In 2008, Riveredge Hospital in Chicago, Illinois received a subpoena from the DOJ requesting certain information from the facility. Additional requests for documents were also received from the DOJ in 2009 and 2010. The requested documents have been provided to the DOJ and we continue to cooperate with the DOJ with respect to this investigation. At present, we are uncertain as to the focus, scope or extent of the investigation, liability of the facility and/or potential financial exposure, if any, in connection with this matter.

Virginia Department of Medical Assistance Services Recoupment Claims:

The Virginia Department of Medical Assistance Services ("DMAS") has conducted audits at seven former PSI Residential Treatment Centers operated in the Commonwealth of Virginia to confirm compliance with provider rules under the state's Medicaid Provider Services Manual ("Manual"). As a result of those audits, DMAS claims the facilities failed to comply with the requirements of the Manual and has requested repayment of Medicaid payments to those facilities. PSI had previously filed appeals to repayment demands at each facility which are currently pending. The aggregate refund of Medicaid payments made to those facilities, as requested by DMAS, and the corresponding reserve established on our Consolidated Balance Sheet as of December 31, 2011 and December 31, 2010, was not material to our consolidated financial position or results of operations.

General:

The healthcare industry is subject to numerous laws and regulations which include, among other things, matters such as government healthcare participation requirements, various licensure, certifications, and accreditations, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Government action has increased with respect to investigations and/or allegations concerning possible violations of fraud and abuse and false claims statutes and/or regulations by healthcare providers. Currently, and from time to time, some of our facilities are subjected to inquiries and/or actions and receive notices of potential non-compliance of laws and regulations from various federal and state agencies. Providers that are found to have violated these laws and regulations may be excluded from participating in government healthcare programs, subjected to potential licensure, certification, and/or accreditation revocation, subjected to fines or penalties or required to repay amounts received from the government for previously billed patient services. We monitor all aspects of our business and have developed a comprehensive ethics and compliance program that is designed to meet or exceed applicable federal guidelines and industry standards. Because the law in this area is complex and constantly evolving, governmental investigation or litigation may result in interpretations that are inconsistent with industry practices, including ours. Although we believe our policies, procedures and practices comply with governmental regulations, there is no assurance that we will not be faced with sanctions, fines or penalties in connection with such inquiries or actions, including with respect to the investigations and other matters discussed herein. Even if we were to ultimately prevail, such inquiries and/or actions could have a material adverse effect on us.

The outcome of any current or future litigation or governmental or internal investigations, including the matters described above, cannot be accurately predicted, nor can we predict any resulting penalties, fines or other sanctions that may be imposed at the discretion of federal or state regulatory authorities. We record accruals for such contingencies to the extent that we conclude it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. No estimate of the possible loss or range of loss in excess of amounts accrued, if any, can be made at this time regarding the matters specifically described above because the inherently unpredictable nature of legal proceedings may be exacerbated by various factors, including, but not limited to: (i) the damages sought in the proceedings are unsubstantiated or indeterminate; (ii) discovery is not complete; (iii) the proceeding is in its early stages; (iv) the matters present legal uncertainties; (v) there are significant facts in dispute; (vi) there are a large number of parties, or; (vii) there is a wide range of potential outcomes. It is possible that the outcome of these matters could have a material adverse impact on our future results of operations, financial position, cash flows and, potentially, our reputation.

In addition, various suits and claims arising against us in the ordinary course of business are pending. In the opinion of management, the outcome of such claims and litigation will not materially affect our consolidated financial position or results of operations.

ITEM 4. *Mine Safety Disclosures*

Not applicable.

PART II

ITEM 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Our Class B Common Stock is traded on the New York Stock Exchange. Shares of our Class A, Class C and Class D Common Stock are not traded in any public market, but are each convertible into shares of our Class B Common Stock on a share-for-share basis. In November, 2009, we declared a two-for-one stock split in the form of a 100% stock dividend which was paid on December 15, 2009 to shareholders of record as of December 1, 2009. All classes of common stock participated on a pro rata basis and, as required, all references to share quantities and share prices for all periods presented have been adjusted to reflect the two-for-one stock split.

The table below sets forth, for the quarters indicated, the high and low reported closing sales prices per share reported on the New York Stock Exchange for our Class B Common Stock for the years ended December 31, 2011 and 2010:

Quarter:	2011	2010
	High-Low Sales Price	High-Low Sales Price
1 st	\$49.41-\$42.06	\$36.59-\$25.75
2 nd	\$56.41-\$46.13	\$43.36-\$34.86
3 rd	\$54.64-\$34.00	\$39.15-\$31.06
4 th	\$42.90-\$31.91	\$43.74-\$37.21

The number of stockholders of record as of January 31, 2012 were as follows:

Class A Common	20
Class B Common	315
Class C Common	3
Class D Common	130

Stock Repurchase Programs

In various prior years, our Board of Directors has approved stock repurchase programs authorizing us to purchase shares of our outstanding Class B Common Stock on the open market at prevailing market prices or in negotiated transactions off the market. There is no expiration date for our stock repurchase programs. The most recent approval occurred during 2007 at which time our Board of Directors authorized the purchase of up to 10 million shares, a portion of which (as reflected below) remains available for purchase as of December 31, 2011. The following schedule provides information related to our stock repurchase programs for each of the three years ended December 31, 2011:

	Additional Shares Authorized For Repurchase	Total number of shares purchased(a)	Average price paid per share for forfeited restricted shares	Total number of shares purchased as part of publicly announced programs	Average price paid per share for shares purchased as part of publicly announced program	Aggregate purchase price paid (in thousands)	Maximum number of shares that may yet be purchased under the program
Balance as of January 1, 2009							4,713,548
2009	—	2,574,209	\$0.01	2,561,209	\$24.71	\$ 63,288	2,152,339
2010	—	301,933	\$0.01	293,933	\$39.22	\$ 11,528	1,858,406
2011	—	1,602,286	\$0.01	1,602,286	\$37.75	\$ 60,482	256,120
Total for three year period ended December 31, 2011	—	4,478,428	\$0.01	4,457,428	\$30.35	\$135,298	

- (a) During 2010 and 2009, there were 8,000 and 13,000, respectively, of restricted shares that were forfeited by former employees pursuant to the terms of our restricted stock purchase plan which are included in the total number of shares purchased. No such forfeitures occurred during 2011.

During the period of October 1, 2011 through December 31, 2011, we repurchased the following shares:

	<u>Additional Shares Authorized For Repurchase</u>	<u>Total number of shares purchased</u>	<u>Average price paid per share for forfeited restricted shares</u>	<u>Total Number of shares purchased as part of publicly announced programs</u>	<u>Average price paid per share for shares purchased as part of publicly announced program</u>	<u>Aggregate purchase price paid (in thousands)</u>	<u>Maximum number of shares that may yet be purchased under the program</u>
October, 2011	—	423,919	N/A	423,919	\$34.16	\$14,482	293,264
November, 2011	—	16,029	N/A	16,029	\$38.99	\$ 625	277,235
December, 2011	—	21,115	N/A	21,115	\$39.88	\$ 842	256,120
Total October through December	—	<u>461,063</u>	<u>N/A</u>	<u>461,063</u>	<u>\$34.59</u>	<u>\$15,949</u>	

Dividends

During the two years ending December 31, 2011, dividends per share were declared and paid as follows:

	<u>2011</u>	<u>2010</u>
First quarter	\$.05	\$.05
Second quarter	\$.05	\$.05
Third quarter	\$.05	\$.05
Fourth quarter	\$.05	\$.05
Total	<u>\$.20</u>	<u>\$.20</u>

Stock Price Performance Graph

The following graph compares the cumulative total stockholder return on our common stock with the cumulative total return on the stock included in the Standard & Poor's 500 Index and a Peer Group Index during the five year period ended December 31, 2011. The graph assumes an investment of \$100 made in our common stock and each Index as of January 1, 2007 and has been weighted based on market capitalization. Note that our common stock price performance shown below should not be viewed as being indicative of future performance.

Companies in the peer group, which consist of companies in the S&P 500 Index or S&P MidCap 400 Index (in which we are also included), are as follows: Community Health Systems, Inc., Health Management Associates, LifePoint Hospitals, Inc., Tenet Healthcare Corporation and HCA Holdings, Inc. (included from March, 2011 at which time the company's stock began publicly trading).

**COMPARISON OF FIVE YEAR CUMULATIVE TOTAL RETURN
(The Company, S&P 500 and Peer Group)**

<u>Company Name / Index</u>	<u>2006</u>	<u>2007</u>	<u>2008</u>	<u>2009</u>	<u>2010</u>	<u>2011</u>
Universal Health Services, Inc	\$100.00	\$ 92.90	\$68.59	\$112.03	\$160.38	\$144.17

- (1) Amounts exclude non-cash capital lease obligations, if any.
- (2) Excludes statistical information related to divested facilities and facilities held for sale.
- (3) All periods have been adjusted to reflect the two-for-one stock split in the form of a 100% stock dividend paid in December, 2009.
- (4) Includes data for the facilities acquired from PSI on November 15, 2010 from the date of acquisition through December 31, 2010, excluding the data for the 3 former PSI facilities that were divested by us during the third and fourth quarters of 2011 and reflected as discontinued operations, as discussed herein.

ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Our principal business is owning and operating, through our subsidiaries, acute care hospitals, behavioral health centers, surgical hospitals, ambulatory surgery centers and radiation oncology centers. As of February 24, 2012, we owned and/or operated 25 acute care hospitals and 198 behavioral health centers located in 36 states, Washington, D.C., Puerto Rico and the U.S. Virgin Islands. As part of our ambulatory treatment centers division, we manage and/or own outright or in partnerships with physicians, 6 surgical hospitals and surgery and radiation oncology centers located in 4 states and Puerto Rico.

In November, 2010, we acquired Psychiatric Solutions, Inc. ("PSI"). PSI was formerly the largest operator of freestanding inpatient behavioral health care facilities operating a total of 105 inpatient and outpatient facilities in 32 states, Puerto Rico, and the U.S. Virgin Islands.

Net revenues from our acute care hospitals, surgical hospitals, surgery centers and radiation oncology centers accounted for 55% of our consolidated net revenues in 2011, 70% in 2010 and 74% in 2009. Net revenues from our behavioral health care facilities accounted for 45% of our consolidated net revenues during 2011, 30% during 2010 and 25% during 2009. Approximately 1% of our consolidated net revenues in 2009 were recorded in connection with two construction management contracts pursuant to the terms of which we built newly constructed acute care hospitals for an unrelated third party.

Services provided by our hospitals include general and specialty surgery, internal medicine, obstetrics, emergency room care, radiology, oncology, diagnostic care, coronary care, pediatric services, pharmacy services and/or behavioral health services. We provide capital resources as well as a variety of management services to our facilities, including central purchasing, information services, finance and control systems, facilities planning, physician recruitment services, administrative personnel management, marketing and public relations.

Forward-Looking Statements and Risk Factors

This Annual Report contains "forward-looking statements" that reflect our current estimates, expectations and projections about our future results, performance, prospects and opportunities. Forward-looking statements include, among other things, the information concerning our possible future results of operations, business and growth strategies, financing plans, expectations that regulatory developments or other matters will not have a material adverse effect on our business or financial condition, our competitive position and the effects of competition, the projected growth of the industry in which we operate, and the benefits and synergies to be obtained from our completed and any future acquisitions, and statements of our goals and objectives, and other similar expressions concerning matters that are not historical facts. Words such as "may," "will," "should," "could," "would," "predicts," "potential," "continue," "expects," "anticipates," "future," "intends," "plans," "believes," "estimates," "appears," "projects" and similar expressions, as well as statements in future tense, identify forward-looking statements.

Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by which, such performance or results will be achieved. Forward-looking information is based on information available at the time and/or our good faith belief with respect to future events, and is subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the statements. Such factors include, among other things, the following:

- our ability to comply with the existing laws and government regulations, and/or changes in laws and government regulations;
- an increasing number of legislative initiatives have recently been passed into law that may result in major changes in the health care delivery system on a national or state level. No assurances can be given that the implementation of these new laws will not have a material adverse effect on our business, financial condition or results of operations;

- possible unfavorable changes in the levels and terms of reimbursement for our charges by third party payors or government programs, including Medicare or Medicaid;
- an increase in the number of uninsured and self-pay patients treated at our acute care facilities that unfavorably impacts our ability to satisfactorily and timely collect our self-pay patient accounts;
- our ability to enter into managed care provider agreements on acceptable terms and the ability of our competitors to do the same, including contracts with United/Sierra Healthcare in Las Vegas, Nevada;
- the outcome of known and unknown litigation, government investigations, false claim act allegations, and liabilities and other claims asserted against us, including matters as disclosed in *Item 3. Legal Proceedings*;
- the potential unfavorable impact on our business of deterioration in national, regional and local economic and business conditions, including a continuation or worsening of unfavorable credit market conditions;
- competition from other healthcare providers (including physician owned facilities) in certain markets, including McAllen/Edinburg, Texas, the site of one of our largest acute care facilities and Riverside County, California;
- technological and pharmaceutical improvements that increase the cost of providing, or reduce the demand for healthcare;
- our ability to attract and retain qualified personnel, nurses, physicians and other healthcare professionals and the impact on our labor expenses resulting from a shortage of nurses and other healthcare professionals;
- demographic changes;
- our acquisition of PSI which has substantially increased our level of indebtedness which could, among other things, adversely affect our ability to raise additional capital to fund operations, limit our ability to react to changes in the economy or our industry and could potentially prevent us from meeting our obligations under the agreements related to our indebtedness;
- our ability to successfully integrate and improve our recent acquisitions and the availability of suitable acquisitions and divestiture opportunities;
- we receive Medicaid revenues in excess of \$100 million annually from each of Texas, Pennsylvania, Virginia, Illinois and Washington, D.C., making us particularly sensitive to reductions in Medicaid and other state based revenue programs (which have been implemented in various forms with respect to our areas of operation in the respective 2012 state fiscal years) as well as regulatory, economic, environmental and competitive changes in those states. In the states in which we operate, based upon the state budgets for the 2012 fiscal year (which generally began at various times during the second half of 2011), we estimate that, on a blended basis, our aggregate Medicaid rates have been reduced by approximately 3% to 4% (or approximately \$45 million to \$55 million annually) from the average rates in effect during the states' 2011 fiscal years (which generally ended during the third quarter of 2011). Our consolidated results of operations for the year ended December 31, 2011 include the pro rata portion of these Medicaid rate reductions. We can provide no assurance that further reductions to Medicaid revenues (which have been proposed in certain states for fiscal year 2013), particularly in the above-mentioned states, will not have a material adverse effect on our future results of operations;
- our ability to continue to obtain capital on acceptable terms, including borrowed funds, to fund the future growth of our business;
- some of our acute care facilities continue to experience decreasing inpatient admission trends;
- our financial statements reflect large amounts due from various commercial and private payors and there can be no assurance that failure of the payors to remit amounts due to us will not have a material adverse effect on our future results of operations;

- the Department of Health and Human Services (“HHS”) published final regulations in July, 2010 implementing the health information technology (“HIT”) provisions of the American Recovery and Reinvestment Act (referred to as the “HITECH Act”). The final regulation defines the “meaningful use” of Electronic Health Records (“EHR”) and establishes the requirements for the Medicare and Medicaid EHR payment incentive programs. The implementation period for these new Medicare and Medicaid incentive payments started in federal fiscal year 2011 and can end as late as 2016 for Medicare and 2021 for the state Medicaid programs. Our acute care hospitals may qualify for these EHR incentive payments upon implementation of the EHR application assuming they meet the “meaningful use criteria”. Certain of our acute care hospitals implemented an EHR application in 2011 and we plan to continue the implementation at each of our acute care hospitals, on a facility-by-facility basis, during 2012 and 2013. However, there can be no assurance that we (our acute care hospitals) will ultimately qualify for these incentive payments and, should we qualify, we are unable to quantify the amount of incentive payments we may receive since the amounts are dependent upon various factors including the implementation timing at each hospital. Should we qualify for incentive payments, there may be timing differences in the recognition of the revenues and expenses recorded in connection with the implementation of the EHR application which may cause material period-to-period changes in our future results of operations. Hospitals that do not qualify as a meaningful user of EHR by 2015 are subject to a reduced market basket update to the inpatient prospective payment system (“IPPS”) standardized amount in 2015 and each subsequent fiscal year. Although we believe that our acute care hospitals will be in compliance with the EHR standards by 2015, there can be no assurance that all of our facilities will be in compliance and therefore not subject to the penalty provision of the HITECH Act;
- in August, 2011, the Budget Control Act of 2011 (the “2011 Act”) was enacted into law. The 2011 Act imposed annual spending limits for most federal agencies and programs aimed at reducing budget deficits by \$917 billion between 2012 and 2021, according to a report released by the Congressional Budget Office. Among its other provisions, the law established a bipartisan Congressional committee, known as the Joint Select Committee on Deficit Reduction (the “Joint Committee”), which was tasked with making recommendations aimed at reducing future federal budget deficits by an additional \$1.5 trillion over 10 years. The Joint Committee was unable to reach an agreement by the November 23, 2011 deadline and, as a result, across-the-board cuts to discretionary, national defense and Medicare spending were implemented which, if triggered, would result in Medicare payment reductions of up to 2% per fiscal year with a uniform percentage reduction across all Medicare programs starting in 2013. We cannot predict whether Congress will attempt to suspend or restructure the automatic budget cuts or what other deficit reduction initiatives may be proposed by Congress;
- the ability to obtain adequate levels of general and professional liability insurance on current terms;
- changes in our business strategies or development plans;
- fluctuations in the value of our common stock, and;
- other factors referenced herein or in our other filings with the Securities and Exchange Commission.

Given these uncertainties, risks and assumptions, as outlined above, you are cautioned not to place undue reliance on such forward-looking statements. Our actual results and financial condition could differ materially from those expressed in, or implied by, the forward-looking statements. Forward-looking statements speak only as of the date the statements are made. We assume no obligation to publicly update any forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information, except as may be required by law. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by this cautionary statement.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect the amounts reported in our consolidated financial statements and accompanying notes.

A summary of our significant accounting policies is outlined in Note 1 to the financial statements. We consider our critical accounting policies to be those that require us to make significant judgments and estimates when we prepare our financial statements, including the following:

Revenue recognition: We record revenues and related receivables for health care services at the time the services are provided. Medicare and Medicaid revenues represented 37% of our net patient revenues during 2011 and 38% during each of 2010 and 2009. Revenues from managed care entities, including health maintenance organizations and managed Medicare and Medicaid programs accounted for 43% of our net patient revenues during 2011 and 46% during each of 2010 and 2009.

We report net patient service revenue at the estimated net realizable amounts from patients and third-party payors and others for services rendered. We have agreements with third-party payors that provide for payments to us at amounts different from our established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges and per diem payments. Estimates of contractual allowances under managed care plans are based upon the payment terms specified in the related contractual agreements. We closely monitor our historical collection rates, as well as changes in applicable laws, rules and regulations and contract terms, to assure that provisions are made using the most accurate information available. However, due to the complexities involved in these estimations, actual payments from payors may be different from the amounts we estimate and record.

We estimate our Medicare and Medicaid revenues using the latest available financial information, patient utilization data, government provided data and in accordance with applicable Medicare and Medicaid payment rules and regulations. The laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation and as a result, there is at least a reasonable possibility that recorded estimates will change by material amounts in the near term. Certain types of payments by the Medicare program and state Medicaid programs (e.g. Medicare Disproportionate Share Hospital, Medicare Allowable Bad Debts and Inpatient Psychiatric Services) are subject to retroactive adjustment in future periods as a result of administrative review and audit and our estimates may vary from the final settlements. Such amounts are included in accounts receivable, net, on our Consolidated Balance Sheets. The funding of both federal Medicare and state Medicaid programs are subject to legislative and regulatory changes. As such, we cannot provide any assurance that future legislation and regulations, if enacted, will not have a material impact on our future Medicare and Medicaid reimbursements. Adjustments related to the final settlement of these retrospectively determined amounts did not materially impact our results in 2011, 2010 or 2009. If it were to occur, each 1% adjustment to our estimated net Medicare revenues that are subject to retrospective review and settlement as of December 31, 2011, would change our after-tax net income by approximately \$2 million.

We provide care to patients who meet certain financial or economic criteria without charge or at amounts substantially less than our established rates. Because we do not pursue collection of amounts determined to qualify as charity care, they are not reported in net revenues or in accounts receivable, net. Our acute care hospitals provided charity care and uninsured discounts, based on charges at established rates, amounting to \$956 million, \$807 million and \$671 million during 2011, 2010 and 2009, respectively.

A portion of the accounts receivable at our acute care facilities are comprised of Medicaid accounts that are pending approval from third-party payers but we also have smaller amounts due from other miscellaneous payers such as county indigent programs in certain states. Our patient registration process includes an interview of the patient or the patient's responsible party at the time of registration. At that time, an insurance eligibility determination is made and an insurance plan code is assigned. There are various pre-established insurance profiles in our patient accounting system which determine the expected insurance reimbursement for each patient based on the insurance plan code assigned and the services rendered. Certain patients may be classified as Medicaid pending at registration based upon a screening evaluation if we are unable to definitively determine if they are currently Medicaid eligible. When a patient is registered as Medicaid eligible or Medicaid pending our patient accounting system records net revenues for the services provided to that patient based upon the established Medicaid

reimbursement rates pending ultimate disposition of the patient's Medicaid eligibility. Based on general factors as discussed below in *Provision for Doubtful Accounts*, our acute care facilities make estimates at each financial reporting period to reserve for amounts that are deemed to be uncollectible. Such estimated uncollectible amounts related to Medicaid pending, as well as other accounts receivable payer classifications, are considered when the overall individual facility and company-wide reserves are developed. Adjustments related to the final determination of these accounts did not materially impact our results of operations in 2011, 2010 or 2009.

Provision for Doubtful Accounts: Collection of receivables from third-party payers and patients is our primary source of cash and is critical to our operating performance. Our primary collection risks relate to uninsured patients and the portion of the bill which is the patient's responsibility, primarily co-payments and deductibles. We estimate our provisions for doubtful accounts based on general factors such as payer mix, the agings of the receivables and historical collection experience. We routinely review accounts receivable balances in conjunction with these factors and other economic conditions which might ultimately affect the collectability of the patient accounts and make adjustments to our allowances as warranted. At our acute care hospitals, third party liability accounts are pursued until all payment and adjustments are posted to the patient account. For those accounts with a patient balance after third party liability is finalized or accounts for uninsured patients, the patient receives statements and collection letters. Patients that express an inability to pay are reviewed for potential sources of financial assistance including our charity care policy. If the patient is deemed unwilling to pay, the account is written-off as bad debt and transferred to an outside collection agency for additional collection effort.

Uninsured patients that do not qualify as charity patients are extended an uninsured discount of at least 20% of total charges. During the collection process the hospital establishes a partial reserve in the allowance for doubtful accounts for self-pay balances outstanding for greater than 60 days from the date of discharge. All self-pay accounts at the hospital level are fully reserved if they have been outstanding for greater than 90 days from the date of discharge. Third party liability accounts are fully reserved in the allowance for doubtful accounts when the balance ages past 180 days from the date of discharge. Potential charity accounts are fully reserved when it is determined the patient may be unable to pay.

As of December 31, 2011, our accounts receivable includes \$54 million due from Illinois, the collection of which has been delayed due to budgetary and funding pressures experienced by the state. Although approximately \$41 million of the receivables due from Illinois have been outstanding in excess of 60 days (as of December 31, 2011), and a large portion will likely remain outstanding for the foreseeable future, we expect to eventually collect all amounts due to us and therefore no related reserves have been established in our consolidated financial statements. However, we can provide no assurance that we will eventually collect all amounts due to us from Illinois. Failure to ultimately collect all outstanding amounts due from Illinois would have an adverse impact on our future consolidated results of operations and cash flows.

On a consolidated basis, we monitor our total self-pay receivables to ensure that the total allowance for doubtful accounts provides adequate coverage based on historical collection experience. Our accounts receivable are recorded net of allowance for doubtful accounts of \$253 million and \$249 million at December 31, 2011 and 2010, respectively.

Approximately 93% during 2011, 93% during 2010 and 94% during 2009, of our consolidated provision for doubtful accounts, was incurred by our acute care hospitals. Shown below is our payer mix concentrations and related aging of our billed accounts receivable, net of contractual allowances, for our acute care hospitals as of December 31, 2011 and 2010:

As of December 31, 2011:

(amounts in thousands)	0-60 days	61-120 days	121-180 days	Over 180 days
Medicare	\$ 62,219	\$ 3,890	\$ 1,190	\$ 2,962
Medicaid	27,891	15,622	9,288	24,847
Commercial insurance and other	221,850	63,216	30,984	68,118
Private pay	105,841	77,267	9,594	18,826
Total	<u>\$417,801</u>	<u>\$159,995</u>	<u>\$51,056</u>	<u>\$114,753</u>

As of December 31, 2010:

(amounts in thousands)	0-60 days	61-120 days	121-180 days	Over 180 days
Medicare	\$ 56,586	\$ 2,868	\$ 824	\$ 1,214
Medicaid	29,166	13,280	6,865	19,135
Commercial insurance and other	201,609	50,479	23,210	42,459
Private pay	92,246	73,470	23,372	21,815
Total	<u>\$379,607</u>	<u>\$140,097</u>	<u>\$54,271</u>	<u>\$84,623</u>

Self-Insured Risks: We provide for self-insured risks, primarily general and professional liability claims and workers' compensation claims. Our estimated liability for self-insured professional and general liability claims is based on a number of factors including, among other things, the number of asserted claims and reported incidents, estimates of losses for these claims based on recent and historical settlement amounts, estimate of incurred but not reported claims based on historical experience, and estimates of amounts recoverable under our commercial insurance policies. All relevant information, including our own historical experience is used in estimating the expected amount of claims. While we continuously monitor these factors, our ultimate liability for professional and general liability claims could change materially from our current estimates due to inherent uncertainties involved in making this estimate. Our estimated self-insured reserves are reviewed and changed, if necessary, at each reporting date and changes are recognized currently as additional expense or as a reduction of expense. Given our significant self-insured exposure for professional and general liability claims, there can be no assurance that a sharp increase in the number and/or severity of claims asserted against us will not have a material adverse effect on our future results of operations.

Professional and General Liability

Effective January 1, 2008, most of our subsidiaries became self-insured for professional and general liability exposure up to \$10 million per occurrence (as compared to \$20 million per occurrence prior to 2008). Prior to our acquisition of PSI in November, 2010, our subsidiaries purchased several excess policies through commercial insurance carriers which provide for coverage in excess of \$10 million up to \$200 million per occurrence and in the aggregate. However, we are liable for 10% of the claims paid pursuant to the commercially insured coverage in excess of \$10 million up to \$60 million per occurrence and in the aggregate.

Prior to our acquisition in November, 2010, the PSI subsidiaries were commercially insured for professional and general liability insurance claims in excess of a \$3 million self-insured retention to a limit of \$75 million. PSI utilized its captive insurance company and that captive insurance company remains in place after our acquisition of PSI to manage the self-insured retention for all former PSI subsidiaries for claims incurred prior to

January 1, 2011. The captive insurance company also continues to manage the applicable self-insured retention for all professional and general liability claims, regardless of date incurred, for the former PSI subsidiaries located in Florida and Puerto Rico.

Since our acquisition of PSI on November 15, 2010, the former PSI subsidiaries are self-insured for professional and general liability exposure up to \$3 million per occurrence and our legacy subsidiaries (which are not former PSI subsidiaries) are self-insured for professional and general liability exposure up to \$10 million per occurrence. Effective November, 2010, our subsidiaries (including the former PSI subsidiaries) were provided with several excess policies through commercial insurance carriers which provide for coverage in excess of the applicable per occurrence self-insured retention (either \$3 million or \$10 million) up to \$200 million per occurrence and in the aggregate. We remain liable for 10% of the claims paid pursuant to the commercially insured coverage in excess of \$10 million up to \$60 million per occurrence and in the aggregate.

Our estimated liability for self-insured professional and general liability claims is based on a number of factors including, among other things, the number of asserted claims and reported incidents, estimates of losses for these claims based on recent and historical settlement amounts, estimates of incurred but not reported claims based on historical experience, and estimates of amounts recoverable under our commercial insurance policies. While we continuously monitor these factors, our ultimate liability for professional and general liability claims could change materially from our current estimates due to inherent uncertainties involved in making this estimate. Given our significant self-insured exposure for professional and general liability claims, there can be no assurance that a sharp increase in the number and/or severity of claims asserted against us will not have a material adverse effect on our future results of operations.

As of December 31, 2011, the total accrual for our professional and general liability claims, including the estimated claims related to the facilities acquired from PSI, was \$292 million, of which \$60 million is included in current liabilities. As of December 31, 2010, the total accrual for our professional and general liability claims was \$289 million, of which \$60 million is included in other current liabilities.

Based upon the results of reserve analyses, we recorded reductions to our professional and general liability self-insurance reserves (relating to prior years) amounting to \$11 million during 2011, \$49 million during 2010 and \$23 million during 2009. The favorable change recorded during 2011 consisted primarily of third-party recoveries and reserve reductions in connection with PHICO-related claims which we became liable for upon PHICO's (a former commercial insurance carrier) liquidation in 2002. The favorable changes in our estimated future claims payments recorded during 2010 and 2009 were due to: (i) an increased weighting given to company-specific metrics (to 75% from 50%), and decreased general industry metrics (to 25% from 50%), related to projected incidents per exposure, historical claims experience and loss development factors; (ii) historical data which measured the realized favorable impact of medical malpractice tort reform experienced in several states in which we operate, and; (iii) a decrease in claims related to certain higher risk specialties (such as obstetrical) due to a continuation of the company-wide patient safety initiative undertaken during the last several years. As the number of our facilities and our patient volumes have increased, thereby providing for a statistically significant data group, and taking into consideration our long-history of company-specific risk management programs and claims experience, our reserve analyses have included a greater emphasis on our historical professional and general liability experience which has developed favorably as compared to general industry trends.

Based upon the results of workers' compensation reserves analyses, we recorded reductions to our prior year reserves for workers' compensation claims amounting to \$4 million during 2010 and \$7 million during 2009. There were no such adjustments recorded during 2011.

Although we are unable to predict whether or not our future financial statements will include adjustments to our prior year reserves for self-insured general and professional and workers' compensation claims, given the relatively unpredictable nature of these potential liabilities and the factors impacting these reserves as discussed above, it is reasonably likely that our future financial results may include material adjustments to prior period reserves.

Below is a schedule showing the changes in our general and professional liability and workers' compensation reserves during the three years ended December 31, 2011 (amount in thousands):

	<u>General and Professional Liability</u>	<u>Workers' Compensation</u>	<u>Total</u>
Balance at January 1, 2009	\$271,110	\$ 48,497	\$319,607
Plus: accrued insurance expense, net of commercial premiums			
paid (a) (b)	34,963	9,351	44,314
Less: Payments made in settlement of self-insured claims	<u>(40,465)</u>	<u>(15,317)</u>	<u>(55,782)</u>
Balance at January 1, 2010	265,608	42,531	308,139
Plus: accrued insurance expense, net of commercial premiums			
paid (a) (b)	4,742	14,997	19,739
Less: Payments made in settlement of self-insured claims	<u>(31,713)</u>	<u>(18,460)</u>	<u>(50,173)</u>
Plus: Liabilities assumed in the acquisition of PSI	<u>50,800</u>	<u>31,956</u>	<u>82,756</u>
Balance at January 1, 2011	289,437	71,024	360,461
Plus: accrued insurance expense, net of commercial premiums			
paid (a)	50,865	32,747	83,612
Less: Payments made in settlement of self-insured claims	<u>(43,786)</u>	<u>(38,845)</u>	<u>(82,631)</u>
Less: Adjustments to liabilities assumed in the acquisition of PSI	<u>(4,467)</u>	<u>—</u>	<u>(4,467)</u>
Balance at December 31, 2011	<u>\$292,049</u>	<u>\$ 64,926</u>	<u>\$356,975</u>

- (a) General and professional liability amounts are net of adjustments recorded during each year, as discussed above.
- (b) Workers' compensation amounts for 2009 and 2010 are net of adjustments recorded during each year as discussed above.

In addition, we also maintain self-insured employee benefits programs for employee healthcare and dental claims. The ultimate costs related to these programs include expenses for claims incurred and paid in addition to an accrual for the estimated expenses incurred in connection with claims incurred but not yet reported.

Property Insurance:

We have commercial property insurance policies covering catastrophic losses, including windstorm damage, up to a \$1 billion policy limit per occurrence, subject to a \$250,000 deductible. Losses resulting from named windstorms are subject to deductibles between 3% and 5% of the declared total insurable value of the property. In addition, we have commercial property insurance policies covering catastrophic losses resulting from earthquake and flood damage, each subject to aggregated loss limits (as opposed to per occurrence losses). Our earthquake limit is \$250 million, subject to a deductible of \$250,000, except for facilities located within documented fault zones. Earthquake losses that affect facilities located in fault zones within the United States are subject to a \$100 million limit and will have applied deductibles ranging from 1% to 5% of the declared total insurable value of the property. The earthquake limit in Puerto Rico is \$25 million. Flood losses have either a \$250,000 or \$500,000 deductible, based upon the location of the facility.

Our property insurance coverage is scheduled for renewal on June 1, 2012. Due to an increase in property losses experienced nationwide in recent years, the cost of commercial property insurance has increased. As a result, catastrophic coverage for earthquake and flood has been limited to annual aggregate losses (as opposed to per occurrence losses). Given these insurance market conditions, there can be no assurance that a continuation of these unfavorable trends, or a sharp increase in uninsured property losses sustained by us, will not have a material adverse effect on our future results of operations.

Long-Lived Assets: We review our long-lived assets, including amortizable intangible assets, for impairment whenever events or circumstances indicate that the carrying value of these assets may not be recoverable. The assessment of possible impairment is based on our ability to recover the carrying value of our asset based on our estimate of its undiscounted future cash flow. If the analysis indicates that the carrying value is not recoverable from future cash flows, the asset is written down to its estimated fair value and an impairment loss is recognized. Fair values are determined based on estimated future cash flows using appropriate discount rates.

Goodwill: Goodwill is reviewed for impairment at the reporting unit level on an annual basis or sooner if the indicators of impairment arise. Our judgments regarding the existence of impairment indicators are based on market conditions and operational performance of each reporting unit. We have designated September 1st as our annual impairment assessment date and performed an impairment assessment as of September 1, 2011 which indicated no impairment of goodwill. Future changes in the estimates used to conduct the impairment review, including profitability and market value projections, could indicate impairment in future periods potentially resulting in a write-off of a portion or all of our goodwill.

Income Taxes: Deferred tax assets and liabilities are recognized for the amount of taxes payable or deductible in future years as a result of differences between the tax bases of assets and liabilities and their reported amounts in the financial statements. We believe that future income will enable us to realize our deferred tax assets net of recorded valuation allowances relating to state net operating loss carry-forwards.

We operate in multiple jurisdictions with varying tax laws. We are subject to audits by any of these taxing authorities. Our tax returns have been examined by the Internal Revenue Service ("IRS") through the year ended December 31, 2006. We believe that adequate accruals have been provided for federal, foreign and state taxes.

See *Provision for Income Taxes and Effective Tax Rates* below for discussion of our effective tax rates during each of the last three years.

Recent Accounting Pronouncements: For a summary of recent accounting pronouncements, please see *Note 1 to the Consolidated Financial Statements* as included in this Report on Form 10-K for the year ended December 31, 2011.

Results of Operations

The following table summarizes our results of operations, and is used in the discussion below, for the years ended December 31, 2011, 2010 and 2009 (dollar amounts in thousands):

	Year Ended December 31,					
	2011		2010		2009	
Net revenues	\$7,500,198	100.0%	\$5,568,185	100.0%	\$5,202,379	100.0%
Operating charges:						
Salaries, wages and benefits	3,394,967	45.2%	2,423,102	43.5%	2,204,422	42.4%
Other operating expenses	1,385,680	18.6%	1,005,288	18.1%	994,923	19.1%
Supplies expense	821,811	11.0%	733,093	13.2%	699,249	13.4%
Provision for doubtful accounts	613,619	8.2%	546,909	9.8%	508,603	9.8%
Depreciation and amortization	295,228	3.9%	223,915	4.0%	204,703	3.9%
Lease and rental expense	91,765	1.2%	76,961	1.4%	69,947	1.3%
Transaction costs	—	—	53,220	1.0%	—	—
	<u>6,603,070</u>	<u>88.0%</u>	<u>5,062,488</u>	<u>90.9%</u>	<u>4,681,847</u>	<u>90.0%</u>
Income from operations	897,128	12.0%	505,697	9.1%	520,532	10.0%
Interest expense, net	200,792	2.7%	77,600	1.4%	45,810	0.9%
Income before income taxes	696,336	9.3%	428,097	7.7%	474,722	9.1%
Provision for income taxes	247,466	3.3%	152,302	2.7%	170,475	3.3%
Net income	448,870	6.0%	275,795	5.0%	304,247	5.8%
Less: Net income attributable to noncontrolling interests	50,703	0.7%	45,612	0.9%	43,874	0.8%
Net income attributable to UHS	<u>\$ 398,167</u>	<u>5.3%</u>	<u>\$ 230,183</u>	<u>4.1%</u>	<u>\$ 260,373</u>	<u>5.0%</u>

Year Ended December 31, 2011 as compared to the Year Ended December 31, 2010:

Net revenues increased 35% or \$1.93 billion to \$7.50 billion during 2011 as compared to \$5.57 billion during 2010. The increase was primarily attributable to:

- a \$267 million or 5% increase in net revenues generated at our acute care hospitals and behavioral health care facilities owned during both periods (which we refer to as “same facility”, and includes change in revenues for the facilities acquired by us from PSI for the month of December, 2011 as compared to December, 2010), and;
- \$1.68 billion increase in revenues at the facilities acquired by us from PSI (includes the period of January through November of 2011 as compared to November 15th through November 30th of 2010).

Income before income taxes (before deduction for income attributable to noncontrolling interests) increased \$268 million to \$696 million during 2011 as compared to \$428 million during 2010. Included in our income before income taxes during 2011, as compared to 2010, was the following:

- an increase of \$14 million at our acute care facilities, as discussed below in *Acute Care Hospital Services*, exclusive of: (i) the \$32 million net unfavorable change in the reductions recorded during 2011 and 2010 to our professional and general liability reserves, as discussed above in *Self-Insured Risks* (the amounts attributable to our acute care hospitals were \$10 million in 2011 and \$42 million in 2010), and; (ii) the favorable change caused by the \$7 million charge recorded during 2010 to write-off certain costs related to an acute care hospital construction project;
- an increase of \$385 million at our behavioral health care facilities, as discussed below in *Behavioral Health Services*, exclusive of the \$6 million net unfavorable change in the reductions recorded during

2011 and 2010 to our professional and general liability reserves, as discussed above in *Self-Insured Risks* (the amounts attributable to our behavioral health care facilities were \$1 million in 2011 and \$7 million in 2010);

- a decrease of \$123 million due to an increase in interest expense resulting primarily from the cost of borrowings utilized to finance the acquisition of PSI in November, 2010;
- a net decrease of \$38 million resulting from the reductions recorded during 2011 and 2010 to our professional and general liability reserves, as discussed above in *Self-Insured Risks* (\$11 million reduction recorded during 2011 and \$49 million reduction during 2010);
- an increase of \$53 million resulting from the transaction fees incurred during 2010 in connection with our acquisition of PSI, and;
- a net decrease of \$23 million from other combined net unfavorable changes consisting of: (i) a \$9 million increase resulting from the charge incurred during 2010 in connection with split-dollar life insurance agreements entered into during 2010 on the lives of our chief executive officer and his wife; (ii) a \$7 million increase resulting from the charge recorded during 2010 to write-off certain costs related to an acute care hospital construction project, and; (iii) a net decrease of \$39 million from other combined net unfavorable changes including the corporate overhead expenses incurred in connection with the behavioral health care facilities acquired from PSI.

Net income attributable to UHS increased \$168 million to \$398 million during 2011 as compared to \$230 million during 2010. The increase consisted of:

- an increase of \$268 million in income before income taxes, as discussed above;
- a decrease of \$5 million resulting from an increase in income attributable to noncontrolling interests, and;
- a decrease of \$95 million resulting from an increase in the provision for income taxes resulting primarily from: (i) a net increase in pre-tax income of \$263 million (\$268 million increase in income before income taxes net of the \$5 million increase in net income attributable to noncontrolling interests), and; (ii) a \$4 million favorable discrete tax item recorded during the third quarter of 2010.

Year Ended December 31, 2010 as compared to the Year Ended December 31, 2009:

Net revenues increased 7% or \$366 million to \$5.57 billion during 2010 as compared to \$5.20 billion during 2009. The increase was attributable to:

- a \$169 million or 3% increase in net revenues generated at our acute care hospitals and behavioral health care facilities, on a same facility basis;
- \$227 million of combined behavioral health revenues generated during the period of November 16, 2010 to December 31, 2010 at the facilities acquired by us from PSI, and;
- \$30 million of other combined net decreases in revenues resulting primarily from decreased revenues earned during 2010 in connection with construction management contract pursuant to the terms of which we built a newly constructed acute care hospital for an unrelated third party that was completed during the fourth quarter of 2009.

Income from continuing operations before income taxes decreased \$47 million to \$428 million during 2010 as compared to \$475 million during 2009 due to the following:

- a decrease of \$33 million at our acute care facilities, as discussed below in *Acute Care Hospital Services*, exclusive of: (i) the \$22 million net favorable effect of the reductions recorded during 2010 and 2009 to our professional and general liability reserves, as discussed above in *Self-Insured Risks* (the amounts attributable to our acute care hospitals were \$42 million in 2010 and \$20 million in

2009); (ii) the \$5 million net unfavorable effect of the reduction to our workers' compensation self insurance reserves recorded during 2009 that related to years prior to 2009, and; (iii) the unfavorable effect of the \$7 million charge recorded during 2010 to write-off certain costs related to an acute care hospital construction project;

- an increase of \$62 million at our behavioral health care facilities as discussed below in *Behavioral Health Services* exclusive of: (i) the \$4 million net favorable effect of the reductions recorded during 2010 and 2009 to our professional and general liability reserves, as discussed above in *Self-Insured Risks* (the amounts attributable to our behavioral health care facilities were \$7 million in 2010 and \$3 million in 2009), and; (ii) the \$2 million unfavorable effect of the reduction to our workers' compensation self insurance reserves recorded during 2009 that related to years prior to 2009;
- a decrease of \$53 million resulting from the transaction fees incurred during 2010 in connection with our acquisition of PSI;
- a decrease of \$32 million resulting from an increase in interest expense resulting primarily from the cost of borrowings incurred to finance the acquisition of PSI;
- a net increase of \$26 million resulting from the reductions recorded during 2010 and 2009 to our professional and general liability reserves, as discussed above in *Self-Insured Risks* (\$49 million reduction recorded during 2010 and \$23 million reduction during 2009), and;
- a net decrease of \$17 million from other combined net unfavorable changes consisting of: (i) a \$9 million decrease resulting from the charge incurred during 2010 in connection with the previously disclosed split-dollar life insurance agreements entered into during 2010 on the lives of our chief executive officer and his wife; (ii) a \$7 million decrease resulting from the charge recorded during 2010 to write-off certain costs related to an acute care hospital construction project; (iii) a \$7 million decrease resulting from a reduction to our workers' compensation self insurance reserves recorded during 2009 that related to years prior to 2009, and; (iv) a net increase of \$6 million from other combined net favorable changes.

Net income attributable to UHS decreased \$30 million to \$230 million during 2010 as compared to \$260 million during 2009 due to the following:

- the \$47 million decrease in income from continuing operations before income taxes, as discussed above;
- an unfavorable change of \$2 million in the net income attributable to noncontrolling interests;
- a favorable change of \$19 million resulting from a decrease in the provision for income taxes resulting from the \$49 million decrease in pre-tax income (\$47 million decrease income from continuing operations and \$2 million increase in income attributable to noncontrolling interests) and certain other nondeductible items as discussed below in *Provision for Income Taxes and Effective Tax Rates*.

Acute Care Hospital Services

Year Ended December 31, 2011 as compared to the Year Ended December 31, 2010:

The following table summarizes the results of operations for our acute care facilities on a same facility basis and is used in the discussions below for the years ended December 31, 2011 and 2010 (dollar amounts in thousands):

<u>Acute Care Hospitals—Same Facility Basis</u>	<u>Year Ended December 31, 2011</u>		<u>Year Ended December 31, 2010</u>	
	<u>Amount</u>	<u>% of Revenues</u>	<u>Amount</u>	<u>% of Revenues</u>
Net revenues	\$4,071,570	100.0%	\$3,901,815	100.0%
Operating charges:				
Salaries, wages and benefits	1,569,780	38.6%	1,489,335	38.2%
Other operating expenses	730,977	18.0%	697,703	17.9%
Supplies expense	637,549	15.7%	640,451	16.4%
Provision for doubtful accounts	535,367	13.1%	509,681	13.1%
Depreciation and amortization	198,038	4.9%	178,634	4.6%
Lease and rental expense	54,209	1.3%	54,867	1.4%
	<u>3,725,920</u>	<u>91.5%</u>	<u>3,570,671</u>	<u>91.5%</u>
Income from operations	345,650	8.5%	331,144	8.5%
Interest expense, net	3,903	0.1%	3,411	0.0%
Income before income taxes	<u>\$ 341,747</u>	<u>8.4%</u>	<u>\$ 327,733</u>	<u>8.5%</u>

On a same facility basis during 2011, as compared to 2010, net revenues at our acute care hospitals increased \$170 million or 4%. Income before income taxes increased \$14 million or 4% to \$342 million or 8.4% of net revenues during 2011 as compared to \$328 million or 8.5% of net revenues during 2010.

Inpatient admissions to these facilities decreased 2.2% during 2011, as compared to 2010, while patient days decreased 0.4%. Adjusted admissions (adjusted for outpatient activity) decreased 0.1% and adjusted patient days increased 1.7% during 2011, as compared to 2010. The average length of inpatient stay at these facilities was 4.4 days during each of 2011 and 2010. The occupancy rate, based on the average available beds at these facilities, was 58% during 2011 and 59% during 2010.

On a same facility basis, net revenue per adjusted admission at these facilities increased 4.5% during 2011, as compared to 2010, and net revenue per adjusted patient day increased 2.6% during 2011, as compared to 2010.

The increase in income before income taxes at our acute care hospitals during 2011, as compared to 2010, was due primarily to favorable operating trends experienced during the first six months of 2011 (a favorable change in payor mix and acuity of patients treated at our hospitals, a stabilization of our uninsured patient volumes and a reduction in our supplies expense). These favorable operating trends moderated during the second half of 2011.

A significant portion of the patients treated throughout our portfolio of acute care hospitals are uninsured patients which, in part, has resulted from an increase in the number of patients who are employed but do not have health insurance or who have policies with relatively high deductibles. We provide care to patients who meet certain financial or economic criteria without charge or at amounts substantially less than our established rates. Because we do not pursue collection of amounts that qualify as charity care, they are not reported in net revenues or in accounts receivable, net. Our acute care hospitals provided charity care and uninsured discounts, based on charges at established rates, amounting to \$956 million during 2011 and \$807 million during 2010.

The estimated cost of providing the charity services was \$173 million during 2011 and \$158 million during 2010. The estimated costs were based on a calculation which multiplied the percentage of operating expenses for our acute care hospitals to gross charges for those hospitals by the above-mentioned gross charity care and uninsured discount amounts. The percentage of cost to gross charges is calculated based on the total operating expenses for our acute care facilities (excluding provision for doubtful accounts) divided by gross patient service revenue for those facilities. An increase in the level of uninsured patients to our facilities and the resulting adverse trends in the provision for doubtful accounts and charity care provided could have a material unfavorable impact on our future operating results.

The following table summarizes the results of operations for all our acute care operations during 2011 and 2010. Included in these results, in addition to the same facility results shown above, is: (i) the favorable effect of \$10 million recorded during 2011 and \$42 million recorded during 2010 resulting from reductions to our professional and general liability self insurance reserves, as discussed above in *Self-Insured Risks*, and; (ii) the unfavorable effect of \$7 million recorded during 2010 to write-off certain costs related to an acute care hospital construction project (dollar amounts in thousands):

	Year Ended December 31, 2011		Year Ended December 31, 2010	
	Amount	% of Revenues	Amount	% of Revenues
All Acute Care Hospitals				
Net revenues	\$4,071,570	100.0%	\$3,901,815	100.0%
Operating charges:				
Salaries, wages and benefits	1,569,780	38.6%	1,489,335	38.2%
Other operating expenses	720,807	17.7%	662,009	17.0%
Supplies expense	637,549	15.7%	640,451	16.4%
Provision for doubtful accounts	535,367	13.1%	509,681	13.1%
Depreciation and amortization	198,038	4.9%	178,634	4.6%
Lease and rental expense	54,209	1.3%	54,867	1.4%
	<u>3,715,750</u>	<u>91.3%</u>	<u>3,534,977</u>	<u>90.6%</u>
Income from operations	355,820	8.7%	366,838	9.4%
Interest expense, net	3,903	0.1%	3,411	0.1%
Income before income taxes	<u>\$ 351,917</u>	<u>8.6%</u>	<u>\$ 363,427</u>	<u>9.3%</u>

During 2011, as compared to 2010, net revenues at our acute care hospitals increased 4% or \$170 million to \$4.07 billion due to an increase in same facility revenues, as discussed above.

Income before income taxes decreased \$11 million to \$352 million or 8.6% of net revenues during 2011 as compared to \$363 million or 9.3% of net revenues during 2010. The decrease in income before income taxes at our acute care facilities resulted from:

- a \$14 million increase at our acute care facilities on a same facility basis, as discussed above;
- a decrease of \$32 million resulting from the reductions recorded during 2011 (\$10 million) and 2010 (\$42 million) to our professional and general liability self-insurance reserves, as discussed above in *Self-Insured Risks*, and;
- an increase of \$7 million resulting from the write-off of certain costs during 2010 related to an acute care hospital construction project.

Year Ended December 31, 2010 as compared to the Year Ended December 31, 2009:

The following table summarizes the results of operations for our acute care facilities on a same facility basis and is used in the discussions below for the years ended December 31, 2010 and 2009 (dollar amounts in thousands):

	Year Ended December 31, 2010		Year Ended December 31, 2009	
	Amount	% of Revenues	Amount	% of Revenues
Acute Care Hospitals—Same Facility Basis				
Net revenues	\$3,901,815	100.0%	\$3,810,828	100.0%
Operating charges:				
Salaries, wages and benefits	1,489,335	38.2%	1,449,183	38.0%
Other operating expenses	697,703	17.9%	685,529	18.0%
Supplies expense	640,451	16.4%	618,321	16.2%
Provision for doubtful accounts	509,681	13.1%	476,408	12.5%
Depreciation and amortization	178,634	4.6%	165,967	4.4%
Lease and rental expense	54,867	1.4%	51,035	1.3%
	<u>3,570,671</u>	<u>91.5%</u>	<u>3,446,443</u>	<u>90.4%</u>
Income from operations	331,144	8.5%	364,385	9.6%
Interest expense, net	3,411	0.1%	3,719	0.1%
Income before income taxes	<u>\$ 327,733</u>	<u>8.4%</u>	<u>\$ 360,666</u>	<u>9.5%</u>

On a same facility basis during 2010, as compared to 2009, net revenues at our acute care hospitals increased \$91 million or 2%. Income before income taxes decreased \$33 million or 9% to \$328 million or 8.4% of net revenues during 2010 as compared to \$361 million or 9.5% of net revenues during 2009.

Inpatient admissions to these facilities decreased 0.3% during 2010, as compared to 2009, while patient days decreased 0.9%. Adjusted admissions (adjusted for outpatient activity) increased 1.3% and adjusted patient days increased 0.7% during 2010, as compared to 2009. The average length of inpatient stay at these facilities was 4.4 days during each of 2010 and 2009. The occupancy rate, based on the average available beds at these facilities, was 59% during 2010 and 62% during 2009.

On a same facility basis, net revenue per adjusted admission at these facilities increased 1.0% during 2010, as compared to 2009, and net revenue per adjusted patient day increased 1.7% during 2010, as compared to 2009.

The decrease in income before income taxes at our acute care hospitals during 2010, as compared to 2009, was due primarily to net revenue pressures experienced throughout our portfolio of acute care hospitals. The revenue pressures were caused primarily by declining commercial payor utilization and an increase in the number of uninsured and underinsured patients treated at our facilities. Our acute care facilities located in Texas were also unfavorably impacted by reductions in Medicaid revenues. Also contributing to the decline in income before income taxes at our acute care facilities were increases in salaries, wages and benefits expense and supplies expense which increased beyond the rate of increase of our acute care revenues.

Our acute care hospitals provided charity care and uninsured discounts, based on charges at established rates, amounting to \$807 million during 2010 and \$671 million during 2009.

The following table summarizes the results of operations for all our acute care operations during 2010 and 2009. Included in these results, in addition to the same facility results shown above, is: (i) the favorable effect of \$42 million recorded during 2010 and \$20 million recorded during 2009 resulting from reductions to our professional and general liability self insurance reserves, as discussed above in *Self-Insured Risks*; (ii) the unfavorable effect of \$7 million recorded during 2010 to write-off certain costs related to an acute care hospital construction project, and; (iii) the favorable effect of \$5 million recorded during 2009 resulting from a reduction to our workers' compensation self insurance reserves (dollar amounts in thousands):

<u>All Acute Care Hospitals</u>	<u>Year Ended December 31, 2010</u>		<u>Year Ended December 31, 2009</u>	
	<u>Amount</u>	<u>% of Revenues</u>	<u>Amount</u>	<u>% of Revenues</u>
Net revenues	\$3,901,815	100.0%	\$3,810,828	100.0%
Operating charges:				
Salaries, wages and benefits	1,489,335	38.2%	1,443,933	37.9%
Other operating expenses	662,009	17.0%	665,237	17.5%
Supplies expense	640,451	16.4%	618,321	16.2%
Provision for doubtful accounts	509,681	13.1%	476,408	12.5%
Depreciation and amortization	178,634	4.6%	165,967	4.4%
Lease and rental expense	54,867	1.4%	51,035	1.3%
	<u>3,534,977</u>	<u>90.6%</u>	<u>3,420,901</u>	<u>89.8%</u>
Income from operations	366,838	9.4%	389,927	10.2%
Interest expense, net	3,411	0.1%	3,719	0.1%
Income before income taxes	<u>\$ 363,427</u>	<u>9.3%</u>	<u>\$ 386,208</u>	<u>10.1%</u>

During 2010, as compared to 2009, net revenues at our acute care hospitals increased 2% or \$91 million to \$3.90 billion due to an increase in same facility revenues, as discussed above.

Income before income taxes decreased \$23 million to \$363 million or 9.3% of net revenues during 2010 as compared to \$386 million or 10.1% of net revenues during 2009. The decrease in income before income taxes at our acute care facilities resulted from:

- a \$33 million decrease at our acute care facilities on a same facility basis, as discussed above;
- an increase of \$22 million resulting from the reductions recorded during 2010 (\$42 million) and 2009 (\$20 million) to our professional and general liability self-insurance reserves, as discussed above in *Self-Insured Risks*;
- a decrease of \$7 million resulting from the write-off of certain costs during 2010 related to an acute care hospital construction project, and;
- a decrease of \$5 million resulting from a reduction to our workers' compensation reserves recorded during 2009 that related to years prior to 2009.

Behavioral Health Care Services

Year Ended December 31, 2011 as compared to the Year Ended December 31, 2010

The following table summarizes the results of operations for our behavioral health care facilities, on a same facility basis, and is used in the discussions below for the years ended December 31, 2011 and 2010. On November 15, 2010, we acquired PSI which was formerly the largest operator of freestanding inpatient behavioral health care facilities operating inpatient and outpatient facilities in 32 states, Puerto Rico, and the U.S. Virgin Islands. Since the former PSI facilities were acquired by us in mid-November, 2010, for accurate comparability purposes, we have included the patient statistics and financial results for these facilities in our same facility results provided below beginning on December 1st of 2011 and 2010 (dollar amounts in thousands):

	Year Ended December 31, 2011		Year Ended December 31, 2010	
	Amount	% of Revenues	Amount	% of Revenues
Behavioral Health Care Facilities—Same Facility Basis				
Net revenues	\$1,644,421	100.0%	\$1,544,945	100.0%
Operating charges:				
Salaries, wages and benefits	795,285	48.4%	758,451	49.1%
Other operating expenses	296,500	18.0%	278,063	18.0%
Supplies expense	87,850	5.3%	82,606	5.3%
Provision for doubtful accounts	39,873	2.4%	35,044	2.3%
Depreciation and amortization	40,854	2.5%	36,426	2.4%
Lease and rental expense	17,401	1.1%	17,495	1.1%
	<u>1,277,763</u>	<u>77.7%</u>	<u>1,208,085</u>	<u>78.2%</u>
Income from operations	366,658	22.3%	336,860	21.8%
Interest expense, net	180	0.0%	299	0.0%
Income before income taxes	<u>\$ 366,478</u>	<u>22.3%</u>	<u>\$ 336,561</u>	<u>21.8%</u>

On a same facility basis during 2011, as compared to 2010, net revenues at our behavioral health care facilities increased 6% or \$99 million to \$1.64 billion during 2011 as compared to \$1.54 billion during 2010. Income before income taxes increased \$30 million or 9% to \$366 million or 22.3% of net revenues during 2011 as compared to \$337 million or 21.8% of net revenues during 2010.

Inpatient admissions to these facilities increased 7.7% during 2011, as compared to 2010, while patient days increased 3.4%. Adjusted admissions increased 7.6% and adjusted patient days increased 3.3% during 2011, as compared to 2010. The average length of patient stay at these facilities was 14.2 days during 2011 and 14.8 days during 2010. The occupancy rate, based on the average available beds at these facilities, was 74% during each of 2011 and 2010.

On a same facility basis, net revenue per adjusted admission at these facilities decreased 0.8% during 2011, as compared to 2010, and net revenue per adjusted patient day increased 3.3% during 2011, as compared to 2010.

The following table summarizes the results of operations for all our behavioral health care facilities for 2011 and 2010 including newly acquired or recently opened facilities and the favorable effect resulting from reductions to our professional and general liability and workers' compensation self insurance reserves as discussed in *Self-Insured Risks*. The operating results for the PSI facilities are included in the following table for the eleven-month period ended November 30, 2011 and the period of November 15, 2010 (date of acquisition) through December 31, 2010 (dollar amounts in thousands):

	Year Ended December 31, 2011		Year Ended December 31, 2010	
	Amount	% of Revenues	Amount	% of Revenues
All Behavioral Health Care Facilities				
Net revenues	\$3,401,118	100.0%	\$1,635,455	100.0%
Operating charges:				
Salaries, wages and benefits	1,677,928	49.3%	806,837	49.3%
Other operating expenses	607,991	17.9%	291,825	17.8%
Supplies expense	179,077	5.3%	87,375	5.3%
Provision for doubtful accounts	78,145	2.3%	36,950	2.3%
Depreciation and amortization	89,295	2.6%	39,058	2.4%
Lease and rental expense	34,230	1.0%	19,810	1.2%
	<u>2,666,666</u>	<u>78.4%</u>	<u>1,281,855</u>	<u>78.4%</u>
Income from operations	734,452	21.6%	353,600	21.6%
Interest expense, net	1,778	0.1%	397	0.0%
Income before income taxes	<u>\$ 732,674</u>	<u>21.5%</u>	<u>\$ 353,203</u>	<u>21.6%</u>

During 2011, as compared to 2010, net revenues at our behavioral health care facilities increased 108% or \$1.77 billion to \$3.40 billion during 2011 as compared to \$1.64 billion during 2010. The increase in net revenues was attributable to:

- a \$97 million increase in same facility revenues, as discussed above, and;
- a \$1.67 billion increase resulting primarily from the revenues generated at the facilities acquired by us from PSI (represents the increase in revenues for the period of January through November, 2011 as compared to November 15, 2010 to November 30, 2010).

Income before income taxes increased \$379 million or 107% to \$733 million or 21.5% of net revenues during 2011, as compared to \$353 million or 21.6% of net revenues during 2010. The increase in income before income taxes at our behavioral health facilities was attributable to:

- a \$30 million increase at our behavioral health facilities on a same facility basis, as discussed above, and;
- a \$349 million of other combined net increases, consisting primarily of the income generated at the PSI facilities acquired by us in November, 2010 (represents the increase in income before income taxes generated at these facilities for the period of January through November, 2011 as compared to November 15, 2010 to November 30, 2010).

Year Ended December 31, 2010 as compared to the Year Ended December 31, 2009:

The following table summarizes the results of operations for our behavioral health care facilities, on a same facility basis, and is used in the discussions below for the years ended December 31, 2010 and 2009 (dollar amounts in thousands):

Behavioral Health Care Facilities—Same Facility Basis	Year Ended December 31, 2010		Year Ended December 31, 2009	
	Amount	% of Revenues	Amount	% of Revenues
Net revenues	\$1,393,095	100.0%	\$1,314,749	100.0%
Operating charges:				
Salaries, wages and benefits	675,490	48.5%	642,761	48.9%
Other operating expenses	251,507	18.1%	238,635	18.2%
Supplies expense	74,280	5.3%	73,549	5.6%
Provision for doubtful accounts	29,966	2.2%	31,939	2.4%
Depreciation and amortization	31,967	2.3%	31,598	2.4%
Lease and rental expense	15,385	1.1%	15,915	1.2%
	<u>1,078,595</u>	<u>77.4%</u>	<u>1,034,397</u>	<u>78.7%</u>
Income from operations	314,500	22.6%	280,352	21.3%
Interest expense, net	11	0.0%	209	0.0%
Income before income taxes	<u>\$ 314,489</u>	<u>22.6%</u>	<u>\$ 280,143</u>	<u>21.3%</u>

On a same facility basis during 2010, as compared to 2009, net revenues at our behavioral health care facilities increased 6% or \$78 million to \$1.39 billion during 2010 as compared to \$1.31 billion during 2009. Income before income taxes increased \$34 million or 12% to \$314 million or 22.6% of net revenues during 2010 as compared to \$280 million or 21.3% of net revenues during 2009.

Inpatient admissions to these facilities increased 4.3% during 2010, as compared to 2009, while patient days increased 1.8%. Adjusted admissions increased 4.2% and adjusted patient days increased 1.7% during 2010, as compared to 2009. The average length of patient stay at these facilities was 15.0 days during 2010 and 15.3 days during 2009. The occupancy rate, based on the average available beds at these facilities, was 75% during 2010 and 74% during 2009.

On a same facility basis, net revenue per adjusted admission at these facilities increased 1.4% during 2010, as compared to 2009, and net revenue per adjusted patient day increased 3.9% during 2010, as compared to 2009.

The following table summarizes the results of operations for all our behavioral health care facilities for 2010 and 2009, including newly acquired or recently opened facilities and the favorable effect resulting from reductions to our professional and general liability and workers' compensation self insurance reserves as discussed in *Self-Insured Risks* (dollar amounts in thousands):

	Year Ended December 31, 2010		Year Ended December 31, 2009

During 2010, as compared to 2009, net revenues at our behavioral health care facilities (including the facilities formerly owned by PSI which were acquired by us in November, 2010, and other newly acquired and recently opened facilities), increased 24% or \$320 million to \$1.64 billion during 2010 as compared to \$1.32 billion during 2009. The increase in net revenues was attributable to:

- a \$78 million increase in same facility revenues, as discussed above, and;
- a \$242 million increase resulting from the revenues generated at the PSI facilities acquired by us in November, 2010 and other acquired or opened facilities.

Income before income taxes increased \$72 million or 25% to \$353 million or 21.6% of net revenues during 2010, as compared to \$281 million or 21.4% of net revenues during 2009. The increase in income from continuing operations before income taxes at our behavioral health facilities was attributable to:

- a \$34 million increase at our behavioral health facilities on a same facility basis, as discussed above, and;
- a \$38 million increase resulting from the income, net of losses, generated at the former PSI facilities and other acquired or opened facilities.

Sources of Revenue

Overview: We receive payments for services rendered from private insurers, including managed care plans, the federal government under the Medicare program, state governments under their respective Medicaid programs and directly from patients.

Hospital revenues depend upon inpatient occupancy levels, the medical and ancillary services and therapy programs ordered by physicians and provided to patients, the volume of outpatient procedures and the charges or negotiated payment rates for such services. Charges and reimbursement rates for inpatient routine services vary depending on the type of services provided (e.g., medical/surgical, intensive care or behavioral health) and the geographic location of the hospital. Inpatient occupancy levels fluctuate for various reasons, many of which are beyond our control. The percentage of patient service revenue attributable to outpatient services has generally

increased in recent years, primarily as a result of advances in medical technology that allow more services to be provided on an outpatient basis, as well as increased pressure from Medicare, Medicaid and private insurers to reduce hospital stays and provide services, where possible, on a less expensive outpatient basis. We believe that our experience with respect to our increased outpatient levels mirrors the general trend occurring in the health care industry and we are unable to predict the rate of growth and resulting impact on our future revenues.

Patients are generally not responsible for any difference between customary hospital charges and amounts reimbursed for such services under Medicare, Medicaid, some private insurance plans, and managed care plans, but are responsible for services not covered by such plans, exclusions, deductibles or co-insurance features of their coverage. The amount of such exclusions, deductibles and co-insurance has generally been increasing each year. Indications from recent federal and state legislation are that this trend will continue. Collection of amounts due from individuals is typically more difficult than from governmental or business payors and we continue to experience an increase in uninsured and self-pay patients which unfavorably impacts the collectability of our patient accounts thereby increasing our provision for doubtful accounts and charity care provided.

Since a significant portion of our revenues are derived from facilities located in Nevada, Texas and California, we are particularly sensitive to regulatory, economic, environmental and competition changes in those states. Any material change in the current payment programs or regulatory, economic, environmental or competitive conditions in those states could have a disproportionate effect on our overall business results.

The following tables show the approximate percentages of net patient revenue during the past three years (excludes sources of revenues for all periods presented for divested facilities which are reflected as discontinued operations in our Consolidated Financial Statements) for: (i) our Acute Care and Behavioral Health Care Facilities Combined; (ii) our Acute Care Facilities, and; (iii) our Behavioral Health Care Facilities. Net patient revenue is defined as revenue from all sources after deducting contractual allowances and discounts from established billing rates, which we derived from various sources of payment for the years indicated.

Medicare: Medicare is a federal program that provides certain hospital and medical insurance benefits to persons aged 65 and over, some disabled persons and persons with end-stage renal disease. All of our acute care hospitals and many of our behavioral health centers are certified as providers of Medicare services by the appropriate governmental authorities. Amounts received under the Medicare program are generally significantly less than a hospital's customary charges for services provided. Since a substantial portion of our revenues will come from patients under the Medicare program, our ability to operate our business successfully in the future will depend in large measure on our ability to adapt to changes in this program.

Under the Medicare program, for inpatient services, our general acute care hospitals receive reimbursement under the inpatient prospective payment system ("IPPS"). Under the IPPS, hospitals are paid a predetermined fixed payment amount for each hospital discharge. The fixed payment amount is based upon each patient's Medicare severity diagnosis related group ("MS-DRG"). Every MS-DRG is assigned a payment rate based upon the estimated intensity of hospital resources necessary to treat the average patient with that particular diagnosis. The MS-DRG payment rates are based upon historical national average costs and do not consider the actual costs incurred by a hospital in providing care. This MS-DRG assignment also affects the predetermined capital rate paid with each MS-DRG. The MS-DRG and capital payment rates are adjusted annually by the predetermined geographic adjustment factor for the geographic region in which a particular hospital is located and are weighted based upon a statistically normal distribution of severity. While we generally will not receive payment from Medicare for inpatient services, other than the MS-DRG payment, a hospital may qualify for an "outlier" payment if a particular patient's treatment costs are extraordinarily high and exceed a specified threshold.

MS-DRG rates are adjusted by an update factor each federal fiscal year, which begins on October 1. The index used to adjust the MS-DRG rates, known as the "hospital market basket index," gives consideration to the inflation experienced by hospitals in purchasing goods and services. Generally, however, the percentage increases in the MS-DRG payments have been lower than the projected increase in the cost of goods and services purchased by hospitals.

In July, 2010, CMS published its final IPPS 2011 payment rule which provided for a 2.6% market basket increase to the base Medicare MS-DRG blended rate. When statutorily mandated budget neutrality factors and annual geographic wage index updates and the documenting and coding adjustments were considered, our overall decrease from the federal fiscal year 2011 rule was 1.1%. In addition, as outlined in the Sources of Revenues and Health Care Reform discussion below, CMS was also required by federal law to reduce the update factor by 0.25% in federal fiscal year 2011.

In August, 2011, CMS published its final IPPS 2012 payment rule which provided for a 3.0% market basket increase to the base Medicare MS-DRG blended rate. When statutorily mandated budget neutrality factors, annual geographic wage index updates, documenting and coding adjustments and Health Care Reform productivity adjustments are considered, we estimate our overall increase from the final federal fiscal year 2012 rule will approximate 0.6%. CMS also includes a 2.0% market basket reduction related to prior year documentation and coding adjustments as well as a 1.1% increase related to the correction of a prior year wage index budget neutrality adjustment. In addition, as outlined in the Sources of Revenues and Health Care Reform discussion below, CMS was also required by federal law to reduce the update factor by 0.10% in federal fiscal year 2012. The projected impact from this IPPS rule noted above reflects all of the adjustments described in this paragraph.

In September, 2007, the “TMA, Abstinence Education, and QI Programs Extension Act of 2007” legislation took effect and scaled back cuts in hospital reimbursement that CMS was set to impose. In federal fiscal years 2010 to 2012, the new law requires CMS to make adjustments to the Medicare standardized amounts in these years to reflect the removal of actual aggregate payment increases or decreases for documentation and coding adjustments that occurred during federal fiscal years 2008 and 2009 as compared to the initial CMS estimates. In federal fiscal year 2010, CMS made its initial statutory mandated adjustment under this legislation and will continue to do so in subsequent fiscal years to ensure the implementation of MS-DRGs was budget neutral among all affected hospitals. In July, 2010, the IPPS 2011 proposed payment rule applied a 2.9% reduction to the 2011 market basket update and indicated another 2.9% reduction would also be applied in 2012 for documenting and coding. In this same rule, CMS indicated a remaining documenting and coding adjustment of 3.9% reduction is still required to be made to future IPPS updates. In the 2012 IPPS final rule, CMS offset 2.0% of this remaining reduction and indicated that the remaining 1.9% may be offset in the IPPS 2013 payment rule.

On January 1, 2005, CMS implemented a new Psychiatric Prospective Payment System (“Psych PPS”) for inpatient services furnished by psychiatric hospitals under the Medicare program. This system replaced the cost-based reimbursement guidelines with a per diem Psych PPS with adjustments to account for certain facility and patient characteristics. The Psych PPS also contained provisions for outlier payments and an adjustment to a psychiatric hospital’s base payment if it maintains a full-service emergency department. According to the May, 2009 CMS notice, the market basket increase was 2.1% for the period of July 1, 2009 through June 30, 2010. According to the April, 2010 CMS notice, the market basket increase was 2.4% for the period of July 1, 2010 through June 30, 2011. In April, 2011 CMS published its final Psych PPS rule for the fifteen month period July 1, 2011 to September 30, 2012. The market basket increase for this time period is scheduled to be 2.95%, which includes a 0.25% reduction required by the federal Health Care Reform legislation enacted in 2010.

In October 2009, CMS published its annual final Medicare Outpatient Prospective Payment System (“OPPS”) rule for 2010. The final market basket increase to the OPPS base rate is 2.1%. When other statutorily required adjustments are considered the overall Medicare OPPS payment increase for 2010 is estimated to be 1.9%.

In November 2010, CMS published its annual final Medicare OPPS rule for 2011. The final market basket increase to the OPPS base rate is 2.46%. In addition, as outlined in the Sources of Revenues and Health Care Reform discussion below, CMS is also required by federal law to reduce the update factor by 0.25% in federal fiscal year 2011. When other statutorily required adjustments and hospital patient service mix are considered, the overall Medicare OPPS payment increase for 2011 is estimated to be 3.2%.

In November, 2011, CMS published its annual final Medicare OPPS rule for 2012. The market basket increase to the OPPS base rate is 3.0%. In addition, as outlined in the Sources of Revenues and Health Care Reform discussion below, CMS is also required by federal law to reduce the update factor by 0.1% in federal fiscal year 2012 and to reduce the annual update by a productivity adjustment which is 1.1%. In the final rule, CMS is also implementing a significant decrease in the 2012 Medicare rates for both hospital-based and community mental health center (CMHC) partial hospitalization programs. When other statutorily required adjustments, hospital patient service mix and the aforementioned partial hospitalization rates are considered, our overall Medicare OPPS payment decrease for 2012 is estimated to be 0.7%. Excluding the behavioral health division partial hospitalization rate impact, our Medicare OPPS payment increase for 2012 is estimated to be 2.1%.

In July 2010, the Department of Health and Human Services (“HHS”) published final regulations implementing the health information technology (“HIT”) provisions of the American Recovery and Reinvestment Act (referred to as the “HITECH Act”). The final regulation defines the “meaningful use” of Electronic Health Records (“EHR”) and establishes the requirements for the Medicare and Medicaid EHR payment incentive programs. The final rule established an initial set of standards and certification criteria.

The implementation period for these new Medicare and Medicaid incentive payments started in federal fiscal year 2011 and can end as late as 2016 for Medicare and 2021 for the state Medicaid programs. State Medicaid program participation in this federally funded incentive program is voluntary but we expect that all of

the states in which our eligible hospitals operate will ultimately choose to participate. Our acute care hospitals may qualify for these EHR incentive payments upon implementation of the EHR application assuming they meet the "meaningful use criteria". The government's ultimate goal is to promote more effective (quality) and efficient healthcare delivery through the use of technology to reduce the total cost of healthcare for all Americans and utilizing the cost savings to expand access to the healthcare system. Our acute care facilities have begun implementing an EHR application, on a facility-by-facility basis, beginning in 2011. The implementation is scheduled to be completed in 2013. However, there can be no assurance that we will ultimately qualify for these incentive payments and, should we qualify, the amount of incentive payments received is dependent upon various factors including the implementation timing at each facility. Should we qualify for incentive payments, there may be timing differences in the recognition of the revenues and expenses recorded in connection with the implementation of the EHR application which may cause material period-to-period changes in our future results of operations. Approximately \$11 million of these incentive payments, which relate to state Medicaid programs, were received during 2011 (in the fourth quarter). These payments have been reflected as deferred revenue on our consolidated balance sheet as of December 31, 2011 (included in other current liabilities) and will be recorded as revenue in our consolidated statements of income in the periods in which the applicable hospitals are deemed to have met the meaningful use criteria. Also, if our hospitals meet the meaningful use criteria, we may become entitled to additional Medicaid incentive payments in future periods. Hospitals that do not qualify as a meaningful user of EHR by 2015 are subject to a reduced market basket update to the IPPS standardized amount in 2015 and each subsequent fiscal year. Although we believe that our acute care hospitals will be in compliance with the EHR standards by 2015, there can be no assurance that all of our facilities will be in compliance and therefore not subject to the penalty provision of the HITECH Act.

In August, 2011, the Budget Control Act of 2011 (the "2011 Act") was enacted into law. Included in this law are the imposition of annual spending limits for most federal agencies and programs aimed at reducing budget deficits by \$917 billion between 2012 and 2021, according to a report released by the Congressional Budget Office. Among its other provisions, the law established a bipartisan Congressional committee, known as the Joint Committee, which was responsible for developing recommendations aimed at reducing future federal budget deficits by an additional \$1.5 trillion over 10 years. The Joint Committee was unable to reach an agreement by the November 23, 2011 deadline and, as a result, across-the-board cuts to discretionary, national defense and Medicare spending were implemented which, if triggered, would result in Medicare payment reductions of up to 2% per fiscal year with a uniform percentage reduction across all Medicare programs starting in 2013. We cannot predict whether Congress will attempt to suspend or restructure the automatic budget cuts or what other deficit reduction initiatives may be proposed by Congress.

Medicaid: Medicaid is a joint federal-state funded health care benefit program that is administered by the states to provide benefits to qualifying individuals who are unable to afford care. Most state Medicaid payments are made under a PPS-like system, or under programs that negotiate payment levels with individual hospitals. Amounts received under the Medicaid program are generally significantly less than a hospital's customary charges for services provided. In addition to revenues received pursuant to the Medicare program, we receive a large portion of our revenues either directly from Medicaid programs or from managed care companies managing Medicaid. All of our acute care hospitals and most of our behavioral health centers are certified as providers of Medicaid services by the appropriate governmental authorities.

We receive Medicaid revenues in excess of \$100 million annually from each of Texas, Pennsylvania, Virginia, Illinois and Washington, D.C., making us particularly sensitive to reductions in Medicaid and other state based revenue programs (which have been implemented in various forms with respect to our areas of operation in the respective 2012 state fiscal years) as well as regulatory, economic, environmental and competitive changes in those states. In the states in which we operate, based upon the state budgets for the 2012 fiscal year (which generally began at various times during the second half of 2011), we estimate that, on a blended basis, our aggregate Medicaid rates have been reduced by approximately 3% to 4% (or approximately \$45 million to \$55 million annually) from the average rates in effect during the states' 2011 fiscal years (which generally ended during the third quarter of 2011). Our consolidated results of operations for the year ended

December 31, 2011 include the pro rata portion of these Medicaid rate reductions. We can provide no assurance that further reductions to Medicaid revenues (which have been proposed in certain states for fiscal year 2013), particularly in the above-mentioned states, will not have a material adverse effect on our future results of operations.

Certain of our acute care hospitals located in various counties of Texas (Hidalgo, Maverick, Potter and Webb) participate in CMS-approved private Medicaid supplemental payment ("UPL") programs. These hospitals also have affiliation agreements with third-party hospitals to provide free hospital and physician care to qualifying indigent residents of these counties. Our hospitals receive both UPL payments from the Medicaid program and indigent care payments from third-party, affiliated hospitals. The UPL payments are contingent on the county or hospital district making an Inter-Governmental Transfer ("IGT") to the state Medicaid program while the indigent care payment is contingent on a transfer of funds from the applicable affiliated hospitals. We received \$33 million during 2011, \$38 million during 2010 and \$48 million during 2009, of aggregate, net UPL and affiliated hospital indigent care payments. For state fiscal year 2012, Texas Medicaid will operate under a CMS-approved Section 1115 five-year Medicaid waiver demonstration program. During the first five years of this program, the Texas Health and Human Services Commission ("THHSC") will transition away from UPL payments to new waiver incentive payment programs. During the first year of transition, which commenced on October 1, 2011, THHSC will make payments to Medicaid UPL recipient providers that received payments during the state's prior fiscal year. During transition years two through five, THHSC will make incentive payments under the program after certain qualifying criteria are met by hospitals. If during 2012 the applicable hospital district or county makes IGTs consistent with 2011 levels, we believe we would be entitled to aggregate net payments pursuant to these programs of approximately \$24 million (during calendar year 2012).

We incur health-care related taxes ("Provider Taxes") imposed by states in the form of a licensing fee, assessment or other mandatory payment which are related to: (i) healthcare items or services; (ii) the provision of, or the authority to provide, the health care items of services, or; (iii) the payment for the health care items or services. Such Provider Taxes are subject to various federal regulations that limit the scope and amount of the taxes that can be levied by states in order to secure federal matching dollars as part of their respective state Medicaid programs. We derive a related Medicaid reimbursement benefit from assessed Provider Taxes in the form of Medicaid claims based payment increases and/or lump sum Medicaid supplemental payments. We earned an aggregate net benefit of approximately \$22 million during 2011 from Medicaid supplemental payments, after assessed Provider Taxes were considered (exclusive of our hospitals located in Oklahoma). We estimate that our aggregate net benefit from Provider Tax programs will approximate \$19 million during 2012. The aggregate net benefit is earned from multiple states and therefore no particular state's portion is individually material to our consolidated financial statements. However, Provider Taxes are governed by both federal and state laws and are subject to future legislative changes that, if reduced from current rates in several states, could have a material adverse impact on our consolidated future results of operations.

In January, 2012, the state of Oklahoma was granted federal approval by CMS for the Supplemental Hospital Offset Payment Program ("SHOPP") which grants the Oklahoma Health Care Authority ("OHCA") the authority to assess a 2.5% fee on certain Oklahoma hospitals and to make Medicaid UPL payments to hospitals through December 31, 2014, retroactive to July 1, 2011. The state is expected to finalize the initial supplemental payment program amounts during the first quarter of 2012. If the SHOPP program is implemented pursuant to its current preliminary terms and conditions, we estimate that we may be entitled to net annual reimbursements which would have a favorable impact on our future results of operations.

In July, 2011 in accordance with the state 2012-2013 General Appropriations Act (the "Act"), the Texas Health and Human Services Commission ("THHSC") published a proposed rule that changes the reimbursement methodology for inpatient services by establishing a statewide base standard dollar amount ("SDA") rate along with certain hospital specific SDA rate adjustments for geographic location, trauma level designation and teaching hospital status. The new SDA payment methodology became effective September 1, 2011. Similarly, THHSC also incorporated changes in conformance with the Act which results in reductions to various categories

of Medicaid hospital outpatient services. The expected reduction to our annual Medicaid inpatient reimbursement resulting from the proposed inpatient SDA payment methodology has been factored into the fiscal year 2012 Medicaid reductions (3% to 4%), as mentioned above.

The THHSC has indicated an intention to expand state Medicaid managed care programs in future state fiscal years starting in the state's 2012 fiscal year. Although we are unable to determine the impact of the managed care expansion on future Medicaid reimbursement or its impact on Medicaid UPL payments, depending on the actual structure of the actual managed care expansion, this change could have a material adverse impact on our Medicaid UPL payments.

Managed Care: A significant portion of our net patient revenues are generated from managed care companies, which include health maintenance organizations, preferred provider organizations and managed Medicare (referred to as Medicare Part C or Medicare Advantage) and Medicaid programs. In general, we expect the percentage of our business from managed care programs to continue to grow. The consequent growth in managed care networks and the resulting impact of these networks on the operating results of our facilities vary among the markets in which we operate. Typically, we receive lower payments per patient from managed care payors than we do from traditional indemnity insurers, however, during the past few years we have secured price increases from many of our commercial payors including managed care companies.

Commercial Insurance: Our hospitals also provide services to individuals covered by private health care insurance. Private insurance carriers typically make direct payments to hospitals or, in some cases, reimburse their policy holders, based upon the particular hospital's established charges and the particular coverage provided in the insurance policy. Private insurance reimbursement varies among payors and states and is generally based on contracts negotiated between the hospital and the payor.

Commercial insurers are continuing efforts to limit the payments for hospital services by adopting discounted payment mechanisms, including predetermined payment or DRG-based payment systems, for more inpatient and outpatient services. To the extent that such efforts are successful and reduce the insurers' reimbursement to hospitals and the costs of providing services to their beneficiaries, such reduced levels of reimbursement may have a negative impact on the operating results of our hospitals.

Other Sources: Our hospitals provide services to individuals that do not have any form of health care coverage. Such patients are evaluated, at the time of service or shortly thereafter, for their ability to pay based upon federal and state poverty guidelines, qualifications for Medicaid or other state assistance programs, as well as our local hospitals' indigent and charity care policy. Patients without health care coverage who do not qualify for Medicaid or indigent care write-offs are offered substantial discounts in an effort to settle their outstanding account balances.

State Medicaid Disproportionate Share Hospital Payments: Hospitals that have an unusually large number of low-income patients (i.e., those with a Medicaid utilization rate of at least one standard deviation above the mean Medicaid utilization, or having a low income patient utilization rate exceeding 25%) are eligible to receive a disproportionate share hospital ("DSH") adjustment. Congress established a national limit on DSH adjustments. Although this legislation and the resulting state broad-based provider taxes have affected the payments we receive under the Medicaid program, to date the net impact has not been materially adverse.

Upon meeting certain conditions and serving a disproportionately high share of Texas' and South Carolina's low income patients, five of our facilities located in Texas and one facility located in South Carolina received additional reimbursement from each state's DSH fund. The Texas and South Carolina programs have been renewed for each state's 2012 fiscal years (covering the period of October 1, 2011 through September 30, 2012 for each state). In connection with these DSH programs, included in our financial results was an aggregate of \$45 million during 2011, \$54 million during 2010 and \$56 million during 2009. Assuming that the Texas and South Carolina programs are renewed for each state's 2013 fiscal years, at amounts similar to the 2012 fiscal year

amounts, we estimate our aggregate reimbursements pursuant to these programs to be approximately \$45 million during 2012. Failure to renew these DSH programs beyond their scheduled termination dates, failure of the public hospitals to provide the necessary IGTs for the states' share of the DSH programs, failure of our hospitals that currently receive DSH payments to qualify for future DSH funds under these programs, or reductions in reimbursements, could have a material adverse effect on our future results of operations.

Sources of Revenues and Health Care Reform: Given increasing budget deficits, the federal government and many states are currently considering additional ways to limit increases in levels of Medicare and Medicaid funding, which could also adversely affect future payments received by our hospitals. In addition, the uncertainty and fiscal pressures placed upon the federal government as a result of, among other things, the War on Terrorism, economic recovery stimulus packages, responses to natural disasters, the expansion of a Medicare drug benefit and the federal budget deficit in general may affect the availability of federal funds to provide additional relief in the future. We are unable to predict the effect of future policy changes on our operations.

In March, 2010, the Health Care and Education Reconciliation Act of 2010 (H.R. 4872, P.L. 111-152), (the "Reconciliation Act") and the Patient Protection and Affordable Care Act (P.L. 111-148), (the "Affordable Care Act"), were enacted into law and created significant changes to health insurance coverage for U.S. citizens as well as material revisions to the federal Medicare and state Medicaid programs. Medicare, Medicaid and other health care industry changes which are scheduled to be implemented at various times during this decade are noted below.

Immediate Medicare Reductions:

The Reconciliation Act reduced the market basket update for inpatient and outpatient hospitals and inpatient behavioral health facilities by 0.25% in each of 2010 and 2011 and by 0.10% in 2012. Further, the Affordable Care Act implements certain reforms to Medicare Advantage payments, effective in 2011.

Future Medicare Reductions:

Future changes to the Medicare program include:

- A Medicare shared savings program (effective 2012)
- A hospital readmissions reduction program (effective 2012)
- A national pilot program on payment bundling (effective 2013)
- A value-based purchasing program for hospitals (effective 2012)
- Reduction to Medicare disproportionate share hospital ("DSH") payments (effective 2014)

Medicaid Revisions:

- Expanded Medicaid eligibility and related special federal payments (effective 2014)
- Reduction to Medicaid DSH (effective 2014)

Health Insurance Revisions:

- Large employer insurance reforms (effective 2014)
- Individual insurance mandate and related federal subsidies (effective 2014)
- Federally mandated insurance coverage reforms (2010 and forward)

Although the above-mentioned Medicare market basket reductions implemented in 2010 did not have a material impact on our results of operations to date, we are unable to estimate the future impact of the other legislative changes as outlined above.

In addition to statutory and regulatory changes to the Medicare and each of the state Medicaid programs, our operations and reimbursement may be affected by administrative rulings, new or novel interpretations and determinations of existing laws and regulations, post-payment audits, requirements for utilization review and new governmental funding restrictions, all of which may materially increase or decrease program payments as well as affect the cost of providing services and the timing of payments to our facilities. The final determination of amounts we receive under the Medicare and Medicaid programs often takes many years, because of audits by the program representatives, providers' rights of appeal and the application of numerous technical reimbursement provisions. We believe that we have made adequate provisions for such potential adjustments. Nevertheless, until final adjustments are made, certain issues remain unresolved and previously determined allowances could become either inadequate or more than ultimately required.

Finally, we expect continued third-party efforts to aggressively manage reimbursement levels and cost controls. Reductions in reimbursement amounts received from third-party payors could have a material adverse effect on our financial position and our results of operations.

Other Operating Results

Combined revenues from our surgical hospitals, ambulatory surgery centers and radiation oncology centers were \$15 million during 2011, \$17 million during 2010 and \$24 million during 2009. In connection with construction management contracts pursuant to the terms of which we are building/have built newly constructed acute care hospitals for an unrelated third party, we earned revenues of \$42 million during 2009. The revenues and income before income taxes earned in connection with the construction management contracts did not have a material impact on our consolidated financial statements during 2011 or 2010. Combined income before income taxes earned in connection with the revenues mentioned above was \$2 million during 2011, \$5 million during 2010 and \$13 million during 2009.

Interest Expense

Below is a schedule of our interest expense during 2011, 2010 and 2009 (amounts in thousands):

	<u>2011</u>	<u>2010</u>	<u>2009</u>
Revolving credit & demand notes	\$ 6,675	\$ 3,813	\$ 4,101
\$200 million, 6.75% Senior Notes due 2011 (a.)	11,822	13,510	13,510
\$400 million, 7.125% Senior Notes due 2016	28,496	28,496	28,496
\$250 million, 7.00% Senior Notes due 2018	17,500	4,472	—
Term loan facility A	27,176	4,939	—
Term loan facility B	64,588	11,548	—
Accounts receivable securitization program	2,728	864	704
Subtotal-revolving credit, demand notes, Senior Notes, term loan facilities and accounts receivable securitization program	158,985	67,642	46,811
Interest rate swap expense/(income), net	8,255	5,956	5,263
Amortization of financing fees	28,255	3,729	1,135
Other combined interest expense	5,908	4,495	4,553
\$590 million, 7.75% Notes from PSI (b.)	—	3,810	5,688
Capitalized interest on major construction projects	(447)	(7,641)	(11,565)
Interest income	(164)	(391)	(387)
Interest expense, net	<u>\$200,792</u>	<u>\$77,600</u>	<u>\$ 45,810</u>

- (a.) The \$200 million, 6.75% Senior Notes matured on November 15, 2011 and were repaid utilizing funds borrowed under our revolving credit facility.
- (b.) Pursuant to the terms of these notes, which were assumed by us in connection with the acquisition of PSI, notice of redemption was provided by us as of the acquisition date and the indenture was satisfied and discharged and these notes were subsequently redeemed on December 15, 2010 utilizing borrowed funds which were held in escrow from November 15, 2010 to the date of redemption.

Interest expense increased \$123 million during 2011 to \$201 million as compared to \$78 million during 2010. This increase was due primarily to: (i) the increased average outstanding borrowings resulting from the borrowed funds utilized to finance our purchase of PSI in November, 2010 (as discussed below); (ii) the increased interest expense incurred during 2011 on the \$250 million, 7.00% senior notes issued in September, 2010, and; (iii) the increased expense resulting from the amortization of deferred financing costs incurred on the various debt facilities utilized to finance the purchase of PSI.

During 2011, the aggregate average outstanding borrowings under our credit agreement (consisting of the revolving credit, Term Loan A and Term Loan B facilities), demand notes and accounts receivable securitization program were \$2.9 billion as compared to \$610 million during 2010. The average effective interest rate on these facilities, including the amortization of deferred financing costs and original issue discounts and designated interest rate swap expense was 4.6% during 2011 and 5.0% during 2010. The average effective interest rate on these facilities, excluding the amortization of deferred financing costs and original issue discounts and designated interest rate swap expense was 3.4% during each of 2011 and 2010.

Interest expense increased \$32 million during 2010 to \$78 million as compared to \$46 million during 2009. This increase was due primarily to: (i) the increased borrowings utilized to finance our acquisition of PSI in November, 2010, and an increase in the average effective interest rate (as discussed below); (ii) the interest expense incurred during 2010 on the \$250 million, 7.00% senior notes issued in September, 2010, and; (iii) the interest expense incurred during 2010 on the \$590 million, 7.75% notes assumed in connection with the acquisition of PSI in November, 2010 (these notes were redeemed on December 15, 2010).

During 2010, the aggregate average outstanding borrowings under our credit agreement (consisting of the revolving credit, Term Loan A and Term Loan B facilities), demand notes and accounts receivable securitization program was \$610 million as compared to \$287 million during 2009. The average effective interest rate on these facilities, including the amortization of deferred financing costs and original issue discounts and designated interest rate swap expense was 5.0% during 2010 and 3.9% during 2009. The average effective interest rate on these facilities, excluding the amortization of deferred financing costs and original issue discounts and designated interest rate swap expense was 3.4% during 2010 and 1.7% during 2009.

Transaction costs incurred in connection with acquisition of PSI

During 2010, we incurred \$53 million of transaction costs in connection with our acquisition of PSI in November, 2010, consisting of the following:

	<u>Amount (000s)</u>
Severance and related expenses for PSI senior executives and other former employees	\$24,381
Legal and consulting fees	14,287
Investment banking fees	9,154
Other combined transaction costs	5,398
Total transaction costs	<u>\$53,220</u>

Provision for Income Taxes and Effective Tax Rates

The effective tax rates, as calculated by dividing the provision for income taxes by income before income taxes, were as follows for each of the years ended December 31, 2011, 2010 and 2009 (dollar amounts in thousands):

	<u>2011</u>	<u>2010</u>	<u>2009</u>
Provision for income taxes	\$247,466	\$152,302	\$170,475
Income before income taxes	696,336	428,097	474,722
Effective tax rate	<u>35.5%</u>	<u>35.6%</u>	<u>35.9%</u>

Outside owners hold various noncontrolling, minority ownership interests in seven of our acute care facilities and one behavioral health care facility. Each of these facilities are owned and operated by limited liability companies ("LLC") or limited partnerships ("LP"). As a result, since there is no income tax liability incurred at the LLC/LP level (since it passes through to the members/partners), the net income attributable to noncontrolling interests does not include any income tax provision/benefit. When computing the provision for income taxes, as reflected on our consolidated statements of income, the net income attributable to noncontrolling interests is deducted from income before income taxes since it represents the third-party members'/partners' share of the income generated by the joint-venture entities. In addition to providing the effective tax rates, as indicated above (as calculated from dividing the provision for income taxes by the income before income taxes as reflected on the consolidated statements of income), we believe it is helpful to our investors that we also provide our effective tax rate as calculated after giving effect to the portion of our pre-tax income that is attributable to the third-party members/partners.

The effective tax rates, as calculated by dividing the provision for income taxes by the difference in income before income taxes, minus net income attributable to noncontrolling interests, were as follows for each of the years ended December 31, 2011, 2010 and 2009 (dollar amounts in thousands):

	<u>2011</u>	<u>2010</u>	<u>2009</u>
Provision for income taxes	\$247,466	\$152,302	\$170,475
Income before income taxes	696,336	428,097	474,722
Less: Net income attributable to noncontrolling interests	<u>(50,703)</u>	<u>(45,612)</u>	<u>(43,874)</u>
Income before income taxes and after net income attributable to noncontrolling interests	<u>645,633</u>	<u>382,485</u>	<u>430,848</u>
Effective tax rate	<u>38.3%</u>	<u>39.8%</u>	<u>39.6%</u>

Impacting the effective tax rates during 2011 was approximately \$1 million favorable discrete tax item recorded to adjust the estimated liabilities for uncertain tax positions. Impacting the effective tax rates during 2010 were the following items: (i) \$5 million unfavorable discrete tax item recorded to adjust the non-deductible portion of certain transaction costs incurred during 2010 in connection with our acquisition of PSI; (ii) a \$4 million unfavorable discrete tax item recorded to adjust for the non-deductible, \$9 million charge incurred from split-dollar life insurance agreements entered into during 2010 on the lives of our chief executive officer and his wife, partially offset by; (iii) a \$4 million favorable discrete tax item recorded during 2010 to adjust the estimated non-deductible portion of the previously disclosed South Texas Health System settlement with the government based upon the final agreement. Impacting the effective tax rates during 2009 was a \$4 million unfavorable discrete tax item related to the estimated non-deductible portion of the South Texas Health System settlement.

Discontinued Operations

In connection with the receipt of antitrust clearance from the Federal Trade Commission ("FTC") in connection with our acquisition of PSI in November, 2010, we agreed to divest three former PSI facilities as well as one of our legacy behavioral health facilities in Puerto Rico. Pursuant to the terms of our agreement with the FTC, we divested:

- in July, 2011, the Meadowood Behavioral Health System, a 58-bed facility located in New Castle, Delaware;
- in December, 2011, the Montevista Hospital (101-bed) and Red Rock Hospital (21-bed), both of which are located in Las Vegas, Nevada, and;
- in January, 2012, the Hospital San Juan Capistrano, a 108-bed facility located in Rio Piedras, Puerto Rico.

The operating results for the three former PSI facilities located in Delaware and Nevada are reflected as discontinued operations during 2011 and 2010 (from the November 15th dates of acquisition). Since the aggregate

income from discontinued operations before income tax expense for these facilities is not material to our 2011 or 2010 consolidated financial statements, it is included as a reduction to other operating expenses. The aggregate pre-tax net gain on the divestitures of the above-mentioned facilities located in Delaware and Nevada did not have a material impact on our consolidated results of operations. The assets and liabilities for the Hospital San Juan Capestrano (sold in January, 2012) are reflected as "held for sale" on our Consolidated Balance Sheet as of December 31, 2011. The pre-tax gain on the divestiture of the Hospital San Juan Capestrano, which will not have a material impact on our 2012 consolidated results of operations, will be reflected in our consolidated results of operations during the first quarter of 2012. The assets and liabilities for each of the above-mentioned facilities are reflected as "held for sale" on our Consolidated Balance Sheet as of December 31, 2010.

The following table shows the results of operations for the former PSI facilities located in Delaware and Nevada, on a combined basis, which are reflected as discontinued operations (amounts in thousands):

	Year Ended December 31,		
	2011	2010	2009
Net revenues	\$33,884	\$4,155	\$—
Income from discontinued operations	7,904	859	—
Gain on divestiture	442	—	—
Income from discontinued operations, before income tax expense	8,346	859	—
Income tax expense	(3,160)	(318)	—
Income from discontinued operations, net of income tax expense	<u>\$ 5,186</u>	<u>\$ 541</u>	<u>\$—</u>

Effects of Inflation and Seasonality

Seasonality—Our acute care services business is typically seasonal, with higher patient volumes and net patient service revenue in the first and fourth quarters of the year. This seasonality occurs because, generally, more people become ill during the winter months, which results in significant increases in the number of patients treated in our hospitals during those months.

Inflation—Inflation has not had a material impact on our results of operations over the last three years. However, since the healthcare industry is very labor intensive and salaries and benefits are subject to inflationary pressures, as are supply and other costs, we cannot predict the impact that future economic conditions may have on our ability to contain future expense increases. Our ability to pass on increased costs associated with providing healthcare to Medicare and Medicaid patients is limited due to various federal, state and local laws which have been enacted that, in certain cases, limit our ability to increase prices. We believe, however, that through adherence to cost containment policies, labor management and reasonable price increases, the effects of inflation on future operating margins should be manageable.

Liquidity

Year ended December 31, 2011 as compared to December 31, 2010:

Net cash provided by operating activities

Net cash provided by operating activities was \$718 million during 2011 as compared to \$501 million during 2010. The net increase of \$217 million was primarily attributable to the following:

- a favorable change of \$247 million due to an increase in net income plus depreciation and amortization expense and stock-based compensation less gains on sales of assets;
- a \$158 million unfavorable change in accounts receivable, as discussed below;
- an \$86 million favorable change in accrued and deferred income taxes due primarily to reductions to the 2011 federal and state income tax payments resulting from income tax overpayments relating to 2010;

- a \$31 million favorable change in accrued insurance expense, net of commercial premiums paid, due primarily to the above-mentioned reductions to our professional and general liability self-insurance reserves recorded during 2011 and 2010 (\$11 million recorded during 2011 as compared to \$49 million recorded during 2010);
- a \$26 million favorable change in other assets and deferred charges;
- a \$12 million unfavorable change in accrued interest, and;
- \$3 million of other combined net unfavorable changes.

Days sales outstanding (“DSO”): Our DSO are calculated by dividing our net revenue by the number of days in the year. The result is divided into the accounts receivable balance the end of the year. Our DSO were 47 days at December 31, 2011, 43 days at December 31, 2010 and 42 days at December 31, 2009.

Our net accounts receivable balance as of December 31, 2011 increased approximately \$135 million over the balance as of December 31, 2010 (excluding the impact of acquisitions and divestitures). The increase was due primarily to: (i) increased revenues experienced by both our acute care and behavioral health care facilities during 2011 as a result of increases in adjusted patient days (adjusted for outpatient activity) and revenue per adjusted day, and; (ii) an increase in other receivables including state-based revenue program receivables in certain states, most particularly Illinois, which has \$54 million of receivables outstanding as of December 31, 2011 resulting from state budgetary and funding pressures. Although approximately \$41 million of the receivables due from Illinois have been outstanding in excess of 60 days (as of December 31, 2011), and a large portion will likely remain outstanding for the foreseeable future, we expect to eventually collect all amounts due to us and therefore no related reserves have been established in our consolidated financial statements. However, we can provide no assurance that we will eventually collect all amounts due to us from Illinois. Failure to ultimately collect all outstanding amounts due from Illinois would have an adverse impact on our future consolidated results of operations and cash flows. Excluding the \$41 million of receivables from Illinois that have been outstanding in excess of 60 days (as of December 31, 2011), our DSO were 45 days at December 31, 2011.

Net cash used in investing activities

Net cash used in investing activities was \$286 million during 2011 as compared to \$2.19 billion during 2010.

2011:

The \$286 million of net cash used in investing activities during 2011 consisted of \$286 million spent on capital expenditures, \$29 million spent on acquisitions, \$68 million received from the sale of assets and businesses and \$38 million spent in connection with the purchase and implementation of an electronic health records application (“EHR”). Please see *Item 7-Management’s Discussion and Analysis of Financial Condition and Results of Operations-Medicare* for additional disclosure related to the EHR application.

2011 Capital Expenditures:

During 2011, we spent \$286 million to finance capital expenditures, including the following:

- construction costs related to multiple projects at various existing acute care hospitals and behavioral health facilities including capacity expansion;
- construction costs related to the newly constructed Temecula Valley Hospital, a 140-bed acute care hospital located in Temecula, California which is scheduled to be completed and opened in mid-2013, and;
- capital expenditures for equipment at various existing facilities.

2011 Acquisitions of Assets and Businesses:

- we spent \$29 million during 2011, excluding the assumption of \$17 million of third-party debt, to:
(i) acquire the real property of administrative/office buildings located in Pennsylvania, Tennessee and Washington, D.C.; (ii) fund a deposit in connection with execution of a definitive agreement, which is subject to regulatory approvals and closing conditions, to acquire the Knapp Medical Center, including a 226-bed acute care hospital, a surgery center, physician practices and other related assets located in Weslaco, Texas, and; (iii) purchase a cardiology practice in Texas.

2011 Divestiture of Assets and Businesses:

During 2011, we received \$68 million from the divestiture of assets and businesses, including the following:

- the divestitures of three behavioral health facilities located in Delaware and Nevada (Meadowood Behavioral Health System, Montevista Hospital and Red Rock Hospital) which were divested pursuant to our above-mentioned agreement with the Federal Trade Commission in connection with our acquisition of PSI in November, 2010, and;
- the sale of the real property of a closed acute care hospital and our ownership interest in a radiation oncology center joint-venture.

2010:

The \$2.19 billion of net cash used in investing activities during 2010 consisted of \$1.96 billion spent on the acquisition of PSI in November, 2010, \$239 million spent on capital expenditures, \$21 million received from the sale of assets and businesses and \$18 million spent in connection with the purchase and implementation of an EHR application.

2010 Acquisitions of Assets and Businesses:

- we spent \$1.96 billion in November, 2010, excluding the assumption of \$1.08 billion of PSI's debt, to acquire 105 inpatient and outpatient behavioral health facilities located in 32 states, Puerto Rico and the U.S. Virgin Islands. In connection with this transaction, \$1.05 billion of PSI's outstanding borrowings were repaid utilizing funds borrowed under our \$3.45 billion credit agreement, as discussed herein.

2010 Capital Expenditures:

During 2010, we spent \$239 million to finance capital expenditures, including the following:

- construction costs related to the newly constructed Palmdale Regional Medical Center, a 121-bed acute care hospital located in Palmdale, California which was completed and opened in December, 2010;
- construction costs related to multiple projects in process to add capacity to our busiest behavioral health facilities, and;
- capital expenditures for equipment, renovations and new projects at various existing facilities.

2010 Divestiture of Assets and Businesses:

During 2010, we received \$21 million from the divestiture of assets and businesses, including the following:

- the divestiture of our minority ownership interest in a healthcare technology company and sale of a portion of our ownership interest in an outpatient surgery center, and;
- the sale of the real property of Methodist Hospital located in Louisiana that was severely damaged and closed in 2005 as a result of Hurricane Katrina.

Net cash used in/provided by financing activities

Net cash used in financing activities was \$421 million during 2011 as compared to \$1.71 billion of net cash provided by financing activities during 2010.

2011:

The \$421 million of net cash used in financing activities consisted of the following:

- spent \$382 million on debt repayments consisting primarily of \$200 million paid to extinguish 6.75% senior notes upon their maturity in November, 2011, \$141 million paid to repay a portion of outstanding borrowing under our Term Loan B facility, \$26 million paid to repay a portion of outstanding borrowings under our Term Loan A facility, and \$15 million paid to reduced outstanding borrowings of other combined debt;
- generated \$98 million of proceeds from additional net borrowings made pursuant to our revolving credit and demand notes and accounts receivable securitization program;
- spent \$60 million to repurchase 1.6 million shares of our Class B Common Stock;
- spent \$38 million to fund profit distributions to noncontrolling interests;
- spent \$24 million on financing costs in connection with an amendment to our credit agreement (which includes our revolving credit agreement, Term Loan A and Term Loan B facilities) which was completed in March, 2011;
- spent \$19 million to pay a \$.05 per share quarterly dividend, and;
- generated \$5 million from the issuance of shares of our Class B Common Stock pursuant to the terms of employee stock purchase plans.

2010:

The \$1.71 billion of net cash provided by financing activities consisted of the following:

- generated \$2.803 billion of proceeds from borrowings pursuant to our \$3.45 billion credit agreement (net of \$32 million of original issue discounts);
- generated \$204 million of proceeds from borrowings pursuant to our accounts receivable securitization program;
- generated \$250 million of proceeds from the issuance of \$250 million of 7.00% senior notes that mature in October, 2018;
- generated \$9 million of proceeds from other combined new borrowings;
- spent \$1.392 billion on debt repayments consisting primarily of \$1.05 billion paid to extinguish debt acquired in connection with our acquisition of PSI and \$339 million paid to repay outstanding borrowings under our previously existing revolving credit facility and accounts receivable securitization program;
- spent \$101 million on financing costs on the various new debt facilities mentioned above;
- spent \$12 million to repurchase 294,000 shares of our Class B Common Stock;
- spent \$19 million to pay a \$.05 per share quarterly dividend;
- spent \$32 million to fund profit distributions to noncontrolling interests, and;
- generated \$13 million from the issuance of shares of our Class B Common Stock pursuant to the terms of employee stock purchase plans.

Year ended December 31, 2010 as compared to December 31, 2009:

Net cash provided by operating activities

Net cash provided by operating activities was \$501 million during 2010 as compared to \$541 million during 2009. The net decrease of \$40 million, or 7%, was primarily attributable to the following:

- an unfavorable net change of \$7 million due to an decrease in net income, plus or minus the adjustments to reconcile net income to net cash provided by operating activities (depreciation and amortization, gains on sales of businesses and assets and stock-based compensation expense);
- a favorable change of \$24 million in accounts receivable;
- an unfavorable change of \$30 million in construction management and other receivable which includes \$10 million of cash proceeds received during the first quarter of 2009 from the estate liquidation of a commercial insurer (related receivable was recorded during fourth quarter of 2008);
- an unfavorable change of \$15 million in accrued and deferred income taxes;
- an unfavorable change of \$25 million in accrued insurance expense, net of commercial premium paid, resulting primarily from the reductions recorded during 2010 and 2009 to our professional and general liability self-insurance reserves (as discussed above in *Self-Insured Risks*);
- a favorable change of \$8 million in accrued interest, and;
- \$5 million of other combined net favorable changes.

Net cash used in investing activities

Net cash used in investing activities was \$2.19 billion during 2010 as compared to \$390 million during 2009. The factors contributing to the \$2.19 billion of net cash used in investing activities during 2010 are detailed above.

2009:

The \$390 million of net cash used in investing activities during 2009 consisted of \$380 million spent on capital expenditures, \$10 million received from the sale of assets and businesses, \$12 million spent on the acquisition of assets and businesses and \$8 million spent in connection with the purchase and implementation of an EHR application.

2009 Capital Expenditures:

During 2009, we spent \$380 million to finance capital expenditures, including the following:

- construction costs related to the newly constructed Palmdale Regional Medical Center which was completed and opened in December, 2010;
- construction costs related to a major expansion of the emergency, imaging and women's services at our Southwest Healthcare System hospitals located in Riverside County, California;
- construction costs related to a newly constructed Texoma Medical Center, a 220-bed replacement acute care hospital in Denison, Texas that was completed and opened in late December, 2009;
- construction costs related to a new patient tower at Summerlin Hospital Medical Center located in Las Vegas, Nevada that was completed and opened in December, 2009;
- construction costs related to multiple projects in process to add capacity to our busiest behavioral health facilities, and;
- capital expenditures for equipment, renovations and new projects at various existing facilities.

2009 Divestiture of Assets and Businesses:

During 2009, we received \$10 million from the divestiture of assets and businesses, including the following:

- the sale of the real property assets of a medical office building on the campus of a previously divested acute care facility located in Pennsylvania, and;
- the sale of our ownership interest in an outpatient surgery center.

2009 Acquisitions of Assets and Businesses:

During 2009, we spent \$12 million on the acquisition of businesses and real property, including the following:

- the acquisition of a 72-bed behavioral health care facility located in Louisville, Colorado, and;
- the acquisition of the real property assets of a medical office building located on the campus of one of our acute care hospitals located in Texas.

Net cash provided by/used in financing activities

Net cash provided by financing activities was \$1.71 billion during 2010 as compared to \$147 million of net cash used in financing activities during 2009. The factors contributing to the \$1.71 billion of net cash provided by financing activities during 2010 is detailed above.

2009:

The \$147 million of net cash used in financing activities consisted of the following:

- generated \$26 million of proceeds primarily from additional borrowings pursuant to our previously existing revolving credit agreement;
- spent \$66 million for debt repayments consisting primarily of repayments pursuant to our previously existing accounts receivable securitization program;
- spent \$63 million to repurchase 2.56 million shares of our Class B Common Stock;
- spent \$17 million to pay a quarterly dividend (of \$.04 per share during each of the first three quarter of 2009 and \$.05 during the fourth quarter of 2009);
- spent \$30 million to fund profit distributions to noncontrolling interests, and;
- generated \$3 million from the issuance of shares of our Class B Common Stock pursuant to the terms of employee stock purchase plans.

2012 Expected Capital Expenditures:

During 2012, we expect to spend approximately \$350 million to \$375 million on capital expenditures which includes expenditures for capital equipment, renovations, new projects at existing hospitals and construction of new facilities. Approximately \$165 million of our 2012 expected capital expenditures relates to completion of projects that are in progress as of December 31, 2011. We believe that our capital expenditure program is adequate to expand, improve and equip our existing hospitals. We expect to finance all capital expenditures and acquisitions with internally generated funds and/or additional funds, as discussed below.

Capital Resources

Credit Facilities and Outstanding Debt Securities

On November 15, 2010, we entered into a credit agreement (the "Credit Agreement") with various financial institutions. The Credit Agreement is a senior secured facility which provided an initial aggregate commitment amount of \$3.45 billion, comprised of a new \$800 million revolving credit facility, a \$1.05 billion Term Loan A facility and a \$1.6 billion Term Loan B facility. Prior to the effectiveness of the Credit Agreement Amendment in March, 2011 (as discussed below), we prepaid the principal amount and permanently reduced the Term Loan B commitment by \$125 million. During 2011, we made scheduled principal payments of \$16 million on the Term Loan B and \$26 million on the Term Loan A. The revolving credit facility and the Term Loan A mature on November 15, 2015 and the Term Loan B matures on November 15, 2016. The revolving credit facility includes a \$125 million sub-limit for letters of credit. The Credit Agreement is secured by substantially all of the assets of the Company and our material subsidiaries and guaranteed by our material subsidiaries.

On March 15, 2011, we entered into a first amendment to the Credit Agreement (the "Amendment") which became effective immediately and provides, among other things, for a reduction in the interest rates payable in connection with borrowings under the Credit Agreement. Upon the effectiveness of the Amendment, borrowings under the Credit Agreement bear interest at the ABR rate which is defined as the rate per annum equal to, at our election (1) the greatest of (a) the lender's prime rate, (b) the weighted average of the federal funds rate, plus 0.5% and (c) one month Eurodollar rate plus 1%, in each case, plus an applicable margin based upon our consolidated leverage ratio at the end of each quarter ranging from 0.50% to 1.25% for revolving credit and Term Loan A borrowings and 1.75% to 2.00% for Term Loan B borrowings or (2) the one, two, three or six month Eurodollar rate (at our election), plus an applicable margin based upon our consolidated leverage ratio at the end of each quarter ranging from 1.50% to 2.25% for revolving credit and Term Loan A borrowings and ranging from 2.75% to 3.00% for Term Loan B borrowings. The current applicable margins are 0.75% for ABR-based loans, 1.75% for Eurodollar-based loans under the revolving credit and Term Loan A facilities and 2.75% under the Term Loan B facility. Upon the effectiveness of the Amendment, the minimum Eurodollar rate for the Term Loan B facility was reduced from 1.50% to 1.00%. In connection with the Amendment, we paid a fee of 1.00% of the amounts outstanding under the Term Loan B in accordance with the terms of the Credit Agreement.

In October, 2010, we amended our accounts receivable securitization program ("Securitization") with a group of conduit lenders and liquidity banks. We increased the size of the Securitization to \$240 million (the "Commitments"), from \$200 million, and extended the maturity date to October 25, 2013. Substantially all of the patient-related accounts receivable of our acute care hospitals ("Receivables") serve as collateral for the outstanding borrowings. The interest rate on the borrowings is based on the commercial paper rate plus a spread of 0.475% and there is a facility fee of 0.375% required on 102% on the Commitments. We have accounted for this Securitization as borrowings. We maintain effective control over the Receivables since, pursuant to the terms of the Securitization, the Receivables are sold from certain of our subsidiaries to special purpose entities that are wholly-owned by us. The Receivables, however, are owned by the special purpose entities, can be used only to satisfy the debts of the wholly-owned special purpose entities, and thus are not available to us except through our ownership interest in the special purpose entities. The wholly-owned special purpose entities use the Receivables to collateralize the loans obtained from the group of third-party conduit lenders and liquidity banks. The group of third-party conduit lenders and liquidity banks do not have recourse to us beyond the assets of the wholly-owned special purpose entities that securitize the loans. At December 31, 2011, we had \$240 million of outstanding borrowings and no additional capacity pursuant to the terms of our accounts receivable securitization program.

As of December 31, 2011, we had \$9 million outstanding borrowings under a short-term, on-demand credit facility. Outstanding borrowings, if any, pursuant to this facility are classified as long-term debt on our Consolidated Balance Sheet since they can be refinanced through available borrowings under the terms of our Credit Agreement.

As of December 31, 2011, we had an aggregate of \$482 million of available borrowing capacity pursuant to the terms of our Credit Agreement and Securitization, net of \$69 million of outstanding letters of credit and \$9 million of outstanding borrowings under a short-term, on-demand credit facility.

On September 29, 2010, we issued \$250 million of 7.00% senior unsecured notes (the "Unsecured Notes") which are scheduled to mature on October 1, 2018. The Unsecured Notes were registered in April, 2011. Interest on the Unsecured Note is payable semiannually in arrears on April 1st and October 1st of each year. The Unsecured Notes can be redeemed in whole at anytime subject to a make-whole call at treasury rate plus 50 basis points prior to October 1, 2014. They are also redeemable in whole or in part at a price of: (i) 103.5% on or after October 1, 2014; (ii) 101.75% on or after October 1, 2015, and; (iii) 100% on or after October 1, 2016. These Unsecured Notes are guaranteed by a group of subsidiaries (each of which is a 100% directly owned subsidiary of Universal Health Services, Inc.) which fully and unconditionally guarantee the Unsecured Notes on a joint and several basis, subject to certain customary automatic release provisions.

On June 30, 2006, we issued \$250 million of senior notes which have a 7.125% coupon rate and mature on June 30, 2016 (the "7.125% Notes"). Interest on the 7.125% Notes is payable semiannually in arrears on June 30th and December 30th of each year. In June, 2008, we issued an additional \$150 million of 7.125% Notes which formed a single series with the original 7.125% Notes issued in June, 2006. Other than their date of issuance and initial price to the public, the terms of the 7.125% Notes issued in June, 2008 are identical to and trade interchangeably with, the 7.125% Notes which were originally issued in June, 2006.

During 2001, we issued \$200 million of senior notes which have a 6.75% coupon rate and which matured and were paid in full on November 15, 2011 (the "6.75% Notes"). The interest on the 6.75% Notes was paid semiannually in arrears on May 15th and November 15th of each year.

In connection with the entering into of the Credit Agreement on November 15, 2010, and in accordance with the Indenture dated January 20, 2000 governing the rights of our existing notes, we entered into a supplemental indenture pursuant to which our 7.125% Notes (due in 2015) and our 6.75% Notes (which matured in November, 2011) were equally and ratably secured with the lenders under the Credit Agreement with respect to the collateral for so long as the lenders under the Credit Agreement are so secured.

The average amounts outstanding during 2011, 2010, and 2009 are under the current and prior Credit Agreements, demand notes and accounts receivable securitization programs were \$2.9 billion, \$610 million and \$287 million, respectively, with corresponding interest rates of 3.4%, 3.4%, and 1.7% including commitment and facility fees. The maximum amounts outstanding at any month-end were \$3.03 billion in 2011, \$3.11 billion in 2010, and \$356 million in 2009. The effective interest rate on our current and prior Credit Agreements, accounts receivable securitization programs, and demand notes, which includes the respective interest expense, commitment and facility fees, designated interest rate swaps expense and amortization of deferred financing costs and original issue discounts, was 4.6% in 2011, 5.0% in 2010 and 3.9% in 2009.

Our Credit Agreement includes a material adverse change clause that must be represented at each draw. The Credit Agreement contains covenants that include a limitation on sales of assets, mergers, change of ownership, liens and indebtedness, transactions with affiliates and dividends; and requires compliance with financial covenants including maximum leverage and minimum interest coverage ratios. We are in compliance with all required covenants as of December 31, 2011.

The carrying values of our debt at December 31, 2011 and 2010 were approximately \$3.65 billion and \$3.92 billion, respectively. The fair values of our debt at December 31, 2011 and 2010 were \$3.70 billion and \$3.96, respectively. The fair values of our debt were computed based upon quotes received from financial institutions.

Our total debt as a percentage of total capitalization was 61% at December 31, 2011 and 66% at December 31, 2010.

We expect to finance all capital expenditures and acquisitions, pay dividends and potentially repurchase shares of our common stock utilizing internally generated and additional funds. Additional funds may be obtained through: (i) the issuance of equity; (ii) borrowings under our existing revolving credit facility or through refinancing the

existing revolving credit agreement, and/or; (iii) the issuance of other long-term debt. We believe that our operating cash flows, cash and cash equivalents, available borrowing capacity under our \$800 million revolving credit facility and access to the capital markets provide us with sufficient capital resources to fund our operating, investing and financing requirements for the next twelve months. However, in the event we need to access the capital markets or other sources of financing, there can be no assurance that we will be able to obtain financing on acceptable terms or within an acceptable time. Our inability to obtain financing on terms acceptable to us could have a material unfavorable impact on our results of operations, financial condition and liquidity.

Contractual Obligations and Off-Balance Sheet Arrangements

As of December 31, 2011 we were party to certain off balance sheet arrangements consisting of standby letters of credit and surety bonds. Our outstanding letters of credit and surety bonds as of December 31, 2011 totaled \$79 million consisting of: (i) \$62 million related to our self-insurance programs, and; (ii) \$17 million of other debt and public utility guarantees.

Obligations under operating leases for real property, real property master leases and equipment amount to \$206 million as of December 31, 2011. The real property master leases are leases for buildings on or near hospital property for which we guarantee a certain level of rental income. We sublease space in these buildings and any amounts received from these subleases are offset against the expense. In addition, we lease four hospital facilities from the Trust with terms expiring in 2014 and 2016. These leases contain up to three 5-year renewal options. We also lease the real property of certain facilities acquired by us in connection with the acquisition of PSI in November, 2010.

The following represents the scheduled maturities of our contractual obligations as of December 31, 2011:

<u>Contractual Obligation</u>	<u>Payments Due by Period (dollars in thousands)</u>				
	<u>Total</u>	<u>Less than 1 year</u>	<u>2-3 years</u>	<u>4-5 years</u>	<u>After 5 years</u>
Long-term debt obligations (a)	\$3,653,907	\$ 2,479	\$246,608	\$3,130,778	\$274,042
Estimated future interest payments on debt outstanding as of December 31, 2011 (b)	744,755	165,745	300,907	215,488	62,615
Purchase and other obligations (c)	129,935	62,734	55,851	11,350	—
Operating leases (d)	206,428	58,388	75,494	48,493	24,053
Estimated future payments for defined benefit pension plan, and other retirement plan (e)	226,534	8,056	11,822	13,941	192,715
Total contractual cash obligations	\$4,961,559	\$297,402	\$690,682	\$3,420,050	\$553,425

- (a) Reflects borrowings outstanding as of December 31, 2011 as discussed in Note 4 to the Consolidated Financial Statements.
- (b) Assumes that all debt outstanding as of December 31, 2011, including borrowings under our revolving credit agreement, Term Loan A, Term Loan B, demand note and accounts receivable securitization program, remain outstanding until the final maturity of the debt agreements at the same interest rates (some of which are floating) which were in effect as of December 31, 2011. We have the right to repay borrowings upon short notice and without penalty, pursuant to the terms of the revolving credit agreement, demand note, Term Loan A facility and accounts receivable securitization program. Also includes the impact of various interest rate swap and cap agreements in effect as of December 31, 2011, as calculated to maturity dates utilizing the applicable floating interest rates in effect as of December 31, 2011.
- (c) Consists of: (i) \$58 million related to long-term contracts with third-parties consisting primarily of certain revenue cycle data processing services for our acute care facilities; (ii) \$66 million related to the expected costs to be paid to a third-party vendor in connection with the purchase and implementation of an electronic health records application (“EHR”) for each of our acute care facilities (excludes expected internal costs to be incurred, please see *Item 7-Management’s Discussion and Analysis of Financial Condition and Results of Operations-Medicare* for additional disclosure), and; (iii) a \$6 million liability for physician commitments expected to be paid in the future.

- (d) Reflects our future minimum operating lease payment obligations related to our operating lease agreements outstanding as of December 31, 2011 as discussed in Note 7 to the Consolidated Financial Statements. Some of the lease agreements provide us with the option to renew the lease and our future lease obligations would change if we exercised these renewal options.
- (e) Consists of \$212 million of estimated future payments related to our non-contributory, defined benefit pension plan (estimated through 2088), as disclosed in *Note 8 to the Consolidated Financial Statements*, and \$15 million of estimated future payments related to another retirement plan liability. Included in our other non-current liabilities as of December 31, 2011 was a \$21 million liability recorded in connection with the non-contributory, defined benefit pension plan and an \$11 million liability recorded in connection with the other retirement plan.

As of December 31, 2011, the total accrual for our professional and general liability claims was \$292 million, of which \$60 million is included in other current liabilities and \$232 million is included in other non-current liabilities. We exclude the \$292 million for professional and general liability claims from the contractual obligations table because there are no significant contractual obligations associated with these liabilities and because of the uncertainty of the dollar amounts to be ultimately paid as well as the timing of such payments. Please see *Self-Insured Risks* above for additional disclosure related to our professional and general liability claims and reserves.

In connection with five acute care facilities located in Las Vegas, Nevada, the minority ownership interests of which are reflected as redeemable noncontrolling interests on our Consolidated Balance Sheet, the outside owners have certain "put rights", that are currently exercisable, that if exercised, require us to purchase the minority member's interests at fair market value. The put rights are exercisable upon the occurrence of: (i) certain specified financial conditions falling below established thresholds; (ii) breach of the management contract by the managing member (a subsidiary of ours), or; (iii) if the minority member's ownership percentage is reduced to less than certain thresholds. In connection with a behavioral health care facility located in Philadelphia, Pennsylvania and acquired by us as part of the PSI acquisition, the minority ownership interest of which is also reflected as redeemable noncontrolling interests on our Consolidated Balance Sheet, the outside owner has a "put option" to put its entire ownership interest to us at any time. If exercised, the put option requires us to purchase the minority member's interest at fair market value. As of December 31, 2011, we believe the fair market value of the minority ownership interests in these facilities approximates the \$218 million aggregate book value of the redeemable noncontrolling interests. We exclude the approximate amount that we may be required to pay to repurchase these minority ownership interests from the contractual obligations table because of the uncertainty as to: (i) whether or not the put rights will actually be exercised; (ii) the dollar amounts that would be paid if the put rights were exercised, and; (iii) the timing of such payments.

Additionally, the table above does not include \$7 million of the total unrecognized tax benefits for uncertain tax positions as of December 31, 2011. Due to the high degree of uncertainty regarding the timing of potential cash flows, we cannot reasonably estimate the settlement periods for which the amounts may be utilized.

ITEM 7A. *Quantitative and Qualitative Disclosures About Market Risk*

We manage our ratio of fixed and floating rate debt with the objective of achieving a mix that management believes is appropriate. To manage this risk in a cost-effective manner, we, from time to time, enter into interest rate swap agreements in which we agree to exchange various combinations of fixed and/or variable interest rates based on agreed upon notional amounts. We account for our derivative and hedging activities using the Financial Accounting Standard Board's ("FASB") guidance which requires all derivative instruments, including certain derivative instruments embedded in other contracts, to be carried at fair value on the balance sheet. For derivative transactions designated as hedges, we formally document all relationships between the hedging instrument and the related hedged item, as well as its risk-management objective and strategy for undertaking each hedge transaction.

Derivative instruments designated in a hedge relationship to mitigate exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges. Cash flow hedges

are accounted for by recording the fair value of the derivative instrument on the balance sheet as either an asset or liability, with a corresponding amount recorded in accumulated other comprehensive income ("AOCI") within shareholders' equity. Amounts are reclassified from AOCI to the income statement in the period or periods the hedged transaction affects earnings. We use interest rate derivatives in our cash flow hedge transactions. Such derivatives are designed to be highly effective in offsetting changes in the cash flows related to the hedged liability. For derivative instruments designated as cash flow hedges, the ineffective portion of the change in expected cash flows of the hedged item are recognized currently in the income statement.

For hedge transactions that do not qualify for the short-cut method, at the hedge's inception and on a regular basis thereafter, a formal assessment is performed to determine whether changes in the fair values or cash flows of the derivative instruments have been highly effective in offsetting changes in cash flows of the hedged items and whether they are expected to be highly effective in the future.

The fair value of interest rate swap agreements approximates the amount at which they could be settled, based on estimates obtained from the counterparties. We assess the effectiveness of our hedge instruments on a quarterly basis. We performed periodic assessments of the cash flow hedge instruments during 2011 and 2010 and determined the hedges to be highly effective. We also determined that no portion of the hedges is ineffective and therefore there was no material effect on our consolidated financial position, operations or cash flows. The counterparties to the interest rate swap agreements expose us to credit risk in the event of nonperformance. However, at December 31, 2011, each swap agreement entered into by us was in a net liability position which would require us to make the net settlement payments to the counterparties. We do not anticipate nonperformance by those counterparties. We do not hold or issue derivative financial instruments for trading purposes.

During the first quarter of 2011, we entered into an interest rate cap on a total notional amount of \$275 million whereby we paid a premium of \$30,000 in exchange for the counterparty agreeing to pay the difference between 2.25% and three-month LIBOR if the three-month LIBOR rate rises above 2.25% during the term of the cap, which expired in December, 2011. The three-month LIBOR never reached 2.25% during the term of the cap. Therefore, no payment was made to us. We also entered into a forward starting interest rate cap on a total notional amount of \$450 million from December, 2011 to December, 2012 reducing to \$400 million from December, 2012 to December, 2013 whereby we paid a premium of \$740,000 in exchange for the counterparty agreeing to pay the difference between 7.00% and three-month LIBOR if the three-month LIBOR rate rises above 7.00% during the term of the cap. If the three-month LIBOR does not reach 7.00% during the term of the cap, no payment is made to us.

We also entered into six additional forward starting interest rate swaps in the first quarter of 2011 whereby we pay a fixed rate on a total notional amount of \$425 million and receive three-month LIBOR. Three of these swaps with a total notional amount of \$225 million became effective in March, 2011 and will mature in May, 2015. The average fixed rate payable on these swaps is 1.91%. The three remaining interest rate swaps with total notional amounts of \$100 million, \$25 million and \$75 million became effective in December, 2011 and have fixed rates of 2.50%, 1.96% and 1.32%, and maturity dates in December, 2014, December, 2013 and December, 2012, respectively.

During the fourth quarter of 2010, we entered into three interest rate caps on a total notional amount of \$1 billion whereby we paid a premium of \$240,000 in exchange for the counterparties agreeing to pay the difference between 2.25% and three-month LIBOR if the three-month LIBOR rate rises above 2.25% during the term of the caps. All of these caps expired in December, 2011. The three-month LIBOR rate never rose above 2.25% during the term of the caps. Therefore, no payments were made to us. We also entered into four forward starting interest rate swaps in the fourth quarter of 2010 whereby we pay a fixed rate on a total notional amount of \$600 million and receive three-month LIBOR. Each of the four swaps became effective in December, 2011 and will mature in May, 2015. The average fixed rate payable on these swaps is 2.38%.

During the fourth quarter of 2007, we entered into two interest rate swaps whereby we pay a fixed rate on a total notional principal amount of \$150 million and receive three-month LIBOR. Each of the two interest rate swaps had an initial notional principal amount of \$75 million. The notional amount of the first interest rate swap reduced to \$50 million in October, 2010. The fixed rate payable is 4.76% and it matures in October, 2012. The fixed rate payable on the second interest rate swap was 4.87% and it matured in October, 2011.

We measure our interest rate swaps at fair value on a recurring basis. The fair value of our interest rate swaps is based primarily on quotes from banks. We consider those inputs to be "level 3" in the fair value hierarchy as outlined in the authoritative guidance for disclosures in connection with derivative instruments and hedging activities. The fair value of our interest rate swaps was a liability of \$48 million at December 31, 2011, of which \$4 million is included in other current liabilities and \$44 million is included in other noncurrent liabilities on the accompanying balance sheet. The fair value of our interest rate swaps was a liability of \$10 million at December 31, 2010, of which \$2 million is included in other current liabilities and \$8 million is included in other noncurrent liabilities.

The table below presents information about our long-term financial instruments that are sensitive to changes in interest rates as of December 31, 2011. For debt obligations, the table presents principal cash flows and related weighted-average interest rates by contractual maturity dates.

Maturity Date, Fiscal Year Ending December 31
(Dollars in thousands)

	<u>2012</u>	<u>2013</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>	<u>Thereafter</u>	<u>Total</u>
Long-term debt:							
Fixed rate:							
Debt	\$ 2,056	\$ 2,110	\$ 1,487	\$ 17,538	\$ 401,193	\$274,042	\$ 698,426
Average interest rates	7.0%	7.0%	7.0%	7.0%	7.1%	6.9%	7.0%
Variable rate:							
Debt	\$ 423	\$240,528	\$ 2,483	\$1,272,547	\$1,439,500	\$ —	\$2,955,481
Average interest rates	2.9%	2.9%	3.1%	3.1%	3.8%	—	3.4%
Interest rate swaps:							
Notional amount	\$150,000	\$ 25,000	\$100,000	\$ 825,000			\$1,100,000
Average interest rates	3.0%	2.0%	2.5%	2.3%			2.4%
Interest rate caps:							
Notional amount	\$450,000						\$ 450,000
Average interest rates	7.00%						7.00%

As calculated based upon our variable rate debt outstanding as of December 31, 2011 that is subject to interest rate fluctuations, each 1% change in interest rates would impact our pre-tax income by approximately \$30 million.

ITEM 8. Financial Statements and Supplementary Data

Our Consolidated Balance Sheets, Consolidated Statements of Income, Consolidated Statements of Changes in Equity and Consolidated Statements of Cash Flows, together with the reports of PricewaterhouseCoopers LLP, independent registered public accounting firm, are included elsewhere herein. Reference is made to the "Index to Financial Statements and Financial Statement Schedule."

ITEM 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

ITEM 9A. Controls and Procedures.

As of December 31, 2011, under the supervision and with the participation of our management, including our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), we performed an evaluation of the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15(e) or Rule 15d-15(e) of the Securities Exchange Act of 1934, as amended. Based on this evaluation, the CEO and CFO have concluded that our disclosure controls and procedures are effective to ensure that material information is recorded, processed, summarized and reported by management on a timely basis in order to comply with our disclosure obligations under the Securities Exchange Act of 1934, as amended, and the SEC rules thereunder.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting or in other factors during the fourth quarter of 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management’s Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining an adequate system of internal control over our financial reporting. In order to evaluate the effectiveness of internal control over financial reporting, as required by Section 404 of the Sarbanes-Oxley Act, management has conducted an assessment, including testing, using the criteria on *Internal Control—Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Our system of internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation and fair presentation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness of internal control over financial reporting to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Based on its assessment, management has concluded that we maintained effective internal control over financial reporting as of December 31, 2011, based on criteria in *Internal Control—Integrated Framework*, issued by the COSO. The effectiveness of the Company’s internal control over financial reporting as of December 31, 2011 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm as stated in its report which appears herein.

ITEM 9B Other Information

None.

PART III

ITEM 10. *Directors, Executive Officers and Corporate Governance*

There is hereby incorporated by reference the information to appear under the captions "Election of Directors", "Section 16(a) Beneficial Ownership Reporting Compliance" and "Corporate Governance" in our Proxy Statement, to be filed with the Securities and Exchange Commission within 120 days after December 31, 2011. See also "Executive Officers of the Registrant" appearing in Item 1 hereof.

ITEM 11. *Executive Compensation*

There is hereby incorporated by reference the information to appear under the caption "Executive Compensation" in our Proxy Statement to be filed with the Securities and Exchange Commission within 120 days after December 31, 2011.

ITEM 12. *Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters*

There is hereby incorporated by reference the information to appear under the caption "Security Ownership of Certain Beneficial Owners and Management" in our Proxy Statement, to be filed with the Securities and Exchange Commission within 120 days after December 31, 2011.

ITEM 13. *Certain Relationships and Related Transactions, and Director Independence*

There is hereby incorporated by reference the information to appear under the captions "Certain Relationships and Related Transactions" and "Corporate Governance" in our Proxy Statement, to be filed with the Securities and Exchange Commission within 120 days after December 31, 2011.

ITEM 14. *Principal Accountant Fees and Services.*

There is hereby incorporated by reference the information to appear under the caption "Relationship with Independent Auditors" in our Proxy Statement, to be filed with the Securities and Exchange Commission within 120 days after December 31, 2011.

PART IV

ITEM 15. Exhibits and Financial Statement Schedules

(a) Documents filed as part of this report:

(1) Financial Statements:

See "Index to Financial Statements and Financial Statement Schedule."

(2) Financial Statement Schedules:

See "Index to Financial Statements and Financial Statement Schedule."

(3) Exhibits:

2.1 Agreement and Plan of Merger dated as of May 16, 2010, among Universal Health Services, Inc., Psychiatric Solutions, Inc. and Olympus Acquisition Corp., previously filed as Exhibit 2.1 to the Registrant's Current Report on Form 8-K dated May 18, 2010, is incorporated herein by reference.

3.1 Registrant's Restated Certificate of Incorporation, and Amendments thereto, previously filed as Exhibit 3.1 to Registrant's Quarterly Report on Form 10-Q for the quarter ended June 30, 1997, are incorporated herein by reference.

3.2 Bylaws of Registrant, as amended, previously filed as Exhibit 3.2 to Registrant's Annual Report on Form 10-K for the year ended December 31, 1987, is incorporated herein by reference.

3.3 Amendment to the Registrant's Restated Certificate of Incorporation previously filed as Exhibit 3.1 to Registrant's Current Report on Form 8-K dated July 3, 2001 is incorporated herein by reference.

4.1 Form of Indenture dated January 20, 2000, between Universal Health Services, Inc. and J.P. Morgan Trust Company, National Association (as successor to Bank One Trust Company, N.A.), Trustee previously filed as Exhibit 4.1 to Registrant's Registration Statement on Form S-3/A (File No. 333-85781), dated February 1, 2000, is incorporated herein by reference.

4.2 Supplemental Indenture between Universal Health Services, Inc. and J.P. Morgan Trust Company, National Association, dated as of June 20, 2006, previously filed as Exhibit 4.2 to Registrant's Registration Statement on Form S-3 (File No. 333-135277) dated June 23, 2006, is incorporated herein by reference.

4.3 Form of Debt Security, previously filed as Exhibit 4.1 to Registrant's Registration Statement on Form S-3 (File No. 333-135277) dated June 23, 2006, is incorporated herein by reference.

4.4 Form of 7.125% Notes due 2016, previously filed as Exhibit 4.1 to Registrant's Current Report on Form 8-K dated June 30, 2006, is incorporated herein by reference.

4.5 Officer's Certificate relating to the 7.125% Notes due 2016, previously filed as Exhibit 4.1 to Registrant's Current Report on Form 8-K dated June 30, 2006, is incorporated herein by reference.

4.6 Form of Note, previously filed as Exhibit 4.1 to the Company's Current Report on Form 8-K dated May 30, 2008, is incorporated herein by reference.

4.7 Officers' Certificate, previously filed as Exhibit 4.2 to the Company's Current Report on Form 8-K dated May 30, 2008, is incorporated herein by reference.

4.8 Indenture, dated as of September 29, 2010, between UHS Escrow Corporation and Union Bank, N.A., as Trustee, previously filed as Exhibit 4.1 to the Registrant's Current Report on Form 8-K dated October 5, 2010, is incorporated herein by reference.

4.9 Form of 7% Senior Note due 2018, contained in Indenture filed as Exhibit 4.1 to the Registrant's Current Report on Form 8-K dated October 5, 2010, is incorporated herein by reference.

4.10 Supplemental Indenture, dated as of November 15, 2010, to the Indenture, dated September 29, 2010, between UHS Escrow Corporation and Union Bank, N.A., as Trustee, relating to the \$250,000,000 aggregate principal amount of the Escrow Issuer's 7% Senior Notes due 2018, previously filed as Exhibit 4.1 to the Registrant's Current Report on Form 8-K dated November 17, 2010, is incorporated herein by reference.

4.11 Second Supplemental Indenture, dated as of November 15, 2010, to the Indenture, dated January 20, 2000, between Universal Health Services, Inc. and the Bank of New York Mellon Trust company, N.A., as Trustee, previously filed as Exhibit 4.2 to the Registrant's Current Report on Form 8-K dated November 17, 2010, is incorporated herein by reference.

10.1* Employment Agreement, dated as of December 27, 2007, by and between Universal Health Services, Inc. and Alan B. Miller, previously filed as Exhibit 10.1 to Registrant's Current Report on Form 8-K dated December 27, 2007, is incorporated herein by reference.

10.2 Advisory Agreement, dated as of December 24, 1986, between Universal Health Realty Income Trust and UHS of Delaware, Inc., previously filed as Exhibit 10.2 to Registrant's Current Report on Form 8-K dated December 24, 1986, is incorporated herein by reference.

10.3 Agreement, dated December 9, 2011, to renew Advisory Agreement, dated as of December 24, 1986, between Universal Health Realty Income Trust and UHS of Delaware, Inc.

10.4 Form of Leases, including Form of Master Lease Document for Leases, between certain subsidiaries of the Registrant and Universal Health Realty Income Trust, filed as Exhibit 10.3 to Amendment No. 3 of the Registration Statement on Form S-11 and Form S-2 of Registrant and Universal Health Realty Income Trust (Registration No. 33-7872), is incorporated herein by reference.

10.5 Corporate Guaranty of Obligations of Subsidiaries Pursuant to Leases and Contract of Acquisition, dated December 24, 1986, issued by Registrant in favor of Universal Health Realty Income Trust, previously filed as Exhibit 10.5 to Registrant's Current Report on Form 8-K dated December 24, 1986, is incorporated herein by reference.

10.6* Universal Health Services, Inc. Executive Retirement Income Plan dated January 1, 1993, previously filed as Exhibit 10.7 to Registrant's Annual Report on Form 10-K for the year ended December 31, 2002, is incorporated herein by reference.
